ROLL CALL FOR PETITIONS FROM MEMBERS.

Advisory Committee's Hetch Hetchy Power Disposal Recommendations.

The following was presented, read by the Clerk and ordered referred to *Public Utilities and Finance Committees*:

San Francisco, Cal.

April 3, 1925.

Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

In response to the letter addressed to the Board of Supervisors the Citizens' Advisory Committee and myself, under date of March 30, 1925, by Acting Mayor Ralph McLeran, with regard to the disposal of Hetch Hetchy power, which letter I received upon my return home from the East, I called the Advisory Committee into conference with me last night.

As a result, the Advisory Committee submitted to me a report and a recommendation concerning the disposal of the power which is to be generated at Moccasin Creek.

I am enclosing herewith a copy

of these recommendations for the consideration of your Honorable Board.

Very sincerely yours,

(Signed) JAMES ROLPH, JR.,

Mayor.

April 7, 1925.

To the Honorable James Rolph, Jr., Mayor of San Francisco.

The Advisory Committee immediately upon its appointment on September, 1923, entered into a careful study of the terms, spirit, and intent of the Raker Act, under which San Francisco's Hetch Hetchy water and power rights were secured from the United States Government.

This study was made by the members of the Advisory Committee with the understanding that their first duty was to safeguard as fully as possible the rights of the people of San Francisco in their ownership of one of the largest and most important sources of electric energy in the country, and on which the City has spent many millions of dollars.

Within three weeks after its appointment the Advisory Committee informed the Mayor of its unanimous conclusion that there are two fundamental propositions which must be adhered to if San Francisco's ownership of Hetch Hetchy power is to remain clear; that any action taken by San Francisco for the disposal of Hetch Hetchy power which fails to conform to either of these propositions would seriously jeopardize the City's ownership of the power, and would lay the City's rights open to attack from many sides.

These two propositions are as follows:

First: That Hetch Hetchy power cannot legally be sold, wholesaled or leased to any person or private corporation for resale.

Second: That any plan providing for the sale of Hetch Hetchy power, through an agent, which would be in effect a subterfuge to permit the wholesaling of the power would be illegal.

The Advisory Committee is now pleased to note that its conclusions are fully upheld by the attorney

for the San Francisco Chamber of Commerce in an opinion rendered by him to that body on December 18, 1923, and just made public. Undoubtedly had this opinion been published at the time it was rendered it would have aided greatly in convincing the public of the illegality of wholesaling Hetch Hetchy power or of indirectly attempting to accomplish its sale by subterfuge through certain types of agency heretofore proposed to the City.

The Advisory Committee believes, in view of an emergency such as now exists, it is desirable to enter into some form of temporary agreement whereby the City's power could be transmitted and distributed over the lines of the local power companies. In order to avoid conflict with the Raker Act, however, and to preserve municipal control, such a transmission and distribution agreement would have to be charged with the following restrictions:

(A) It must be simply an emergency measure of temporary character.

(B) It must provide for its ready discontinuance, at the request of the City, upon the acquisition of a municipal distribution system.

(C) Those to whom Hetch Hetchy power is delivered must be listed as the City's customers during the life of the contract, and must pay the legally established rates for power received, and regular reports must be made to the City of the amount collected from each of these customers, and of the amount charged by the power company for such service rendered.

(D) All payments due the power company for service rendered must be paid in cash and not in electric power, as any electric power given as payment must in turn be resold by the power company. This would in effect be wholesaling the City's power through subterfuge and would thereby tend to place the power grant in jeopardy.

(E) All compensation paid to the power company must be at a fixed or definite rate, so that all increase or loss of income resulting from any cause shall be solely to the advantage or disadvantage of the City, as the actual owner of the electric energy.

(F) The City must have the right to have transmitted to it such Hetch Hetchy power as it requires for its municipal utilities, paying the power company a reasonable compensation for its transmission services.

The Advisory Committee now recommends that, if possible, an arrangement be made with the local power companies to transmit and

distribute the City's Hetch Hetchy power crop in accordance with the restrictions hereinabove set forth. In entering into such an arrangement it should, however, be stipulated that any agreement made shall not interfere in any manner with actions already taken by the Board of Supervisors for the acquisition by purchase or original construction of a municipal distribution system, including a transmission line to San Francisco.

Respectfully submitted,

(Signed) JAMES D. PHELAN,
Chairman.

(Signed) MATT I. SULLIVAN.

(Signed) HENRY BOYEN.

(Signed) CHAS. KENDRICK.

(Signed) FRANK J. MURASKY.

Motion.

Supervisor Shannon moved reference of the foregoing to the Public Utilities and Finance Committees. (Subsequently withdrawn.)

Supervisor Rossi offered the following resolution as a substitute under suspension of the rules:

Resolution No. — (New Series), as follows:

Whereas, the Citizens Advisory Committee appointed by the Mayor has recommended the temporary disposal of Hetch Hetchy power until such time as the people vote in favor of a bond issue for the acquisition of an existing distributing system or a distributing system of its own; and

Whereas, they have presented a proposed plan which in their opinion would be legal and in conformity with the provisions of the Raker Act; and

Whereas, it is deemed expedient that this Board of Supervisors render every assistance in order that said recommendations may be carried into effect; now, therefore, be it

Resolved, That this Board does hereby pledge itself to take all possible steps necessary to effectuate the said recommendations for the disposal of Hetch Hetchy power so that no loss may accrue to the taxpayers; be it further

Resolved, That, in order that the purpose of the aforesaid recommendations be speedily consummated, a committee of three, consisting of Mayor James Rolph, Jr., the chairman of the Public Utilities Committee of this Board, and the chairman of the Finance Committee of this Board, is hereby appointed to negotiate and report back to this Board for its action a contract with one or more of the power companies of San Francisco for the temporary disposition of said power in conformity with the provisions of

the Raker Act; said contract to be framed in such a way as to carry out all recommendations of the Advisory Committee; be it further

Resolved, That said committee of negotiation is also requested to make any other and further recommendations that it may have in the premises which will, so far as possible, enable such a contract to be carried into effect with the least possible delay; be it further

Resolved, That the report of the Advisory Committee be referred to the above-named committee.

Amendment.

Supervisor Shannon moved to amend as follows:

Paragraph three by inserting the words "endorse said plan and will" after the word "supervisors" in the second line.

In the second resolve insert the words "so far as possible."

Amendments accepted.

Resolution Adopted.

Whereupon, the foregoing resolution as amended and as follows was adopted:

Resolution No. 23890 (New Series), as follows:

Whereas, the Citizens Advisory Committee appointed by the Mayor has recommended the temporary disposal of Hetch Hetchy power until such time as the people vote in favor of a bond issue for the acquisition of an existing distributing system or a distributing system of its own; and

Whereas, they have presented a proposed plan which in their opinion would be legal and in conformity with the provisions of the Raker Act; and

Whereas, it is deemed expedient that this Board of Supervisors endorse said plan and will render every assistance in order that said recommendations may be carried into effect; now, therefore, be it

Resolved, That this Board does hereby pledge itself to take all possible steps necessary to effectuate the said recommendations for the disposal of Hetch Hetchy power so that no loss may accrue to the taxpayers. Be it

Further Resolved, That, in order that the purpose of the aforesaid recommendations be speedily consummated, a committee of three, consisting of Mayor James Rolph, Jr., the chairman of the Public Utilities Committee of this Board, and the chairman of the Finance Committee of this Board, is hereby appointed to negotiate and report back to this Board for its action a contract with one or more of the power companies of San Francisco

for the temporary disposition of said power in conformity with the provisions of the Raker Act; said contract to be framed in such a way as to carry out all recommendations of the Advisory Committee. Be it

Further Resolved, That said committee of negotiation is also requested to make any other and further recommendations that it may have in the premises which will enable such a contract to be carried into effect with the least possible delay. Be it

Further Resolved, That the report of the Advisory Committee be referred to the above-named committee.

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore — 16.

Absent — Supervisors Katz, McSheehy — 2.

Explanation of Vote.

Supervisor Colman: Mr. Chairman, I want to say that while I endorse the report of the Advisory Committee I do it with two qualifications; the first qualification is the feasibility of the plan as outlined by the committee, and the second qualification is that by that plan a maximum return be secured by the City.

Supervisor Harrelson: I am willing to vote in favor of endorsing the report of the Advisory Committee with the same reservations that have been voiced by Supervisor Colman. I question, however, the feasibility and practicability in the application of this report to a contract.

On motion of Supervisor McLeran the Clerk was instructed to send a copy of Mayor's communication, a copy of the Advisory Committee's report and a copy of the Rossi resolution to each of the Power Companies in San Francisco.

except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Action Deferred.

The following matter was, on motion, *laid over one week*:

SPECIAL ORDER—2 P. M.
Hamilton Street.

Resolution No. — (New Series), as follows:

Fixing Monday, March 30, 1925, at 2 p. m., for hearing the appeal of Herman Marcus, 50 Hamilton street, from the assessment issued for the improvement of Hamilton street between the northerly line of Felton street and the southerly line of Silver avenue, excepting the crossing of Hamilton street and Silliman street, by grading to official line and grade; by the construction of concrete curbs, and by the construction of an asphaltic concrete pavement on the roadway thereof.

PRESENTATION OF PROPOSALS.

* Dry Goods and Wearing Apparel.

Sealed proposals for furnishing dry goods and wearing apparel were received by the Board of Supervisors between 2 and 3 p. m. and referred to the Supplies Committee.

Action Deferred.

The following recommendation of Public Buildings and Lands Committee was, on motion, *laid over one week*:

Confirming the Sale of Land Owned by the City and County of San Francisco.

Bill No. 7044, Ordinance No. — (New Series), as follows:

Whereas, by Ordinance No. 6494 (New Series), approved January 28, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, subject to a lease bearing date July 1, 1909, and recorded in the office of the Recorder of the City and County of San Francisco July 10, 1909, in liber 28 of Leases, page 345, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction, to be held on Monday, March 2, 1925, and directed that notice of said sale be given for three weeks successively next before the sale, as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the

City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on which said sale would be made, as specified in Ordinance No. 6494 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors, in the City Hall, City and County of San Francisco, State of California, on Monday, March 2, 1925; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisalment constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisalment of said land and fixed the fair value thereof at the sum of \$54,600, and reported said appraisalment to the Board of Supervisors in writing; and

Whereas, Thereafter, and on the second day of March, 1925, at public auction, the Mayor sold said property to H. S. Young for the sum of \$64,000, and accepted from said H. S. Young a deposit in the amount of \$6,400, being ten per cent of the amount bid, and thereafter and at the next meeting of the Board of Supervisors, March 9, 1925, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder, and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 12th day of March, 1925, that at a meeting of the Board of Supervisors to be held on the 6th day of April, 1925, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 6th day of April, 1925, an offer of ten per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to such person, or order a new sale; and

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has not been obtained, and it appearing to the Board of Supervisors that the

sum of sixty-four thousand (\$64,000) dollars bid as aforesaid by H. S. Young is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to H. S. Young for the sum of sixty-four thousand (\$64,000) dollars is hereby ratified, approved and confirmed and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to H. S. Young all the right, title and interest of the City and County in and to the land sold as aforesaid, and more particularly described as follows, to-wit:

Commencing at the point of intersection of the northerly line of Broadway with the easterly line of Romolo place; running thence easterly along the said northerly line of Broadway 57 feet 6 inches; thence at a right angle northerly 137 feet 6 inches; thence at a right angle westerly 57 feet 6 inches to the easterly line of Romolo place, and thence at a right angle southerly and along said easterly line of Romolo place 137 feet 6 inches to the point of beginning.

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Final Passage.

The following matter heretofore passed for printing was taken up and *finally passed* by the following vote:

Duboce Tunnel.

Resolution No. 23856 (New Series), as follows:

In the matter of the construction and completion of a tunnel with approaches and appurtenances thereto and of the acquisition of lands and easements therefor, under the elevation whereon is situated Buena Vista Park, in the City and County of San Francisco, State of California, pursuant to the Resolution of Intention of the Board of Supervisors of said City and County in that behalf, being Resolution No. 20003 (New Series), approved June 3, 1922.

The Board of Public Works of the City and County of San Francisco, State of California, having on

the 18th day of September, 1922, filed with the Board of Supervisors of the City and County of San Francisco, a report in the above-entitled matter pursuant to Sections 6 and 45 of The Tunnel Procedure Ordinance of said City and County, containing and showing all the matters and things required to be therein contained, and shown by the provisions of said ordinance:

And the Clerk of the Board of Supervisors having upon the filing of said report, given notice of said filing and of the time within which all objections and protests thereto should be filed, by the publication of the notice required and provided for by Sections 7 and 46 of said ordinance, in the manner therein provided, and the time for filing said protests and objections to said report with the Board of Supervisors having expired, and certain protests to said report having been filed:

And said Board of Supervisors at their next regular meeting after the expiration of the time for filing protests having fixed the 31st day of October, 1922, at 2 o'clock p. m. of that day, in the Chambers or meeting room of said Board of Supervisors in the City Hall, in said City and County of San Francisco, as the time and place for the hearing of all protests filed with the Clerk of the Board of Supervisors to the said tunnel construction, or to the plans or specifications therefor, or to the extent of the assessment district defined in the said Resolution of Intention of the Board of Supervisors, or to the amount of damages or compensation determined by the Board of Public Works, and shown by its said report as the result of the said tunnel construction, or to the omission of said Board of Public Works to determine or award any damages with respect to any property claimed to be damaged as the result of said tunnel construction, or to the award of damages or compensation for the acquisitions shown by the said report of said Board of Public Works, or to any act, determination or proceeding of the Board of Supervisors or of the Board of Public Works in relation to such construction, or to any other matter in connection therewith as to which any person would have a legal right of protest, and for the hearing of any and all protests as to any and all of said matters or things;

And the Clerk of said Board of Supervisors having thereupon given notice of the time and place of said hearing by the publication of a notice thereof for at least five days

in the official newspaper, commencing October 18th, 1922;

And at said time and place so fixed as aforesaid, but before the hearing of any protests, there having been filed with the said Board of Supervisors affidavits showing that all of the publications and postings referred to in Section 9 of said "The Tunnel Procedure Ordinance" had been made as required by said ordinance, and the said Board of Supervisors before proceeding with the said hearing having caused to be entered in its minutes an order reciting that all of the publications and the postings in said section last aforesaid referred to had been made as required by said "The Tunnel Procedure Ordinance";

Thereupon the Board of Supervisors proceeded with the hearing of, and heard, all of the protests so filed to said report of said Board of Public Works as aforesaid, and all persons who desired to make any objection or protest thereto, and all persons who desired to be heard in opposition to any protest, or in opposition to any claim for damages, said hearing having been duly and regularly continued from time to time for that purpose, the last continuance aforesaid being to this 6th day of April, 1925, at which time said hearing was resumed and finished and concluded, and said Board of Supervisors having fully considered all of said protests and objections and all protests and objections made by any person, and all of the evidence introduced in support thereof, and in relation thereto, and the said hearing having been brought to a close, and all and singular all of said matters and things and the evidence introduced in relation thereto having been by this Board fully considered;

Resolved, That a full hearing of said report and of all objections and protests thereto and of all persons desiring to be heard in relation thereto has been had, and that all protests filed or made or objections made to said report have been fully considered:

Resolved, That the said report of the Board of Public Works be and the same is hereby modified in the following particulars, to-wit:

1. Upon the "Map" constituting Part III of said report appear two certain parcels of land numbered respectively 9165 and 9166, and upon and according to the "List" constituting Part IV of said report, estimated benefits to be assessed against said subdivision No. 9165 is the sum of \$512.13 and the estimated benefits to be assessed against said

subdivision No. 9166 is the sum of \$1276.96, making a total of \$1789.09.

It appears that said two subdivisions of land have been set apart for public roads and ought not to be assessed; said two proposed assessments are therefore stricken out.

2. In subdivision A of Part II of said report of the Board of Public Works the item "Contingencies \$59,000" is changed and modified so as to read "Contingencies \$57,210.91."

3. The total at the foot of subdivision A of said Part II is hereby changed and modified so as to read \$1,558,915.51.

4. In the recapitulation at the foot of said Part II the item "Incidental Expenses \$159,000" is changed and modified so as to read "Incidental Expenses \$157,210.91."

5. The total at the foot of said recapitulation is changed and modified so as to read \$1,651,988.51.

And it is directed and ordered that the Clerk of this Board make and enter each and every of said changes and modifications upon the face of said report of the Board of Public Works.

And it is resolved and ordered that, as so modified as aforesaid, the said report of the Board of Public Works be and the same is hereby confirmed.

And the Board of Supervisors having heard all the evidence and representations in the matter, on behalf of all persons protesting or objecting or desiring to be heard in relation to the said report, as well as evidence in support of said report, now ascertains, finds, determines and decides as follows, to-wit:

That all objections and protests to the said report, other than those hereinbefore specifically referred to as being allowed in whole or in part, should be, and the same are hereby, denied and overruled;

That with respect to each and every parcel or subdivision of land mentioned and referred to in said "List" comprising Part No. IV of said Report and therein referred to and identified by the corresponding number which said parcel of land bears and by which it is designated upon the map constituting Part No. III of said report, in respect to which no benefits are assessed or estimated, but in respect to which there appears in said Part No. III and in the column thereof headed "Benefits to be Assessed" the words "No Benefits," the Board of Supervisors, after hearing the evidence, finds, ascertains, determines and decides that each and every one of said parcels and subdivisions will

receive no benefits from said tunnel construction and should not be assessed for said work;

And from the evidence so taken at said hearing as aforesaid, the Board now finds, ascertains, determines and decides that the said assessment proposed by the said report of said Board of Public Works (as so modified as aforesaid) and as hereinafter levied, is in each and every case and in respect to each and every of the several parcels or subdivisions of land within the said district of land benefited by said tunnel construction estimated and made and levied in proportion to the benefits which said several and respective parcels or subdivisions will receive from said proposed work;

And that the benefits to accrue from such tunnel construction to the several parcels or subdivisions of land within the district of land benefited by said tunnel construction and described in said Resolution of Intention No. 20003 (New Series), and in said report of the Board of Public Works (as modified as aforesaid) is in each and every case, and in respect to each and every of said parcels or subdivisions of land, determined, ascertained and found to be equal to the amount stated by said Board of Public Works in said report (as so modified as aforesaid) and in each and every case, equal to the amount for which such parcel or subdivision is assessed, as hereinafter provided;

Resolved, That an assessment is hereby levied upon the lands and subdivisions of lands contained within the district of land benefited by said tunnel construction and described in said Resolution of Intention No. 20003 (New Series), and in said report to defray the damages, costs and expenses of such tunnel construction, and also to defray the damages and compensation allowed and awarded to the owner or owners or persons interested in the property affected by the acquisitions mentioned in said Resolution of Intention and provided for by said report;

And that the map constituting Part III of said report showing said district of land and also the subdivisions of the property therein, each of which subdivisions is given upon said map a separate number, and the list constituting Part IV of said report (as modified as aforesaid) referring to said subdivisions on said map by the respective numbers thereof and showing an estimate of the benefits which each of said subdivisions or parcels will receive from and by the construction of such tunnel, shall be and consti-

tute the assessment made and levied for defraying the damages, costs and expenses of such tunnel construction and for defraying the damages and compensation allowed and awarded to the owner or owners or persons interested in the property affected by said acquisitions.

And the amount of the benefits set opposite each parcel of land therein (as modified as aforesaid) shall constitute and is the amount of the assessment hereby levied thereon;

Be it Further Resolved, That the assessments made and levied as aforesaid for defraying the damages, costs and expenses of said tunnel construction and for defraying the damages and compensation allowed and awarded to the owner or owners or persons interested in the property affected by said acquisitions may be paid in annual installments as in said "The Tunnel Ordinance" provided, that is to say: Each of said assessments may be paid in ten (10) equal installments, with interest on deferred payments as in said ordinance and hereafter provided, upon condition that the owner or owners of such property shall make, execute and deliver the agreement provided for by Section 17 of said "The Tunnel Procedure Ordinance" and otherwise comply with all of the provisions and requirements of said ordinance in that behalf, the first of which installments shall be paid at the time of the application to the Tax Collector for such agreement. The second installment shall be paid on or before the last Monday in December in the next fiscal year and subsequent installments shall be paid annually thereafter, one each year on or before said last Monday of December therein, until all of said ten (10) installments shall have been paid; and the Board of Supervisors now specifies the term of years to be covered by said annual installments to be as hereinbefore set forth, and the rate of interest to be paid upon all unpaid installments or deferred payments, as provided in said "The Tunnel Procedure Ordinance," is to be seven per cent (7%) per annum.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Absent—Supervisors Katz, McSheehy—2.

Explanation of Vote.

Supervisor Schmitz explained his vote by saying that he had voted against it on passage to print last

week because he favored the Eureka Tunnel, provided a surface route could be secured, but there was no reason why he should not vote for it on final passage.

Final Passage.

The following, heretofore presented by Supervisor Welch and passed for printing, was taken up and *finally passed by the following vote:*

Intention to Form Golden Gate Bridge District.

Bill No. 7045, Ordinance No. 6569 (New Series), as follows:

Declaring the intention of the City and County of San Francisco to unite with other counties adopting like ordinances to form a bridge and highway district, and directing the circulation of a petition for that purpose, as provided by law, and providing for the publication of said ordinance.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The City and County of San Francisco hereby declares that it intends to unite with the following other counties adopting like ordinances, to-wit: The County of Marin, the County of Sonoma, the County of Mendocino, the County of Napa, the County of Lake, the County of Humboldt, and the County of Del Norte, or any or such portion of the same as may finally be included therein, to form a bridge and highway district to embrace contiguous territory under the provisions of Chapter 228 of the Statutes of 1923.

Section 2. It is hereby directed that a petition for the formation of said bridge and highway district be circulated in the City and County of San Francisco, in accordance with the provisions of said act of the Legislature of the State of California, hereinabove mentioned, by persons who shall be hereafter appointed by resolution of this Board, in accordance with the provisions of said act.

Section 3. This ordinance shall be forthwith published in The San Francisco Bulletin, a newspaper of general circulation, printed and published in the City and County of San Francisco, State of California, for the time and in the manner provided by law for the publication of ordinances of said City and County; the purpose of this section being to require the publication of this ordinance after its final passage in the same manner and for the same time provided in Section 13, Chapter I, Article II, of the Charter, for the

publication of proposed ordinances after their introduction.

Letter From Spring Valley Water Company in Re Money Borrowed to Pay Installments Under Resolution of Board of Supervisors.

The following was presented and read by the Clerk:

March 23, 1925.

To the Honorable Finance Committee, Board of Supervisors, City Hall, San Francisco.

Gentlemen:

I am enclosing herewith copy of letter from Spring Valley Water Company, dated March 23, 1925, in relation to the sum of \$215,500, amount received by this office under date of March 23, 1925—details as per said letter.

Respectfully yours,

(Signed)

JOHN E. McDOUGALD,

Treasurer, City and County of San Francisco.

Executive - Department, Spring Valley Water Company, 425 Mason street.

San Francisco, Cal.

March 23, 1925.

The Treasurer of the City and County of San Francisco, City Hall, San Francisco, California.

Dear Sir:

I am handing you herewith the check of the Spring Valley Water Co. payable to the Treasurer of the City and County of San Francisco in the sum of \$215,500. This payment is made in compliance with the resolution adopted by the Board of Supervisors of the City and County of San Francisco upon the 16th day of March, 1925, approved March 18, 1925, pursuant to the agreement of December 23, 1924, between the Board of Public Works of the City and County of San Francisco and this corporation, which resolution requests the Spring Valley Water Company to make immediate payment of the install-

ments to become due upon December 31, 1927, and June 30, 1928, under the terms of the agreement entered into between the Board of Public Works of the City and County of San Francisco and this corporation upon the 17th day of April, 1922.

The Spring Valley Water Company has borrowed moneys for the purpose of complying with the aforesaid resolution of the Board of Supervisors at an interest rate of $4\frac{1}{2}$ per cent per annum. Pursuant to the provisions of the agreement of December 23, 1924, the payments requested by the said resolution have been discounted at the rate of $4\frac{1}{2}$ per cent per annum; that is to say, the sum of \$125,000 to become due upon December 31, 1927, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from March 23, 1925, to December 31, 1927, and the sum of \$125,000 to become due upon June 30, 1928, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from March 23, 1925, to June 30, 1928. The net proceeds amount to the sum of \$215,500, for which the check of this corporation is enclosed. This payment is made in satisfaction of the amounts to become due and owing from this corporation to the City and County of San Francisco upon December 31, 1927, and June 30, 1928, under the terms of the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924.

Your attention is directed to clause in the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924, providing that installments paid by this corporation to the City and County of San Francisco prior to the due date thereof shall be discounted "at the rate which the Water Company pays as the interest rate on the money which it borrows in order to make such payment". These moneys have been borrowed by this corporation at the rate of $4\frac{1}{2}$ per cent per annum, as hereinabove stated, this favorable rate having been procured through the pledge of United States government bonds belonging to this corporation by way of collateral security for the repayment of the loan. It is my duty to state that this corporation may find it necessary or desirable to utilize these government bonds for some other purpose and that it does not obligate itself to continue the bonds in pledge for any particular period of time. Moreover, we can have no

assurance in any event that the loan can be renewed at the same interest rate which it now bears. Accordingly, it should be clearly understood that the discount heretofore made shall be subject to readjustment to the end that it shall be equal in amount to the amount of interest which this corporation shall have paid upon such borrowed moneys from the date of this payment until the due dates of the installments represented thereby. I would suggest that provision be made for the retention of a portion of these funds by the City and County of San Francisco in such manner that the readjustment of discount, if the same shall become necessary, may be accomplished with reasonable facility.

Please acknowledge receipt of this letter and the enclosed check for the purposes aforesaid.

Respectfully,

SPRING VALLEY WATER COMPANY.

By (Signed) S. P. EASTMAN,
President.

Spring Valley Water Company Requested to Pay \$250,000 Annual Installment.

Supervisor McLeran presented:
Resolution No. 23871 (New Series), as follows:

Resolved, That the Spring Valley Water Company be and it is hereby requested, under the provisions of Ordinance No. 6447 (New Series), approved December 22, 1924, to pay to the Treasurer of the City and County of San Francisco to the credit of the Water Bond Fund, Issue 1910, the annual installment for the period beginning July 1, 1928, and ending June 30, 1929, amounting to two hundred and fifty thousand dollars (\$250,000), provided to be paid to the City and County of San Francisco by Spring Valley Water Company under the terms of the agreement between the Board of Public Works and the City and County of San Francisco and said Spring Valley Water Company recited in said Ordinance No. 6447 (New Series).

Approved Offer of E. Luella Curtis to Sell Land Required for Extension of Market Street.

Supervisor McLeran presented:

Resolution No. 23872 (New Series), as follows:

Whereas, the owner of the following described land sought to be acquired by the City and County of San Francisco for the extension of Market street has offered to convey the property desired by the City and County of San Francisco for the sum set forth opposite her name, viz.:

E. Luella Curtis, \$6,000—Commencing at a point formed by the intersection of the westerly line of Market street (formerly Falcon avenue) with the northerly line of Moss avenue, and running thence northeasterly along said westerly line of Market street 25 feet; thence north 75 degrees 41 minutes west 98 feet 6 $\frac{1}{2}$ inches; thence south 53 degrees 36 minutes west 45 feet 9 inches to the northerly line of Moss avenue, and thence easterly along said northerly line of Moss avenue 100 feet to the northwesterly corner of Market street and Moss avenue and the point of beginning, being otherwise known and designated as Lot Number 13 in Block Number 4, Mountain Spring Property, as delineated upon a certain map entitled "Subdivision Number 1 of Mountain Spring Property," recorded in the office of the County Recorder of the City and County of San Francisco, State of California, also being part of Lot 12, Block 4 of Market Street Homestead Association, filed October 26, 1868, in the office of the County Recorder of the City and County of San Francisco, State of California. (As per written offer on file.)

Whereas, the City Attorney has recommended the acceptance of the said offer and the acquisition of the property owned by said person and offered to the City and County of San Francisco for the sum set forth, which said price is in accordance with the City's appraisement of the property; now, therefore, be it

Resolved, That the said offer of sale be accepted, and the City Attorney is hereby authorized and directed to examine the title of said property, if the same is found in satisfactory condition, to accept, in behalf of the City and County of San Francisco, deed conveying title thereto, and file the same for record with a copy of this resolution attached thereto as evidence of acceptance by the City and County of San Francisco, upon payment of the agreed purchase price.

Section 2. This ordinance shall take effect immediately.

Hetch Hetchy Auto Stage Line Endorsed.

Supervisor Shannon presented: Resolution No. 23893 (New Series), as follows:

Whereas, it appears to this Board that the Star Auto Stage Association filed on September 14, 1920, its application for operative rights under the jurisdiction of the Railroad Commission for the transportation of persons, baggage and express between Oakland and Stockton via Martinez, and between Byron Junction and Tracy, and also that on July 19, 1920, the Western Motor Transport Company filed its application with said Railroad Commission for operative rights for the transportation of persons, baggage and express between Martinez and Stockton via Brentwood, and between Brentwood and Tracy, and each of these applications have been heard and submitted but not yet decided; and

Whereas, it further appears that the California Transit Company is the successor in interest of the above mentioned applicants and now operates automobile stage lines between Oakland and Martinez, Oakland and Vallejo, Vallejo and Sacramento, Oakland and Stockton via Tracy, Oakland and Merced via Tracy, as well as many other operative rights and is about to acquire the operative rights of the Valley Transit Company operating between Merced and Bakersfield; and

Whereas, it further appears that the said California Transit Company is now applying to said Railroad Commission for a permit to extend all of its operative rights in each instance where Oakland is a terminal, to San Francisco, not as a separate operative right, but unified and consolidated with all other operative rights whereby persons, baggage and express are conveyed to or from Oakland; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco approve and endorse the above mentioned application

and recommend and request of the Railroad Commission of the State of California its favorable consideration of each of said applications whereby transportation service may be furnished direct from San Francisco through Oakland to the points above mentioned.

Adopted under suspension of the rules by the following vote:

Ayes -- Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore --16.

Absent--Supervisors Katz, McSheehy--2.

For each cart or other vehicle drawn by more than two horses, or each truck or wagon capable of transporting more than one ton, ten (10) dollars per annum.

The metallic plate issued as a part of the license must be of such design, color and material as the Tax Collector shall prescribe and each plate must clearly show the year for which it is issued. Provided, that it shall be in quality of material and workmanship equal to that of the license plate issued by the State Motor Vehicle Department; that in size each plate shall be ten inches by three inches and, when used on motor-drawn vehicles, shall be so perforated as to make it attachable to the State Motor Vehicle license plate fastened at the front of each motor-drawn vehicle. When used on horse-drawn vehicles it shall be perforated so as to permit of attachment in a conspicuous place on the right-hand side of each horse-drawn vehicle. Provided, further, that all letters stamped or printed upon the face of the plate shall be at least $\frac{5}{8}$ x $\frac{3}{4}$ inches and all numbers $\frac{8}{8}$ x $\frac{3}{4}$ inches in size.

It shall be unlawful for any owner of a vehicle subject to this license to permit an expired vehicle license plate to remain on any vehicle after December 31st of each calendar year. No substitute for this license shall be permitted. It shall be unlawful to affix license plates on any other position on a vehicle than that authorized by this ordinance.

It shall be unlawful for the owner or person having charge or control of any scavenger vehicle as above

described to paint thereon or affix thereon or cause or permit to be used or painted or affixed thereon any number or number plate except the one assigned and issued by the Tax Collector and the one issued as a permit by the Board of Health.

The owner of each vehicle used or intended to be used for the purposes hereinabove specified shall within a period of thirty (30) days from and after the passage of this ordinance, obtain a permit as required from the Board of Health, and shall, within such period, have the words "Scavenger Vehicle" painted on both sides of such vehicle in letters not less than four (4) inches in height. This permit shall be renewed annually between the 1st day of January and the 31st day of January of each succeeding year.

When any person, having a license under the provisions of this section, shall violate any sanitary law, ordinance or rule of the Board of Health, relative to the collection, removal or disposition of the materials or substance hereinabove enumerated, the permit and the license so issued shall both stand revoked; and such person, before again resuming business, must make application as a new applicant and procure a new license and permit.

All licenses issued under the provisions of this section shall date from the first day of January of each year, and shall be issued for one year from the aforesaid date.

Confirming the Sale of Land Owned by the City and County of San Francisco.

Bill No. 7044, Ordinance No. 6587 (New Series), as follows:

Whereas, by Ordinance No. 6494 (New Series), approved January 28, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, subject to a lease bearing date July 1, 1909, and recorded in the office of the Recorder of the City and County of San Francisco July 10, 1909, in liber 28 of Leases, page 345, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction, to be held on Monday, March 2, 1925, and directed that notice of said sale be given for three weeks successively next before the sale, as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on which said sale would be made, as specified in Ordinance No. 6494 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors, in the City Hall, City and County of San Fran-

cisco, State of California, on Monday, March 2, 1925; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisal constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisal of said land and fixed the fair value thereof at the sum of \$54,600, and reported said appraisal to the Board of Supervisors in writing; and

Whereas, Thereafter, and on the second day of March, 1925, at public auction, the Mayor sold said property to H. S. Young for the sum of \$64,000, and accepted from said H. S. Young a deposit in the amount of \$6,400, being ten per cent of the amount bid, and thereafter and at the next meeting of the Board of Supervisors, March 9, 1925, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder, and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 12th day of March, 1925, that at a meeting of the Board of Supervisors to be held on the 6th day of April, 1925, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 6th day of April, 1925, an offer of ten per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to such person, or order a new sale; and

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has not been obtained, and it appearing to the Board of Supervisors that the sum of sixty-four thousand (\$64,000) dollars bid as aforesaid by H. S. Young is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to H. S. Young for the sum of sixty-

four thousand (\$64,000) dollars is hereby ratified, approved and confirmed and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to H. S. Young all the right, title and interest of the City and County in and to the land sold as aforesaid, and more particularly described as follows, to-wit:

Commencing at the point of intersection of the northerly line of Broadway with the easterly line of Romolo place; running thence easterly along the said northerly line of Broadway 57 feet 6 inches; thence at a right angle northerly 137 feet 6 inches; thence at a right angle westerly 57 feet 6 inches to the easterly line of Romolo place, and thence at a right angle southerly and along said easterly line of Romolo place 137 feet 6 inches to the point of beginning.

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Granting permission, revocable at will of the Board of Supervisors, to the Western Pacific Railroad Company, its successors or assigns, to construct, maintain and operate a spur track across Army street and Missouri street, as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission, revocable at will of the Board of Supervisors, is hereby granted to the Western Pacific Railroad Company, its successors or assigns, to construct, maintain and operate a spur track as follows:

Beginning at a point of switch in the center line of track of the Western Pacific Railroad Company (formerly known as the "Ocean Shore Railroad"), distant easterly thereon approximately 140.0 feet from the westerly line of Mississippi street extended southerly; thence in a northwesterly direction with switch and turn-out to the

right approximately 70.0 feet; thence in a northwesterly direction approximately 270.0 feet to the beginning of curve, crossing the southerly line of Army street approximately 100.00 feet westerly of said westerly line of Mississippi street extended southerly; thence continuing northwesterly on a curve to the right approximately 155.0 feet to a point, crossing the northerly line of said Army street approximately 148.0 feet easterly of the easterly line of Missouri street; thence continuing in a northwesterly direction on a curve to the left approximately 320.00 feet to a point of junction with the existing track, crossing the easterly line of Missouri street approximately 120.0 feet northerly of the northerly line of said Army street, also crossing the westerly line of said Missouri street approximately 143.0 feet northerly of the northerly line of said Army street.

Said permission is granted subject to provisions of Ordinance No. 69 (New Series) of the Board of Supervisors, approved October 12, 1906, and the provisions and conditions of Section 8 thereof are hereby specifically contained in the permit hereby granted and shall be construed as a part hereof as complete as though the same were written in this ordinance.

Provided, that said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office, and that any and all expenses connected with the installation of the track, restoration of the pavement and any additional requirements for the surface drainage be paid for by the Western Pacific Railroad Company.

Provided, that girder rail be used within the property lines of the streets; that all granite curbs removed be hauled to the Corporation Yard; that the concrete wall where cut be trimmed off and finished in a workmanlike manner; that two catchbasins be constructed on Army street and connected with the existing sewer to intercept drainage; that all pavement disturbed be restored; all work to be done under the direction and to the satisfaction of the Board of Public Works.

Provided, that the Western Pacific Railroad Company shall erect and maintain all-night lighted arc lamps, to be placed where directed by the Lighting Committee of the Board of Supervisors.

Section 2. This ordinance shall take effect immediately.

Award of Contract, Rubber Water Hose.

Supervisor Rossi presented:

Resolution No. ——— (New Series), as follows:

Resolved, That award of contract for furnishing rubber water hose be hereby made to Goodyear Rubber Company on bid submitted February 9, 1925 (Proposal No. 87), as follows, viz.: Item Nos. 1 to 8, inclusive, size $\frac{3}{4}$ -inch, at $9\frac{1}{2}$ cents per foot; item Nos. 9 and 10, size 1-inch, at $17\frac{1}{2}$ cents per foot.

Resolved, That all other bids submitted on above stated items be rejected.

Further Resolved, That all bids submitted on Item No. 11 for 10,000 feet 4-ply 1-inch hose be rejected.

Note.—All above awards are made to the lowest bidder except when award is made in consideration of deliveries or on account of the quality offered as determined by such tests as required or recommended by the Purchaser of Supplies.

Adopted by the following vote:

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Hayden, Katz, McGregor, Morgan, Robb, Roncovi-
vieri, Rossi, Schmitz, Shannon, Welch, Wetmore—15.

His Honor Mayor Rolph being absent Supervisor Morgan was called to the chair.

APPROVAL OF JOURNAL.

The Journal of Proceedings of February 24, 1925, was approved.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Leave of Absence, Purchaser of Supplies.

The following was presented and read by the Clerk:

San Francisco, Cal.,
April 23, 1925.

To the Hon. Board of Supervisors, City Hall, San Francisco, Calif.
Gentlemen:

Application has been made to me by Mr. Leonard S. Leavy, Purchaser of Supplies, for a leave of absence, with permission to absent himself from the State of California for a period of forty days, commencing May 2, 1925.

Will you please concur with me in granting this leave of absence?

Respectfully yours,

JAMES ROLPH, JR.,
Mayor.

Whereupon, the following was presented and adopted:

Resolution No. 23952 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, Purchaser of Supplies Leonard S. Leavy is hereby granted a leave of absence for forty days, commencing May 2, 1925, with permission to leave the State.

Ayes—Supervisors Badaracco, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Absent—Supervisors Bath, McSheehy—2.

Leave of Absence, Rev. D. O. Crowley, Member of Playground Commission.

The following was presented and read by the Clerk:

San Francisco, Cal.,
April 24, 1925.

Honorable Board of Supervisors, City Hall, San Francisco.

Gentlemen:

Application has been made to me by Reverend D. O. Crowley, member of the Playground Commission, for a sixty-day extension of his leave of absence, with permission to leave the State of California, dating from May the second.

I hereby request that you concur with me in granting this leave of absence.

Yours very truly,

JAMES ROLPH, JR.,
Mayor.

Whereupon, the following resolution was presented and adopted:

Resolution No. 23948 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, Rev. D. O. Crowley, member of the Playground Commission, is hereby granted a sixty day extension of his leave of absence, commencing May 2, 1925, with permission to leave the State.

Ayes—Supervisors Badaracco, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Absent—Supervisors Bath, McSheehy—2.

Leave of Absence, Chief of Police O'Brien.

The following was presented and read by the Clerk:

San Francisco, Cal.,
April 25, 1925.

Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

I am in receipt of a communica-

tion from the Honorable Richard E. Enright, Police Commissioner of New York City, and president of the International Police Conference, urging that San Francisco be represented at the forthcoming International Police Conference, which is to take place in New York City from May 12 to 16, 1925.

In my opinion this City should be represented at the forthcoming conference, where police officials from all over the civilized world meet for an exchange of up-to-date ideas in police matters.

I would therefore respectfully ask that your Honorable Board concur with me in granting leave of absence to Chief D. J. O'Brien to attend this conference as San Francisco's representative, and that your Honorable Board appropriate a sum sufficient to cover his expenses.

San Francisco is already in the forefront among cities of the world in police management, and I am sure that Chief O'Brien's attendance at this conference will result in great benefits to our department.

Very sincerely yours,

JAMES ROLPH, JR.,
Mayor.

Whereupon, the following resolution was presented and adopted by the following vote:

Resolution No. 23949 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, D. J. O'Brien, Chief of Police, is hereby granted a leave of absence for a period of thirty days, commencing May 5, 1925, with permission to leave the State.

Ayes—Supervisors Badaracco, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Telegrams, Reno Exposition.

The following was read by the Clerk:

Received at 405 Golden Gate ave., Sutter 4321 Local 113. 99SF KH 79 Blue 4 Ex.

Carson, Nev. 1125A Apr. 27, 1925. Board of Supervisors, City Hall, San Francisco, Calif.:

In absence of Governor Scrugham and as member of State Exposition Commission I strongly urge your body to act favorable on request of F. F. Small of Reno for your active participation in the Transcontinental Highways Expositions, Reno, 1926. California has voted a substantial appropriation but we would appreciate in addition your individual participation on behalf City and County of San Francisco. Your

encouragement at this time will be of great assistance.

M. J. SULLIVAN,
Lieut. and Acting Governor.
Referred to the Publicity and Welfare Committee.

Reno, Nev., Apr. 26, 1925.
Chairman Board of Supervisors, San Francisco, Calif.:

Nevada's Transcontinental Highways Exposition will seem to have been staged in vain if the great city of San Francisco does not participate in this western celebration. The City of Reno and the State of Nevada urge you to accept our invitation to participate in this enterprise.

Chairman Board of Supervisors, San Francisco, Calif.:

San Francisco and Nevada have much in common, therefore we urge you to accept our invitation and participate with us in the successful staging of Nevada's Transcontinental Highways Exposition in Reno in 1926.

JOHN C. DURHAM,
Chairman Washoe County Commissioners.

Referred to Publicity and Welfare Committee.

Exposition at Reno.

Mr. Lumsford of Reno, Nevada, was granted the privilege of the floor and addressed the Board in reference to the celebration to be held in Reno next year in commemoration of the completion of the Lincoln Highway from Salt Lake City to San Francisco.

He stated that the State of Nevada has provided a bond issue of \$250,000 and the bonds have been sold to provide a fund for the erection of a permanent building and the maintenance, selection and gathering of the Nevada exhibit.

Washoe County, Nevada, Board of Supervisors, has provided the sum of \$150,000.

Seventeen of the counties of Nevada have levied taxes of 6 cents on a hundred dollars, which is to bring the total of the amount up to \$550,000.

Mr. Lumsford was assured by Supervisors McLeran and Schmitz that San Francisco would do its part in the celebration.

Motion.

Supervisor McLeran, seconded by Supervisor Shannon, moved that the Public Welfare Committee of

the Board be authorized to make the necessary arrangements to see that a proper representation by San Francisco is made at the Exposition.

Improvement of Third Street.

Supervisor Hickey of San Mateo County asked that Third street be paved from Army street to Townsend street.

He says it is very important that this work should be done, in as much as it forms the connection between the Peninsula and the main part of San Francisco.

Supervisor Harrelson stated that he is prepared to recommend to the Finance Committee that Third street be improved from Berry street to the Beach, then begin again at the crossing and improve continuously to Third and Eighteenth. This would involve an expenditure of about \$80,000.

Boy Mayor Introduced.

Mayor Rolph introduced the Boy Mayor, David Jamison McDaniel, to the Board.

He said he knew two or three of the members of the Board of Supervisors and if the Boy Supervisors give the county one day as well as they do he would consider they were mighty fine representatives.

Musician From Norway Visits Board.

Mme. Signe Lund, of Oslo, Norway, was introduced by Supervisor Morgan.

She is a composer of music, but at the present time is particularly devoting her time to talks on Norway and its women.

She will speak on next Friday afternoon on the women of Norway at a tea to be given at the Fairmont Hotel at 2 o'clock under the auspices of the California National Women's Party.

Stage Line in Contra Costa County.

A communication was received from the officials of Contra Costa County asking that the Board of Supervisors rescind its approval of the operation of a stage line through Contra Costa County.

Mayor Authorized to Contract for Chorus Director.

Bill No. 7095, Ordinance No. — (New Series), as follows:

Authorizing the Mayor to enter into a contract with Dr. Hans Leschke for the period of one year to perform services as Municipal Chorus Director for the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Mayor is hereby authorized to enter into a contract

with Dr. Hans Leschke to organize and conduct a Municipal Chorus and to receive as a compensation for one year from July 1, 1925, to July 1, 1926, the sum of \$5,000, payable in monthly installments of \$416.65.

Section 2. It is hereby declared that the services to be rendered by said Dr. Hans Leschke are of a temporary character and require high technical skill, and that the position occupied by him shall not be subject to the provisions of Article XIII of the Charter.

Section 3. This ordinance shall take effect immediately.

Supervisor Hayden stated that in view of the success of the chorus and the reception Mr. Leschke received during the Spring Festival, not only from the audience but from the members of the chorus itself, that the Auditorium Committee made this recommendation so that the chorus may be a permanent institution and be ready to participate at various times during the year.

Supervisor McGregor said he thought that the Messiah should always be given at the Christmas season and that St. Paul Elijah and other Oratorios might be rendered at other times during the year.

The symphony concerts are wonderful, but there is an inspiration in the Oratorios that is just a little different and equally grand and uplifting.

Other members of the Board congratulated Supervisor Hayden on the success of his previous work along the musical line and concurred in the present recommendation.

Passed for Printing.

Whereupon, the foregoing bill was passed for printing.

City Engineer's Estimate of Cost of Transmission Line From Newark and Step-Down Station in San Francisco.

The following was presented, read by the Clerk and ordered printed in the Journal:

April 27, 1925.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

By Resolution No. 23910, passed on April 30, 1925, your Honorable Board requested that the City Engineer supply you with the estimated cost of a transmission line from Newark to San Francisco, and the cost of a step-down station at San Francisco reducing the voltage employed on the transmission line to a voltage which would be capable

of being handled through the city streets to substations.

In accordance with my formal report dated April 11, 1925, the cost of a single circuit from Newark to San Francisco would be \$821,000. We should, however, put in two circuits in order to secure a reliable service. The net cost of these two circuits, making allowance for conductor now on contract, would be \$1,035,500.

On June 20, 1924, in my formal estimate of the cost of an electric distribution system in San Francisco, I indicated on page 2 that the cost of a step-down station at the end of the transmission line, reducing the transmission voltage to a lower voltage, and cables and conduits for transmitting power at this lower voltage through the streets of San Francisco to substations would be \$3,500,000 for the maximum capacity plant, and \$3,000,000 for an initial installation. Included in each of these two sums was the item of \$800,000 for substation and step-down equipment at the end of the transmission line.

This same \$800,000 may be considered as the cost of a step-down station for lowering the voltage of the main transmission line to a voltage which can be transmitted to substations.

The installation of the step-down station will not make available power for distribution in San Francisco. The power will be of a voltage unsuited for distribution. In order to make it possible to distribute this power, it will be necessary to transmit it to substations where it can be reduced in voltage and changed in form in order to be suitable for general distribution and street railways or street lighting.

It will require from 18 months to two years in order to build and equip a step-down station. The apparatus required is largely special and will have to be constructed, requiring at least one year after the order has been placed before the material will be delivered.

Yours respectfully,

M. M. O'SHAUGHNESSY,
City Engineer.

Opinion of City Attorney.

Subject: Power of City and County to enter bridge and highway district and effect on bond limitation.

The following was presented, read by the Clerk and ordered printed in Journal:

April 25, 1925.

Board of Supervisors, San Francisco.

Gentlemen:

I am in receipt of a copy of your

Resolution No. 23857 (New Series), which reads as follows:

"Resolved, That the City Attorney be and he is hereby requested to advise the Board of Supervisors whether the City and County can join the proposed bridge and highway district planned for the purpose of constructing a bridge across the Golden Gate and subject assessed property within the City and County to the lien of district bonds which may be voted by such district, without an amendment to our Charter specifically authorizing the same; also, whether, if such bonds can be and are voted, the amount issued and sold thereunder will affect our bond limit capacity as fixed in the Charter."

Opinion.

There are certain fundamental principles in connection with districts of the general character of the bridge and highway district proposed to be created, which have become settled in this State. A statement of these principles will serve to clarify the discussion of the questions involved in the above quoted resolution.

1. It is the settled law in California that districts for specific public improvements, which are not strictly municipal in character, may be created by the Legislature of the State by special act, or that their creation may be authorized by a general law providing a detailed scheme for their organization. Such districts are regarded by the courts as governmental agencies of the State, created by the State for the purpose of facilitating the carrying out of some public project which the State itself might undertake if it saw fit, but which for reasons of convenience the Legislature considers it more advisable to delegate to an agency created for that purpose. (Peo. v. Levee Dist. No. 6, 131 Cal. 30; Peo. v. Reclamation Dist. No. 551, 117 Cal. 114; Reclamation Dist. No. 70 v. Sherman, 11 Cal. App. 399; Peo. v. Sacramento Drainage Dist., 155 Cal. 373; Pasadena Park Imp. Co. v. Lelande, 175 Cal. 511.)

2. It is equally well settled that such a district may include all or a part of the territory of one or more municipal corporations, providing only that the purpose for which the district is organized is not a purely municipal affair. (Modesto Irrigation Dist. v. Tregea, 88 Cal. 334; In re Madera Irrigation Dist., 92 Cal. 296, 342; La Mesa Homes Co. v. La Mesa Irrigation Dist., 173 Cal. 121; Pasadena Park

Imp. Co. v. Leland, 175 Cal. 511; Pixley v. Saunders, 168 Cal. 152.)

3. That such a district may issue bonds was expressly held in the cases of Modesto Irrigation District v. Tregoe, and In re Madera Irrigation Dist., cited supra.

4. In the exercise of its power to create such districts the Legislature may delegate the initiatory proceedings to such officers or persons as it sees fit. (Imperial Water Co. v. Supervisors, 162 Cal. 14.)

In the latter case, at p. 25, the court used this language:

"The Legislature is the sole judge of the propriety of the formation of such districts. The question of procedure is a matter of legislative policy. Conceding that a notice and hearing are required, under the authorities, it is nevertheless clear that the Legislature may authorize the initiatory proposal to be made by such persons as it sees fit."

5. Such a district when once formed is a separate political entity and any bonds which it may issue are in no sense an indebtedness of any other political subdivision or entity which may lie partly or wholly within its boundaries. (In re Madera Irrigation Dist., supra; Bliss v. Hamilton, 171 Cal. 123.)

6. Taxes levied and collected by such a district on property located in a municipal corporation included within the territory of such district are in no sense municipal taxes but are taxes for the district as a whole. (Henshaw v. Foster, 176 Cal. 507.)

These settled principles are sufficient to dispose of the two questions embodied in your resolution.

(A) Can the City and County join the proposed bridge and highway district and subject the assessed property in the City and County to the lien of district bonds which may be voted by such district without an amendment to the Charter?

The principles above stated clearly necessitate an affirmative answer. Under (1) above, it is settled that the State Legislature can create such a district either directly by special act, or indirectly by a general law authorizing the creation of such districts and providing the procedure therefor.

Such a district may include the territory of one or more municipal corporations, providing only that the purpose of the district is not purely a municipal affair. I am satisfied that the construction of a bridge across the Golden Gate is more than a municipal affair, as it affects not only San Francisco but all of the territory which will be served thereby. In this connection

our Supreme Court said in Pasadena Park Imp. Co. v. Leland, 175 Cal., at p. 515, in speaking of a protection or flood control district which included a portion of the City of Pasadena:

"It is quite apparent that a municipality, and a municipality alone, may be injuriously affected by the unrestrained floods of an unnavigable stream. Upon the other hand, the injurious effects may reach far beyond the boundaries of the municipality and even of the county, and in the latter class of cases, it is more than a municipal affair. It is an affair in which the State becomes interested, and it does no violence to the reserved rights of municipalities to say that in such cases the State directly or through mandatories may take steps to correct the evil, and in so doing compel lands within municipalities to bear their due proportion of the burden."

Having determined to authorize the creation of such districts the State may delegate the initiatory proceedings to such officers or persons as it sees fit, and therefore may delegate the initiation of proceedings to the boards of supervisors of the various counties, or in the alternative to the voters of such counties through an initiative ordinance, as has been done in this case.

Once the district is formed, it becomes a separate political entity fixing its own tax rate and issuing its own bonds, which are the indebtedness of the bridge and highway district and in no sense will constitute any indebtedness of the City and County of San Francisco.

In other words the authority to form the district is derived directly from the Legislature, and the fact that the Legislature has delegated the initiation of proceedings therefor to the various counties, including this City and County, as units through the medium of their boards of supervisors does not subject the supervisors in so far as those proceedings are concerned to any restriction or limitation contained in the Charter. The Charter is concerned with municipal and county affairs only, and in a matter of more than municipal and county interest such as this, the will of the Legislature, within constitutional limits, is supreme.

The answer to this question is, therefore, that the City and County can join this district without an amendment to the Charter.

(B) If bonds are issued by the proposed district, will they affect

our bond limit capacity as fixed by the Charter?

Under (5) above, any bonds issued will be the bonds of the district, will constitute an indebtedness of the district, and will not be an indebtedness of the City and County.

In *Bliss v. Hamilton*, 171 Cal., at p. 133, the Supreme Court said:

"The bonds provided for by the County Irrigation District Act of June 13, 1913, are in no sense an indebtedness of the county in which the irrigation district is situated, or of any of the subdivisions or districts in said county which are specified in the constitutional provision. The Legislature has simply provided for the creation of a taxing district for the purpose of paying the cost of the construction and maintenance of an improvement that will be for the special benefit of the inhabitants of that district. They have full power in that regard except in so far as that power is limited by provisions of our state and federal constitutions."

The limit of bonded indebtedness fixed by Section 9, Article XII of our Charter is a limit upon the bonded indebtedness of the City and County as a separate political entity. The bonded debt of the bridge and highway district would not be an indebtedness of the City and County but of the district as a separate entity, and therefore would form no part of the bonded indebtedness limited by Section 9, Article XII.

This conclusion is strengthened by the general principle well settled in other jurisdictions, which is thus stated in *McQuillin on Municipal Corporations*, Vol. V, Sec. 2214:

"Where two or more corporations or political bodies are wholly or partly coincident in territory, they are nevertheless regarded as separate bodies for the purposes of constitutional debt limitation, unless the contrary is expressed in the constitution. For example, in calculating the indebtedness of a county, the indebtedness of a city or town within its borders is not to be considered; and in ascertaining the indebtedness of a city or town, the debt of an independent school district wholly or partially in the municipal area is to be excluded. So a bonded debt of a county is not part of the bonded debt of a city situated within such county. Likewise, the debt of a water district is not the debt of the city."

The answer to the second question is therefore that the bond

limit capacity as fixed by our Charter would not be effected by the issuance and sale of bonds by the proposed bridge and highway district.

Respectfully,
GEORGE LULL,
City Attorney.

Report of Purchasing Agent.

Communication, from Supplies Department, in answer to Supervisor McSheehy's resolution for itemized statement showing how savings of Supplies Department are reflected in the funds of the various departments.

Opinion of City Attorney Relative to Certain Transfers of Accounts, Hetch Hetchy Power Plant.

The following was presented, read and ordered spread in the *Journal*:

April 25, 1925.

Honorable Board of Supervisors,
City and County of San Francisco,
City Hall.

Members:

I am in receipt of the request of certain of your members, transmitted through the Clerk, for an opinion on the following points:

(1) Legality of transferring equipment from Moccasin Division project to Tunnel project at book value.

(2) Can the \$265,670 spent in the Foothill Division for Tuolumne crossing, constructed on account of Don Pedro Dam, be transferred to the 1910 Bond Issue?

(3) Can the \$210,310 that was used in purchasing the San Joaquin Valley rights of way be so transferred?

(4) Can the money or any portion thereof used for the construction of the Bay Division be so transferred for the same purposes?

Opinion.

All of the foregoing inquiries involve the question as to whether the proceeds of the 1924 Bond Issue can be charged with the cost of various items paid for out of the 1910 Bond Issue.

Article XII, Section 10 of the Charter requires that the proceeds of any sale of bonds "shall be applied exclusively to the purposes and objects mentioned in the ordinance authorizing their issue until such objects are fully accomplished."

In order to answer the inquiries, therefore, it is necessary to examine the proposition which was submitted to the voters at the time the 1924 Bond Issue was authorized, and ascertain exactly what were the purposes and objects mentioned in the ordinance authorizing the

issue of said bonds. This proposition is set forth in Ordinance No. 6396 (New Series), reciting the results of the election and authorizing the issuance of the bonds, which reads as follows:

"A series of aqueduct tunnels to be constructed in the Sierra Nevada Mountains in Tuolumne County, State of California, and in the Coast Range Mountains in San Joaquin and Alameda counties, State of California, and the rights of way, structures and appurtenances incidental thereto, to be used as a part of the Lake Eleanor-Tuolumne system."

From the foregoing language it is apparent that if any of the suggested charges are to be made out of the 1924 Bond Issue, the items must be comprised within the authorization "for aqueduct tunnels to be constructed in the Sierra Nevada Mountains in Tuolumne County, State of California, and in the Coast Range Mountains in San Joaquin and Alameda counties, State of California, and rights of way, structures and appurtenances incidental thereto."

Taking up now the items serially:

The first item is the book value of equipment used on the Mountain Division. I have examined the City Engineer's reports to find out just what they covered. From his report of November 20, 1924, it would appear that there was some \$1,206,500 book value of equipment and materials which were purchased for the construction of the Mountain Division tunnels which could be used in the construction of the Foothill and Coast Range tunnels, and that his estimate of the actual cash value at the present time of said materials and equipment was \$593,240. It seems apparent that the difference between cost and present worth of said items represents the proportion of the value of that equipment which was consumed in the construction of the Mountain Division tunnels, and is therefore not available for the Foothill and Coast Division work. Of course it may be said that if the City were to buy new equipment for this work, it might have to pay \$1,206,500 for it. But if this equipment be transferred to the new tunnels, it will not be new equipment; it will be second hand equipment; and if equipment in a similar condition were to be purchased in the market, its cost chargeable against the 1924 Bond Issue would not exceed the present worth of the same. The estimate of what is the actual present worth in dollars and

cents of the material and equipment should be based on a fair appraisal by competent parties of value in consideration of its actual remaining useful life.

I am therefore of the opinion that if this equipment is actually required and will be used in the construction of the tunnels authorized by the 1924 Bond Issue, its reasonable present cash value may be well charged against the proceeds of that bond issue and credited to the 1910 Bond Issue, but that no sum in excess of such reasonable present cash value should be so charged and credited.

The second item involves the cost of the Red Mountain Bar siphon through and underneath the Don Pedro reservoir. This, I am informed by the City Engineer, is a steel pipe line covered with concrete, and has been completely constructed and paid for out of the 1910 Bond Fund. He states that it is not used or useful or required in connection with the construction of the Foothill or Coast Range tunnels, and it is apparently not a part of said tunnels. At the time the people voted the 1924 Bond Issue, under no circumstances that I can conceive could they have had in mind paying for the cost of this siphon crossing which had already been built and paid for.

I am therefore of the opinion that it would be illegal to attempt to charge the 1924 Bond Issue proceeds with the cost of this siphon.

The third item relates to the sum of \$210,310 spent in purchasing the San Joaquin Valley rights of way. The answer to this must be the same as in the case of the second item. These rights of way have already been purchased and paid for. They are not a part of the new tunnel construction in any sense, and it would be clearly illegal to transfer their cost as a charge against the 1924 bond proceeds.

The fourth item relating to the Bay Division would in my opinion be an improper charge against the 1924 bond proceeds for like reasons.

Very respectfully,

GEORGE LULL,

City Attorney.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission, revocable at will of the Board of Supervisors, is hereby granted to the Western Pacific Railroad Company, its successors or assigns, to construct, maintain and operate a spur track as follows:

Beginning at a point of switch in the center line of track of the Western Pacific Railroad Company (formerly known as the "Ocean Shore Railroad"), distant easterly thereon approximately 140.0 feet from the westerly line of Mississippi street extended southerly; thence in a northwesterly direction with switch and turn-out to the right approximately 70.0 feet; thence in a northwesterly direction approximately 270.0 feet to the beginning of curve, crossing the southerly line of Army street approximately 100.00 feet westerly of said westerly line of Mississippi street extended southerly; thence continuing northwesterly on a curve to the right approximately 155.0 feet to a point, crossing the northerly line of said Army street approximately 148.0 feet easterly of the easterly line of Missouri street; thence continuing in a northwesterly direction on a curve to the left approximately 320.00 feet to a point of junction with the existing track, crossing the easterly line of Missouri street approximately 120.0 feet northerly of the northerly line of said Army street, also crossing the westerly line of said Missouri street approximately 143.0 feet northerly of the northerly line of said Army street.

Said permission is granted subject to provisions of Ordinance No. 69 (New Series) of the Board of Supervisors, approved October 12, 1906, and the provisions and conditions of Section 8 thereof are hereby specifically contained in the permit hereby granted and shall be construed as a part hereof as com-

plete as though the same were written in this ordinance.

Provided, that said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office, and that any and all expenses connected with the installation of the track, restoration of the pavement and any additional requirements for the surface drainage be paid for by the Western Pacific Railroad Company.

Provided, that girder rail be used within the property lines of the streets; that all granite curbs removed be hauled to the Corporation Yard; that the concrete wall where cut be trimmed off and finished in a workmanlike manner; that two catchbasins be constructed on Army street and connected with the existing sewer to intercept drainage; that all pavement disturbed be restored; all work to be done under the direction and to the satisfaction of the Board of Public Works.

Provided, that the Western Pacific Railroad Company shall erect and maintain all-night lighted arc lamps, to be placed where directed by the Lighting Committee of the Board of Supervisors.

Section 2. This ordinance shall take effect immediately.

Approval of City Engineer's Supplemental Budget for Completion of Mountain Division, Bay Division and Transmission Line to Newark.

The following resolution, laid over from last meeting, was taken up:

Resolution No. 23941 (New Series), as follows:

Whereas, the City Engineer has forwarded through the Board of Public Works to the Board of Supervisors a report dated April 10, 1925, informing this Board that due to various reasons the estimate made by him on December 1, 1924, as to the cost of completing the Mountain Division, Bay Division, Moccasin Creek Power House and transmission line to Newark on the Hetch Hetchy project will be increased in actually completing this work by the sum of \$632,896, and that it will be necessary to furnish this additional sum for construction purposes if said work is to be completed; and

Whereas, it is necessary that all of said work be completed in order to furnish the necessary immediate increment to San Francisco's water supply through the Bay Division pipe line and to place the Mountain Division power development on the project in a position where revenue can be derived therefrom in accordance with the recommendations of the Hetch Hetchy Advisory Committee; and

Whereas, on November 20, 1924, the City Engineer reported to the Board of Supervisors that the City had purchased with the proceeds of the 1910 Bond Fund plant and equipment for the construction of the Mountain Division on the project, having a present cash value after the completion of the Mountain Division of \$593,240 and that all of said plant and equipment is usable and required for use in the near future in the construction of the Foothill and Coast Range tunnels as provided for under the bond issue authorized in 1924, and recommended that said plant and equipment be transferred to said Foothill and Coast Range divisions for such construction purposes and the cost value thereof be credited to the Water Construction Fund, Bond Issue of 1910; now, therefore, be it

Resolved, That, in pursuance of the provisions of Ordinance No. 6440 (New Series), said budget and recommendations of the City Engineer as to the work to be done in completing the Mountain Division, Bay Division and power development as far as Newark be and they are hereby approved and the Board of Public Works is authorized to complete said work in accordance with said report of the City Engineer dated April 10, 1925. Be it

Further Resolved, That the Board of Public Works be and it is hereby authorized to transfer to the Foothill and Coast Range divisions for the purpose of constructing aqueduct tunnels authorized in the Bond Issue of 1924, the plant and equipment described in the City Engineer's report dated November 20, 1924; and be it

Further Resolved, That the Auditor and Treasurer be and they are hereby authorized and directed to transfer to the "Water Construction Fund, 1924 Bond Issue" the sum of \$593,230 representing the present cash value of said equipment required for construction purposes on said Foothill and Coast Range divisions, said transfer of funds to be made as soon as the proceeds of the first sale of 1924 Water Bonds shall be placed in the Treasury.

Letter From Spring Valley Water Company.

The following was presented by Supervisor McLeran and read by the Clerk:

April 23, 1925.

To the Finance Committee of the Board of Supervisors, City Hall, San Francisco.
Gentlemen:

I am enclosing herewith copy of

letter from Spring Valley Water Company, dated April 22, 1925, in relation to the sum of \$205,015.63, amount received by this office under date of April 22, 1925—details as per said letter.

Respectfully yours,

JOHN E. McDOUGALD,
Treasurer, City and County of San Francisco.

G. A. Elliott, Vice-President and Chief Engineer.

Executive Department, Spring Valley Water Company, 425 Mason street.

San Francisco, Cal.,

April 22, 1925.

The Treasurer of the City and County of San Francisco, City Hall, San Francisco, California.

Dear Sir:

I am handing you herewith checks of the Spring Valley Water Company payable to the Treasurer of the City and County of San Francisco in the amount of \$205,015.63. This payment is made in compliance with the resolution adopted by the Board of Supervisors of the City and County of San Francisco upon the 13th day of April, 1925, approved April 17, 1925, pursuant to the agreement of December 23, 1924, between the Board of Public Works of the City and County of San Francisco and this corporation, which resolution requests the Spring Valley Water Company to make immediate payment of the installments to become due upon December 31, 1928, and June 30, 1929, under the terms of the agreement entered into between the Board of Public Works of the City and County of San Francisco and this corporation upon the 17th day of April, 1922.

The Spring Valley Water Company has borrowed moneys for the purpose of complying with the aforesaid resolution of the Board of Supervisors at an interest rate of $4\frac{1}{2}$ per cent per annum. Pursuant to the provisions of the agreement of December 23, 1924, the payments requested by the said resolution have been discounted at the rate of $4\frac{1}{2}$ per cent per annum; that is to say, the sum of \$125,000 to become due upon December 31, 1928, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from April 22, 1925, to December 31, 1928, and the sum of \$125,000 to become due upon June 30, 1929, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from April 22, 1925, to June 30, 1929. The net proceeds amount to the sum of \$205,015.63, for which amount the checks of this corporation are en-

closed. This payment is made in satisfaction of the amounts to become due and owing from this corporation to the City and County of San Francisco upon December 31, 1928, and June 30, 1929, under the terms of the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924.

Your attention is directed to the clause in the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924, providing that installments paid by this corporation to the City and County of San Francisco prior to the due date thereof shall be discounted "at the rate which the Water Company pays as the interest rate on the money which it borrows in order to make such payment." These moneys have been borrowed by this corporation at the rate of $4\frac{1}{2}\%$ per annum, as hereinabove stated, this favorable rate having been procured through the pledge of United States government bonds belonging to this corporation by way of collateral security for the repayment of the loan. It is my duty to state that this corporation may find it necessary or desirable to utilize these government bonds for some other purpose and that it does not obligate itself to continue the bonds in pledge for any particular period of time. Moreover, we can have no assurance in any event that the loan can be renewed at the same interest rate which it now bears. Accordingly, it should be clearly understood that the discount heretofore made shall be subject to readjustment to the end that it shall be equal in amount to the amount of interest which this corporation shall have paid upon such borrowed moneys from the date of this payment until the due dates of the installments represented thereby. I would suggest that provision be made for the retention of a portion of these funds by the City and County of San Francisco in such manner that the readjustment of discount, if the same shall become necessary, may be accomplished with reasonable facility.

Please acknowledge receipt of this letter and the enclosed checks for the purposes aforesaid.

Respectfully,

SPRING VALLEY WATER COMPANY,

By G. A. ELIOTT, Vice-President.

The following bill was passed for printing:

Amendment to Tunnel Procedure Ordinance.

On motion of Supervisor McLeran:

Bill No. 7096. Ordinance No. — (New Series), as follows:

Amending Section 14 of Ordinance No. 2186 (New Series), approved February 19, 1913, known as "The Tunnel Procedure Ordinance", relating to the recording by the Tax Collector of assessments levied pursuant to said ordinance, and prescribing the duties of the Tax Collector and Auditor in relation thereto, and amending Section 15 of said "The Tunnel Procedure Ordinance" relating to the fixing by the Tax Collector of a day as the last day for cash payments of assessments, and a day and place for the sale of lands assessed, and to public notice thereof by the Tax Collector, and to the notice to be given of the sale of property assessed upon which the assessments shall be delinquent and for the continuance or postponement of such sale or sales.

And amending said "The Tunnel Procedure Ordinance" by adding a new section thereto to be numbered Section 22A, providing for the auditing of the books of the Tax Collector relating to assessments levied pursuant to said ordinance by the Auditor of the City and County, and to reports by the Tax Collector to the Auditor and prescribing their duties in relation thereto.

Be it ordained by the People of the City and County of San Francisco, State of California, as follows:

Section 1. Section 14 of Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance", is hereby amended so as to read as follows:

Section 14. It shall be the duty of the Tax Collector of the City and County to collect said assessments in the manner herein prescribed and to perform all acts in connection therewith herein provided for.

Said list shall be recorded in a substantial book kept in his office for that purpose. Said book may consist of one volume or of several volumes consecutively numbered as may be most convenient. Said book shall be ruled with appropriate columns in which to enter the numbers of the respective assessments, the Assessor's subdivisions by block and lot according to said list, the approximate dimensions or areas of each parcel, and the amount of the assessment against each parcel. Said book shall also be ruled with appropriate columns in which to extend and enter all installments of principal and interest on deferred payments, with a space for the fact and date of all payments made, and there shall also be a column in which shall be entered a reference by volume and page to the respec-

tive agreements under which said deferred payments are made.

The Tax Collector shall first copy said list into said book, excepting only the amounts of the several assessments against the respective parcels, and shall thereupon deliver said book, together with said list, to the Auditor of said City and County.

Thereupon said Auditor, without unnecessary delay, shall enter in said book, opposite the designation of each of the respective parcels enumerated in said list, the amount of the assessment against such parcel according to said list and shall charge the Tax Collector with the amount to be collected, and shall deliver said book and list to the Tax Collector.

The Tax Collector shall thereupon record the said map and list in his office by his certificate indorsed on said map and by a like certificate indorsed at the foot of said list as copied and entered in said book.

Section 2. Section 15 of Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance," is hereby amended so as to read as follows:

Section 15. The Tax Collector shall thereupon fix a day not less than thirty nor more than forty days from the date of said recording, which day shall be the last day for cash payments of assessments; and also fix a day and place for the sale of the various parcels of land within said district, which said day shall not be less than twenty-two nor more than forty days from the said last day for making cash payments. Notice stating such dates shall be published five times in the official newspaper. Notice of the sale shall be given in conformity with the general laws of the State of California providing for notice of sale of real estate upon execution, and shall be posted and published in the same manner as such notices, provided, however, that the descriptions of the various parcels need not be set out at length but only by the respective numbers of the same, as the same appear upon the assessment and map as confirmed and adopted by the Board of Supervisors, which shall be referred to in said notice. Such notice shall contain such description of all property to be so sold, and the name of the owner or owners as the same appear on the list in the office of the Tax Collector. If any property remains unsold on the day fixed for such sale, or if for any reason the sale does not take place, the sale may be continued until the next day and so on from day to day, or postponed until another day,

not more than ten days thereafter, and all parties shall be deemed to have notice of all or any such continuances or postponements.

Section 3. A new section is hereby added to Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance", providing for the auditing of the books of the Tax Collector of the City and County relating to assessments levied pursuant to said ordinance by the Auditor of the City and County, and prescribing the duties of the Auditor and Tax Collector in relation thereto. Said new section is to be numbered and known as Section 22A and shall read as follows:

Section 22A. On the third Monday in January of each year the Tax Collector shall attend at the office of the Auditor of the City and County with said assessment book wherein all items of assessments collected by him shall have been marked "paid", and shall deliver said assessment book to said Auditor.

The Auditor shall thereupon carefully check and audit the same and, in all cases of deferred payments, shall enter and extend in the appropriate column in said book the amount to become due on the next succeeding installment, together with the interest thereon; and within fifteen days thereafter deliver the assessment book to the Tax Collector and certify to him the amount delinquent on all previous installments and the balance remaining unpaid on succeeding installments.

It shall be the duty of the Tax Collector to file with the Auditor a monthly report showing in detail the amount of money collected by him on account of assessments, the number of the installment to which the same applies, the amount received on account of interest with the number of the installment to which the same applies, and the amount and number of the installment of all assessments canceled.

Section 4. This ordinance shall take effect immediately.

Proposed Reduction of Electric Rates.

Supervisor Katz presented:

Resolution No. — (New Series), as follows:

Whereas, reports of the Pacific Gas and Electric Company filed with the State Railroad Commission show that in 1924 the said corporation sold 371,556,776 kilowatt hours or 27.9 per cent of its total electrical output to consumers in the City and County of San Francisco, but collected for said power a return of \$9,009,831.25 or 34 per cent of its gross electrical revenue, from the

said consumers in the City and County of San Francisco; and

Whereas, eliminating from the above figures all sales of power to street railways, to other power corporations and to municipal corporations for resale, it is found that the individual or retail consumer in San Francisco pays an average rate of 3.68 cents per kilowatt hour, or approximately 50 per cent higher than the average rate of 2.45 charged to retail consumers over the whole Pacific Gas and Electric system; and

Whereas, reports of the Great Western Power Company filed with the State Railroad Commission show that in 1924 the said corporation sold 101,760,000 kilowatt hours or 23.4 per cent of its total electrical output to consumers in the City and County of San Francisco, but collected for said power 36 per cent of its gross electrical revenue, amounting to \$2,631,696.33 from the consumers in the City and County of San Francisco; and

Whereas, the above facts indicate an excessive charge of serious proportions, amounting apparently to \$2,000,000 or more annually in the power bills of 158,139 consumers residing in this city; and

Whereas, this excessive charge is further borne out by a comparison of the San Francisco rate schedule with that of Los Angeles, the small consumer in this city paying a maximum rate of 9 cents per kilowatt hour as against a maximum rate in Los Angeles of 5.6 cents per kilowatt hour; and

Whereas, the annual report of the Pacific Gas and Electric Company for 1924 shows that said company received a gross income from all of its business of \$44,451,696, of which the total net income amounted to \$16,248,490, or over 36 per cent; now, therefore, be it

Resolved, That the City and County of San Francisco immediately initiate proceedings before the State Railroad Commission for the lowering of electrical rates in the City and County of San Francisco; and be it

Further Resolved, That the City Attorney be instructed to take all necessary steps diligently to prosecute said proceedings to the end that the people of this City and County shall secure an equitable rate for electricity purchased by them from the private corporations above named.

Referred to Public Utilities Committee.

Use of Aisles, etc., in Theatres.

Also Bill No. ———, Ordinance No. ——— (New Series), as follows:

Regulating the use of aisles, passageways and stairways, and prohibiting the obstruction of all passageways in theatres, opera-houses and places of public assemblage, and providing for a fire detail to enforce laws and ordinances providing for public safety and providing a penalty for the violation thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any owner, lessee, manager, or other person, firm or corporation having charge or control of any theatre, public hall, concert hall, or other place of public assemblage to obstruct or cause or permit to be obstructed, or to permit any

person or persons, with the exception of ushers and other necessary attendants, to sit or remain standing in any entrance, exit, aisle, stairway, lobby, foyer, exit court or passageway, or any other floor space thereof not occupied by fixed seats legally permissible, during any performance, exhibition, lecture, entertainment or public assemblage therein.

Section 2. The Chief Engineer of the Fire Department shall detail one or more experienced members of the Fire Department for service in buildings and structures of the kind and description specified in Section One hereof, as he may deem necessary or proper in the interest of the public safety, to be present in such building or structure during the progress of any performance, exhibition, lecture, entertainment or public assemblage therein.

Section 3. The member or members of the Fire Department so detailed shall enforce all laws and the ordinances of the City and County of San Francisco providing for the prevention and extinction of fires and the safety of the public.

Section 4. All ordinances or parts of ordinances in conflict with this ordinance, or any part thereof, are hereby repealed.

Section 5. Any person or persons, firm or corporation who shall violate any law or ordinance providing for the prevention or extinction of fire or for the safety of the public in buildings or structures of the kind and description in Section One hereof specified, or who shall interfere with any member of the Fire Department in the discharge of his duties as herein prescribed, shall be guilty of a misdemeanor and shall be punished by fine not to exceed the sum of Five Hundred Dollars (\$500) or by imprisonment in the County Jail not exceeding six months, or by both such fine and imprisonment.

Section 6. This ordinance shall take effect and be in force immediately.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor Welch moved that Supervisor McSheehy take the chair.

Motion carried.

APPROVAL OF JOURNAL.

The Journal of Proceedings of the previous meeting was laid over for approval until next meeting.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Letter of Thanks From His Honor Mayor Rolph, Jr.

The following was read and ordered filed:

April 28, 1925.
Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

In the rush of other matters since my return home from the East, I have not had the opportunity until this moment of expressing my gratitude to the members of your Honorable Board for your thoughtful courtesy in sending a wreath of flowers to the grave of my late nephew, Thomas Rolph, Jr.

This touches me deeply and I want you to know how greatly I appreciate it.

Very sincerely yours,

JAMES ROLPH, JR.,

Mayor.

Leave of Absence, Hon. William C. Mikulich.

The following was presented and read by the Clerk:

San Francisco, Cal.

April 30, 1925.

To the Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

Application has been made to me by Hon. William C. Mikulich, member of the Honorable Board of Fire Commissioners, for a leave of absence, with permission to absent himself from the State of California, for a period of sixty days, commencing May 14, 1925.

Will you please concur with me in granting this leave of absence?

Respectfully yours,

JAMES ROLPH, JR.,

Mayor.

Whereupon, the following resolution was presented and *adopted*:

Resolution No. 23977 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, Hon. William C. Mikulich, member of the Board of Fire Commissioners, is hereby granted a leave of absence for a period of sixty days, commencing May 14, 1925, with permission to leave the State.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Welch, Wetmore—16.

Absent—Supervisors McLeran, Shannon—2.

Leave of Absence, Honorable F. Dohrmann, Jr.

The following was presented and read by the Clerk:

San Francisco, Cal.,

April 30, 1925.

To the Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

Application has been made to me by Hon. F. Dohrmann, Jr., member of the Board of Education, for a leave of absence, with permission to absent himself from the State of California, for a period of four months, commencing May 25, 1925.

Will you please concur with me in granting this leave of absence?

Respectfully yours,

JAMES ROLPH, JR.,

Mayor.

Whereupon, the following resolution was presented and *adopted*:

Resolution No. 23978 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, Hon. F. Dohrmann, Jr., member of the Board of Education, is hereby granted a leave of absence for a period of four months, commencing May 25, 1925, with permission to leave the State.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Welch, Wetmore—16.

Absent—Supervisors McLeran, Shannon—2.

Proposed Census by Registrar.

Supervisor Schmitz, seconded by Supervisor Morgan: I have no written resolution, but would like to make a motion in the form of a resolution to the effect that the Registrar of Voters be requested to give this Board an estimate of what it would cost for him to take a census of the City of San Francisco. That could be done very nicely by the Registrar. The census in the past has been very unfair to us. . . .

When estimate is in it can be referred to Finance Committee.

Motion carried unanimously.

Action Deferred.

The following matter was continued until May 11, 1925, at 2 p. m.:

HEARING—2 P. M.

Forty-eighth Avenue.

Hearing of protests in matter of improvement of Forty-eighth avenue between north line of Lawton street and south line of Ortega street, and Ortega street between Forty-eighth avenue and the Great Highway, fixed for 2 p. m.

PRESENTATION OF PROPOSALS.

Desks and Chairs.

Sealed proposals were received by the Board of Supervisors between the hours of 2 and 3 p. m. for furnishing desks and chairs for School Department and referred to the Supplies Committee.

Paper.

Sealed proposals were received by the Board of Supervisors between the hours of 2 and 3 p. m. for furnishing paper for School Department and referred to the Supplies Committee.

Action Deferred.

The following bridge hearings, on motion of Supervisor Harrelson, were continued until May 18, 1925, at 2 p. m.:

HEARING—2 P. M.

Consideration of application of Bay Cities Bridge Corporation.

Notice of application for franchise to construct, operate and maintain a toll bridge across San Francisco Bay between the City and County of San Francisco and the County of Alameda, in the State of California.

Notice is hereby given by Bay Cities Bridge Corporation, a corporation, that it will apply to the Honorable Board of Supervisors of the City and County of San Francisco, State of California, on Monday, the 6th day of April, 1925, at the hour of 2 o'clock p. m. of said day, at the meeting place of said Board, in the City Hall, located in said City and County of San Francisco, for a franchise and/or authority to erect, construct, maintain and operate a toll bridge and the right, permission and authority to take tolls thereon for a period of fifty years after the date of the granting of said franchise and/or said authority; that the said bridge is to be located along the following described line, to-wit:

Beginning at the intersection of the center line of Sixteenth street with the center line of Third (Kentucky) street, in the City and County of San Francisco, and extending thence easterly along the center line of Sixteenth street to the water front line; thence easterly along a straight line to a point on the center line of Pacific avenue, in the City of Alameda, Alameda County, which point is (100) one hundred feet westerly from the intersection of said center line of Pacific avenue with the center line of Bryant street.

That the length of said bridge is 27,750 feet; that the width of the roadway on said bridge is 38 feet.

BAY CITIES BRIDGE CORPORATION,

By A. O. STEWART,
President.

Consideration of application of Charles Brennan for a franchise to construct, operate and maintain a toll-bridge across San Francisco Bay between San Francisco and Alameda.

Jas. Oliver appeared in connection with the foregoing and stated that in about two weeks he would have revised plans of the Davies bridge, which will then be advertised.

Whereupon, the hearings on applications for bridge franchises were, on motion of Supervisor Har-

relson, continued until May 18, 1925, at 2 p. m.

REPORTS OF COMMITTEES.

The following committees, by their respective chairmen, presented reports on various matters referred, which reports were read and ordered filed:

Made-in-California Products Used by City.

The following was presented by Supervisor Rossi, ordered spread in the *Journal* and copies sent to Labor Council, Building Trades Council, Chamber of Commerce and others:

April 22, 1925.

To his Honor the Mayor and the Honorable, the Board of Supervisors:

Requests are frequently received asking consideration for "Made in California" products when bids are opened for the various commodities purchased for use of the City departments.

While under our organic law (the Charter) no preferential is permissible to local bidders, it has been the endeavor of the Purchaser of Supplies with the hearty co-operation of the Mayor and the Board of Supervisors to encourage local competition to the benefit of local trade.

The Bureau has a fixed desire to help local industries and to illustrate, has circularized the Chamber of Commerce, Building Trades Council, Labor Council, and the California Development Association, so that these quasi-public organizations might assist through the medium of their membership to sell our idea to local merchants.

The result has been gratifying as to price, quality of goods offered and service and we now have of record as being manufactured or produced in San Francisco and in California, the following commodities:

San Francisco—Ambulance bod-ash cans, auto tires and tubes, batteries, bathing suits, beds, springs, boilers, bolts, books (manufactured), boots, bottles, box products, brooms, brushes, carbon paper, castings, cleaning fluids, clothing

(men's and women's), compressor heads, condiments, cordage, cushions, disinfectants, envelopes, electric heaters, fire alarm boxes, fire hydrants, flags, foodstuffs, furniture (school), galvanized street cans, glassware, gloves, gymnasium equipment, hats, ink, jumpers, ladders, leather belting, leather mats, map cases, maps, mattresses, metal products, millwork, motor trucks, nurses' uniforms, nuts and bolts, oils, overalls, packing, paints, paper (building), paper (roofing), pennants, pillows, pinions, preserves, ranges, rattan ware, robes, seeds, shade cloth, shirts, shoes, soaps, steel, stoves, tin cans, traffic signals, typewriter ribbons, wicker ware and wire cloth.

California—Asbestos coverings, asphalt, biologics, blackboard (hyloplate), blankets, blasting supplies, brick (common), brick (vitrified), cable (underground), calculating machines, canned fruits, canned vegetables, cement, cereals, clay products, curbing, drinking fountains, gravel, incandescent lamps, ironstone pipe, lead (white), lumber, magnesia asbestos coverings, matches, mops, oils (fuel and lubricating), pipe (culvert), plumbing fixtures, pumps, rock, rubber hose, stone curbing, towels (cotton) and towels (paper).

The above commodities were tabulated so that those interested might know of our local purchases and that those not heretofore informed have made known to them our desire to lend assistance.

Respectfully submitted,

LEONARD S. LEAVY,

Purchaser of Supplies.

Supplies Committee, Board of Supervisors—Angelo J. Rossi, chairman; Warren Shannon, John Wetmore.

Amendment to Tunnel Procedure Ordinance.

Bill No. 7093, Ordinance No. 6612 (New Series), as follows:

Amending Section 14 of Ordinance No. 2186 (New Series), approved February 19, 1913, known as "The Tunnel Procedure Ordinance", relating to the recording by the Tax Collector of assessments levied pursuant to said ordinance, and prescribing the duties of the Tax Collector and Auditor in relation thereto, and amending Section 15 of said "The Tunnel Procedure Ordinance" relating to the fixing by the Tax Collector of a day as the last day for cash payments of assessments, and a day and place for the sale of lands assessed, and to public notice thereof by the Tax Collector, and to the notice to be given of the sale of property assessed upon which the assessments shall be delinquent and for the continuance or postponement of such sale or sales.

And amending said "The Tunnel Procedure Ordinance" by adding a new section thereto to be numbered

Section 22A, providing for the auditing of the books of the Tax Collector relating to assessments levied pursuant to said ordinance by the Auditor of the City and County, and to reports by the Tax Collector to the Auditor and prescribing their duties in relation thereto.

Be it ordained by the People of the City and County of San Francisco, State of California, as follows:

Section 1. Section 14 of Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance", is hereby amended so as to read as follows:

Section 14. It shall be the duty of the Tax Collector of the City and County to collect said assessments in the manner herein prescribed and to perform all acts in connection therewith herein provided for.

Said list shall be recorded in a substantial book kept in his office for that purpose. Said book may consist of one volume or of several volumes consecutively numbered as may be most convenient. Said book shall be ruled with appropriate columns in which to enter the numbers of the respective assessments, the Assessor's subdivisions by block and lot according to said list, the approximate dimensions or areas of each parcel, and the amount of the assessment against each parcel. Said book shall also be ruled with appropriate columns in which to extend and enter all installments of principal and interest on deferred payments, with a space for the fact and date of all payments made, and there shall also be a column in which shall be entered a reference by volume and page to the respective agreements under which said deferred payments are made.

The Tax Collector shall first copy said list into said book, excepting only the amounts of the several assessments against the respective parcels, and shall thereupon deliver said book, together with said list, to the Auditor of said City and County.

Thereupon said Auditor, without unnecessary delay, shall enter in said book, opposite the designation of each of the respective parcels enumerated in said list, the amount of the assessment against such parcel according to said list and shall charge the Tax Collector with the amount to be collected, and shall deliver said book and list to the Tax Collector.

The Tax Collector shall thereupon record the said map and list in his office by his certificate indorsed on said map and by a like certificate

indorsed at the foot of said list as copied and entered in said book.

Section 2. Section 15 of Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance," is hereby amended so as to read as follows:

Section 15. The Tax Collector shall thereupon fix a day not less than thirty nor more than forty days from the date of said recording, which day shall be the last day for cash payments of assessments; and also fix a day and place for the sale of the various parcels of land within said district, which said day shall not be less than twenty-two nor more than forty days from the said last day for making cash payments. Notice stating such dates shall be published five times in the official newspaper. Notice of the sale shall be given in conformity with the general laws of the State of California providing for notice of sale of real estate upon execution, and shall be posted and published in the same manner as such notices, provided, however, that the descriptions of the various parcels need not be set out at length but only by the respective numbers of the same, as the same appear upon the assessment and map as confirmed and adopted by the Board of Supervisors, which shall be referred to in said notice. Such notice shall contain such description of all property to be so sold, and the name of the owner or owners as the same appear on the list in the office of the Tax Collector. If any property remains unsold on the day fixed for such sale, or if for any reason the sale does not take place, the sale may be continued until the next day and so on from day to day, or postponed until another day, not more than ten days thereafter, and all parties shall be deemed to have notice of all or any such continuances or postponements.

Section 3. A new section is hereby added to Ordinance No. 2186 (New Series), known as "The Tunnel Procedure Ordinance", providing for the auditing of the books of the Tax Collector of the City and County relating to assessments levied pursuant to said ordinance by the Auditor of the City and County, and prescribing the duties of the Auditor and Tax Collector in relation thereto. Said new section is to be numbered and known as Section 22A and shall read as follows:

Section 22A. On the third Monday in January of each year the Tax Collector shall attend at the office of the Auditor of the City and

County with said assessment book wherein all items of assessments collected by him shall have been marked "paid", and shall deliver said assessment book to said Auditor.

The Auditor shall thereupon carefully check and audit the same and, in all cases of deferred payments, shall enter and extend in the appropriate column in said book the amount to become due on the next succeeding installment, together with the interest thereon; and within fifteen days thereafter deliver the assessment book to the Tax Collector and certify to him the amount delinquent on all previous installments and the balance remaining unpaid on succeeding installments.

It shall be the duty of the Tax Collector to file with the Auditor a monthly report showing in detail the amount of money collected by him on account of assessments, the number of the installment to which the same applies, the amount received on account of interest with the number of the installment to which the same applies, and the amount and number of the installment of all assessments canceled.

Section 4. This ordinance shall take effect immediately.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Damage Claim, Yosemite Power Company.

Supervisor Shannon presented:

Resolution No. 23979 (New Series), as follows:

Whereas, the construction of the Hetch Hetchy aqueduct tunnel in Tuolumne County, California, has caused various springs to dry up on the Peri Ranch owned by the Yosemite Power Company, situated near Groveland, California, comprising some 2200 acres of land, and as a result of said drying up of the springs the value of said land has been materially diminished and the entire water supply for the use of the ranch house situated thereon has been completely taken away; and

Whereas, the Yosemite Power Company has offered to deed to the City and County of San Francisco all water rights which are intercepted or affected by said tunnel, and to release the City and County from all claims for damages which have been caused or may hereafter

be caused by reason of the construction of said tunnel and the interception and drainage of said percolating waters, in consideration of the sum of \$15,000 and the privilege of retaining the water pipe and pumps heretofore placed on the ranch by the City; and

Whereas, the Special Counsel for the Hetch Hetchy Water Supply has recommended the acceptance of said offer as a reasonable settlement of damage and injury to said ranch caused by the construction of said tunnel; now, therefore, be it

Resolved, That said offer of the Yosemite Power Company be and it is hereby accepted and said sum of \$15,000 be paid to said corporation upon receipt of proper conveyances and releases conveying said water rights to the City and County of San Francisco and releasing the City from all further claims of damage; said conveyance and releases to be in form satisfactory to the Special Counsel for the Hetch Hetchy Water Supply.

Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor McLeran was called to the chair.

APPROVAL OF JOURNALS.

The Journals of Proceedings of March 2 and 9, 1925, were considered read and *approved*.

Report of Finance Committee on Budget of the Fiscal Year 1925-26.

Supervisor McLeran presented:

San Francisco, May 11, 1925.

To the Board of Supervisors:

The Finance Committee presents estimates of budget expenditures for 1925-26, which aggregate \$34,442,552.

This is an increase of approximately \$7,000,000 over last year's appropriations and the amounts which make up this increase are primarily the result of the vote of the people on Charter Amendments and on the authorization of bonds. The important increases are:

School Department, Teachers' salaries, etc.	\$800,000
New School buildings, special tax	750,000
Bond interest and redemption	1,000,000
Teachers' pensions	265,000
Extension of Van Ness avenue, first purchase of land.....	130,000
For initial construction of Tuberculosis Sanitarium outside of City	200,000
Purchase of lands for Aquatic Park	85,000
Additional for Playgrounds	200,000
Street reconstruction	400,000
Extension and reconstruction of main sewers.....	88,000
The Bernal Cut	100,000
Civic Center and War Memorial	250,000
De Young Museum	70,000
The California Legion of Honor.....	70,000
Police, Firemen and County Officers' salaries.....	1,500,000
Work in front of City property	45,000
Tax judgments	137,000
Municipal Warehouse	66,000
Municipal Garage	91,000
Publicity and advertising (including contribution towards celebration of the Diamond Jubilee)	70,000
40 additional Policemen	96,000
Voting Machines	150,000

HETCH HETCHY POWER.

The amount required to be raised by the proposed estimates can be reduced by \$2,000,000 if the Board of Supervisors formulates a method for the legal disposal of the Hetch Hetchy power. The product of the Hetch Hetchy power investment is, or will soon be, available for distribution. It remains with the Board of Supervisors to effectuate a plan by which the City shall derive a benefit from its investment. A revenue of \$2,000,000 a year is obtainable. This revenue should be used to reduce the expenditure for bond interest and thereby lessen the burden upon the taxpayers. And if this is done, as we recommend, the tax rate which is to be fixed in September will not show an abnormal increase.

On top of compulsory expenditures, and of even more vital importance, are the absolute requirements of the School Department. Your Committee has included in the estimates approximately \$1,000,000 for the construction and repairs of public schools. Of this \$750,000 is predicated for building new schools in addition to the bond issues for schools heretofore authorized.

BOARD OF EDUCATION AND SCHOOL BUILDINGS.

The Finance Committee has accepted the recommendations almost 100 per cent as made by the Board of Education. A most liberal increase is made for the purpose of placing the School Department in a position to conduct its affairs without complaining.

The allowances included in this budget, if judiciously expended, will permit the School Department to build more schools and of equal importance to pay the school teachers a standard wage. Analyzing the situation, the Finance Committee has recommended a tax of .15 (as permitted by state law) for construction and repair of school buildings. School Department estimates that \$250,000, or thereabouts, will pay for normal repairs, which was the amount set aside last year. In the balance of the proposed appropriation—\$750,000—the School Department can very easily build four schools. If the moneys are economically and judiciously spent, twice as many classrooms can be provided and a sufficient amount remain for school repairs.

The amount allowed in the common school fund includes all that was asked by the Board of Education for the teachers' salaries and for the estimated increase in the teaching force. The allowance suggested is about 100 per cent requested by the Board of Education, and if the School Department so desires it can easily pay to the teachers all that they ask in their proposal for a proper compensation. The difference between the recommendation of the Board of Education and the amount requested by the teachers may easily be absorbed when the commissioners fix the teachers' salary schedule. The amounts included in the common school fund include a liberal allowance for estimated growth of the school population and it is apparent that this estimate is fixed at the maximum. Estimates are made for an increased teaching force in advance of the completion of classrooms. These estimates are accepted by your Finance Committee. The estimate of the Board of Education for increase in compensation of teachers is also accepted. In order that the School Department may have no complaint, it is recommended that the appropriation for the Board of Education be included in one item—the Common School Fund—and it is the responsibility of the School Department to function accordingly.

Your Committee has communicated with the Board of Education of Los Angeles, and the Board of Education of Oakland, and has received data from them on the cost of the buildings which they have built under recent bond issues aggregating many millions of dollars.

Comparing these costs, also the cost of the schools built by the City and County of San Francisco prior to the administration of the present Board of Education, we find that the buildings now being built by the

City and County of San Francisco are costing more than twice as much as the school buildings built by Los Angeles, Oakland, and formerly by San Francisco, for the same number of schoolrooms and providing school facilities for the same number of pupils.

We submit these facts to the Board of Education for its serious consideration.

STREETS AND STREET CLEANING.

Your Street Committee has made a very exhaustive study of the street problem and as a result of its efforts the Finance Committee indorses an increase of approximately 100 per cent in the street reconstruction appropriation.

It is equally vital that the streets be kept clean. Each year an additional mileage of accepted streets is placed upon the Street Cleaning Department, and the expense of cleaning streets increases proportionately with the mileage. Every city takes pride in cleanliness of streets; the health of the community is conditioned upon clean streets, and notwithstanding that it means a substantial increase in the city's expenditures more money should be provided for street sweeping and street cleaning.

GOOD ROADS FUND.

For several years, since the creation of the so-called good roads fund, the city has had available considerable sums of money from the State—funds collected from tax on automobiles or gas tax. This fund has been expended on major projects and San Francisco has constructed many important highways and boulevards out of these moneys. Among them may be mentioned Roosevelt Way; improvement of roads around Sutro Heights; the construction of a road in Southern Heights; the building of highways down the peninsula and many other important projects.

Continuing this program your Finance Committee suggests that the reconstruction of Third street, an urgent necessity; the construction of the San Jose avenue bridge; the completion of the protective work of the bluff in front of the Cliff House; the widening of the upper road along the Ocean Beach; the Portola drive; the improvement of Seventh avenue and Laguna Honda road and the opening and widening of Virginia avenue be made charges against the County Road Fund of this and the next ensuing years. By co-ordinating the expenditures of the County Road Fund with the liberal appropriations in the street reconstruction program the work of making all of San Francisco's streets and boulevards 100 per cent usable will be soon accomplished.

STREET LIGHTING—DIAMOND JUBILEE.

The appropriation for lighting public streets shows an increase over the expenditures of last year. This increase is proposed for the purpose of illuminating San Francisco with permanent lighting, particularly the Civic Center, Market street and other sections during the Diamond Jubilee early in September. The expenditures here recommended will be used for permanent installation of fixtures which will develop an illuminating system in San Francisco which will equal that of any other city in the country. It is proposed to install these lights under the advice of expert engineers, whose plans will be approved by D'Arcy Ryan, the expert who made the Exposition of 1915 historic.

It is impossible and imprudent for the Finance Committee to predict a tax rate—which is to be fixed in September—at this time. Two factors will govern the tax rate: First, the possible revenue of \$2,000,000 a year from the disposal of Hetch Hetchy power, and, second, the assessment roll, which will not be reported by the Assessor to the Board of Supervisors until the 1st of July. Estimates of assessment rolls are mere conjectures until the Assessor's report is presented.

Respectfully submitted,

RALPH McLERAN,
JOHN A. MCGREGOR,
ANGELO J. ROSSI.

Re Installment Payment, Spring Valley Water Company.

The following was presented and read:

San Francisco, Cal.

February 24, 1925.

The Treasurer of the City and County of San Francisco, City Hall, San Francisco.

Dear Sir:

I am handing you herewith the check of the Spring Valley Water Company payable to the Treasurer of the City and County of San Francisco in the sum of \$226,078.13. This payment is made in compliance with the resolution adopted by the Board of Supervisors of the City and County of San Francisco upon the 2nd day of February, 1925, approved February 4, 1925, pursuant to the agreement of December 23, 1924, between the Board of Public Works of the City and County of San Francisco and this corporation, which resolution requests the Spring Valley Water Company to make immediate payment of the installments to become due upon December 31, 1926, and June 30, 1927, under the terms of the agreement entered into between the Board of Public Works of the City and County of San Francisco and this corporation upon the 17th day of April, 1922.

The Spring Valley Water Company has borrowed moneys for the purpose of complying with the aforesaid resolution of the Board of Supervisors at an interest rate of $4\frac{1}{2}$ per cent per annum. Pursuant to the provisions of the agreement of December 23, 1924, the payments requested by the said resolution have been discounted at the rate of $4\frac{1}{2}$ per cent per annum; that is to say, the sum of \$125,000 to become due upon December 31, 1926, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from February 24, 1925, to December 31, 1926; and the sum of \$125,000 to become due upon June 30, 1927, has been discounted at the rate of $4\frac{1}{2}$ per cent per annum for the period extending from February 24, 1925, to June 30, 1927. The net proceeds amount to the sum of \$226,078.13, for which the check of this corporation is enclosed. This payment is made in satisfaction of the amounts to become due and owing from this corporation to the City and County of San Francisco upon December 31, 1926, and June 30, 1927, under the terms of the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924.

Your attention is directed to the clause in the said agreement of April 17, 1922, as modified by the said agreement of December 23, 1924, providing that installments

paid by this corporation to the City and County of San Francisco prior to the due date thereof shall be discounted "at the rate which the Water Company pays as the interest rate on the money which it borrows in order to make such payment". These moneys have been borrowed by this corporation at the rate of $4\frac{1}{2}$ per cent per annum, as hereinabove stated, this favorable rate having been procured through the pledge of United States government bonds belonging to this corporation by way of collateral security for the repayment of the loan. It is my duty to state that this corporation may find it necessary or desirable to utilize these government bonds for some other purpose and that it does not obligate itself to continue the bonds in pledge for any particular period of time. Moreover, we can have no assurance in any event that the loan can be renewed at the same interest rate which it now bears. Accordingly, it should be clearly understood that the discount heretofore made shall be subject to readjustment to the end that it shall be equal in amount to the amount of interest which this corporation shall have paid upon such borrowed moneys from the date of this payment until the due dates of the installments represented thereby. I would suggest that provision be made for the retention of a portion of these funds by the City and County of San Francisco in such manner that the readjustment of discount, if the same shall become necessary, may be accomplished with reasonable facility.

Please acknowledge receipt of this letter and the enclosed check for the purpose aforesaid.

Respectfully,
SPRING VALLEY WATER COMPANY.

(Signed) By S. P. EASTMAN,
President.

Action Deferred.

On motion of Supervisor Harrelson, the following matter was *laid over until May 25, 1925, at 2 p. m.*:

HEARING—2 P. M.

Confirmation of Sale of City Lands.

At the hour of 3 o'clock p. m., the Board of Supervisors, in meeting assembled, pursuant to public notice, took up for consideration the matter of confirming the sale to George M. Nave, for the sum of \$33,500, the following described city lands, to-wit:

Commencing at a point on the northerly line of Jackson street, distant thereon 137 feet 6 inches westerly from the westerly line of Scott street, thence running westerly along said northerly line of Jackson street 137 feet 6 inches; thence at right angles northerly 127 feet 8¼ inches; thence at right angles easterly 137 feet 6 inches; thence at right angles southerly 127 feet 8¼ inches to the northerly line of Jackson street and point of commencement; being a portion of Western Addition Block No. 465, also known as Lot 5, Block 978, on Assessor's Map Book.

It was announced by the chair that if at this meeting an offer of 10 per cent more in amount than that hereinabove named shall be made to the Supervisors in writing by a responsible person, the Supervisors will confirm such sale to such person or order a new sale in conformity with the provisions of the Charter; otherwise said sale to George M. Nave will be confirmed for the price hereinabove stated.

There being no offer to increase the foregoing bid, the following bill was passed for printing:

Bill No. 7105, Ordinance No. — (New Series), as follows:

Confirming the sale of land owned by the City and County of San Francisco.

Whereas by Ordinance No. 6530 (New Series), approved March 11, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction to be held on Monday, April 6, 1925, and directed that notice of said sale be given for three weeks successively next before the sale as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale

was directed to be made, describing the land to be sold therein with common certainty and stating the date on which said sale would be made, as specified in Ordinance No. 6530 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on Monday, April 6, 1925; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisement constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisement of said land and fixed the fair value thereof at the sum of \$28,000, and reported said appraisement to the Board of Supervisors in writing; and

Whereas, thereafter, and on the 6th day of April, 1925, at public auction, the Mayor sold said property to Geo. M. Nave for the sum of \$33,500, and accepted from said Geo. M. Nave a deposit in the amount of \$5,000, being ten per cent or more of the amount bid, and thereafter and at the next meeting of the Board of Supervisors, April 13, 1925, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 16th day of April, 1925, that at a meeting of the Board of Supervisors to be held on the 11th day of May, 1925, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 11th day of May, 1925, an offer of ten per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to such person, or order a new sale; and

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has not been obtained, and it appearing to the Board of Supervisors that the sum of thirty-three thousand five hundred (\$33,500) dollars bid as

aforesaid by Geo. M. Nave is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to Geo. M. Nave for the sum of thirty-three thousand five hundred (\$33,500) dollars is hereby ratified, approved and confirmed and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to Geo. M. Nave all the right, title and interest of the City and County in and to the land sold as aforesaid, and more particularly described as follows, to-wit:

Commencing at a point on the northerly line of Jackson street, distant thereon 137 feet 6 inches westerly from the westerly line of Scott street, thence running westerly along said northerly line of Jackson street 137 feet 6 inches; thence at right angles northerly 127 feet $8\frac{1}{4}$ inches; thence at right angles easterly 137 feet 6 inches; thence at right angles southerly 127 feet $8\frac{1}{4}$ inches to the northerly line of Jackson street and point of commencement; being a portion of Western Addition Block No. 465, also known as Lot 5, Block 978, on Assessor's Map Book.

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Confirmation of Sale of City Lands.

At the hour of 3 o'clock p. m., the Board of Supervisors, in meeting assembled, pursuant to public notice, took up for consideration the matter of confirming the sale to Annunziata Sanguinetti for the sum of \$23,500, the following described city lands, to-wit:

Commencing at a point on the easterly line of Powell street, distant thereon 68 feet 9 inches southerly from the southerly line of Clay street, thence running southerly along said easterly line of Powell street 68 feet 9 inches; thence at right angles easterly 137 feet 6 inches; thence at right angles northerly 137 feet 6 inches to the southerly line of Clay street; thence at right angles westerly along said southerly line of Clay street 26 feet 2 inches; thence at right angles

southerly 75 feet; thence at right angles westerly 52 feet 4 inches; thence at right angles northerly 6 feet 3 inches; thence at right angles westerly 59 feet to the easterly line of Powell street and point of commencement; being a portion of 50 Vara Block No. 137, also known as Lots 18 and 22, Block 224, on the Assessor's Map Book.

It was announced by the chair that if at this meeting an offer of 10 per cent more in amount than that hereinabove named shall be made to the Supervisors in writing by a responsible person, the Supervisors will confirm such sale to such person or order a new sale in conformity with the provisions of the Charter; otherwise said sale to Annunziata Sanguinetti will be confirmed for the price hereinabove stated.

Whereupon, the foregoing parcel was bid up and struck off and sold to W. H. Leahy for \$30,600.

Passed for Printing.

Thereupon, the following bill was passed for printing:

Bill No. 7106, Ordinance No. — (New Series), confirming the sale of land owned by the City and County of San Francisco.

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has been obtained from W. H. Leahy in the sum of thirty thousand six hundred (\$30,600) dollars, said sum being more than 10 per cent of the amount heretofore bid by the said Annunziata Sanguinetti, and it appearing to the Board of Supervisors that the sum of thirty thousand six hundred (\$30,600) dollars bid as aforesaid by W. H. Leahy is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to W. H. Leahy for the sum of thirty thousand six hundred (\$30,600) dollars is hereby ratified, approved and confirmed and the Mayor and

the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to W. Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Confirmation of Sale of City Lands.

At the hour of 3 o'clock p. m., the Board of Supervisors, in meeting assembled, pursuant to public notice, took up for consideration the matter of confirming the sale to Elias Rhine, for the sum of \$42,000, the following described city lands, to-wit:

Commencing at a point on the northerly line of Bush street, distant thereon 40 feet westerly from the westerly line of Hyde street, thence running westerly along said northerly line of Bush street 97 feet 6 inches; thence at right angles northerly 137 feet 6 inches; thence at right angles easterly 97 feet 6 inches; thence at right angles southerly 137 feet 6 inches to the northerly line of Bush street and point of commencement; being a portion of 50 Vara Block No. 307, also known as Lot 3, Block 278, on Assessor's Map Book.

It was announced by the chair that if at this meeting an offer of 10 per cent more in amount than that hereinabove named shall be

made to the Supervisors in writing by a responsible person, the Supervisors will confirm such sale to such person or order a new sale in conformity with the provisions of the Charter; otherwise said sale to Elias Rhine will be confirmed for the price hereinabove stated.

There being no offer to increase the foregoing bid the following bill was passed for printing:

Bill No. 7107, Ordinance No. — (New Series), confirming the sale of land owned by the City and County of San Francisco.

Whereas, by Ordinance No. 6530 (New Series), approved March 11, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction to be held on Monday, April 6, 1925, and directed that notice of said sale be given for three weeks successively next before the sale, as required by law; and

Conditional Acceptance, Burrows Street.

On motion of Supervisor Harrelson:

Bill No. 7115, Ordinance No. — (New Series), as follows:

Providing for conditional acceptance of the roadway of Burrows street between Somerset street and Goettingen street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The roadways of the following named streets, including the curbs on both sides thereof, having been constructed to the satisfaction of the Board of Public Works, and of the Board of Supervisors are hereby conditionally accepted by the City and County of

San Francisco (except those portions required by law to be kept in order by the railroad company having tracks thereon), in accordance with the provisions of Section 23, Chapter 2, Article VI, of the Charter, said roadways having been paved with asphaltic concrete pavement and concrete curbs laid thereon, and are in good condition throughout, to-wit:

Burrows street between Somerset street and Goettingen street, paved with asphaltic concrete pavement and concrete curbs have been laid thereon, sewers and gas mains have been laid therein; no water mains have been laid therein, same not being necessary.

Section 2. This ordinance shall take effect immediately.

Extensions of Time.

Supervisor Harrelson presented: Resolution No. 24005 (New Series), as follows:

Resolved, That James M. Smith is hereby granted an extension of ninety days' time from and after May 12, 1925, within which to complete the improvement of La Salle avenue between Phelps and Quint streets, under public contract. This extension of time is granted for the reason that the work is complete with the exception of the asphalt covering, and an extension is desired to keep the contract alive in case of appeal from assessment when issued.

Adopted by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Also, Resolution No. 24007 (New Series), as follows:

Resolved, That Clark & Henery Construction Company is hereby granted an extension of ninety days' time from and after May 12, 1925, within which to complete the improvement of Twenty-eighth avenue between Fulton and Cabrillo streets, under a public contract.

Blasting Permit.

Resolution No. — (New Series), as follows:

Resolved, That F. W. Camp is hereby granted permission, revo-

cable at will of the Board of Supervisors, to explode blasts for grading purposes in blocks bounded by Army, Twenty-fifth, Mississippi and Missouri streets, provided said permittee shall execute and file a good and sufficient bond in the sum of \$5,000 as fixed by the Board of Public Works and approved by his Honor the Mayor, in accordance with Ordinance No. 1204; provided, also, that said blasts shall be exploded only between the hours of 7 a. m. and 6 p. m., and that the work of blasting shall be performed to the satisfaction of the Board of Public Works, and that if any of the conditions of this resolution be violated by said F. W. Camp, then the privileges and all the rights accruing thereunder shall immediately become null and void.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Governor Requested to Sign Small Claims Court Fee Bill.

Supervisor Bath presented:

Resolution No. 24008 (New Series), as follows:

Whereas, the Legislature has adopted Assembly Bill No. 210, which provides for the payment of a filing fee of \$1 for all actions filed in the Small Claims Court; and

Whereas, the enactment of this legislation into law will tend to relieve the congestion in the Small Claims Court by reducing the number of claims filed, many of which are for amounts as low as twenty-five cents and fifty cents, and will help to make the Small Claims Court self-supporting; therefore, be it

Resolved, That the Board of Supervisors requests the Governor to approve this bill.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Commercial Development Committee to Prepare Argument for Transferring Control of Harbor.

Supervisors Welch and Badaracco presented:

Resolution No. 24009 (New Series), as follows:

Resolved, That the Commercial Development Committee of this Board is hereby directed to prepare an argument and to present the same to his Excellency the Govern-

nor, in favor of the bill transferring control of the San Francisco Harbor to the City of San Francisco.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Mayor to Appoint Citizens Committee on Independence Day Celebration.

Supervisor Hayden presented:

Resolution No. 24010 (New Series), as follows:

Resolved, That the Mayor is respectfully requested to appoint a committee of citizens to make the necessary arrangements for the observance of Independence Day, 1925.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Observance of "Clean-up Week."

Resolution No. 24011 (New Series), as follows:

Resolved, That the Mayor be authorized to appoint a committee of citizens to promote the observance of "Clean-up" Week and to inaugurate such measures as may be necessary to awaken public interest in the matter.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Governor Requested to Sign Bay Shore and Skyline Boulevard Bill and Gasoline Bill.

Supervisor Bath presented:

Resolution No. 24012 (New Series), as follows:

Whereas, the building of the proposed Bay Shore Highway and Skyline Boulevard are of vital importance to the people of San Francisco and the Peninsula communities; and

Whereas, the Committee of Nine, appointed by the Governor for the purpose of making a survey of the roads and highways of the State, in its report stated that the present highway out of San Francisco over Colma Hill passing the cemeteries, is the most congested stretch of highway in the State of California; and

Whereas, the construction of the Bay Shore Highway and Skyline Boulevard will greatly relieve the traffic congestion and reduce the number of accidents constantly occurring on the present highway; and

Whereas, if the Bay Shore Highway and Skyline Boulevard and other new roads are to be built in the State of California it will be necessary for additional funds to be raised; and

Whereas, the only method adopted by the Legislature for financing new road construction, which is so necessary for the development and prosperity of the State of California, is Senator Breed's bill increasing the gasoline tax from two cents to three cents a gallon; and

Whereas, the Board of Supervisors of the City and County of San Francisco heretofore has unanimously indorsed the bill for the construction of the Bay Shore Highway and Skyline Boulevard as well as Senator Breed's gasoline tax bill; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco respectfully requests his Excellency, Governor Friend W. Richardson, to approve these measures, which so vitally affect not only the interests of the people of San Francisco and the Peninsula, but of the people of the State at large as well.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harreison, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Railroad Commission to Make Survey With View to Reducing Light and Power Rates.

Supervisor Katz presented:

Resolution No. 24002 (New Series), as follows:

Whereas, reports of the Pacific Gas and Electric Company filed with the State Railroad Commission show that in 1924 the said corporation sold 371,556,776 kilowatt hours or 27.9 per cent of its total electrical output to consumers in the City and County of San Francisco, but collected for said power a return of \$9,009,831.25, or 34 per cent of its gross electrical revenue, from the said consumers in the City and County of San Francisco; and

Whereas, eliminating from the above figures all sales of power to street railways, to other power corporations and to municipal corporations for resale, it is found that

the individual or retail consumer in San Francisco pays an average rate of 3.68 cents per kilowatt hour, or approximately 50 per cent higher than the average rate of 2.45 charged to retail consumers over the whole Pacific Gas and Electric system; and

Whereas, reports of the Great Western Power Company filed with the State Railroad Commission show that in 1924 the said corporation sold 101,760,000 kilowatt hours or 23.4 per cent of its total electrical output to consumers in the City and County of San Francisco, but collected for said power 36 per cent of its gross electrical revenue, amounting to \$2,631,696.33 from the consumers in the City and County of San Francisco; and

Whereas, the above facts indicate an excessive charge of serious proportions, amounting apparently to \$2,000,000 or more annually in the power bills of 158,139 consumers residing in this city; and

Whereas, this excessive charge is further borne out by a comparison of the San Francisco rate schedule with that of Los Angeles, the small consumer in this city paying a maximum rate of 9 cents per kilowatt hour as against a maximum rate in Los Angeles of 5.6 cents per kilowatt hour; and

Whereas, the annual report of the Pacific Gas and Electric Company for 1924 shows that said company received a gross income from all of its business of \$44,451,696, of which the total net income amounted to \$16,248,490, or over 36 per cent; now, therefore, be it

Resolved, That the City and County of San Francisco immediately initiate proceedings before the State Railroad Commission for the lowering of electrical rates in the City and County of San Francisco; and be it

Further Resolved, That the City Attorney be instructed to take all necessary steps diligently to prosecute said proceedings to the end that the people of this City and County shall secure an equitable rate for electricity purchased by them from the private corporations above named.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Journal Corrections.

Supervisor Colman presented:

Resolution No. 24006 (New Series), as follows:

Whereas, in the minutes of the proceedings of this Board in the matter of the proposed Duboce tunnel project, pursuant to Resolution of Intention No. 20003 (New Series), approved June 3, 1922, certain clerical errors appear; now, therefore, in order to correct said clerical mistakes, so as to make the minutes speak the truth and correctly set forth said proceedings,

Resolved, 1. That the minutes of the proceedings of this Board of February 26, 1923, in said matter (Volume 18, New Series, No. 9, page 164) be amended by striking out the words "Supervisor Mulvihill moved to continue hearing three weeks" and by inserting in lieu thereof "Supervisor Mulvihill moved to continue the hearing to March 19, 1923, at 3 p. m."

2. That the minutes of the proceedings of this Board of March 19, 1923, in said matter (Volume 18, New Series, No. 12, page 245) be amended by adding to the words "Supervisor McGregor moved to postpone action for four weeks, April 16," the words: "1923, at 3 p. m."

3. That the minutes of the proceedings of this Board of April 16, 1923, in said matter (Volume 18, New Series, No. 16, page 350) be amended by adding to the words "Supervisor Wetmore thereupon moved to amend the motion postponing action four weeks" the following words: "to May 14, 1923, at 3 p. m."

4. That the minutes of the proceedings of this Board of May 14, 1923, in said matter (Volume 18, New Series, No. 20, page 486) be amended by inserting after the words "thereupon action was deferred three months, August 13," the following words: "1923, at 3 p. m."

5. That the minutes of the proceedings of this Board of August 13, 1923, in said matter (Volume 18, New Series, Nos. 32 and 33, page 860) be amended by inserting after the words "Supervisor Shannon moved that the consideration of the Duboce tunnel resolution and the City Engineer's report on the Eureka Valley route be continued until the next meeting, at 3 p. m.," the following words: "August 20, 1923." And by inserting after the words "Supervisor Rossi moved as an amendment" the following words "to add thereto."

6. That the minutes of the proceedings of this Board of July 7, 1924, in said matter (Volume 19, New Series, No. 25, page 788) be amended by striking out the words "On motion duly made and carried the foregoing matter was continued

until October 7, 1924," and by inserting in lieu thereof: "On motion duly made and carried the foregoing matter was continued until October 6, 1924, at 2 p. m."

7. That the minutes of the proceedings of this Board of January 12, 1925, in said matter (Volume 20, New Series, No. 2, page 40) be amended by striking out the words "On motion of Supervisor Colman the following matters were laid over four weeks (February 9), to-wit:" and by inserting in lieu thereof "On motion of Supervisor Colman the following matters were laid over to February 9, 1925, at 2 p. m."

Adopted under suspension of the rules by the following vote:

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Passed for Printing.

The following was presented by Supervisor McLeran and passed for printing:

Amendment to Building Law, Steel Construction.

Bill No. 7116, Ordinance No. — (New Series), as follows:

An ordinance amending Sections 48 and 49, and repealing Sections 50 and 85 of Ordinance No. 1008 (New Series), known as the "Building Law," approved December 22, 1909, all of which sections relate to steel construction in buildings and the allowable unit stresses therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That Section 48 of Ordinance No. 1008 (New Series) is hereby amended to read as follows:

Section 48. *Allowable Stresses.* All parts of the structure shall be so proportioned that the sum of the maximum static stresses in pounds per square inch shall not exceed the following:

(a) Tension. Rolled steel, on net section, 18,000.

Cast steel, on net section, 16,000.

(b) Compression. Rolled steel, on short lengths or where lateral deflection is prevented, 18,000.

Cast steel, 16,000.

On gross section of columns,

18,000

12

1 + —

18,000 r^2

with a maximum of 15,000.

In which l is the unsupported length of the column and r is the corresponding least radius of gyration of the section, both in inches.

For main compression the ratio l/r shall not exceed 120, and for bracing and other secondary members, 200.

(c) Bending. On extreme fibres of rolled shapes, and built up sections, net section, if lateral deflection is prevented, 18,000.

When the unsupported length l exceeds 15 times b , the width of the compression flange, the stress in pounds per square inch in the latter shall not exceed

$$1 + \frac{20,000}{2,000b^2}$$

The laterally unsupported length of beams and girders shall not exceed 40 times b , the width of the compression flange.

On extreme fibres of pins, when the forces are assumed as acting at the center of gravity of the pieces, 27,000.

(d) Shearing. On pins, 13,500.

On power-driven rivets, 13,500.

On turned bolts in reamed holes with a clearance of not more than 1-50 of an inch, 13,500.

On hand-driven rivets, 10,000.

On unfinished bolts, 10,000.

On the gross area of the webs of beams and girders, where h , the height between flanges in inches, is not more than 60 times t , the thickness of the web in inches, 12,000.

On the gross area of the webs of beams and girders if the web is not stiffened where h , the height between flanges in inches, is more than 60 times t , the thickness of the web, the maximum shear per square inch,

$$1 + \frac{\frac{S}{A} \cdot h^2}{7,200t^2}$$

shall not exceed

In which S is the total shear and A is gross area of web in square inches.

(e) Bearing. On pine (double shear) 30,000, (single shear) 24,000.

On power-driven rivets (double shear) 30,000, (single shear) 24,000.

On turned bolts in reamed holes (double shear) 30,000, (single shear) 24,000.

On hand-driven rivets (double shear) 20,000, (single shear) 16,000.

On unfinished bolts (double shear) 20,000 (single shear) 16,000.

On expansion rollers per lineal inch 600 times the diameter of the roller in inches.

Beams and Girders.

(a) Rolled beams shall be proportioned by the moment of inertia of their net section. Plate girders with webs fully spliced for tension and compression shall be so proportioned that the unit stress on the net section does not exceed the stresses specified as determined by the moment of inertia of the net section.

(b) Plate girder webs shall have a thickness of not less than 1-160 of the unsupported distance between the flanges.

(c) Web splices shall consist of a plate on each side of the web capable of transmitting the full stress through the splice rivets.

(d) Stiffeners. Stiffeners shall be required on the webs of rolled beams and plate girders at the ends and at points of concentrated loads, and at other points where h , the clear distance between flanges, is

greater than $85t\sqrt{18,000(A/S)}-1$, in which t is the thickness of the web. When stiffeners are required, the distance in inches between them shall not be greater than

$85t\sqrt{18,000(A/S)}-1$, or not greater than 6 feet. When h is greater than 60 times t , the thickness of the web of a plate girder, stiffeners shall be required at distances not greater than 6 feet apart. Stiffeners under or over concentrated loads shall be proportioned to distribute such loads into the web.

Plate girder stiffeners shall generally be in pairs, one on each side of the web, and shall have a close bearing against the flange angles at points of concentrated loading; stiffeners over the end bearings shall be on plate fillers. The pitch of rivet in stiffeners shall not exceed 6 inches.

(e) Flange plates of all girders shall be limited in width so as not to extend more than 6 inches or more than 12 times the thickness of thinnest plate beyond the outer row of rivets connecting them to the angles.

(f) Crane runway girders and the supporting framework shall be proportioned to resist the greatest horizontal stresses caused by the operation of the cranes.

(g) Rivets connecting the flanges to the web at points of direct load on the flange between stiffeners shall be proportioned to carry the resultant of the longitudinal and transverse shears.

(h) Rivets connecting the flanges

to the webs of plate girders and of columns subjected to bending shall be so spaced as to carry the increment of the flange stress between the rivets.

Section 2. That Section 49 of Ordinance No. 1008 (New Series) is hereby amended to read as follows:

Section 49. *Eccentric Loading.* Full provision shall be made for stresses caused by eccentric loads.

Combined Stresses.

(a) Members subject to both direct and bending stresses shall be so proportioned that the greatest combined stresses shall not exceed the allowed limits.

(b) All members and their connections which are subject to stresses of both tension and compression due to the action of live loads shall be designed to sustain stress giving the largest section, with 50 per cent of the smaller stress added to it. If the reversal of stress is due to the action of wind, the member shall be designed for the stress giving the largest section and the connection proportioned for the largest stress.

Section 3. That Sections 50 and 85 of Ordinance No. 1008 (New Series) be and the same are hereby repealed.

N. S. G. W. Requested to Hold Next Admission Day Celebration in San Francisco.

Supervisor Rossi presented:

Resolution No. 24013 (New Series), as follows:

Resolved, That the Mayor be requested to extend an invitation to the Grand Parlor of the Native Sons of the Golden West to hold its next 9th of September Admission Day

celebration in San Francisco and to participate in celebrating California's Diamond Jubilee.

Adopted under suspension of the rules by the following vote:

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Employment of Theo. Savage, Attorney, in Matter of Duboce Tunnel.

Supervisor Colman presented and moved its adoption:

Resolution No. — (New Series), as follows:

Resolved, That the City Attorney be and he is hereby authorized to employ Theodore J. Savage to assist in any and all matters connected with the proposed Duboce tunnel, including any suits or actions which are or may be brought affecting such proceedings.

Objection being offered by Supervisor McSheehy, the foregoing was referred to the Finance Committee.

Relative to Condemnation of Land at Bryant and York Streets for Car Barn.

F. McDonald, representing Mr. Monson, addressed the Board in re condemnation of latter's property for car barn purposes at Bryant and York streets.

Supervisor Shannon declared that the matter was pending in Public Utilities Committee.

ADJOURNMENT.

There being no further business the Board at 8 p. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors June 15, 1925.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated, and approved as above recited.

Relative to Bay Bridges.

The following was presented, read by the Clerk and on motion of Supervisor Welch ordered *spread in the Journal*:

San Francisco, Cal.,

May 8, 1925.

Secretary of War, Washington, D. C.

Recent publications quote War Department in re proposed bridge or bridges connecting San Francisco with Alameda County. Reference particular to letter to Business Manager Hickock of Alameda. Applications for franchise are pending before San Francisco Board of Supervisors. Will you please send immediately latest War Department announcements re said bridges.

J. S. DUNNIGAN,

Clerk.

War Department, office of the Chief of Engineers, Washington.

Refer to File No. 6371 (San Francisco Bay)—5.

Mr. J. S. Dunnigan, Clerk, San Francisco Board of Supervisors, San Francisco, California.

1. The receipt is acknowledged by reference from the Secretary of War of your telegram of the 8th instant, relative to proposed bridge or bridges connecting San Francisco with Alameda County.

2. In reply I would inform you that this matter has received extensive and careful consideration. The need of a more expeditious crossing between Oakland and San Francisco than that afforded by the present ferry system is recognized, but in view of the commercial and naval importance of that section of San Francisco Bay which would be affected by such a crossing, and of the constant menace to life and property that would be created by any bridge over that section, it is the decision of the department that its policy on the subject must stand as heretofore announced, namely:

(1) That no bridge of any kind will be approved north of Hunter's Point.

(2) That no low bridge will be approved north of San Mateo.

(3) That a tunnel crossing the bay will be approved in any location, provided that the highest part of the structure is placed at least 50 feet below mean lower low water and proper compensation is made for obstruction of cross-section as affecting tidal flow.

(4) That a combined bridge and tunnel will be approved at a location south of the proposed Alameda Naval Base site, provided that the tunnel is so placed as to leave the channel along the San Francisco side unobstructed to a depth of 50 feet at mean lower low water for a width of 3000 feet measured from

the nearest point of the pierhead line, and provided that proper compensation is made for obstruction of cross-section as affecting tidal flow.

(5) That not more than one crossing will be approved at present in any location north of San Mateo.

Very respectfully,
(Signed) EDGAR JADWIN,
Brig. Gen., C. of E.,
Acting Chief of Engineers.

PRESENTATION OF PROPOSALS.

(Proposal No. 122.)

Proposals for steel lockers for School Department received as follows:

1. Geo. H. Trask, Bank of Italy, \$155.

2. Worley & Co., Mercantile Trust Co., \$155.

3. Berger Manufacturing Co., Crocker, \$200.

4. C. J. Waterhouse & Sons Co., American, \$157.50.

5. Walter B. Lomax; no check.

Referred to Supplies Committee.

HEARING—2 P. M.

Forty-eighth Avenue.

Hearing of protests in matter of improvement of Forty-eighth avenue between north line of Lawton street and south line of Ortega street, and Ortega street between Forty-eighth avenue and the Great Highway, fixed for 2 p. m.

The following was presented by Supervisor Harrelson and *adopted*: Resolution No. 24016 (New Series), as follows:

Resolved, that the appeal of property owners from the assessment issued by the Board of Public Works on March 23, 1925, for the improvement of Forty-eighth avenue between north line of Lawton street and south line of Ortega street, and Ortega street between Forty-eighth avenue and the Great Highway, be and the same is hereby sustained and the Board of Public Works is hereby directed to issue a new assessment.

Ayes: Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLaren, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Action Deferrec.

The following matters were on motion of Supervisor Harrelson continued until 2 p. m., Monday May 25, 1925:

HEARING—2 P. M.

Consideration of application of Bay Cities Bridge Corporation.

Notice of application for franchise to construct, operate and maintain a toll bridge across San

Francisco Bay between the City and County of San Francisco and the County of Alameda, in the State of California.

Notice is hereby given by Bay Cities Bridge Corporation, a corporation, that it will apply to the Honorable Board of Supervisors of the City and County of San Francisco, State of California, on Monday, the 6th day of April, 1925, at the hour of 2 o'clock p. m. of said day, at the meeting place of said Board, in the City Hall, located in said City and County of San Francisco, for a franchise and/or authority to erect, construct, maintain and operate a toll bridge and the right, permission and authority to take tolls thereon for a period of fifty years after the date of the granting of said franchise and/or said authority; that the said bridge is to be located along the following described line, to-wit:

Beginning at the intersection of the center line of Sixteenth street with the center line of Third (Kentucky) street, in the City and County of San Francisco, and extending thence easterly along the center line of Sixteenth street to the water front line; thence easterly along a straight line to a point on the center line of Pacific avenue, in the City of Alameda, Alameda County, which point is (100) one hundred feet westerly from the intersection of said center line of Pacific avenue with the center line of Bryant street.

That the length of said bridge is 27,750 feet; that the width of the roadway on said bridge is 38 feet.

BAY CITIES BRIDGE CORPORATION,

By A. O. STEWART,
President.

Consideration of application of Charles Brennan for a franchise to construct, operate and maintain a toll-bridge across San Francisco Bay between San Francisco and Alameda.

SET-BACK LINE HEARING—2 P. M.

Hearing of objections to the establishment of set-back lines along portions of Thirty-second avenue, Fifteenth avenue, Edgar avenue, and Bruce avenue, fixed for 2 p. m. this day:

No objection being offered the following bill was passed for printing:

Bill No. 7117, Ordinance No. — (New Series), as follows:

Establishing set-back lines along portions of Thirty-second avenue, Fifteenth avenue, Edgar avenue and Bruce avenue.

Be it ordained by the People of

the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 20th day of April, 1925, the Board of Supervisors adopted Resolution of Intention No. 84 to establish set-back lines along Thirty-second avenue, Fifteenth avenue, Edgar avenue and Bruce avenue, and fixed the 18th day of May, 1925, at 2 o'clock p. m., at the chambers of the Board of Supervisors as the time and place for hearing objections thereto; that thereafter and more than ten days prior to said hearing the said resolution was published and notices of the passage of said resolution were posted along the line of said streets, in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals, and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along the westerly side of Thirty-second avenue, commencing at Vicente street and running thence northerly to a point 75 feet southerly from Ulloa street, said set-back line to be 12 feet; along the easterly side of Thirty-second avenue between Vicente street and Ulloa street, said set-back line to be 12 feet.

Along the westerly side of Fifteenth avenue between Pacheco street and Quintara street, said set-back line to be 10 feet.

Along the westerly side of Fifteenth avenue, commencing at Kirkham street and running thence northerly 325 feet, said set-back line to be 18 feet; thence northerly 25 feet, said set-back line to be 13½ feet; thence northerly 25 feet, said set-back line to be 9 feet; thence northerly 25 feet, said set-back line to be 4½ feet; along the easterly side of Fifteenth avenue, commencing at Kirkham street and running thence northerly 329 feet 5½ inches, said set-back line to be 18 feet; thence northerly 27 feet, said set-back line to be 9 feet.

Along the westerly side of Edgar avenue, commencing at a point 100 feet southerly from Bruce avenue and running thence southerly 375 feet, said set-back line to be 10 feet; along the easterly side of Edgar avenue, commencing at a point 100 feet southerly from Bruce avenue and running thence southerly 272

feet 4 inches, said set-back line to be 9 feet.

Along the northerly side of Bruce avenue, commencing at a point 100 feet easterly from Harold avenue and running thence easterly 426 feet 4½ inches, said set-back line to be 8 feet; along the southerly side of Bruce avenue, commencing at Edgar avenue and running thence easterly 212.20 feet, said set-back line to be 10 feet.

As shown on the maps filed in the office of the Board of Supervisors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines, except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Action Deferred.

The following matter was *continued for one week*:

SET-BACK LINE HEARING—2 P. M.

Hearing of objections to the establishment of set-back lines along portions of Tenth avenue, Sears street, Detroit street, Foerster street and Genesee street, fixed for 2 p. m. this day.

Bill No. —, Ordinance No. — (New Series), as follows:

Establishing set-back lines along portions of Tenth avenue, Sears street, Detroit street, Foerster street and Genesee street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 20th day of April, 1925, the Board of Supervisors adopted Resolution of Intention No. 85 to establish set-back lines along Tenth avenue, Sears street, Detroit street, Foerster street and Genesee street, and fixed the 18th day of May, 1925, at 2 o'clock p. m. at the chambers of the Board of Supervisors as the time and place for hearing objections thereto; that thereafter and more than ten days prior to said hearing the said resolution was published and notices of the passage of said resolution were posted along the line of said streets, in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along the westerly side of Tenth avenue, commencing at a point 125 feet northerly from Lawton street and running thence northerly to a point 100 feet southerly from Kirkham street, said set-back line to be 10 feet.

Along the northwesterly side of Sears street, commencing at a point 105 feet northeasterly from Sickels avenue and running thence north-easterly to Lawrence avenue, said set-back line to be 18 feet.

Along the westerly side of Detroit street, commencing at a point 100 feet northerly from Judson avenue and running thence northerly to Staples avenue, said set-back line to be 10½ feet; along the easterly side of Detroit street between Judson avenue and Staples avenue, said set-back line to be 10½ feet.

Along the westerly side of Foerster street between Judson avenue and Staples avenue, said set-back line to be 12 feet; along the easterly side of Foerster avenue between Judson avenue and Staples avenue, said set-back line to be 10 feet.

Along the westerly side of Genesee street between Staples avenue and Flood avenue, said set-back line to be 13½ feet; along the easterly side of Genesee street northerly from Staples avenue and running thence northerly to Flood avenue, said set-back line to be 7 feet.

As shown on the maps filed in the office of the Board of Supervisors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Confirmation of Sale of City Lands.

Bill No. 7105, Ordinance No. 6628 (New Series), as follows:

Confirming the sale of land owned by the City and County of San Francisco.

Whereas, by Ordinance No. 6530 (New Series), approved March 11, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction to be held on Monday, April 6, 1925, and directed that notice of said sale be given for three weeks successively next before the sale as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale

was directed to be made, describing the land to be sold therein with common certainty and stating the date on which said sale would be made, as specified in Ordinance No. 6530 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on Monday, April 6, 1925; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisalment constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisalment of said land and fixed the fair value thereof at the sum of \$28,000, and reported said appraisalment to the Board of Supervisors in writing; and

Whereas, thereafter, and on the 6th day of April, 1925, at public auction, the Mayor sold said property to Geo. M. Nave for the sum of \$33,500, and accepted from said Geo. M. Nave a deposit in the amount of \$5,000, being ten per cent or more of the amount bid, and thereafter and at the next meeting of the Board of Supervisors, April 13, 1925, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 16th day of April, 1925, that at a meeting of the Board of Supervisors to be held on the 11th day of May, 1925, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 11th day of May, 1925, an offer of ten per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to such person, or order a new sale; and

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has not been obtained, and it appearing to the Board of Supervisors that the sum of thirty-three thousand five hundred (\$33,500) dollars bid as aforesaid by Geo. M. Nave is not dis-

proportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to Geo. M. Nave for the sum of thirty-three thousand five hundred (\$33,500) dollars is hereby ratified, approved and confirmed and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to Geo. M. Nave all the right, title and interest of the City and County in and to the land sold as aforesaid, and more particularly described as follows, to-wit:

Commencing at a point on the northerly line of Jackson street, distant thereon 137 feet 6 inches westerly from the westerly line of Scott street, thence running westerly along said northerly line of Jackson street 137 feet 6 inches; thence at right angles northerly 127 feet $8\frac{1}{4}$ inches; thence at right angles easterly 137 feet 6 inches; thence at right angles southerly 127 feet $8\frac{1}{4}$ inches to the northerly line of Jackson street and point of commencement; being a portion of Western Addition Block No. 465, also known as Lot 5, Block 978, on Assessor's Map Book.

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Confirmation of Sale of City Lands.

Bill No. 7106. Ordinance No. 6629 (New Series), as follows:

Confirming the sale of land owned by the City and County of San Francisco.

Whereas, by Ordinance No. 6530 (New Series), approved March 11, 1925, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described, and by said ordinance directed the Mayor of the City and County to sell all of the land at public auction to be held on Monday, April 6, 1925, and directed that notice of said sale be given for three weeks successively

next before the sale, as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on which said sale would be made, as specified in Ordinance No. 6530 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on Monday, April 6, 1925; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisalment constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisalment of said land and fixed the fair value thereof at the sum of \$23,000, and reported said appraisalment to the Board of Supervisors in writing; and

Whereas, thereafter, and on the 6th day of April, 1925, at public auction, the Mayor sold said property to Annunciata Sanguinetti for the sum of \$23,500 and accepted from said Annunciata Sanguinetti a deposit in the amount of \$3,000, being ten per cent or more of the amount bid, and thereafter and at the next meeting of the Board of Supervisors, April 13, 1925, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder, and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 16th day of April, 1925, that at a meeting of the Board of Supervisors to be held on the 11th day of May, 1925, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 11th day of May, 1925, an offer of ten per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to

such person, or order a new sale; and

Whereas, the date of confirmation specified in said notice has now arrived and a higher bid has been obtained from W. H. Leahy in the sum of thirty thousand six hundred (\$30,600) dollars, said sum being more than 10 per cent of the amount heretofore bid by the said Annunziata Sanguinetti, and it appearing to the Board of Supervisors that the sum of thirty thousand six hundred (\$30,600) dollars bid as aforesaid by W. H. Leahy is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That said sale of the said land hereinafter described to W. H. Leahy for the sum of thirty thousand six hundred (\$30,600) dollars is hereby ratified, approved and confirmed and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to W. H. Leahy all the right, title and interest of the City and County in and to the land sold as aforesaid, and more particularly described as follows, to-wit:

Commencing at a point on the easterly line of Powell street, distant thereon 68 feet 9 inches southerly from the southerly line of Clay street, thence running southerly along said easterly line of Powell street 68 feet 9 inches; thence at right angles easterly 137 feet 6 inches; thence at right angles northerly 137 feet 6 inches to the southerly line of Clay street; thence at right angles westerly along said southerly line of Clay street 26 feet 2 inches; thence at right angles southerly 75 feet; thence at right angles westerly 52 feet 4 inches; thence at right angles northerly 6 feet 3 inches; thence at right angles westerly 59 feet to the easterly line of Powell street and point of commencement; being a portion of 50 Vara Block No. 137, also known as Lots 18 and 22, Block 224, on the Assessor's Map Book.

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of purchase price as aforesaid.

Section 3. This ordinance shall take effect immediately.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That Section 48 of Ordinance No. 1008 (New Series) is hereby amended to read as follows:

Section 48. *Allowable Stresses.* All parts of the structure shall be so proportioned that the sum of the maximum static stresses in pounds per square inch shall not exceed the following:

(a) Tension. Rolled steel, on net section, 18,000.

Cast steel, on net section, 16,000.

(b) Compression. Rolled steel,

on short lengths or where lateral deflection is prevented, 18,000.

Cast steel, 16,000.

On gross section of columns,

18,000

$$1 + \frac{l^2}{18,000r^2}$$

with a maximum of 15,000.

In which l is the unsupported length of the column and r is the corresponding least radius of gyration of the section, both in inches.

For main compression the ratio l/r shall not exceed 120, and for bracing and other secondary members, 200.

(c) Bending. On extreme fibres of rolled shapes, and built up sections, net section, if lateral deflection is prevented, 18,000.

When the unsupported length l exceeds 15 times b , the width of the compression flange, the stress in pounds per square inch in the latter shall not exceed

$$20,000 - \frac{l^2}{2,000b^2}$$

The laterally unsupported length of beams and girders shall not exceed 40 times b , the width of the compression flange.

On extreme fibres of pins, when the forces are assumed as acting at the center of gravity of the pieces, 27,000.

(d) Shearing. On pins, 13,500.

On power-driven rivets, 13,500.

On turned bolts in reamed holes with a clearance of not more than 1-50 of an inch, 13,500.

On hand-driven rivets, 10,000.

On unfinished bolts, 10,000.

On the gross area of the webs of beams and girders, where h , the height between flanges in inches, is not more than 60 times t , the thickness of the web in inches, 12,000.

On the gross area of the webs of beams and girders if the web is not stiffened where h , the height between flanges in inches, is more than 60 times t , the thickness of the web, the maximum shear per square inch,

$$\frac{S}{A} \text{ shall not exceed } \frac{18,000}{h^2}$$

$$1 + \frac{7,200t^2}{h^2}$$

In which S is the total shear and A is gross area of web in square inches.

(e) Bearing. On pine (double shear) 30,000, (single shear) 24,000.

On power-driven rivets (double shear) 30,000, (single shear) 24,000.

On turned bolts in reamed holes (double shear) 30,000, (single shear) 24,000.

On hand-driven rivets (double shear) 20,000, (single shear) 16,000.

On unfinished bolts (double shear) 20,000 (single shear) 16,000.

On expansion rollers per lineal inch 600 times the diameter of the roller in inches.

Beams and Girders.

(a) Rolled beams shall be proportioned by the moment of inertia of their net section. Plate girders with webs fully spliced for tension and compression shall be so proportioned that the unit stress on the net section does not exceed the stresses specified as determined by the moment of inertia of the net section.

(b) Plate girder webs shall have a thickness of not less than 1-160 of the unsupported distance between the flanges.

(c) Web splices shall consist of a plate on each side of the web capable of transmitting the full stress through the splice rivets.

(d) Stiffeners. Stiffeners shall be required on the webs of rolled beams and plate girders at the ends and at points of concentrated loads, and at other points where h , the clear distance between flanges, is

greater than $85t\sqrt{18,000 (A/S)}-1$, in which t is the thickness of the web. When stiffeners are required, the distance in inches between them shall not be greater than

$85t\sqrt{18,000 (A/S)}-1$, or not greater than 6 feet. When h is greater than 60 times t , the thickness of the web of a plate girder, stiffeners shall be required at distances not greater than 6 feet apart. Stiffeners under or over concentrated loads shall be proportioned to distribute such loads into the web.

Plate girder stiffeners shall generally be in pairs, one on each side of the web, and shall have a close bearing against the flange angles at points of concentrated loading; stiffeners over the end bearings shall be on plate fillers. The pitch of rivet in stiffeners shall not exceed 6 inches.

(e) Flange plates of all girders shall be limited in width so as not to extend more than 6 inches or more than 12 times the thickness of thinnest plate beyond the outer row of rivets connecting them to the angles.

(f) Crane runway girders and the supporting framework shall be proportioned to resist the greatest

horizontal stresses caused by the operation of the cranes.

(g) Rivets connecting the flanges to the web at points of direct load on the flange between stiffeners shall be proportioned to carry the resultant of the longitudinal and transverse shears.

(h) Rivets connecting the flanges to the webs of plate girders and of columns subjected to bending shall be so spaced as to carry the increment of the flange stress between the rivets.

Section 2. That Section 49 of Ordinance No. 1008 (New Series) is hereby amended to read as follows:

Section 49. *Eccentric Loading.* Full provision shall be made for stresses caused by eccentric loads.

Combined Stresses.

(a) Members subject to both direct and bending stresses shall be so proportioned that the greatest combined stresses shall not exceed the allowed limits.

(b) All members and their connections which are subject to stresses of both tension and compression due to the action of live loads shall be designed to sustain stress giving the largest section, with 50 per cent of the smaller stress added to it. If the reversal of stress is due to the action of wind, the member shall be designed for the stress giving the largest section and the connection proportioned for the largest stress.

Section 3. That Sections 50 and 85 of Ordinance No. 1008 (New Series) be and the same are hereby repealed.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Ordering Street Work.

Bill No. 7111, Ordinance No. 6635 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco approving and adopting specifications therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors May 7, 1925, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City and County of San Francisco.

said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

That said Board of Supervisors, pursuant to the provisions of Part II of the said Street Improvement Ordinance of 1918 of said City and County of San Francisco, does hereby determine and declare that the assessment to be imposed for the said contemplated improvements, respectively, may be paid in twenty installments; that the period of time after the payment of the first installment when each of the succeeding installments must be paid is to be six months from the time of the payment of the preceding installment, and that the rate of interest to be charged on all deferred payments shall be seven per centum per annum.

The improvement of *Avalon avenue between the easterly line of Edinburgh street and the westerly line of Naples street, and between the easterly line of Naples street and the easterly line of Vienna street, including the crossing of Avalon avenue and Vienna street*, by grading to official line and grade; by the construction of concrete curbs; by the construction of artificial stone sidewalks on the angular corners of Avalon avenue and Vienna street; by the construction of 3 brick catchbasins with appurtenances and 10-inch ironstone pipe culverts on the crossing of Avalon avenue and Vienna street; by the construction of a concrete pavement between Edinburgh street and Naples street, and by the construction of an asphaltic concrete pavement on the remainder of the roadways thereof.

Section 2. This ordinance shall take effect immediately.

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Bill No. 7112 Ordinance No. 6636 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication

filed in the office of the Clerk of the Board of Supervisors May 5, 1925, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

That said Board of Supervisors, pursuant to the provisions of Part II of the said Street Improvement Ordinance of 1918 of said City and County of San Francisco, does hereby determine and declare that the assessment to be imposed for the said contemplated improvements, respectively, may be paid in ten installments; that the period of time after the payment of the first installment when each of the succeeding installments must be paid is to be one year from the time of the payment of the preceding installment, and that the rate of interest to be charged on all deferred payments shall be seven per centum per annum.

The improvement of the *crossing of Hollister avenue and Jennings street*, by grading to official line and grade; by the construction of concrete curbs; by the construction of artificial stone sidewalks on the angular corners; by the construction of 3 brick catchbasins with 10-inch ironstone pipe culverts, and by the construction of an asphaltic concrete pavement on the roadways thereof; and the improvement of the following portions of Hollister avenue between Jennings street and Third street: On the northerly one-half of Hollister avenue from a line 25 feet westerly from and parallel with Jennings street to a line 100 feet westerly from and parallel with Jennings street and from a line 350 feet westerly from and parallel with Jennings street to a line 425 feet westerly from and parallel with Jennings street; on the southerly one-half of Hollister avenue from a line 375 feet westerly from and parallel with Jennings street to the easterly line of Third street, by the construction of concrete curbs, and by the construction of an asphaltic concrete pavement on the roadway thereof.

Section 2. This ordinance shall take effect immediately.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Bill No. 7113, Ordinance No. 6637 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors May 5, 1925, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works and to be done in accordance with the specifications prepared therefor by said Board of Public Works and on file in its office, which said plans and specifications are hereby approved and adopted.

Conditional Acceptance, Burrows Street.

Bill No. 7115, Ordinance No. 6639 (New Series), as follows:

Providing for conditional acceptance of the roadway of Burrows street between Somerset street and Goettingen street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The roadways of the following named streets, including the curbs on both sides thereof, having been constructed to the satisfaction of the Board of Public Works, and of the Board of Supervisors, are hereby conditionally accepted by the City and County of San Francisco (except those portions required by law to be kept in order by the railroad company having tracks thereon), in accordance with the provisions of Section 23, Chapter 2, Article VI, of the Charter, said roadways having been paved with asphaltic concrete pavement and concrete curbs laid thereon, and are in good condition throughout, to-wit:

Burrows street between Somerset street and Goettingen street, paved with asphaltic concrete pavement and concrete curbs have been laid thereon, sewers and gas mains have been laid therein; no water mains have been laid therein, same not being necessary.

Section 2. This ordinance shall take effect immediately.

NEW BUSINESS.

Passed for Printing.

The following matters were *passed for printing*:

Authorizations.

On motion of Supervisor McLeran:

Resolution No. — (New Series), as follows:

Resolved, That the following amounts be and the same are hereby authorized to be expended out of the hereinafter mentioned funds in payment to the following named claimants, to-wit:

Water Construction Fund, Bond Issue 1910.

(1) Associated Oil Co., fuel oil, Hetch Hetchy construction (claim dated May 8, 1925), \$601.27.

(2) M. M. Shaughnessy, revolving fund expenditures, per vouchers (claim dated May 8, 1925), \$693.53.

(3) Robert M. Searls, traveling and litigation expense, Hetch Hetchy construction (claim dated May 8, 1925), \$529.45.

(4) Edw. L. Soule Co., corrugated iron bars (claim dated May 8, 1925), \$2,622.32.

(5) J. W. Carpenter, first payment for construction of wood cover over portions of bay crossing pipe line (claim dated May 9, 1925), \$2 251.40.

(6) Healy-Tibbitts Construction Co., sixth payment, construction of submarine pipe line at Dumbarton Strait and Newark Slough (claim dated May 8, 1925), \$5,668.66.

(7) Associated Oil Co., fuel oil (claim dated May 12, 1925), \$1-204.47.

(8) J. Meyers & Co., meats (claim dated May 12, 1925), \$772.72.

(9) Miller & Lux Inc., meats (claim dated May 12, 1925), \$1-261.42.

(10) Old Mission Portland Cement Co., cement (claim dated May 12, 1925), \$1,131.

(11) M. M. O'Shaughnessy, revolving fund expenditures, per vouchers (claim dated May 12, 1925), \$1,061.32.

Hetch Hetchy Operative Revenue Fund.

(12) John J. Dailey, legal services as Special Counsel for City and County as per contract of employment under Resolution No. 22251

(New Series) (claim dated May 13, 1925), \$850.

(13) N. Randall Ellis, engineering services in valuation of electric properties in San Francisco, including expenses incurred (claim dated May 13, 1925), \$760.50.

(14) H. G. Butler, legal services in connection with severance damage report, for April, at \$750, and \$61.20 expenses incurred (claim dated May 13, 1925), \$811.20.

Municipal Railway Fund.

(15) Hancock Bros., printing railway tickets and transfers (claim dated May 11, 1925), \$1,629.

(16) Blake, Moffitt & Towne, trolley cord, etc. (claim dated May 11, 1925), \$790.94.

(17) San Francisco City Employees' Retirement System, for pensions, etc. (claim dated May 7, 1925), \$6,300.72.

Municipal Railway Compensation Insurance Fund.

(18) San Francisco City Employees' Retirement System, for pensions, prior service (claim dated May 8, 1925), \$1,719.37.

Municipal Railway Depreciation Fund.

(19) Eaton & Smith, first payment, construction of Ocean View line. Municipal Railway system (claim dated May 11, 1925), \$6,900.

(20) Vukicevich & Bagge, sixth payment, construction of second story to Municipal Railway car barn, Seventeenth street (claim dated May 11, 1925), \$9,000.

(21) Lawrence Higuera, compromise settlement for personal injuries and property damage sustained through Municipal Railways, March 13, 1925 (claim dated May 12, 1925), \$1,000.

Relief Home Construction Fund.

Bond Issue 1923.

(22) John Reid, Jr., eighth payment, architectural services on buildings for use of Relief Home (claim dated May 13, 1925), \$1,677.13.

School Construction Fund. Bond Issue 1923.

(23) John Reid, Jr., thirteenth payment, architectural services on addition to High School of Commerce (claim dated May 13, 1925), \$611.69.

(24) John Reid, Jr., first payment, architectural services on addition to Bret Harte School (claim dated May 13, 1925), \$1,080.

Kezar Memorial Stadium Request Fund.

(25) Coast Construction Co. assigned to Provident Security Corporation of San Francisco, first payment. Kezar Memorial Stadium construction (claim dated May 15, 1925), \$9,773.27.

General Fund, 1924-1925.

(26) Albertinum Orphanage, maintenance of minors (claim dated May 11, 1925), \$1,518.81.

(27) Roman Catholic Orphanage, maintenance of minors (claim dated May 11, 1925), \$3,871.71.

(28) St. Vincent's School, maintenance of minors (claim dated May 11, 1925), \$2,327.93.

(29) St. Mary's Orphanage, maintenance of minors (claim dated May 11, 1925), \$665.34.

(30) San Francisco Nursery for Homeless Children, maintenance of minors (claim dated May 11, 1925), \$616.71.

(31) San Francisco Nursery for Homeless Children, maintenance of minors (claim dated May 11, 1925), \$508.63.

(32) San Francisco Protestant Orphanage, maintenance of minors (claim dated May 11, 1925), \$769.18.

(33) Boys' Aid Society, maintenance of minors (claim dated May 11, 1925), \$1,339.23.

(34) Little Children's Aid, maintenance of minors (claim dated May 11, 1925), \$10,620.10.

(35) Children's Agency, maintenance of minors (claim dated May 11, 1925), \$23,740.38.

(36) Eureka Benevolent Society, maintenance of minors (claim dated May 11, 1925), \$3,367.18.

(37) St. Catherine's Training Home, maintenance of minors (claim dated May 11, 1925), \$705.85.

(38) The Juvenile Court, expense of the Juvenile Court for month of April, 1925 (claim dated May 12, 1925), \$744.05.

(39) Preston School of Industry, maintenance of inmates, State Schools, for month of February (claim dated May 12, 1925), \$763.56.

(40) Preston School of Industry, maintenance of inmates, State Schools, month of March (claim dated May 12, 1925), \$707.09.

(41) Preston School of Industry, maintenance of inmates, State Schools, month of April (claim dated May 12, 1925), \$726.66.

(42) Whittier State School, maintenance of inmates, State Schools, month of April (claim dated May 12, 1925), \$508.67.

(43) Park Commission, labor furnished for improvement of golf links, Lake Merced (claim dated May 15, 1925), \$7,083.77.

(44) Spring Valley Water Co., water for street sprinkling (claim dated May 11, 1925), \$545.40.

(45) E. C. Moran, improvement of Burrows street between Somerset and Goettingen streets, at City property (claim dated May 11, 1925), \$1,344.

(46) Spring Valley Water Co., water furnished public buildings

(claim dated May 11, 1925), \$1-539.99.

(47) Old Homestead Bakery Inc., bread for San Francisco Hospital (claim dated April 30, 1925), \$1-273.16.

(48) Del Monte Meat Co., meats, San Francisco Hospital (claim dated April 30, 1925), \$2,118.95.

(49) Fred L. Hilmer Co., butter, San Francisco Hospital (claim dated April 30, 1925), \$1,550.25.

(50) L. Scatena & Co., fruits and vegetables, San Francisco Hospital (claim dated April 30, 1925), \$539.54.

(51) Department of Public Works, for labor and materials furnished San Francisco Hospital (claim dated April 27, 1925), \$3,661.40.

(52) Spring Valley Water Co., water service for hospitals (claim dated April 30, 1925), \$1,295.74.

(53) Spring Valley Water Co., water service for Relief Home (claim dated April 30, 1925), \$586.20.

(54) Baumgarten Bros., meats, Relief Home (claim dated April 30, 1925), \$4,026.12.

(55) Haas Bros., groceries, Relief Home (claim dated April 30, 1925), \$569.50.

(56) Fred L. Hilmer Co., butter, Relief Home (claim dated April 30, 1925), \$930.15.

(57) Miller & Lux Inc., meats, Relief Home (claim dated April 30, 1925), \$585.92.

Appropriations, Payments for Properties Purchased for School Purposes.

Also, Resolution No. — (New Series), as follows:

Resolved, That the following amounts be and the same are hereby set aside and appropriated out of School Construction Fund, Bond Issue 1923, and authorized in payment to the hereinafter named persons; being payments for properties required for school purposes, to-wit:

(1) To Francis M. Edwards, for land and improvements on the south line of Twenty-second street, commencing 125 feet west from the west line of Dolores street, running thence westerly on the south line of Twenty-second street 25 feet; of dimensions 25x106 feet; as per acceptance of offer by Resolution No. 23999 (New Series), and required for the Edison School, \$7,700.

(2) To Virginia Post, for land on the east line of Forty-third avenue, commencing 200 feet north from Judah street, running thence north on the east line of Forty-third avenue 25 feet; of dimensions 25x120 feet; as per acceptance of offer by Resolution No. 23995 (New Series), and required for the H. Scott Key School, \$1,350.

(3) To Shafter Realty Company, for land on the west line of Forty-second avenue, commencing 125 feet north from the north line of Judah street, running thence northerly on the west line of Forty-second avenue 50 feet; of dimensions 50x120 feet; as per acceptance of offer by Resolution No. 23994 (New Series), and required for the H. Scott Key School, \$2,700.

(4) To Herbert T. Hogan et al., for land commencing at the point of intersection of the northerly line of Chestnut street and the easterly line of Fillmore street, running thence northerly on the easterly line of Fillmore street 30 feet; of dimensions 30x100 feet; as per acceptance of offer by Resolution No. 23996 (New Series), and required for school purposes, \$4,000.

(5) To Margaret T. Baker, for land on the easterly line of Fillmore street, commencing 30 feet northerly from the northerly line of Chestnut street, running thence northerly on the easterly line of Fillmore street 35 feet; of dimensions 35x100 feet; as per acceptance of offer by Resolution No. 23997 (New Series), and required for school purposes, \$3,300.

Intention to Change Grades.

Supervisor Harrelson presented: Resolution No. 24033 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with Resolution No. 86364 (Second Series) of the Board of Public Works adopted May 8, 1925, and written recommendation of said Board filed May 12, 1925, to-wit:

McLea Court.

275 feet northeasterly from Ninth street, 13 feet.

On McLea court between Ninth street and a line parallel with and 275 feet northeasterly therefrom be changed and established to conform to true gradients between the grade elevations above given and the present official grade of Ninth street at McLea court.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this resolution of intention.

Adopted by the following vote:

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Also, Resolution No. 24034 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with Resolution No. 86362 (Second Series) of the Board of Public Works adopted May 8, 1925, and written recommendation of said Board filed May 12, 1925, to-wit:

Relative to "Round-the-World Tours."

Supervisor Colman presented:

Resolution No. 24040 (New Series), as follows:

Whereas, a statement has been published that the Steamship Companies operating Round-the-World Tours have concluded to omit or are considering the omission of San Francisco from their itinerary, and

Whereas, should such action have been taken or seriously contemplated, the result would deprive tourists of the opportunity of visiting a city possessed of many unique and attractive features, and to deny to our people the privilege of joining the tour at this point, and generally would be inimical to our interests; therefore

Resolved, that the attention of the Chamber of Commerce, Californians Inc., The Convention and Tourist League, Down Town Association and other civic organizations be called to the above matter with a request that they ascertain the authenticity of the statement published and to take such steps in respect thereto as may be proper, in which this Board expresses its willingness to co-operate.

Adopted under suspension of the rules by the following vote:

CONSIDERATION OF THE PROPOSED BUDGET OF MUNICIPAL EXPENDITURES FOR THE FISCAL YEAR 1925-1926.

Supplemental Report of the Finance Committee on Proposed Increase of Teachers' Salaries.

The following was presented by Supervisor McLeran and read by the Clerk:

San Francisco, May 18, 1925.

To the Honorable the Board of Supervisors, San Francisco.

Your Finance Committee herewith presents a supplemental report concerning the estimate for the Common School Fund for 1925-1926, and particularly reports concerning the compensation of teachers, which was referred by the Board to the Committee.

At no time did the Finance Committee oppose the just claim of teachers for an adequate compensation.

The Committee, in preparing its estimates, accepted the recommendations of the Board of Education, and in turn recommended the full amount suggested for the increase of salaries for the teachers. No definite method or amount of increase had been agreed upon by the Board of Education—the only official and legal body charged with fixing the compensation for teachers.

The Board of Education has stated publicly to the Board of Super-

visors, that it will in its best judgment and sense of equity allot to the teachers the amounts appropriated by the Board of Supervisors.

Your Committee is of the opinion that the welfare of the public schools should be our supreme concern. We believe that class-room teachers should be well paid and contented.

In presenting this supplemental report, your Committee has estimated \$400,000 over and above the original recommendation of the Board of Education: This aggregate sum will allow every teacher an increase equivalent to a dollar a day in the next fiscal year.

In order that there may be no misunderstanding, your Finance Committee recommends segregation of the school budget, as follows:

Teachers' compensation, \$5,843,-999.

Janitors and engineers, \$369,000.
Administration and supplies, \$741,528.

Total of \$6,954,447 for educational services, fiscal year 1925-1926.

For the information of the public, the following summary of annual school costs in San Francisco is presented:

Teachers' salaries, 1925-26, \$5,-843,949.

Other school expenses, \$1,110,528.
Special School Tax, for school building fund, \$1,050,000.

Medical inspectors, dentists, school nurses (under control of Board of Health), \$94,920.

Teachers' Retirement Fund, \$265,-000.

Total, \$8,364,397.

In addition to these expenditures may be mentioned \$936,524 for interest and redemption of school bonds for the fiscal year 1925-1926.

These sums referred to demonstrate that the total expenditure for school purposes in San Francisco, as estimated for the proposed Budget, exceed 25 per cent of the total amount proposed in the Budget.

The Finance Committee wishes to reiterate its suggestion, that more economy be exercised by the Board of Education in its expenditures for administration and miscellaneous expenses.

Respectfully submitted,
(Signed) RALPH McLERAN,
(Signed) JOHN A. McGREGOR,
(Signed) ANGELO J. ROSSI,
Finance Committee.

Motion.

Supervisor Roncovieri asked the Chairman of the Finance Committee if the report contained a sufficient amount to grant the teachers the dollar-a-day increase, being answered in the affirmative, he moved that the supplementary report of

the Finance Committee be favorably received and filed.

Motion carried unanimously.

Supervisor McLeran moved that the items of the supplementary report be incorporated in the Budget as submitted.

Supervisor Roncovieri moved that the Budget be taken up seriatim with the understanding that "items voted upon by the people" be taken up first. *So ordered.*

Resolution.

The following resolution was presented by Supervisor Welch and adopted by the following vote:

Resolution No. 24039a (New Series), as follows:

Resolved, That the Board of Education be requested to fix the compensation of janitors and janitresses in the School Department at the same amount as now is paid to such positions by the other departments of the City Government, and that equal pay for equal services be allowed to men and women.

Ayes—Supervisors Badaracco, Bath, Deasy, Harrelson, Hayden, Katz, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Noes—Supervisors Colman, McGregor—2.

BOARD OF EDUCATION.

Amendment Accepted.

Thereupon, *Supervisor Roncovieri* moved as an amendment that there be a segregation as follows:

Item 1075 (576)—Teachers' compensation, \$5,843,949.

1075 (A)—For the conduct, maintenance and operation of the School Department other than for teachers' salaries, \$1,110,528.

Total, \$6,954,477.

Amendment accepted by Supervisor McLeran for Finance Committee.

Amendment Defeated.

Supervisor McSheehy moved as an amendment the following segregation:

1. Common School Fund, \$5,843,000.

2. Janitorial service, engineering, etc., \$413,750.

3. Administration and supplies, \$696,528.

Amendment lost by the following vote:

Ayes—Supervisors Badaracco, Deasy, Katz, McSheehy, Shannon, Welch—6.

Noes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Wetmore—12.

Amendment Approved.

Thereupon, the roll was called and Supervisor Roncovieri's amend-

ment, as follows, was approved by the following vote, to-wit:

Common School Fund—(Appropriations 48 and 48B).

Item 1075 (576)—Teachers' compensation, \$5,843,949.

1075 (A)—For the conduct, maintenance and operation of the School Department, other than for teachers' salaries, \$1,110,528.

Total school, \$6,954,477.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

RECESS.

At 6 p. m. the Board took a recess until 8 p. m.

J. S. DUNNIGAN,
Clerk.

MONDAY, MAY 18, 1925, 8 P. M.

The Board of Supervisors reassembled at 8 p. m. for the purpose of considering the budget of municipal expenditures for the ensuing fiscal year.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Quorum present.

Supervisor Schmitz in the chair.

Motion.

Supervisor McLeran moved that the Budget so far as the School Department is concerned be approved.

SCHOOL BUILDINGS, REPAIRS, ETC.

The following item was taken up:

Item No. 1 (1090 E-1093 E)—(Appropriation 1)—For plans and construction of new school buildings, additions and repairs to existing school buildings, furniture, the purchase of land for school purposes, a special tax on each one hundred dollars of assessed valuation to produce, \$1,050,000.

Privilege of the Floor.

Daniel C. Murphy, member of the Board of Education, being present, was called upon to address the Board on the appropriation of the School Department. He spoke of the increasing and urgent demands for school facilities by reason of the compulsory education law, domestic science courses, physical and recrea-

tion activities of the School Department, adequate provision for which had been halted and deferred by reason of the World War, and which necessitated at this time large appropriations to cover the accumulated delays occasioned thereby.

He declared that it was thoroughly understood between the Board of Education and the Finance Committee at the time the \$12,000,000 bond issue was proposed for schools, that this money was to be used solely on a "catching up" program. Any new schools were to come from a .15 special levy in the tax rate.

Even this amount is niggardly, he said, in consideration of the urgent need caused by years of accumulated delays. As to the necessity of the total amount asked for by the School Department, there can be no doubt in the mind of any one at all familiar with the needs of the School Department.

In answer to a query he declared that if this total amount was allowed that there was no guarantee that the High School for the Excelsior Homestead District would be built if the appropriation went through as requested.

Amendment Defeated.

Supervisor McSheehy moved that Item No. 1 be reduced \$250,000, seconded by *Supervisor Shannon*.

Amendment defeated by the following vote:

Ayes — Supervisors Badaracco, Deasy, Katz, McSheehy, Shannon. Welch—6.

Noes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Wetmore—12.

Whereupon, the roll was called and the item as recommended by the Finance Committee was *approved* by the following vote:

Ayes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Roncovieri, Rossi, Schmitz, Wetmore—12.

Noes — Supervisors Badaracco, Deasy, Katz, McSheehy, Shannon. Welch—6.

JOURNAL OF PROCEEDINGS

BOARD OF SUPERVISORS

MONDAY, MAY 25, 1925, 2 P. M.

In Board of Supervisors, San Francisco, Monday, May 25, 1925, 2 p. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—18.

Quorum present.

His Honor Mayor Rolph presiding.

Final Passage of the Budget.

Supervisor Shannon moved that when the Board adjourns it does so to meet again Friday, May 29, 1925, at 10 a. m., to consider the final passage of the Budget.

So ordered.

Value of Hydroelectric Power.

Supervisor Katz presented the following, which was read by the Clerk and ordered referred to a special committee consisting of his Honor the Mayor, Supervisor McLeran and Supervisor Shannon.

May 25, 1925.

To the Members of the Board of Supervisors of the City and County of San Francisco:

Important problems regarding the money value of hydroelectric energy being before this Board, I take this means of placing in your hands important information lately filed by the Pacific Gas and Electric Company with the State Railroad Commission.

Said information is included in Exhibits Nos. One and Four, filed by the attorneys for the Pacific Gas and Electric Company in the rate hearing now in progress, in which the said company seeks a higher rate for supplying power for resale to certain municipalities and smaller power companies.

Exhibit No. One sets forth that in 1923 the average cost to the Pacific Gas and Electric Company for

producing power and transmitting it to the high side of its system of main transforming stations was 7.977 mills per kilowatt hour.

Exhibit No. Four similarly sets forth that the cost for said production and transmission to main stations in the year 1924 was 9.442 mills per kilowatt hour.

These figures have been personally secured by me from the said exhibits, which are public records.

Applying these cost figures to the power output of the city's Moccasin Creek plant, which would deliver 400,000,000 kilowatt hours annually to the Newark station, it is seen that in 1923 it would have cost the Pacific Gas and Electric Company, by its own statement, \$3,190,800 to bring this amount of energy to Newark, while in 1924 the cost to the company would have been \$3,776,800.

In answer to the above exhibits the defendant power companies have filed a counter-claim asserting that in an average year the cost to the Pacific Gas and Electric Company is but 7.728 mills per kilowatt hour. This lower figure still leaves the value of 400,000,000 kilowatt hours at \$3,091,200.

The Railroad Commission has not yet decided which of these sets of figures to accept. While I do not favor any arrangement by which the city would dispose of its power to the Pacific Gas and Electric Company for resale, I consider the above information important to any Supervisor who may favor the power company's offer of \$2,000,000 a year for Hetch Hetchy power.

(Signed) PHIL KATZ.

Mayor Rolph, in connection with the foregoing, stated that the Hetch Hetchy power is ready now to turn on. He also stated that the Special Committee, together with the Advisory Committee, had been working very hard to devise some means of utilizing this power at once without in any way violating the rights of the people to Hetch Hetchy, and that he hoped a definite conclusion would be arrived at before the close of the day.

Leave of Absence, Mayor James Rolph, Jr.

The following was presented and read by the Clerk:

San Francisco, Cal., May 25, 1925.

2 P. M.

Hearing of appeal of property owners from assessment for improvement of Moraga street was *continued one week*.

Replenishment of Peninsula Water Supply.

The following was presented and read by the Clerk:

May 6, 1925.

Honorable Board of Supervisors,
City and County of San Francisco, City Hall.

The Spring Valley Water Company, through its acting manager, Mr. George Elliott, has submitted to me a proposition which will afford some immediate relief to the depleted condition of the peninsula reservoirs of the company and a partial revenue to the City pending completion of the Bay Division of the Hetch Hetchy aqueduct. This aqueduct is all completed except the submarine pipe across Dumbarton Strait and the westerly caisson through which this submarine pipe is to be connected with the riveted steel pipe on the bridge.

The company desires to make a cross-connection between the City's riveted pipe and its own submarine pipe on both the easterly and westerly sides of Dumbarton Strait, which will permit it to carry through its own submarine pipes and the City's steel pipes about

eight million gallons daily additional water into Crystal Springs reservoir, thus filling up to some extent the depleted storage on this side of the bay out of the water which the company has now stored in Calaveras Reservoir, in Alameda County.

As a consideration for this privilege the company is willing to pay all the costs of the cross-connection and to pay the City a rental determined by taking the percentage of the total sum of \$250,000 per year payable under the existing contract which the additional amount of water they are enabled to carry over by this device bears to twenty-four million gallons daily. The last amount is what I have estimated they would be able to deliver when the City's submarines are finally completed and the Bay Division turned over to the company for operation. For this privilege we are to receive under the existing contract \$250,000 yearly. The company's proposition involves the payment of the proportion of that sum which corresponds to the proportion of use they will get out of our aqueduct pending its completion.

The work of constructing the Bay Division has progressed much more slowly than I had anticipated, due principally to the difficulty which the contractor has experienced in completing the caisson at the westerly end of the submarine pipe line. It will probably be several months yet before the line is completed and ready for the full utilization.

Under these circumstances I am of the opinion that the company should be encouraged in its attempt to replenish the peninsular storage, which is now somewhat lower than it was this time last year, especially as it can be done without any injury to the City or inconvenience to the contractor in completing his work, and should yield us an immediate revenue of about \$7,000 per month.

I accordingly recommend that you authorize the Board of Public Works to enter into such temporary arrangements with the company, and enclose draft of resolution for that purpose.

Respectfully,

M. M. O'SHAUGHNESSY,

City Engineer.

Spring Valley Water Company Permitted to Connect Its Pipes at Dumbarton Straits With City's Pipe Line.

Whereupon, the following was read and adopted:

Resolution No. 24065 (New Series), as follows:

Whereas, the City Engineer has recommended that the Board of

Public Works be authorized to enter into a temporary arrangement with the Spring Valley Water Company under which the company will be permitted to install at its own expense a cross connection between its own submarine pipes crossing Dumbarton Strait and the riveted pipes of the City and County of San Francisco on both the easterly and westerly side of said strait, and to replenish the storage in the Crystal Springs reservoir through use of the City's aqueduct and the company's submarine crossing until the City's submarine crossing shall be finally completed, with the further understanding that the company shall pay to the City a rental for said privilege based on the proportion of the total rental which it will pay when the City's aqueduct is completed, that the delivery now obtainable through the use of its own submarines connected with the City's aqueduct in the manner above mentioned bears to the total water delivery which will be obtainable when the City's aqueduct is entirely completed;

Now, therefore, be it

Resolved, That the foregoing recommendation of the City Engineer be and it is hereby approved, and the Board of Public Works is hereby authorized and directed to enter into such temporary arrangement with the Spring Valley Water Company, with the provision that such rentals shall be paid monthly, based on the additional daily capacity for delivery as above specified, and that the Spring Valley Water Company shall pay the entire cost of making the cross connection as well as the cost of disconnecting the same when it shall no longer be required. All other provisions of the existing operating agreement dated April 17, 1922, to remain unaffected by this temporary arrangement.

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McLeran, McSheehy, Morgan, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Absent — Supervisors McGregor, Robb—2.

Death of John F. Ahern, Assistant Clerk.

Supervisor Hayden presented:

Resolution No. 24064 (New Series), as follows:

Whereas, death has called one of the Board of Supervisors' most faithful and loyal employees in the person of John F. Ahern, who for upwards of ten years has been a

most capable clerk of the Auditorium Committee of this Board and who during that period of time has rendered service of high character with the courtesy that endeared him to all, and whose pleasure it was to make himself serviceable and accommodating to all the members of this Board; now, therefore, be it

Resolved, That this Board of Supervisors, in appreciation of this splendid and loyal service and lovable character of one who has passed to the great beyond, hereby records a feeling of personal loss to ourselves as well as to numerous friends and the public whom he served with diligence and faithfulness.

Resolved, further, that we extend to his devoted wife and relatives our profound sorrow and sincere sympathy of their bereavement.

Adopted under suspension of the rules by the following vote:

Temporary Pipe Line Arrangement With Spring Valley Water Company.

Supervisor Shannon presented:

Resolution No. 24065 (New Series), as follows:

Whereas, the City Engineer has recommended that the Board of Public Works be authorized to enter into a temporary arrangement with the Spring Valley Water Company under which the Company will be permitted to install at its own expense a cross connection between its own submarine pipes crossing Dumbarton Straits and the riveted pipes of the City and County of San Francisco on both the easterly and westerly sides of said strait, and to replenish the storage in the Crystal Springs reservoir through use of the City's aqueduct and the Company's submarine crossing until the City's submarine crossing shall be finally completed, with the further understanding that the Company shall pay to the City a rental for said privilege based on the proportion of the total rental which it will pay when the City's aqueduct is completed, that the delivery now obtainable through the use of its own submarines connected with the City's aqueduct in the manner above mentioned bears to the total water delivery which will be obtainable when the City's aqueduct is entirely completed. Now, therefore, be it

Resolved, That the foregoing recommendation of the City Engineer be and it is hereby approved, and the Board of Public Works is hereby authorized and directed to enter into such temporary arrangement with the Spring Valley Water Company, with the provision that such rentals shall be paid monthly, based on the additional daily capacity for delivery as above specified, and that the Spring Valley Water Company shall pay the entire cost of making the cross connection, as well as the cost of disconnecting the same when it shall no longer be required. All other provisions of the existing operating agreement dated April 17, 1922, to remain unaffected by this temporary arrangement.

Adopted under suspension of the rules by the following vote:

Accepting Offer to Sell Land Required for Widening Market Street.

Supervisor Harrelson presented:

Resolution No. 24066 (New Series), as follows:

Whereas, the owner of the following described land sought to be acquired by the City and County of San Francisco for the extending and widening of Market street has offered to convey the property desired by the City and County of San Francisco for the sum set forth opposite her name, viz.:

Gesine Wegener, \$3,000—Beginning at a point on the southerly line of Market street, distant 200 feet at right angles westerly from the westerly line of Hattie street, said point being on the easterly boundary line of Lot 48 of Block "B" of Park Lane Tract, and running thence westerly along the southerly line of Market street 25.061 feet to the westerly boundary line of said lot; thence deflecting 94 degrees 00 minutes 20 seconds to the left and running southerly, parallel with Hattie street, along said westerly boundary line 20.049 feet; thence deflecting 85 degrees 59 minutes 40 seconds to the left and running easterly, parallel with the southerly line of Market street and distant 20 feet at right angles southerly therefrom, a distance of 25.061 feet to the easterly boundary line of said lot; thence deflecting 94 degrees 00 minutes 20 seconds to the left and running northerly, parallel with Hattie street along said easterly boundary

line 20.049 feet to the point of beginning. Being portion of Lot 48 of Block "B" of Park Lane Tract.

The above mentioned sum includes, in addition to the payment of the above described parcel, all damages in full to the remaining lot and the building now partially situated thereon adjoining the above described parcel, caused or to be caused by the future establishment of a grade on Market street and the grading and construction of Market street. The above mentioned building to be moved by the owners within sixty (60) days after receiving notice by the City and County of San Francisco.

Whereas, the City Attorney has recommended the acceptance of the said offer and the acquisition of the property owned by said person and offered to the City and County of San Francisco for the sum set forth, which said price is in accordance with the City's appraisal of the property; now, therefore, be it

Resolved, That the said offer of sale be accepted and the City Attorney is hereby authorized and directed to examine the title of said property, if the same is found in satisfactory condition, to accept in behalf of the City and County of San Francisco a deed conveying title thereto, and file the same for record with a copy of this resolution attached thereto as evidence of acceptance by the City and County of San Francisco upon payment of the agreed purchase price.

RECESS.

Whereupon, the Board at the hour of 4:55 p. m. took a recess until 10 a. m., Friday, May 29, 1925.

J. S. DUNNIGAN,
Clerk.

FRIDAY, MAY 29, 1925, 10 A. M.

The Board of Supervisors reassembled at 10 a. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McSheehy, Morgan, Robb, Roncovieri, Rossi, Schmitz, Shannon, Welch, Wetmore—16.

Absent—Supervisors McGregor, McLeran—2.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor Hayden was called to the chair.

Consideration of the Matter of the Final Passage of the Budget of Municipal Expenditures for the Fiscal Year Beginning July 1, 1925, and Ending June 30, 1926.

The Chairman: The question is on final passage of the Budget. What is your pleasure?

Supervisor Rossi: I move the Budget be finally passed.

Supervisor Wetmore: Second the motion.

Supervisor McSheehy: I will ask for a call of the board, if there are any members that are outside.

The Chairman: It is regularly moved and seconded. The Sergeant-at-Arms will call the absentee mem-

bers. Call the roll on the final passage of the Budget.

Supervisor McSheehy: According to our rules, during the roll call of course no member has a right to qualify his vote, therefore, at this time I am going to qualify my vote of "no" with reference to final passage. The reasons I stated last week in writing. I want to supplement those reasons to this degree, that when we had the Budget up here last week, under the rules of our Board, we went through the Budget serialim. Different items were referred to the Finance Committee, and that committee took those items up under consideration and reported back. They did not report entirely on the items that were referred to them, but they reported on a number of other items that were passed on by this Board, sometimes and quite often unanimously. A number of items that were passed unanimously by this Board were reported back by the Finance Committee to be cut out. I simply say this to the majority members of this Board, showing the inconsistency of that committee in taking upon itself certain duties that do not belong to that committee in reporting on matters that they were not to report on, and were not germane to their report, and they reported a number of items that this Board passed unanimously in favor of, and they reported against them and cut a number of those items out of the Budget.

Supervisor Colman: What were some of those items?

Supervisor McSheehy: For instance, the item of the street sweepers and the plumbers and a number of items, in which the entire personnel—not the entire, but part of the personnel—was cut out. You can also go into the item of expenditures in the Board of Public Works. I cannot go right down the line, because it is all dependent upon memory, but if the Clerk will refer to those items I can show him, according to our report of the Finance Committee, a number of items that that committee reported on that they had no authority to report on and that this Board unanimously passed. I simply say this to the members of this Board, to show the inconsistency of that committee and the authority that they take upon themselves in exercising here in this Board.

Supervisor Colman: May I interrupt and ask through the Chair: Is it not a fact that these items you speak of were not passed unanimously by the Board, but were simply referred to the committee unanimously by the Board?

Supervisor McSheehy: No, sir.

I would like to clear now, it will only take a few minutes to clear this up. I would like the clerk to refer back to the last report of the Finance Committee here a week ago last night.

* * * * *

Supervisor Colman: I think he is right there. I think he should get that information, because I am questioning in a way the accuracy of his statement. I make the contention that, as I recall it, none of the matters brought up to the Finance Committee were ever voted upon by the Board, but were amended in each case, and it was moved that they be referred to the Finance Committee, so that there were no recommendations of the absolute things passed by the Board. That is, in my opinion.

The Chairman: That is all right. As I say, we cannot change any item. If the Supervisor wishes to substantiate his criticism by reference to the items, of course, he is within his rights, there is no question about that.

Supervisor McSheehy: Will you kindly answer the questions?

The Clerk: I have my working sheet here, Mr. McSheehy, if I can answer. I can tell you the changes that were made, and some of them were by the report, and some of them were made by motion after the Board was in session. There were many changes made by motion. There were changes made in the clerk's in this office. Then the additional streets were added, Jones and Vallejo, and—

Supervisor McSheehy (interrupting): Were all of those streets added that were asked by members of this Board, or were some added that were not asked by members of this Board? Now, when the Finance Committee made their report, and when a motion was made to take up that report seriatim, it was taken up. Their functions and their work ceased until such time as the matters were referred back to them. And all they had to do was to act on what was referred back to them, and no more, and I would like to know if some items that they reported on were not referred back to them.

The Clerk: I cannot answer that. I have the list of motions that were made here in the Board.

Supervisor Deasy: There were certain members of the County Clerk's office that the Finance Committee added on that were not reported to them.

The Clerk: There were some streets on this list that are blue-

penciled, if that is what you were asking.

Supervisor McSheehy: Some streets on this list recommended by the Streets Committee?

The Clerk: No, on the motions that were referred to the Committee on Streets and they reported back six of them. Jones street, Green to Union; Vallejo, Montgomery to—the ones that were not—

Supervisor Welch: Was Elizabeth street reported back?

The Clerk: They were included in the Budget. They are in there now. The blue-penciled ones were Jackson street, Embarcadero, Battery, Filbert, Stockton to Grant avenue; Chestnut, Stockton to Grant avenue; Grant avenue, Filbert to Greenwich; Jones, Union to Filbert; Castro, Market street, Sixteenth; and there are Third and Fourth streets, those are not included.

Supervisor Welch: How about Elizabeth street?

The Clerk: That is in the Budget here somewhere—no, I beg your pardon.

Supervisor Welch: You have not referred to Elizabeth street at all.

The Clerk: No, I have not it on this memorandum. A resolution was adopted sending to the Board of Public Works for an estimate of cost on Elizabeth street.

Supervisor Welch: Did the Finance Committee recommend that \$10,000 for Elizabeth street in the amended Budget.

The Clerk: No, the resolution was adopted asking the Board of Public Works for a plan and estimates, and there was a discussion that it would be taken care of when they got that report.

Supervisor Welch: In addition to that the amended report, as read by the chairman of the Finance Committee, included an item of \$10,000 for Elizabeth street.

Supervisor Rossi: No, that was not the statement. The statement was that it would be taken care of when a favorable report came back from the Streets Committee.

Supervisor Welch: How are we going to take care of it?

Supervisor Rossi: Out of the Good Roads Fund, or out of the General Fund.

Supervisor Welch: Did you say out of the General Fund?

Supervisor Rossi: Out of the General Fund and the Good Roads Fund.

Supervisor McSheehy: I would just like the Clerk to answer Mr. Colman's question to me, and I will

just name one item, in an item for appropriation for maintenance of the Street Department of the Board of Public Works, or some department in there which was cut to \$25,000.

The Clerk: Yes.

Supervisor McSheehy: Now, did we not pass that particular item unanimously by this Board? It was never referred to the Finance Committee. That is the question I would like to ask.

Supervisor Badaracco: I do not think there was anything passed unanimously.

Supervisor McSheehy: Yes, a number of the departments were passed unanimously because, where there is no objection, it is understood that that was passed unanimously.

The Clerk: There were some changes made in the street cleaning.

Supervisor McSheehy: Will you answer that question yes or no?

The Clerk: What is it?

Supervisor McSheehy: The question of that particular \$25,000—was that passed entirely by this Board, not referred to the committee at all? Answer it yes or no.

The Clerk: These things are all

* * * * *

Supervisor McSheehy: Supervisor Colman—I simply state this to you, and you can take the records there if you wish to peruse them, I will show you there has \$160,000 been cut in their report, and I think it was \$60,000, or was it \$80,000 added?

Supervisor Rossi: It was \$80,000 added.

Supervisor McSheehy: And I simply make this statement, that a number of items are cut out in part, and entirely by the Finance Committee, in part particularly, that were not referred to them, and that this Board had acted on, and that they had no right to cut because it was beyond their province in any manner and form. They had no right. Their rights lie in reporting back matters that are referred to them and that is all.

Supervisor Colman: I think your statement is correct, that is, about the cuts, which is the main point. Your statement is correct, there were some items cut that were passed unanimously by the Board.

Supervisor McSheehy: For those reasons, and the reasons that I stated in writing the other day, I am opposed to this present Budget, and furthermore, I want to state that, in September of this year we will have a tax rate, and it takes 16

votes to pass that tax rate, and I think that you will find certain members of this Board will be able to show the majority, as the majority stands today, that this tax rate should be cut, and the items will be specified because it takes 16 votes. The majority are riding well today. I do not think they will ride so well in September of this year. And for those reasons, I am voting "no" and wish my vote so recorded.

The Chairman: Call the roll.

Supervisor Badaracco: No—

Supervisor Colman (interrupting): Mr. Chairman.

The Chairman: The roll has been called.

Supervisor Colman: You called the roll very quickly. I would like to make a statement on the Budget. In making the statement, I bear in mind a right and a privilege that I insist upon for myself, and gladly grant to others. That is the right of voting as they see fit. Without any criticism whatsoever, or with anything of a personal nature, but in giving my reasons for voting for the Budget, I want to touch, briefly, simply on the reasons, on the floor of this Board, why certain members of the Board are voting against it. Many members, that is some members who voted against passage, which I did not, did not give their reasons for voting against the Budget. So those members naturally have that right, which I do not question, and I respect their views and their decision. But there were some reasons given on the Board that, to me, are not sound, and it is those reasons I want to touch upon briefly as well as giving the reasons why I want to speak for it. Now, for instance, a reason was given on the matter of the streets. Now, Mr. Chairman, I believe, as I stated last week, and will state again, that the increase in expenditure for our streets is one of the most outstanding and progressive recommendations made by the Finance Committee. Each and every street, as recommended needs reconstruction and repair, and the fact that certain streets were not repaired is due entirely to the reason that all cannot be done that is necessary, but a very important step has been taken ahead by granting this big increase, and between last week and this week I have heard very many favorable comments on that particular item of the Budget. The fact that the minimum increase under the Charter was in the playground, instead of the maximum, or some amount in excess of the minimum, has also been mentioned on the floor.

and whereas it is true that we would have liked to have given the maximum, the conditions that exist render that impossible at this time, and a large sum of money has been granted which, of course, is mandatory. But the point made to me was this, that the children demand the playground, which is true. But, on the other hand, criticism has been made for the appropriation to the schools, and I simply want to call attention that whereas the playgrounds are very vital for the children, so are the schools, and I regret exceedingly that I could not vote for a larger increase than \$1,050,000 for our public schools, but realize too, that there are circumstances there which make it impossible, and I do agree that it is no act to be proud of, that small amount. I agree with the items of the appropriation, but I certainly feel that our act was one that we need not be at all proud of, and yet we have made a substantial donation.

There is one item of \$100,000 for the Fleishhacker Pool, that has also been criticized. Now, since the Fleishhacker Pool has been opened it has been attended quite largely. On the days when the weather was unfavorable the attendance was small, but a surprising number have taken advantage of the pool in all kinds of weather, and I want to say that that is a very splendid thing. We are a seaport town and here we are giving all of the people an opportunity to enjoy out-of-door salt water bathing for a very small amount, and large families can go in there and indulge in probably one of the most healthful exercises that there is for a very, very small amount and the people are entitled in a budget of this size to some things that will give them pleasure, not only the children but also the grown-ups of both sexes, who are taking advantage of the wonderful opportunities given out there. Of course, as Supervisor McLeran said, no budget is perfect, and he stated the Finance Committee were not altogether pleased with some of the features. But take the Budget all in all, I think it is a splendid one.

Regarding the increase in taxes. We have heard a lot of comment about it. Of course, it is a shock, but the fact that these things were not done in previous years bears no relation to their necessity, and the fact that they were omitted from previous budgets is no reason why they should be omitted now.

In fact it is a stronger argument, because omitting necessities only increases their need; it certainly does not lessen them. And the people must bear in mind that we are a great big city, and that if we want to grow and keep pace it costs money to do it. Those of us in business or those of us who are householders know that expenditures increase, that expansion demands greater expenditures all the time, and the City is even more so than any private industry, and I can see nothing there that is not of a constructive nature. Speaking for a minute on one item that has been touched upon several times and that is a municipal warehouse, why, that department has more than justified its existence. The City has finally, after many years, taken advantage of something that every business house of any size has recognized for many, many years, that is, that centralized buying and distribution of supplies and materials is economical, and that the buying of each department for itself results only in increased prices being paid. The savings have been very material. It is not an item that you can show distinctly and plainly as reflecting itself in the Budget, because as the City grows its needs increase and its demands for materials and supplies increase with it. But on every item they have bought they have made a very substantial saving, and it is true, as was pointed out in the report, which I have looked into very thoroughly, some of the items formerly purchased by the City at practically retail prices, and that practice has practically stopped now in the saving of as high as 30 and 40 per cent being often made. Now, the warehouse, in the opinion of the members of that department, is a necessity. The amount is small and it will come back to the City many times.

So I will say, in conclusion, I vote for the Budget, and with absolute confidence that, in meeting the taxpayers, I will feel prepared to sit down with any taxpayer who is reasonable and point out to him where these expenditures will go and demonstrate to him the necessity of them.

And just as a last word, whereas I did not get up to move an increase in wages for any of those applicants, notwithstanding that fact, nevertheless, I did cast my ballot last Monday in favor of the raises that are recommended by the

Finance Committee, and I am prepared to finally vote for them to-day, and my opposition in this matter has never been entirely to the principle of raising wages, but it has been and is now a protest against the method employed of determining this very vital question. And my stand has always been a living wage for the services rendered, and my stand has been a like wage for like services rendered, and I sincerely hope and certainly will favor strongly the measures that will go before the voters, that will standardize these matters so that these raises will come to the city employees automatically, and they will get what they are entitled to without having to go through the various procedure that we had to go through. As I say, I am glad to vote for the Budget because it will mean a great deal toward the progress of our city.

The Chairman: Call the roll.

Supervisor Roncovieri: I should like to ask if the Finance Committee issued an analysis of the compulsory items which this Board must raise? I came up from the country this morning and glanced at the newspaper and have not had a chance to read it. But I saw some word or two to that effect. If there is an analysis of the compulsory amounts which this Board must raise, I should like to have it read before I vote.

The Chairman: I think there was a statement of that character given to the press.

Supervisor Roncovieri: I did not read it, but if there is anything official, if there is any statement made by the Finance Committee, any analysis of the Budget which includes those compulsory items, and they run to about \$7,000,000. I would like to hear them. They run in large blocks, and in apparently more than eight or ten items, twelve or fifteen at most. Some of the items will run to a million dollars: bond redemption and the amount for the firemen and policemen, school pensions, they run into millions of dollars. Has the Clerk, may I ask, any such document?

The Clerk: No, I have not. Mr. Rossi may have some figures.

Supervisor Rossi: I have a set-up of figures here that will show an additional \$8,000,000 over and above last year's Budget.

Supervisor Shannon: If you will permit me, Supervisor Rossi, I think the chair has permitted us to run pretty far afield. We have a motion before us which is that the Budget be finally passed. It

has been seconded and the only thing that the Chairman should permit is a member of this Board to explain his vote. Let us adhere to that and get out of here.

The Chairman: Not even that under the rules, under a roll call.

Supervisor Roncovieri: Is a member of this Board to be denied some information that is germane to the subject upon which he is about to vote? Motion has been made but the motion has not yet been put, and anything germane to that motion is still debatable. I am surprised at Supervisor Shannon trying to rush this thing through, jam it through. I do not know how he is going to vote, do not care, but I want to vote right. I do not belong to the majority and I do not belong to the minority, and I am an independent, and when the minority is right, I will be right with them, if, in my opinion, they are right. And when the majority is right I will be with them, and I will use only the logic of the situation to guide my judgment. Now, I want a little more light on this, and I ask the Supervisor not to try to interrupt this orderly procedure.

Supervisor Shannon: Supervisor Roncovieri, you are the very man that gave us the information when we were passing this to print, that we are asking for today.

Supervisor Roncovieri: I beg your pardon—

Supervisor Shannon (interrupting): Just a minute, I have the floor.

Supervisor Roncovieri: Do not speak to me, speak to the chair, I do not want to hear from you.

Supervisor Shannon: You do not want to hear from me?

Supervisor Roncovieri: No, sit down.

Supervisor Shannon: No, but we have to listen to you. Now, Mr. Chairman, I call for the question.

Supervisor Welch: Mr. Chairman, I would have been perfectly satisfied to have this matter go to a vote without any comment whatever, and I was in hopes that it would go that way in view of the fact that it has been thoroughly threshed out here for upwards of a week, but, inasmuch as you have permitted two members of the Board, and one in particular—

Supervisor Rossi (interrupting): I am going to raise a point of order.

Supervisor Welch: Why didn't you raise a point of order when Supervisor Colman violated the rules of the Board?

The Chairman: A point of order has been raised.

Supervisor Rossi: My point of order is this. I was on my feet when Supervisor Shannon interrupted, and did not want this itemization read off, and if you are going to permit any other member of the Board to discuss this Budget, I am going to insist upon this being read.

Supervisor Welch: I have no objection to that.

The Chairman: Supervisor Rossi is right.

Supervisor Shannon: Now, Mr. Chairman, is this Supervisor Rossi's explanation of why he is voting aye? I think that that is something that we should settle. We are here facing a motion to vote upon the Budget. We all realize that each one present has the right to explain his vote. Now, if this is an explanation of Supervisor Rossi's vote, I am perfectly satisfied, but if it is not, I do not think that the chair should entertain it.

Supervisor Badaracco: I will raise a point of order. The chairman has already put the motion and I have already voted.

The Chairman: You are correct, your point of order is well taken. Call the roll.

Supervisor Welch: Just a moment, please; why did you permit—

The Chairman (interrupting): The Supervisor makes a point of order and he is correct.

Supervisor Welch: And I want to say that Supervisor Colman has no constitutional rights here that I have not.

The Chairman: One moment, let us get some order. Now, I am trying to give the Board all the latitude they need. Supervisor Welch, you called for the privilege of the floor. Is there any objection?

Supervisor Badaracco: I insist on a roll call, I have already voted.

Supervisor Colman: I think Supervisor Welch is entitled to the privilege of the floor. The error, I think, was made in calling the roll too quickly without giving the other members an opportunity. I was prepared to get up. I did not think there was any hurry. You started in the roll call and the Clerk said "Badaracco" and then I got up, and I think I had a perfect right to explain my vote. I think Supervisor Welch has also.

The Chairman: The proper motion would be that the roll call be postponed.

Supervisor Morgan: I move that Supervisor Welch have the privilege of the floor.

Supervisor Badaracco: You have already decided on my point of order.

The Chairman: Your point of order is well taken. Is there any

objection to postponing the roll call?

Supervisor Colman: I so move, Mr. Chairman.

The Chairman: Any objection? So ordered. Proceed now.

Supervisor Rossi: I will insist upon that being read.

The Chairman: The roll call is temporarily passed.

Supervisor Rossi: That is the reason why I am voting for the Budget and the reason why there is an increase of \$8,000,000 over and above last year's Budget.

Supervisor Roncovieri: I want to explain my vote.

The Chairman: This is an answer to you, this is your information. Proceed Mr. Clerk.

The Clerk: The increases over last year's Budget: School teachers' salaries, etc., \$1,516,247; teachers' pensions, \$265,000.

Supervisor Roncovieri: I do not hear you.

Supervisor Badaracco: I would suggest that Supervisor Roncovieri move up to the front seat.

The Clerk: School teachers' salaries, \$1,516,247; teachers' pensions, \$265,000. School Building, \$800,000. Bond interest and redemption, \$99,457. Playground, \$180,000; police increase, \$399,356; 40 new policemen, \$96,000; firemen's increase, \$396,440; 15 new firemen, the total, \$32,400. Elections, \$199,150. Street reconstruction, \$378,450; street repairs, \$139,195; street cleaning, \$117,740.; street work in front of city property, \$45,000; building repairs, \$11,240; Van Ness avenue, \$130,000; Bernal Cut, \$100,000; Tubercular Sanitarium, San Mateo County, \$200,000; Municipal warehouse, \$66,000; Municipal garage, \$91,000; Civic Center, \$250,000; extension of main sewers, \$175,000; women's jail, \$150,000; repair City Hall and Hall of Justice, \$60,000; publicity and advertising, \$70,000; judgments, \$137,000; de Young Museum, \$70,000; Legion of Honor, \$70,000; Health Department, \$305,076; Park, \$30,000; Aquarium, \$5,000; lighting streets, etc., \$35,000; official advertising, \$5,000; police pension, \$37,000; maintenance of minors, \$80,000; Fire Department building, \$20,000; Aquatic Park \$63,295; Telegraph Hill, \$5,000; police building, \$45,000. (Reading.)

Supervisor Rossi: Read the balance of the report.

The Chairman: What is the total? *The Clerk:* There is not any total on it. (Reading balance of report.)

Supervisor Rossi: It is true that the people did not vote for all these increases at the last election, but the people did vote for and elected the members of this Board in order that they would conduct the City's

business in an orderly and business-like manner, and expected us to take care of the growing needs of the City, and that is the reason why a good many of those increases are in the Budget this year, and as a matter of fact, in every year.

Supervisor McSheehy: May I ask the member of the Finance Committee about approximately how much did the people vote?

Supervisor Rossi: I could not give you that figure. It could be checked off very easily, add them up.

Supervisor McSheehy: Can you answer that question?

The Chairman: Do you offer this as a statement to go with your motion and be a part of the record?

Supervisor Rossi: Yes, as a part of the record.

The Clerk: I will read the items.

Supervisor McSheehy: Will you kindly answer the question?

The Clerk (reading): Teachers' pensions, \$265,000. Bond interest and redemption, \$993,457.

Supervisor McSheehy: Did the people vote that last election?

The Chairman: Automatically.

Supervisor McSheehy: I am asking last election, there is quite a difference. I am asking last election, will you allow me to ask the question and get an answer to the question that I am asking?

Supervisor Rossi: The people did vote for the bonds.

The Chairman: That is the answer.

Supervisor McSheehy: Now, Mr. Chairman, the Supervisor has no right to put words in my mouth. I have a right to ask a question. I am asking for an answer to my question and not an answer to his question. I am entering into no argument. I am simply asking for an answer to the question. I ask you, Mr. Clerk, as the Clerk of this Board, did the people last election, not a previous election, but last election, did they vote at that particular election?

The Clerk: Not at the last charter election.

Supervisor McSheehy: Then do not add that in.

The Chairman: That is mandatory.

Supervisor Rossi: That question is ridiculous.

Supervisor McSheehy: Of course, it is all well and good from you, I understand your position and I understand the feeling that you have for certain members of this Board and all that, but I am asking a question. Now that is all I want, is the question answered?

The Chairman: Without any feeling, we are trying to emphasize that that item is a mandatory item.

Supervisor McSheehy: I understand, you can claim anything is mandatory. I am asking what was voted on at the last election?

The Chairman: Answer it again.

Supervisor Roncovieri: It was voted on the last time the people voted for bonds, certainly, the last bond election.

Supervisor McSheehy: I am not asking the last bond election, I am asking the last election.

Supervisor Badaracco: I don't see any reason why the Clerk does not answer that question.

The Clerk: I answered that it was not at the last charter election.

Supervisor McSheehy: That is the question.

The Clerk: Playground, \$180,000; police increase, \$399,356; firemen, \$396,400. Here was an item that was not at the election, the court orders. Do you want that included?

Supervisor McSheehy: No sir.

Supervisor Rossi: That is compulsory, it should go in there; it is beyond the control of this Board.

Supervisor McSheehy: I am asking the question, you can supplement it afterwards.

The Clerk: de Young Museum, \$70,000; Legion of Honor, \$70,000. Those are the items that are covered in the Charter election. The county officials are not included in here. I have not that figure.

Supervisor Shannon: Four times eight, that is \$32,000.

Supervisor Badaracco: The people did not raise the county officials.

The Chairman: The same thing, the people authorized it.

Supervisor Rossi: I would like to know from Supervisor Badaracco, if he is opposed to the county officials' raises?

The Chairman: Supervisor Rossi asked you a question, do you wish to answer it?

Supervisor Rossi: Are you opposed to the increase of pay for the county officials?

Supervisor Badaracco: Oh, no, I am for it. I did not object. I made the statement that the Finance Committee raised their salaries.

The Clerk: \$1,412,796.

Supervisor Rossi: I think I have a right to reply to Supervisor McSheehy. While this is the amount voted by the people at the last election, \$1,400,000, it is beyond the control of this Board with reference to the bond interest and redemption, which is an addition of \$993,000, and, by a general demand from the people in general throughout the city, the increase in pay to the school teachers of \$1,000,000. I suppose Supervisor McSheehy would like to place that at the door of the Finance Committee. While the

people voted increases for the police and the firemen and county officials that reflected itself in the compensation paid other city employees. For instance the Board of Education asked for \$6,500,000 for the construction of new schools, and if this Board was in a position to recommend that amount I am sure that they would do it. In their wisdom they only recommended \$1,050,000. I am sure that there are very few members of this Board that would be opposed to the proper school facilities. And I can go right down the line. \$200,000 for the tubercular sanitarium. That is an item that Supervisor McSheehy himself was for several years ago, and there are other items that I could mention. The increase in the inmates at the Relief Home, at the City and County Hospital, the increase in the Fire Department and the Police Department. While it is true that the people did not vote for these increases, at the same time they expect this Board to conduct the City's business in an orderly and business-like manner, and we must take care of the growing needs of the children, regardless of what the department may be. We have got to take care of the dependent minors, and so on down the line. So, I say that the people have increased it indirectly, if not directly.

Supervisor Roncovieri: I am going to ask the Clerk to be good enough to read a list with the amounts set opposite the names of those items, another list of items, that are compelled by law, that we are compelled by law to raise, such amounts for instance as have been alluded to by Supervisor Rossi, the widows and orphans, that is a state law. Tax judgments, the care of minors—I am going to ask the increases over last year. I presume these are increases over last year. Now, no matter how big the bill may be for our orphans the state law compels us to raise the amount, and I am sure, if there were no state law we ought to do it anyhow. I want to call the attention particularly of Supervisor McSheehy, that I believe he will vote for those things with a good heart.

Supervisor McSheehy: I voted already for them.

Supervisor Roncovieri: It does not stop at \$1,400,000. That \$1,400,000 was caused by the vote of the people at the last charter election. If you stop there, the people will imagine that that is all, but the people have voted, either directly or indirectly through the

Legislature, and have added many items, and we must raise those items and we cannot stop and say, it is only \$1,400,000. It runs up to about five or six million dollars. I have not all the items here, but take the bond and redemption: The people did vote by a two-thirds majority for bonds, any they certainly want to pay back that money. We used that money and the interest should be paid. And that is as compulsory upon us as it is to raise any one of the items of that \$1,412,000. I want all those items read out that are directly or indirectly raised by other sources, than by this Board. We are simply the agents for the people. If the people vote for bonds we have to turn around and tax them to pay for those bonds. We can certainly plead not guilty to those things. And if the amount is \$7,000,000, I want to say that these things were forced upon us—we must do it. I would like now to have the Clerk proceed.

The Clerk: I can best read it this way, perhaps. The increase in bond interest and redemption over last year is \$993,457.

Supervisor McSheehy: That increase that you are referring to there, does that include the \$600,000 last year that there was a deficit?

The Clerk: This is just the increase in the bonds that were outstanding.

Supervisor McSheehy: As allowed by the Finance Committee last year, and you know that that increase was \$600,000 short of what it should have been, so the increase is only a little over \$300,000.

Supervisor Rossi: I do not think that that was the question that Supervisor Roncovieri asked. He wants to know from the Clerk the items that this Board is not responsible for.

The Chairman: Was not the information that you seek now already stated by Supervisor Rossi in his statement?

Supervisor Roncovieri: I want to know the amounts that this Board is not responsible for.

The Chairman: Would you have any objection to having a copy of this statement made for each and every member of the Board? Is there any objection?

Supervisor Roncovieri: There is no objection to printing the statement, but that does not dispose of my question. The question has been asked and is partly answered. I want the full answer. There is nothing so terrible as half an answer. The other half may bring

out the truth. Some people will say the increase is only \$1,400,000, but they do not realize that it runs up to five or six million dollars.

The Chairman: Does not that statement give you all the information? It has been made a part of the record now and been read to the Board.

Supervisor Welch: I have no desire to take up any further time of the Board, and I was in hopes that the Budget would go to final passage without any further comment, but inasmuch as a number of the members of the Board have exercised their constitutional right to make reference to the Budget and to give their reasons for voting for it, and at the same time making reference to those of us that voted against it, which to me has raised a question as to our sincerity, particularly by Supervisor Colman—I got the inference here that we were looking for an excuse as against a valid reason for voting against the Budget, particularly in Supervisor Colman's reference to street reconstruction, involving an important item of \$700,000 plus—I think we should be permitted to reply. I will not go over the same ground that I thrashed out when we were in session on this matter. I will not take up that much time. It would not be fair to the Board nor to myself. But I gave to the Board at that time—and I will be pleased at some future time to get that as a record and stand on it—the reasons why I could not consistently support that part of the recommendations of the Finance Committee. Aside from that, item after item was taken up here and thoroughly discussed. Item after item could have well been eliminated, inasmuch as it was agreed by the proponents of those items that they had them in mind two or three years ago and at a time when the people of San Francisco had the lowest tax rate of any large city in the world. They should have brought them forward then, instead of piling them on to the people until the load is too great. The people of San Francisco are struggling under the enormous tax rate that they are confronted with. We know that it will be increased far beyond what is expected and far beyond the necessity.

Just a moment on the streets. I reserved the right to constructively criticize the Budget item of \$700,000 plus on street construction, when I find that, in dealing with the streets in San Francisco, consideration was given secondary or minor streets as against the primary streets. Since we closed our Budget hearing I

asked the chief engineer to give me an approximation of the amount of several major projects that this Board of Supervisors is committed to, to be paid for out of the moneys that we will receive from Sacramento in return for automobile taxes. Here are his preliminary estimates. They do not cover, by the way, a number of important items such as I referred to when the Board was in session on Budget hearings, like Bernal Cut, a parallel road running from the Mission up the Market street extension, but here are some of the major items with his preliminary estimates, and with the knowledge, of course, that the City, through its Board of Supervisors, is committed to the expenditure of automobile tax money for this character of construction: Laguna Honda boulevard, \$350,000; Market street extension, \$200,000; Army street to Ocean Shore Railway, \$260,000; Ocean Shore Railway to county line, \$1,240,000; Ocean Shore right of way, a 100-foot road, to Junipero Serra, land and paving, \$910,000; Junipero Serra boulevard, 100 feet wide from Ocean Shore, land and paving, \$24,000, or a total of \$2,984,000.

Since that time there was a hurried meeting called by his Honor the Mayor, at the suggestion of interested parties, in response to a suggestion or a word that came directly from Sacramento to the effect that the Governor would not sign the Bay Shore highway bill unless San Francisco would agree to take care of that part of the highway within the boundary lines of the City and County of San Francisco. That is the bill that was endorsed here and taken to Sacramento by the speaker and turned over to the San Francisco delegation, and, if signed, would be the only bill with reference to highways affecting the City of San Francisco. It seems from the information coming from Sacramento that the Governor said that he would not sign the bill unless San Francisco would agree to take care of that part of the highway within the boundary lines of San Francisco. At that meeting there was quite a representative gathering, including two or more Supervisors—three Supervisors. The Mayor sent a telegram to the Governor of the State of California, stating that he hoped that he would sign the bill and that San Francisco would assume the construction of all that portion of the Bay Shore highway within the county lines of San Francisco. That would be an added cost, it was estimated there, of \$1,750,000. That, added to the

list of items that I have just read here, brings the charges against the highway fund up to \$1,734,000, eliminating Bernal Cut and eliminating a great many other major or minor highways or boulevards within the City of San Francisco. Now, then, my contention has been that we, in adopting the recommendation of the Finance Committee, are committing the City to the policy of the reconstruction of a great many minor streets, and not a trunk line such as Third street, mind you, one of the two or three trunk lines running out of the City of San Francisco, which would cost, say, \$80,000. I have said that a great many minor streets were included. They are all desirable, each and every one of them, but not necessary when you are hewing to the line. It was evidently agreed that \$700,000 plus \$200,000 was the maximum amount that could be provided for by the taxpayers of San Francisco this year for street reconstruction. Now, then, well, I will concede that each and every item in there is desirable, still, I object to the elimination of a street like Third street as a Budget item and an attempt to make it a charge against the good roads fund, when, as I pointed out to you here, there have been nearly \$5,000,000 of pledges made, including this all important one that we had imposed on us the other day in regard to the Bay Shore road, against that fund. I will ask you if, in your judgment, you call that constructive legislation? If I had no other reason, Mr. Chairman, for voting against this Budget—and there is reason after reason, and they are developing every day—I would hold that out as No. 1, because we have this year doubled the amount appropriated for street reconstruction and given consideration to minor as against major or primary highway construction and street construction within this city. That is my answer, Supervisor Colman, to your reference to the opposition which, I take it, was made principally by me, in the statements that I made to the Board, and in which the Board was good enough to give me unlimited time. That, sir, is my answer to your reference. And do not go away with the impression, and do not leave anybody here with the idea that my opposition and the opposition of those members who voted against the Budget when it went to print, and who will vote against it today, is based on an excuse as against a valid reason. That is not, to my mind, constructive legislation. The principle of giving

consideration to primary as against secondary construction of highways is well defined and laid down by the United States Government, by the State of California, and by every progressive city in the country that I have ever heard of. But we have gone far afield from that principle—and I challenge contradiction by anybody who is responsible for this Budget—and given consideration to by-ways and alleys as against the principal highways in San Francisco. Time will not permit—and I would not take advantage of it if I were extended that liberty—to go down the line and point out street after street whose reconstruction, while desirable, is not necessary and has not been included in here, when trunk lines, streets that are traveled by the City of San Francisco, have been excluded from this enormous expenditure of \$700,000 plus.

The Chairman: Roll call.

Supervisor Roncovieri: When I was speaking you asked me if there would be any objection to printing this, and I said, "Of course not." But that does not dispose of my question of the Clerk to read off the items that are made compulsory by law, by a power above our power. I want to know those items, and, as I said, it does not dispose of my question. Now, I ask the Clerk, through you, to proceed to read every item for which we are going to appropriate money that has been ordered by a power higher than this Board of Supervisors.

The Chairman: There is no objection to having the Clerk print a copy and send it to every member.

Supervisor Roncovieri: No. That does not dispose of my question. One-half the answer has been given, \$1,412,796, all right. He is going to emulm that in print and it is going to be the amount and the only amount that a power or source higher than ours has raised. That is not the correct answer, and I want to show it, at least to Supervisor McSheehy, and then to the people at large.

The Chairman: Proceed.

The Clerk (reading): Bond interest and redemption, \$993,457; the school buildings under State law—do you want that included?

Supervisor Roncovieri: Yes.

The Clerk (reading): \$800,000; elections, \$199,150; judgments, \$137,000; police pensions, \$37,000; maintenance of minors, \$80,000; public library, \$198,000; retirement fund, \$27,700; parks, \$30,000. Those are the items in here that are covered by State law or otherwise.

Supervisor Roncovieri: I am going to ask that when that is printed that the Clerk will be in-

structed, and he will have more time to separate the items, and the items he has just read, and some others that he is overlooking probably now in the haste, in another column, and then in the third column all such items as the proper interests of the city, probably forty additional policemen, the voting machines and things of that character which are practically obligatory upon this Board. Now, if the sum total is over \$7,000,000, and these things are almost obligatory, compulsory upon us, I am glad to vote for them. It is one of the most constructive Budgets I have ever seen, particularly as to that 15 cent tax levy for new school buildings.

Supervisor Harrelson: Reference has been made by different members of the Board, regarding the items of the street construction as recommended by the Finance Committee. I am not going to answer any of the charges that have been made, because I do not consider that this is either the time or the place to do that. I simply want to thank the members of the Board and especially the Finance Committee for having voted favorably upon a budget which I have no apologies to offer to anyone for the streets that are there, or for the streets that are not in that Budget. I believe that it is a constructive

Budget and I am proud of every item that is on the list.

* * * * *

Supervisor Shannon: Mr. Chairman, I would like to ask the Clerk to read items 5, 12, 13 and 14.

The Chairman: We are right in the midst of the roll call; you are the only Supervisor that has not voted.

Supervisor Shannon: The reason I ask this is that I understand that there is a mistake in the Budget as voted by this Board on those three items. And I would like to ask permission of the Board to have those questions answered.

The Clerk: 5, 12, asphalt men at \$7 a day, \$2,100.

Supervisor Shannon: We voted eight, and on the next item we voted eight, and on the next item we voted eight-fifty. Mr. McLeran stood up and said there was an error in that.

The Clerk: That can be corrected.

Supervisor Shannon: It cannot be corrected if it is passed to print.

The Chairman: We cannot change an item now.

The Clerk: The correction can be made.

Final Passage.

Whereupon, the roll was called and the Budget in words and figures following, was *finally passed* by the following vote:

BILL NO. 7130, ORDINANCE NO. 6652 (New Series).

An ordinance fixing and appropriating the aggregate sums of the items thereof allowed to each department, officer, board and commission for the fiscal year ending June 30, 1926, and making a budget of the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The aggregate sums and items thereof hereinafter set forth are hereby fixed, designated and appropriated for the respective purposes set opposite the same, to be expended during the fiscal year ending June 30, 1926, in accordance with the provisions of Article III, Chapter I, of the Charter of the City and County.

Section 2. No department, officer, board or commission shall expend, or agree to expend moneys, or to incur liabilities which, in total amount, exceed the total sum appropriated to such department, officer, board or commission by this ordinance, or which may subsequently be appropriated to such department, officer, board or commission.

Section 3. The amounts appropriated to the various departments, officers, boards and commissions shall be expended and administered by them subject to the following conditions:

A. No department, officer, board or commission shall expend moneys, or incur liabilities, in excess of the total amount appropriated to such department, officer, board or commission; provided further, that such expenditure shall conform to the provisions of Article III, Chapter I, Section 9, of the Charter.

B. When a specific appropriation is made to any bureau, division or institution of a department, board or commission such appropriation shall be known and administered as a main appropriation title, and the

main division thereunder of an object of expenditure classification as theretofore adopted shall be known and administered as a specific sub-appropriation thereof.

C. Departments, officers, boards or commissions desiring to make transfers from one sub-appropriation to any other sub-appropriation embraced within the same main appropriation title shall file with the Finance Committee of the Board of Supervisors a statement in duplicate setting forth the reasons for requesting such transfers, the purpose to which the money is to be devoted, the sub-appropriation from and to which such transfer is requested, the amounts of such transfers, and any other facts which may aid in determining the merits of such request. Whenever any such transfer is approved by the Finance Committee, the duplicate request shall be forwarded to the Auditor and a notice sent to the department making the request, setting forth the amounts and the sub-appropriation, or budget item numbers affected. In case of disapproval, notice to this effect shall be given to the department making the request.

D. Whenever any department, officer, board or commission desires to make a transfer from any sub-appropriation or appropriation embraced in one main appropriation title or titles, to any other or the same sub-appropriation or appropriations embraced in or desired to be embraced in any other main appropriation title or titles, said department, officer, board or commission shall file with the Board of Supervisors a statement in duplicate similar to the statement required in condition "C" above and containing, in addition, the main appropriation title or titles from and to which such transfer is requested. If the Board of Supervisors approves the request, notice thereof shall be forwarded to the originating department and the duplicate copy of the request forwarded to the Auditor. Said notice shall contain the main appropriation title or titles affected, the sub-appropriation or appropriations from and to which such transfer is to be made and the amounts thereof. If the Board of Supervisors denies the request, notice thereof shall be sent to the originating department, with the reasons for such action.

Section 4. All positions for which appropriations have been made in this ordinance have been created by the Charter of the City and County of San Francisco, or have been created by Boards or Commissions duly authorized by said Charter or ordinance of the Board of Supervisors; and the appropriations herein made shall be deemed to be the amount of the compensation to be received by the officer or employee holding the position for which the sum is appropriated.

Section 5. The amounts appropriated are as follows:

Statement Filed by Supervisor Rossi in Explanation of His Vote in Favor of the Final Passage of the Budget.

The following was read by Supervisor Rossi and *ordered spread in Journal*:

This is the time of year when there is a lot said and to be said about the budget for the city's annual expenditures. The budget is an estimate prepared by the Finance Committee, after months of investigation, and recommendations are made for the Board of Supervisors to act upon. Next year's expenditures, as estimated, will exceed this year's outlay by approximately eight million dollars. It is worth while for the public to know something about this eight million dollars. It is not an extravagant expenditure if the city is going to keep pace with its growth, nor is it at all startling when it is remembered that the voters at Charter elections and bond elections invariably increase the tax burden. The Charter was amended last fall, and now it is up to the people who voted for the big increases to pay the bill. The following are some of the increases over last year, which are included in the budget of the Board of Supervisors:

Schools—Teachers' salaries, etc., \$1,516,247.
 Teachers' pensions, \$265,000.
 Buildings, \$800,000.
 Bond interest and redemption, \$993,457.
 Playground, \$180,000.
 Police increase, \$399,356.
 Police—40 new men, \$96,000.
 Firemen, \$396,440.
 Firemen—15 new men (theater detail), \$32,400.
 Elections, \$199,150.
 Street reconstruction, \$378,450.
 Street repairs, \$139,195.
 Street cleaning, \$117,740.
 Street work, City property, \$45,000.
 Building repairs, \$111,240.
 Van Ness avenue, \$130,000.
 Bernal Cut, \$100,000.
 Tuberculosis Sanitarium, San Mateo County, \$200,000.
 Municipal Warehouse, \$66,000.
 Municipal Garage, \$91,000.
 Civic Center, \$250,000.
 Extension main sewers, \$175,000.
 Women's Jail, \$50,000.
 Repairs—City Hall; Hall of Justice, \$60,000.
 Publicity and advertising, \$70,000.
 Judgments, \$137,000.
 de Young Museum, \$70,000.

Legion of Honor, \$70,000.
 Health Department, \$305,076.
 Park, \$30,000.
 Aquarium, \$5,000.
 Lighting streets, including Diamond Jubilee, \$35,000.
 Official advertising, \$5,000.
 Police pensions, \$37,000.
 Maintenance, minors, \$80,000.
 Fire Department building, \$20,000.
 Aquatic Park, \$63,295.
 Telegraph Hill, \$5,000.
 Police building, \$45,000.
 Evans avenue viaduct, \$10,000.
 Board of Works, land, Edwards street, \$7,000.
 Moving Cal. Vol. monument, \$3,000.
 Public Library, \$19,800.
 Retirement fund, \$27,700.
 Electricity building, \$6,000.
 San Francisco Hospital, Pergola, \$5,000.
 San Francisco Hospital, painting, \$10,000.
 Elk street, \$8,000.
 Mt. Vernon avenue, \$10,000.
 Saturn street, \$10,000.
 Boardwalk, \$10,000.
 Twenty-sixth street, \$4,000.

At the top of the list is the increase for school teachers and school expenses. There are 2500 odd school teachers in San Francisco, and they claimed that they should be paid a fair wage. The public increased the policemen and firemen 30 dollars a month. On the assumption that the teachers would receive like consideration at the hands of the public, their pay is to be increased thirty dollars a month each.

About a million dollars more is needed this year for bond interest and redemption. The people voted the bonds, which have been sold, and the money spent on public improvements. Until this year a large revenue was received from bond moneys set aside, but not paid out, until contracts were completed. There being no such moneys invested now the tax rate has to provide interest and redemption.

The people voted to give the Playground Commission not less than five cents nor more than seven cents in the tax rate. The five cent rate this year increases the playground expenditure \$180,000.

The increases for the policemen and firemen, which the people voted for, comes pretty close to \$800,000; and the school teachers' pension, also voted for at the last Charter election, starts off with an estimated appropriation of \$265,000.

The purchase of voting machines, and the cost of elections, because the City is bigger, and more precincts, brings an added expense of

\$199,150.

The increasing and vociferous demand for street reconstruction, street repair, street cleaning, and street work in front of property owned by the City adds pretty nearly three-quarters of a million dollars to the annual expenses.

One of the other big increases is the expense of the Health Department, which includes the Relief Home. Last year the Relief Home took care of 300 more inmates than estimated for. There is no sign of reduction in this cost. An almost identical increase occurs in the San Francisco Hospital, and there is no sign of reduction of numbers of sick poor. As a result the Health Department appropriation is something more than \$300,000 greater than last year.

San Francisco's main sewers, in many places, need reconstruction, and more main sewers are needed for residential tracts rapidly being built up. The Board of Public Works presented a program requesting \$1,700,000 for this work, stating that some of the old sewers have to be enlarged and rebuilt, and a main sewer constructed for the Islais Creek district. The Finance Committee added \$175,000 over last year's item to start this work.

Since the bond money for the Civic Center was spent, it has been the practice to have an annual appropriation toward completing the project. The City has yet to buy costly property to open Leavenworth street into Market, as originally planned, and it included \$250,000 additional in the budget for Civic Center.

The committee also decided to begin the establishment of a municipal warehouse, wherein the bureau of supplies can store articles that may profitably be bought in quantity lots, and thereby effect a big saving.

Another saving is in sight by the establishment of a municipal garage, at a cost of \$91,000. The City owns more than 100 automobiles that are scattered around in as many garages. Repair work is sent to different shops. It has been demonstrated by the Fire Department, which repairs its own machines, that big savings can be made by having one repair shop.

There are some things, like the Tubercular Sanitarium in San Mateo County, for which \$200,000 was appropriated, which are humanitarian expenditures. Two of the new projects for civic improvement, are Van Ness Avenue extension, \$130,000, and the acquisition of Bernal Cut right of way, \$100,000.

The courts ordered the Board of

Supervisors to pay judgments for illegal taxes levied in 1914, which is the reason for the item of \$137,000. The de Young Museum, and the California Palace of Legion of Honor are to receive \$70,000 each this year, which is a new expenditure authorized by the people.

There are scores of miscellaneous increases, including the lighting of streets during the Diamond Jubilee; more money for publicity and advertising of San Francisco; the opening of blind streets in the outlying districts; an addition to the board walk at the beach, which amount to a considerable sum.

Money has been spent for an aquatic park, and the purchase of land this year will amount to \$63,295.

The increases mentioned here total more than \$7,000,000 of the \$8,000,000 added to last year's budget.

Relative to Evaluation Proceeding.

Supervisor Shannon requested Clerk to get date or approximate date when we can expect from the Railroad Commission the evaluation figures of the Pacific Gas & Electric Co. and the Great Western Power Company's distributing system in San Francisco.

Supervisor Harrelson requested also a statement of cost of evaluation to date.

So ordered.

AWARD OF CONTRACT, WATER BONDS.

Supervisor Rossi presented:

Resolution No. 24069 (New Series), as follows:

Whereas, after due notice given as required by the Charter of the City and County of San Francisco, that sealed proposals for the purchase of certain bonds of said City and County, to-wit, Hetch Hetchy Water Bonds, issue of January 1, 1925, to the amount of \$1,000,000,

would be opened and considered by the Board of Supervisors on Monday, May 25, 1925; and

Whereas, sundry bids were received and opened in accordance with the aforesaid notice of sale and the same having been considered; therefore,

Resolved, That the bid of Heller, Bruce & Co., for account of L. F. Rothchild & Co., New York; Heller, Bruce & Co., San Francisco; Wells Fargo Bank & Union Trust Co., Dean, Witter & Co., Hunter, Dulin & Co., for said \$1,000,000 Hetch Hetchy Water Bonds, comprising twenty-five bonds of \$1,000 denomination, maturing each year 1930 to 1969, inclusive, be and the same is hereby accepted and said bonds are hereby struck off and sold to said Heller, Bruce & Co., for account of L. F. Rothchild & Co., New York; Heller, Bruce & Co., San Francisco; Wells Fargo Bank & Union Trust Co., Dean, Witter & Co., Hunter, Dulin & Co., for the price bid therefor, to-wit, \$1,107,211, and accrued interest thereon at the date of delivery.

That the Finance Committee be directed to arrange for the delivery of said bonds.

That all other bids for said bonds be rejected and the Clerk is hereby directed to return certified checks accompanying the same.

His Honor Mayor Rolph being absent Supervisor Hayden was called to the chair.

APPROVAL OF JOURNAL.

The Journal of Proceedings of April 13, 1925, was considered read and approved.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Labor Council Endorses Report of Citizens' Advisory Water Committee for Temporary Disposal of Hetch Hetchy Power Crop.

The following was presented, read and ordered *spread in the Journal*:

San Francisco, June 1, 1925.

The Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

Inclosed please find resolution adopted by unanimous vote of this Council at its last regular meeting, relative to the proposed contract for distribution and resale of hydroelectric power generated at Hetch Hetchy, and submitting same for your most earnest consideration and such action as will safeguard all the City's interests in the premises.

Respectfully,

JNO. A. O'CONNELL,

Secretary.

Resolution.

Whereas, the San Francisco Labor Council and the large majority of the citizens of San Francisco have consistently demanded of the City government that the clear requirement and purposes of the City charter and the Raker Act be scrupulously carried out, and that the City of San Francisco accordingly should go into the business of distributing Hetch Hetchy electrical energy directly to its own people as its charter and the Raker Act require; and

Whereas, the neglect and failure on the part of certain city officials to comply with the mandate of the law has artificially created a situation in which the powerhouse is at the point of completion, whereas the acquisition of the needed distributing system has progressed no further than the initial stages of the evaluation of existing distributing systems for the purpose of condemnation and purchase; and

Whereas, it is now openly proposed by the opponents of municipal distribution to violate the terms of the Raker Act and wholesale the City's Hetch Hetchy hydroelectric power to a private power corporation for the flat sum of \$2,000,000 annually; and

Whereas, said illegal proposition has been persistently advanced ever since 1919 by certain city officials, though repeatedly opposed as a contemplated breach of faith upon the part of our city government and a repudiation of its obligations to the Government of the United States; and

Whereas, said wholesaling proposition has been declared illegal and contrary to public policy by the Advisory Committee of Citizens appointed by the Mayor under authority of the Board of Supervisors, which committee consists of five eminent and able men, namely, former United States Senator James D. Phelan, chairman; Hon. Matt I. Sullivan, former Justice of the Supreme Court of California; Hon. Frank Murasky, Judge of the Superior Court; Major Charles H. Ken-

drick of the American Legion, and Attorney Henry F. Boyen; and

Whereas, this Advisory Committee has recommended to the Mayor and Supervisors a legal plan whereby the City of San Francisco shall hire the services of a power company as the City's agent to distribute the power for and on behalf of the City, by which plan the City remains in full control and ownership of the power up to the point of delivery to the consumer; therefore, be it

Resolved, That the San Francisco Labor Council hereby endorses the recommendation of the Citizens' Advisory Committee, and none other, for the temporary disposal of Hetch Hetchy power; and be it

Further Resolved, That the Labor Council strongly deprecates the pressure now obviously being exerted to drive the City into an illegal sale of publicly-produced power to a private company for purposes of resale, and calls upon the public officials of San Francisco to carry out the terms and provisions of the Raker Act and preserve the integrity of San Francisco in fulfilling the obligations which it has assumed; and be it

Further Resolved, That copies of this resolution be forwarded to his Honor the Mayor, the members of the Board of Supervisors of San Francisco, the United States Senators from California and the Congressmen from San Francisco, and to the President of the American Federation of Labor, with the request that he personally submit this resolution to the President of the United States and to the Secretary of the Interior, to the end that the true status of public sentiment in San Francisco, as favoring full compliance with the terms of the Hetch Hetchy grant be fully recorded.

Adopted by unanimous vote of the San Francisco Labor Council at its regular meeting held Friday evening, May 29, 1925.

SAN FRANCISCO LABOR COUNCIL,

By Wm. P. Stanton, President.

Attest: Jno. O'Connell, Secretary.

Circus Permit Deferred.

The following was presented and read by the Clerk:

Communication, from J. C. Stuart, requesting that permission to Ringling Brothers and Barnum and Bailey Combined Shows to conduct a circus in San Francisco be deferred until further application is made by them.

Referred to the Police Committee.
Communication, from Marina District Improvement Association, pro-

testing against the granting of a permit to conduct a circus in the vicinity of the new residential district on the Marina.

Relative to Margaret Maryland Playground.

The following was presented and read by the Clerk:

Communication, from the City Engineer, recommending the enactment of the proposed ordinance authorizing the Board of Public Works to determine the outstanding loss to the Yosemite National Park Company of City property, Mather Station, into Tuolumne County, California, and authorizing the Park and Playground Commission to take from said property and purchase from the present owners the fixed improvements situated thereon, to be used in connection with the Margaret Maryland Municipal Playground.

Referred to the Parks and Playgrounds and Public Utilities Committees jointly.

Report of City Engineer on Present Water Situation and Necessity for Prosecution of New Tunnel Work.

The following was presented, read and referred to Public Utilities Committee:

March 13, 1925.

To the Honorable, the Board of Supervisors of the City and County of San Francisco:

Attention: Joint Committee of Finance and Public Utilities.

Gentlemen:

On Monday, March 9, 1925, your Board appropriated \$100,000 which will partially cover the cost of preliminary engineering work and acquisition of rights of way for the tunnel work in the Sierra Foothills and Coast Range Division of the Hetch Hetchy project, to be performed under the 1924 bond issue. These funds will permit of the surveys to be commenced and some rights of way acquired, but to facilitate the work of my office in the preparation of plans and specifications, and to further the entire construction program looking to the delivery of water into San Francisco, there are several questions of policy which should be decided at the earliest possible date.

In order that your Board may better understand the water supply situation and the necessity for getting the new tunnel work under way as rapidly as possible, I will at this time review the subject briefly:

1.—Present Water Situation.

There is at the present time in storage in the Peninsula reservoirs

of the Spring Valley Water Company only 7 billion gallons. Notwithstanding the much more copious rains this is $1\frac{3}{4}$ billion gallons less than at the same date last year. There is in storage in Calaveras $4\frac{1}{4}$ billion gallons. The year 1924 just past indicated that the capacity of the Spring Valley system in a critical period is considerably less than our present-day consumption to 40 million gallons daily. Before the recent rains there was less than 3 billion gallons of available storage on the Peninsula. The work which the Spring Valley Company is completing on the Alameda side of the Bay, namely, the construction of the Calaveras reservoir and the building of the new flume in Niles canyon will increase the capacity of the system some 24 million gallons daily. During the past few years our daily consumption of water in San Francisco has been increasing by an amount in excess of 2,000,000 gallons; this increase will be materially greater in each succeeding year, particularly as restrictions in the use of water are removed, due to our rapid growth and the increasing demands for water which are being made on the Spring Valley Company by the peninsula cities, and these demands should be met in order to foster the growth of these cities and provide a larger market for our own Hetch Hetchy water. My studies have convinced me that the present development of the Spring Valley system, including the new Calaveras reservoir, will not meet San Francisco's requirements for more than the next six years.

This means that it is imperative that water from the Hetch Hetchy project be delivered to San Francisco not later than January, 1931.

2.—*The 1924 Bond Issue and Its Purpose.*

Last year I originally recommended to your Board that \$33,000,000 should be provided under a bond issue to complete the Hetch Hetchy aqueduct between the tailrace of the Moccasin Creek Power Plant and the Crystal Springs Reservoir.

At a meeting in the Mayor's office, attended by members of the Advisory Power Committee, the Public Utilities Committee and other members of your Honorable Board, I agreed to the elimination from the proposed bond issue of \$8,000,000, representing the estimated cost of the steel pipe line across the San Joaquin Valley. At that time I pointed out that this

pipe could be constructed during the last three years of the tunnel construction from funds which would have to be provided at that time. The report and estimate submitted to the Board as a basis for the recent bond issue called for \$25,000,000 for the completion of the tunnel work in the foothills and the Coast Range Mountains. Subsequently, the Public Utilities Committee recommended a reduction in the amount of the proposed bond issue to \$8,000,000 to be devoted to the construction of the tunnel through the foothills only.

At that time I directed the Board's attention to the fact that the time required for driving the 31 miles of tunnel through the Coast Range was the determining element for the completion of the aqueduct to deliver water to San Francisco, and that by providing \$2,000,000 in addition to the \$8,000,000 recommended by the Public Utilities Committee, the necessary construction shafts for driving this Coast Range tunnel could be sunk, making possible the completion of the Coast Range tunnel within three years after the completion of the foothill tunnel, which work was also estimated to require three years' time. This increase from \$8,000,000 to \$10,000,000 was approved by your Honorable Board and the bond issue was carried on that basis by a vote of over twenty to one.

In the pamphlet submitted to the voters with the ballot, unanimously endorsed by the Mayor, the Board of Supervisors and the Citizens' Advisory Committee, it was stated that the \$10,000,000 bond issue would provide sufficient funds to complete the Sierra Foothill tunnel and construct the first portions of the Coast Range water tunnel and reduce its time of completion, making certain of the delivery of mountain water to San Francisco within the time when local supplies will have become exhausted. It further stated that this money would enable the City to carry on the work for the next three years.

These statements were true at that time and are true now, for there have been no developments since that time which should cause them to be modified.

3.—*Questions of Policy.*

On November 28, 1924, the Board of Public Works, under Resolution No. 84218, requested the appropriation of \$3,000,000 from the 1924 bond issue to cover construction

work on these tunnels during the calendar year 1925, pursuant to objects of the 1924 bond issue. Subsequent to this request, your Board adopted Ordinance No. 6440 (New Series), taking unto yourselves certain of the discretionary powers previously delegated to the Board of Public Works. Having taken up this responsibility, it is necessary for your Board to outline a program or approve a program which is submitted.

At meetings of the Public Utilities and Finance Committees, the question as to whether the work would be done by day labor with the City's forces or under contract has been touched upon; also, as to whether the expenditures to be made in the Foothill Division and the Coast Range Division should be substantially as indicated in the bond campaign, namely, \$8,000,000 in the former and \$2,000,000 in the latter; and again, some members of the Utilities Committee expressed reluctance to consider the expenditure of any money for construction work in the Coast Range tunnel on the grounds that they had heard some rumor of a change in plan for bringing the water across the Coast Range. These are all questions of policy which should be determined now.

(a) *Contract or Non-Contract.* With regard to policy of contract or day labor work, I will state that as far as this office is concerned, I have no fixed policy as between contract work and day labor. I believe that the choice must be determined with reference to the particular piece of work at hand. Both methods have their advantages and disadvantages. In driving long tunnels under contract where the construction period will extend over a period of several years, the contractor must anticipate and provide in his bid price for many uncertainties which may greatly increase the cost of the work. The more important of these contingencies which he must anticipate are: Underground flow of water; changes of formation, either to much harder rock or to soft rock, either involving slower progress; the possibility of encountering gas; again, particularly under the long-time contract, possible increases in the cost of labor and material must be reckoned with; and in addition, premiums on contractors' bonds must be paid.

On the day labor basis there is no question but that we can drive the tunnel as economically as a

contractor, and if increased difficulties are not met or expenses increased due to other causes above enumerated as the contractor has provided for in his bid price, the City will save some money. On the other hand, under the contract plan, the cost of the completed work is closely known at the time the contract is entered into.

(b) *Expenditure in Foothill and Coast Range.* With regard to the division of expenditure between the Foothill and the Coast Range tunnels: The division of expenditures approximately as anticipated in the bond campaign, namely, \$8,000,000 in the Foothills and \$2,000,000 in the Coast Range, is desirable for the following reasons:

There is on hand on the Mountain Division a large amount of tunnel construction equipment which, whether the work is done by contract or day labor, should be utilized on the new tunnel construction. This can be most conveniently transferred from its present location to the Foothill tunnel work, and this work can be opened up and a number of the tunnel sections completed while the construction shafts in the Coast Range tunnel are being sunk. Upon the completion of these sections of tunnel in the foothills the equipment can be transferred to the Coast Range and the tunnel driving from the shafts commenced, thus avoiding the purchase of a large amount of duplicate equipment. Should the work in the foothills be deferred and the entire \$10,000,000 spent in the Coast Range work, we would find ourselves at the end of three years with a large amount of tunnel in the Coast Range still to be completed and all of the foothill work on our hands, and an organization spread all the way from Moccasin Creek to Irvington.

(c) *Coast Range Aqueduct.* With regard to the aqueduct crossing the Coast Range: I will state most emphatically that there is no thought of recommending any modification in the general plan of tunneling the Coast Range Mountains for a gravity delivery to San Francisco as outlined by Mr. John R. Freeman in his report. The gravity tunnel was recommended in preference to the pipe line over Altamont Pass, as originally planned by Messrs. Grunsky and Manson, after a thorough geological survey of the territory involved.

4.—Recommended Program.

I have given much careful study to the various elements involved and above touched upon and am recommending to your Board the following program of construction which will provide for the continuous prosecution of the tunnel work and insure the delivery of water into San Francisco at the earliest possible date and at the lowest cost. The plan is as follows:

The Board of Public Works should be immediately authorized to establish camps at the several points of attack for the Foothill tunnel construction and at the several portals of the Coast Range tunnels; to transfer to and install at these points the available tunnel driving equipment used on the Mountain Division of the work; and to proceed and open up these working faces, driving a few hundred feet of tunnel at each point. When the working faces have been opened up, bids for driving definite lengths of tunnel from the several working faces could be received from contractors. Also, as soon as possible, contracts for sinking the several working shafts in the Coast Range tunnel to the tunnel floor should be entered into.

The advantages of this program are: (1) It will provide for getting the tunnel work under way in the least possible time; (2) it will utilize to best advantage all of the available equipment; (3) it will give contractors bidding on the work a very definite knowledge of the general character of the ground to be encountered; (4) by limiting the amount of tunnel to be driven under any given contract to four or five thousand feet, no contract need extend over a year's time, so that wide variation in the labor or material market will not have to be anticipated, nor will the risk of increased difficulties in tunnel driving be so much to be feared; (5) under this plan the work can be divided into a number of contracts ranging from \$250,000 to \$500,000 each, which should provide greater competition with resulting lower bids and a certain amount of rivalry between contractors on different sections of the work to maintain progress, and would also reduce the amount of bond premiums; (6) if satisfactory bids for general contracts are not received, it would offer the possibility of doing the work on a station basis, or the continuance of the day labor method.

I have made some figures on the

cost of this work which indicate by the expenditure of \$1,500,000 in the Foothills and \$900,000 in the Coast Range, all of this preliminary work could be accomplished, other than the contracts for which special appropriations would be made.

Should your Board by resolution approve this as a general plan, I will prepare and transmit through the Board of Public Works a detailed Budget of Expenditures as required.

Respectfully,

M. M. O'SHAUGHNESSY,
City Engineer.

Leave of Absence, James W. Ward,
Member of Board of Health.

The following was presented and read by the Clerk:

San Francisco, Cal., June 3, 1925.
Hon. Board of Supervisors, City Hall, San Francisco, Cal.
Gentlemen:

Application having been made to the Mayor by Hon. James W. Ward, member of the Board of Health, for a leave of absence, with permission to absent himself from the State of California for a period of thirty days, commencing June 15, 1925, the Mayor would appreciate your Honorable Board concurring with him in granting this leave of absence.

Very sincerely,

W. F. BENEDICT,

Assistant Secretary to the Mayor.
To the Honorable the Board of Supervisors, San Francisco, Cal.
Gentlemen:

In accordance with the provisions of Section 3, Article XVI of the Charter of the City and County of San Francisco, I herewith respectfully request permission to absent myself from the City and County of San Francisco and the State of California for a period of one month from June 15, 1925.

In conformity with Charter provisions I have this day forwarded a similar communication to his Honor James Rolph, Jr., Mayor, City and County of San Francisco.

Very truly yours,

JAMES W. WARD, M. D.,
Member Board of Health.

Whereupon, the following resolution was presented and adopted:

Resolution No. 24069 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, James W. Ward, M. D., member of the Board of Health, is hereby granted a leave of absence for a period of thirty days, commencing June 15, 1925, with permission to leave the State.

SET-BACK LINE HEARING—2 P. M.

Hearing of objections to the establishment of set-back lines along portions of Foerster street, fixed for 2 p. m. this day.

Recommitted.

Objection being offered, the following bill was *ordered recommitted to the City Planning Committee*:

Bill No. —, Ordinance No. — (New Series), as follows:

Establishing set-back lines along portions of Foerster street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 20th day of April, 1925, the Board of Supervisors adopted Resolution of Intention No. 85 to establish set-back lines along Foerster street, and fixed the 18th day of May, 1925, at 2 o'clock p. m., at the chambers of the Board of Supervisors, as the time and place for hearing objections thereto; that thereafter, and more than ten days prior to said hearing, the said resolution was published and notices of the passage of said resolution were posted along the line of said street, in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said

hearing have been properly over-ruled.

Section 2. Pursuant to the foregoing recitals and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along the westerly side of Foerster street between Judson avenue and Staples avenue, said set-back line to be 12 feet; along the easterly side of Foerster street between Judson avenue and Staples avenue, said set-back line to be 10 feet.

As shown on the maps filed in the office of the Board of Supervisors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Guy, then the privileges and all the rights accruing thereunder shall immediately become null and void.

Intention to Open and Extend Certain Streets.

Supervisor Harrelson presented:
Resolution No. 24089 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the opening and extension of the following named street, to-wit: Newcomb avenue from Selby street to Barneveld avenue.

The land deemed necessary to be taken for said opening and extension of Newcomb avenue from Selby street to Barneveld avenue is particularly described as follows, to-wit:

Beginning at a point on the northwesterly line of Selby street, distant thereon 220 feet northeasterly from the northeasterly line of Oakdale avenue and running thence northwesterly parallel with the northeasterly line of Oakdale avenue and distant 220 feet at right angles northeasterly therefrom, a distance of 1277.117 feet; thence northwesterly on a curve to the right of 314.439-foot radius, tangent to the preceding course, central angle 26 degrees 31 minutes 49 seconds, a distance of 145.598 feet to a point on the easterly line of Barneveld avenue, distant thereon 285.317 feet northerly from the northeasterly line of Oakdale avenue; thence northerly along the easterly line of Barneveld avenue, a distance of 81.902 feet; thence southeasterly on a curve to the left of 274.439-foot radius, tangent to a line deflected 157 degrees 59 minutes 27 seconds to the right from

the preceding course, central angle 40 degrees 30 minutes 17 seconds, a distance of 194.012 feet to a point distant 260 feet at right angles northeasterly from the northeasterly line of Oakdale avenue; thence southeasterly, tangent to the preceding curve and parallel with Oakdale avenue, a distance of 1277.117 feet to a point on the northwesterly line of Selby street, distant thereon 260 feet northeasterly from the northeasterly line of Oakdale avenue; thence southwesterly along the northwesterly line of Selby street, a distance of 40 feet to the point of beginning.

The damages, costs and expenses of opening and extending said street are nominal and no assessment district is necessary to be formed for the purpose of paying the damages, costs and expenses thereof. The Board of Supervisors hereby declares and determines that the whole damage, cost and expense of opening and extending said street shall be paid out of the revenue of the City and County of San Francisco.

Said opening and extension of Newcomb avenue from Selby street to Barneveld avenue shall be done in pursuance to Chapter III of Article VI of the Charter of the City and County of San Francisco and shall be done in the manner and in accordance with the provisions of Section 2 and sections following Section 2 of Chapter III of Article VI of said Charter of the City and County of San Francisco.

Teachers' Retirement.

The City Attorney transmitted the following draft of a proposed ordinance which would bring the teachers of the San Francisco School Department under the Retirement System, same was presented by Supervisor Morgan and referred to the *Education, Parks and Playgrounds Committee and the Committee on Civil Service and Retirement System*:

Bill No. 7141, Ordinance No. — (New Series), as follows:

Amending Subdivisions (b), (h) and (k) of Section 2; Section 2 by adding a Subdivision (x); Subdivisions (a) and (b) of Section 4; Section 6; Subdivision (b) of Section 7; Subdivision (a) of Section 14; Subdivision (a) of Section 16; and Section 20 of Ordinance No. 5561 (New Series) entitled "Establishing a retirement system for employees of the City and County of San Francisco providing for the payment of retirement allowances to aged and disabled employees and for the payment of death benefits; prescribing the conditions under which said allowances and benefits shall be paid; fixing rates of contribution and the amounts of retirement allowances and death benefits; and providing for the administration of said retirement system in accordance with Article XVII of the Charter" for the purpose of extending the benefits, privileges and conditions of the San Francisco City Employees' Retirement System established by Ordinance No. 5561 (New Series) to persons employed as teachers by the San Francisco School Department.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (b), (h) and (k) of Section 2 of Ordinance No. 5561 (New Series), the title of which is above recited, are hereby amended to read as follows:

(b) "Employee" shall mean any person in the employ of the City and County of San Francisco whose compensation is paid wholly out of funds contributed by the City and County; except that, for the purpose of this ordinance, any person employed as a teacher by the San

Francisco School Department shall be considered an "employee", although a portion of the compensation of such person is paid out of funds contributed by the State of California.

(h) "Prior Service" shall mean the service of a member rendered before the first day of April, nineteen hundred and twenty-two, certified on a prior service certificate and allowable as provided in Section 6 of this ordinance; except that, for members employed as teachers by the San Francisco School Department at the time of their entry into the Retirement System, "Prior Service" shall mean the service, excluding service as a member, rendered before the first day of Oct., nineteen hundred and twenty-five, certified on a prior service certificate and allowable as provided in Section 6 of this ordinance.

(k) "Compensation" shall mean the remuneration payable in cash out of funds contributed by the City plus the monetary value, as determined by the Board of Administration, of board, lodging, fuel, laundry and other advantages allowed as remuneration by the City; and the "compensation" during any fiscal year received by a person as a teacher of the San Francisco School Department shall be taken as such an amount as shall bear the same proportion to the total remuneration allowed such teacher by the San Francisco School Department as the amount contributed during the previous fiscal year by the City to the Common School Fund bears to the total amount contributed to the Common School Fund during such previous fiscal year by the City and by the State of California. In no case shall the "compensation" as defined in this subdivision exceed five hundred (500) dollars per month.

Section 2. Section 2 of Ordinance No. 5561 (New Series) is hereby amended by the addition of a subdivision to be designated (x) and to read as follows:

(x) "Teacher" shall mean any person employed by the City, one requisite of whose employment is that such person shall hold a teaching certificate issued by the State of California.

Section 3. Subdivisions (a) and (b) of Section 4 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(a) With the exception of those employees who are excluded from membership as provided in Subdivision (b) of this section, all em-

ployees shall become members of the Retirement System as follows:

(1) Every employee in city-service on April first, nineteen hundred and twenty-two, the date upon which the Retirement System becomes effective, shall have the option of becoming a member of the Retirement System on that date or at any time between that date and July first, nineteen hundred and twenty-two, but every such employee in city-service on July first, nineteen hundred and twenty-two, who has not exercised the option of becoming a member, shall become a member of the Retirement System on July first, nineteen hundred and twenty-two; except that every employee in city-service on Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, shall become a member of the Retirement System on Oct. first, nineteen hundred and twenty-five.

(2) Every employee who shall re-enter city-service after April first, nineteen hundred and twenty-two, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry; except that every employee who shall re-enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry.

(3) Every other employee who shall enter city-service after April first, nineteen hundred and twenty-two, shall become a member of the Retirement System upon the completion of six months of continuous service; except that every other employee who shall enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department shall become a member of the Retirement System upon the completion of six months of continuous service.

(b) The following employees shall not become members of the Retirement System:

(1) Elective officers and officers appointed by the Mayor.

(2) Employees of the Police Department who are entitled to the benefits provided in Chapter X, Article VIII of the Charter.

(3) Employees of the Fire Department who are entitled to the

benefits provided in Chapter VII, Article IX of the Charter.

(4) Employees certified from Civil Service lists for temporary employment.

(5) Inmates of city institutions who are allowed compensation for such service as they are able to perform.

(6) Persons in city institutions principally for the purpose of training, but who receive compensation.

(7) Persons employed under contract for a definite period and for the performance of specific duties requiring professional or high technical skill.

(8) Employees serving on a part-time basis.

(9) Employees engaged outside the City and County of San Francisco on the Hetch Hetchy project, provided that if any employee so excluded shall later become a member of the Retirement System through any change in status occasioned by transfer or assignment to other employment or by amendment to this ordinance, he shall receive credit for service with the City rendered prior to the date he enters the Retirement System, including service as an employee of the Hetch Hetchy project, in the same manner as credit for prior service is granted to employees who become members on April first, nineteen hundred and twenty-two.

(10) Persons in city-service on June twenty-eighth, nineteen hundred and twenty-two, who have not at that time affirmatively exercised the option of becoming members of the Retirement System as provided in Paragraph (1), Subdivision (a) of this section and whose compensation equals or exceeds five hundred (500) dollars per month.

Section 4. Section 6 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 6. Subject to the following and to all other provisions of this ordinance, including such rules and regulations as the Board of Administration shall adopt in pursuance thereof, the said Board shall determine and may modify allowances for service and disability and shall issue service certificates.

It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred and fifty or more days of service rendered by employees on a per diem basis and one year for ten months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year.

Time during which a member was absent on leave without pay shall not be allowed in computing prior service, and may be allowed in computing service as a member, only if allowed for retirement purposes both by the head of the office or department in which the member is employed and by the Board of Administration at the time said leave of absence is granted.

Each employee shall file with the Board of Administration such information affecting his status as a member of the Retirement System as the Board may require.

The Board of Administration shall issue a prior service certificate to each member entering the Retirement System on April first, nineteen hundred and twenty-two, and to each member entering the Retirement System after that date if such entry is within one year after rendering city-service prior to April first, nineteen hundred and twenty-two, and shall certify thereon service rendered prior to the first day of April, nineteen hundred and twenty-two; except that the Board of Administration shall issue a prior service certificate to each member entering the Retirement System, as a teacher employed by the San Francisco School Department, on Oct. first, nineteen hundred and twenty-five, and to each of such members entering the Retirement System after that date if such entry is within one year after rendering city-service prior to Oct. first, nineteen hundred and twenty-five, and shall certify thereon service, not otherwise credited, rendered prior to the first day of Oct., nineteen hundred and twenty-five. Service certified on a prior service certificate shall be the basis for a retirement allowance or benefit as provided in this ordinance only if membership continues until retirement on a retirement allowance or until the granting of such other benefit. Such certificate shall become void and not renewable if membership is discontinued except by retirement on a retirement allowance, and may be modified upon application by a member or upon the initiative of the Board of Administration within one year from date of issuance.

Section 5. Subdivision (b) of Section 7 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(b) In addition to other records and accounts, the Board of Administration shall keep such records and accounts as shall be necessary to show at any time—

(1) The total accumulated contributions of members.

(2) The total accumulated contributions of retired members less the annuity payments made to such members.

(3) The accumulated contributions of the City held for the benefit of members on account of service rendered as members of the Retirement System.

(4) All other accumulated contributions of the City, which shall include the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

A portion of the accumulated contributions of the City previously held for the benefit of members on account of service rendered as members of the Retirement System, equal to the accumulated normal contributions withdrawn by a member, or paid to a beneficiary upon the death of a member or applied to purchase an annuity upon the retirement of a member shall thereafter be included in the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

Section 6. Subdivision (a) of Section 14 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) A member, upon retirement for service, shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and

(2) A pension, purchased by the contributions of the City, equal to that portion of the annuity purchased by the accumulated normal contributions of the member; and

(3) An additional pension, purchased by the contributions of the City, which shall be equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him, except that if a member shall retire after thirty years of continuous service and before attaining the age of sixty-two years the additional pension shall be such as can be purchased at the age of retirement by the actuarial value, at the age of retirement, of a pension, deferred to age sixty-two, equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him; provided that, in the calculation of any additional pension under this paragraph in the case of a member having credit for more than one class of prior service, that

is, prior service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate additional pensions shall be calculated, in the manner prescribed, for each class of prior service, the final compensation in each case being that for the respective class of service.

Section 7. Subdivision (a) of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) Upon retirement for disability a member shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and if, in the opinion of the Board of Administration, such disability is not due to intemperance, willful misconduct or violation of law, on the part of the member,

(2) A pension purchased by the contributions of the City which, together with his annuity, shall make the retirement allowance equal to (a) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service credited to him, if such retirement allowance exceeds one-fourth of his final compensation; otherwise, (b) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age sixty-two, but such retirement allowance shall not exceed one-fourth of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner

prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided that the final compensation upon which the minimum total retirement allowance is calculated in such cases shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

Section 8. Section 20 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 20. No modification of the benefits provided in this ordinance shall be made on account of any amount or amounts payable to a beneficiary, as defined herein, under the provisions of the State Compensation Law or under the provisions of any pension or retirement system now or hereafter established by the State of California.

Section 9. This ordinance shall take effect immediately.

Gray Brothers' Quarry.

Supervisor Harrelson, chairman of the Street Committee, called the attention of the Board to Gray Bros. Quarry at Thirtieth and Diamond streets. He stated that it is a Street Committee matter in that the streets are being undermined, but it may also be a matter for some other committee to investigate as to whether or not it is a nuisance to the people of the neighborhood and that he would like to have some other committee of the Board sit jointly with the Street Committee to consider the question.

It was thought that the Public Welfare Committee would be the proper one to consider that phase of the question and next Thursday was set for the hearing before the two committees jointly.

ADJOURNMENT.

There being no further business the Board at the hour of 3:30 p. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors July 6, 1925.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated, and approved as above recited.

Leave of Absence, City Engineer M. M. O'Shaughnessy.

The following was presented and read by the Clerk:

San Francisco, Cal.,

June 8, 1925.

To the Hon. Board of Supervisors, City Hall, San Francisco, California.

My Dear Colleagues:

Application has been made to me by Hon. M. M. O'Shaughnessy, City Engineer, for a leave of absence, with permission to absent himself from the State of California, for a period of sixty days, commencing today.

Will you please concur with me in granting this leave of absence?

Respectfully yours,

JAMES ROLPH, JR.,

Mayor.

Whereupon, the following resolution was presented and adopted:

Resolution No. 24104 (New Series), as follows:

Resolved, That, in accordance with the recommendation of his Honor the Mayor, M. M. O'Shaughnessy, City Engineer, is hereby granted a leave of absence for a period of sixty days, commencing June 8, 1925, with permission to leave the State.

Ayes—Supervisors Bath, Colman, Deasy, Harrelson, Hayden, Katz, McSheehy, Morgan, Robb, Roncovieri, Rossi, Welch, Wetmore—13.

Absent—Supervisors Badaracco, McGregor, McLeran, Schmitz, Shannon—5.

Supervisor Rossi, Chairman Finance Committee.

Supervisor Morgan moved that Supervisor Rossi be appointed Acting Chairman of Finance Committee. Motion carried.

Supervisor McSheehy moved that Supervisor Katz be made temporarily a member of the Finance Committee. Motion carried.

Subsequently, during the proceedings, Supervisor Welch inquired as to the object and purpose of the foregoing leaves of absence and whether or not it was intended that those to whom the leaves of absence were granted were to go to Washington in order to get the approval of the Secretary of the Interior to the proposed contract with the Pacific Gas and Electric Company for the temporary disposal of the City's Hetch Hetchy power crop; and also as to whether or not it was intended to submit the proposed con-

tract to the Board of Supervisors for its approval first. This, he said, should be done in order that the committee's hands might be strengthened before the Secretary of the Interior.

Supervisor McSheehy moved that the leaves of absence be rescinded.

Subsequently withdrawn in favor of the following resolution, presented by Supervisor Roncovieri:

Whereas, the City Attorney is reported in the press to have prepared the draft of an agreement between the City and County of San Francisco and the Pacific Gas and Electric Company regarding the disposal of the Hetch Hetchy electric power; and

Whereas, it is also reported in the press that the special committee appointed by this Board is about to go to Washington to submit to the Secretary of the Interior said agreement; therefore, be it

Resolved, That the City Attorney and the special committee report to this Board the nature of the agreement before submitting the same to the Secretary of the Interior.

His Honor the Mayor and the members of the special committee subsequently during the proceedings appearing at the meeting.

Statement of His Honor Mayor Rolph.

The Mayor: Now, members of the Board and my fellow citizens. Immediately following that unanimously adopted resolution of the Board, the committee appointed by you, consisting of the chairman of the Finance Committee, the chairman of the Public Utilities Committee, and the Mayor, met and have met on many occasions since that time. After many conferences, and conferences with the officials of the Pacific Gas and Electric Company, and officials of the Great Western Power Company, we found that the Great Western Power Company could not begin to take half of the power which the City has at its disposal, and they so stated, and they said they could not take it and were not in a position to set a figure for it. The only other distributing plant in the city is the Pacific Gas and Electric Company. And we opened negotiations with the Pacific Gas and Electric Company in the Mayor's office, and all our conferences have been held in the Mayor's office, and we find that the Pacific Gas and Electric Company were willing to take all the power generated at the Moccasin Creek plant within two weeks after the City entered into an agreement with them for the disposal of the power on a temporary basis, and I

believe, and so does the committee, that we can make an arrangement from day to day that is about as close a temporary arrangement as we can possibly make. During the past week the City Attorney and his first assistant, Mr. Dailey, have been working on a draft of an agreement that would protect, and in their opinion does protect the rights of the City under the Raker Act, protect municipal ownership, and will dispose of our power temporarily, at the highest figure that we can possibly get, and therefore all four of the elements involved in this matter are protected; the Raker Act is protected, municipal ownership is protected, the taxpayers are protected, and the greatest amount of revenue that we can receive will go toward the protection of the tax rate. Now, those are the four fundamental principles involved in this matter. Your committee has been working to that end. The proposed draft of the agreement was submitted to us this afternoon by Mr. Dailey. Here is a statement that we three have signed which we propose giving to the press. Mr. Dailey presented to the committee the draft of the proposed agreement, which, he advised us, in his opinion and the opinion of Mr. Lull, City Attorney, will not conflict with the terms of the Raker Act.

We are studying the draft of agreement submitted by Mr. Dailey and will meet again tomorrow to discuss all points therein, bringing to the agreement any ideas which may be suggested by any of us.

After our minds have all met, it is our purpose to submit the draft of agreement to the officials of the P. G. & E., and, if we can jointly agree, it is our purpose to take the agreement to Washington to submit it, as provided for in the Raker Act, to the Secretary of the Interior and the Attorney-General for their advice and suggestions.

Under the terms of this draft it is proposed to make the company the agent or distributor of the Moccasin Creek power. The City is to consign the energy output to the plant, less such amount as the City may require for construction or operation purposes of the Hetch Hetchy project and less such amount as the City would have to retain in order to meet all the requirements of the Raker Act in supplying power to irrigation districts or other municipalities.

The City is to deliver the power into the company's system at Newark and the company is to transmit it to San Francisco and distribute it for municipal purposes and to the inhabitants of the City generally.

As compensation to the company

for performing this service a certain fixed sum per unit of power handled by the company is to be paid to the company.

The remainder of the revenue received from the sale of the power is to be paid into the city treasury.

We will continue working diligently in the preparation of an agreement until the matter is finally in shape for submission to the Secretary of the Interior and the Attorney-General for their advice and suggestions.

(Signed) JAMES ROLPH, JR.,
RALPH McLERAN,
WARREN SHANNON.

(See stenographic report of discussion on file in Clerk's office.)

Thereupon, after discussion, Supervisor Roncovieri's resolution as follows was *refused adoption* by the following vote:

Special Committee on Temporary Disposal of Hetch Hetchy Power Requested to Report Details of Agreement Before Its Presentation to Secretary of Interior.

Resolution No. ——— (New Series), as follows:

Whereas, the City Attorney is reported in the press to have prepared the draft of an agreement between the City and County of San Francisco and the Pacific Gas and Electric Company regarding the disposal of Hetch Hetchy electric power; and

Whereas, it is also reported in the press that the special committee appointed by this Board and other officials of this City and County are about to go to Washington, D. C., to submit the said agreement to the Secretary of the Interior; therefore, be it

Resolved, That the special committee appointed by this Board, and all other City officials who have taken part in the preparation of the said agreement, be and are hereby requested to report to this Board the details and nature of the said agreement before submitting the same to the Secretary of the Interior.

Refused adoption by the following vote:

Ayes—Supervisors Deasy, Katz, McSheehy, Roncovieri, Shannon, Welch—6.

Noes—Supervisors Bath, Colman, Harrelson, Hayden, McLeran, Morgan, Robb, Rossi, Wetmore—9.

Report on Evaluation Proceedings.

The following was presented, read by the Clerk, and ordered *filed*:

Railroad Commission of the State of California, Fifth Floor, California State Building, Civic Center, San Francisco, California.

June 6, 1925.

(App 9767-9768.)

Board of Supervisors, City and County of San Francisco, Room 235 City Hall, San Francisco, California.

Gentlemen:

Attention Mr. J. S. Dunnigan, Clerk.

Replying to your letter of May 29th, relative to the question of when the engineers' report and appraisal on the valuation proceeding of the Great Western Power Company and the Pacific Gas and Electric Company will be completed, we are pleased to advise that this work has proceeded to a point where the Commission now feels justified in setting these proceedings down for hearing.

The Commission has today placed on the calendar for hearing the proceeding in the Great Western Power Company case for September 7, 1925, and in the Pacific Gas and Electric Company case for September 14, 1925. It is, of course, impossible to predict how much time will be required in these hearings which is necessary to enable the Commission to reach a conclusion as to the value of the properties.

Yours very truly,

RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

Section 2. This Ordinance shall take effect immediately.

Teachers' Pensions.

On motion of Supervisor Morgan:

Bill No. 7141, Ordinance No. — (New Series), as follows:

Amending Subdivisions (b), (h) and (k) of Section 2; Section 2 by adding a Subdivision (x); Subdivisions (a) and (b) of Section 4; Section 6; Subdivision (b) of Section 7; Subdivision (a) of Section 14; Subdivision (a) of Section 16; and Section 20 of Ordinance No. 5561 (New Series) entitled "Establishing a retirement system for employees of the City and County of San Francisco providing for the payment of retirement allowances to aged and disabled employees and for the payment of death benefits; prescribing the conditions under which said allowances and benefits shall be paid; fixing rates of contribution and the amounts of retirement allowances and death benefits; and providing for the administration of said retirement system in accordance with Article XVII of the Charter" for the purpose of extending the benefits, privileges and conditions of the San Francisco City Employees' Retirement System established by Ordinance No. 5561 (New Series) to persons employed as teachers by the San Francisco School Department.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (b), (h) and (k) of Section 2 of Ordinance No. 5561 (New Series), the title of which is above recited, are hereby amended to read as follows:

(b) "Employee" shall mean any person in the employ of the City and County of San Francisco whose compensation is paid wholly out of funds contributed by the City and County; except that, for the purpose of this ordinance, any person employed as a teacher by the San Francisco School Department shall be considered an "employee", although a portion of the compensation of such person is paid out of funds contributed by the State of California.

(h) "Prior Service" shall mean the service of a member rendered before the first day of April, nineteen hundred and twenty-two, cer-

tified on a prior service certificate and allowable as provided in Section 6 of this ordinance; except that, for members employed as teachers by the San Francisco School Department at the time of their entry into the Retirement System, "Prior Service" shall mean the service, excluding service as a member, rendered before the first day of Oct., nineteen hundred and twenty-five, certified on a prior service certificate and allowable as provided in Section 6 of this ordinance.

(k) "Compensation" shall mean the remuneration payable in cash out of funds contributed by the City plus the monetary value, as determined by the Board of Administration, of board, lodging, fuel, laundry and other advantages allowed as remuneration by the City; and the "compensation" during any fiscal year received by a person as a teacher of the San Francisco School Department shall be taken as such an amount as shall bear the same proportion to the total remuneration allowed such teacher by the San Francisco School Department as the amount contributed during the previous fiscal year by the City to the Common School Fund bears to the total amount contributed to the Common School Fund during such previous fiscal year by the City and by the State of California. In no case shall the "compensation" as defined in this subdivision exceed five hundred (500) dollars per month.

Section 2. Section 2 of Ordinance No. 5561 (New Series) is hereby amended by the addition of a subdivision to be designated (x) and to read as follows:

(x) "Teacher" shall mean any person employed by the City, one requisite of whose employment is that such person shall hold a teaching certificate issued by the State of California.

Section 3. Subdivisions (a) and (b) of Section 4 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(a) With the exception of those employees who are excluded from membership as provided in Subdivision (b) of this section, all employees shall become members of the Retirement System as follows:

(1) Every employee in city-service on April first, nineteen hundred and twenty-two, the date upon which the Retirement System becomes effective, shall have the option of becoming a member of the Retirement System on that date or at any time between that date and

July first, nineteen hundred and twenty-two, but every such employee in city-service on July first, nineteen hundred and twenty-two, who has not exercised the option of becoming a member, shall become a member of the Retirement System on July first, nineteen hundred and twenty-two; except that every employee in city-service on Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, shall become a member of the Retirement System on Oct. first, nineteen hundred and twenty-five.

(2) Every employee who shall re-enter city-service after April first, nineteen hundred and twenty-two, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry; except that every employee who shall re-enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry.

(3) Every other employee who shall enter city-service after April first, nineteen hundred and twenty-two, shall become a member of the Retirement System upon the completion of six months of continuous service; except that every other employee who shall enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department shall become a member of the Retirement System upon the completion of six months of continuous service.

(b) The following employees shall not become members of the Retirement System:

(1) Elective officers and officers appointed by the Mayor.

(2) Employees of the Police Department who are entitled to the benefits provided in Chapter X, Article VIII of the Charter.

(3) Employees of the Fire Department who are entitled to the benefits provided in Chapter VII, Article IX of the Charter.

(4) Employees certified from Civil Service lists for temporary employment.

(5) Inmates of city institutions who are allowed compensation for such service as they are able to perform.

(6) Persons in city institutions

principally for the purpose of training, but who receive compensation.

(7) Persons employed under contract for a definite period and for the performance of specific duties requiring professional or high technical skill.

(8) Employees serving on a part-time basis.

(9) Employees engaged outside the City and County of San Francisco on the Hetch Hetchy project, provided that if any employee so excluded shall later become a member of the Retirement System through any change in status occasioned by transfer or assignment to other employment or by amendment to this ordinance, he shall receive credit for service with the City rendered prior to the date he enters the Retirement System, including service as an employee of the Hetch Hetchy project, in the same manner as credit for prior service is granted to employees who become members on April first, nineteen hundred and twenty-two.

(10) Persons in city-service on June twenty-eighth, nineteen hundred and twenty-two, who have not at that time affirmatively exercised the option of becoming members of the Retirement System as provided in Paragraph (1), Subdivision (a) of this section and whose compensation equals or exceeds five hundred (500) dollars per month.

Section 4. Section 6 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 6. Subject to the following and to all other provisions of this ordinance, including such rules and regulations as the Board of Administration shall adopt in pursuance thereof, the said Board shall determine and may modify allowances for service and disability and shall issue service certificates.

It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred and fifty or more days of service rendered by employees on a per diem basis and one year for ten months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year.

Time during which a member was absent on leave without pay shall not be allowed in computing prior service, and may be allowed in computing service as a member, only if allowed for retirement purposes both by the head of the office or department in which the member is employed and by the Board of Administration at the time said leave of absence is granted.

Each employee shall file with the Board of Administration such information affecting his status as a member of the Retirement System as the Board may require.

The Board of Administration shall issue a prior service certificate to each member entering the Retirement System on April first, nineteen hundred and twenty-two, and to each member entering the Retirement System after that date if such entry is within one year after rendering city-service prior to April first, nineteen hundred and twenty-two, and shall certify thereon service rendered prior to the first day of April, nineteen hundred and twenty-two; except that the Board of Administration shall issue a prior service certificate to each member entering the Retirement System, as a teacher employed by the San Francisco School Department, on Oct. first, nineteen hundred and twenty-five, and to each of such members entering the Retirement System after that date if such entry is within one year after rendering city-service prior to Oct. first, nineteen hundred and twenty-five, and shall certify thereon service, not otherwise credited, rendered prior to the first day of Oct., nineteen hundred and twenty-five. Service certified on a prior service certificate shall be the basis for a retirement allowance or benefit as provided in this ordinance only if membership continues until retirement on a retirement allowance or until the granting of such other benefit. Such certificate shall become void and not renewable if membership is discontinued except by retirement on a retirement allowance, and may be modified upon application by a member or upon the initiative of the Board of Administration within one year from date of issuance.

Section 5. Subdivision (b) of Section 7 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(b) In addition to other records and accounts, the Board of Administration shall keep such records and accounts as shall be necessary to show at any time—

(1) The total accumulated contributions of members.

(2) The total accumulated contributions of retired members less the annuity payments made to such members.

(3) The accumulated contributions of the City held for the benefit of members on account of service rendered as members of the Retirement System.

(4) All other accumulated con-

tributions of the City, which shall include the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

A portion of the accumulated contributions of the City previously held for the benefit of members on account of service rendered as members of the Retirement System, equal to the accumulated normal contributions withdrawn by a member, or paid to a beneficiary upon the death of a member or applied to purchase an annuity upon the retirement of a member shall thereafter be included in the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

Section 6. Subdivision (a) of Section 14 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) A member, upon retirement for service, shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and

(2) A pension, purchased by the contributions of the City, equal to that portion of the annuity purchased by the accumulated normal contributions of the member; and

(3) An additional pension, purchased by the contributions of the City, which shall be equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him, except that if a member shall retire after thirty years of continuous service and before attaining the age of sixty-two years the additional pension shall be such as can be purchased at the age of retirement by the actuarial value, at the age of retirement, of a pension, deferred to age sixty-two, equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him; provided that, in the calculation of any additional pension under this paragraph in the case of a member having credit for more than one class of prior service, that is, prior service as a teacher in the day schools; as a teacher in the evening schools or as an employee in any other position, separate additional pensions shall be calculated, in the manner prescribed, for each class of prior service, the final compensation in each case being that for the respective class of service.

Section 7. Subdivision (a) of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) Upon retirement for disability a member shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and if, in the opinion of the Board of Administration, such disability is not due to intemperance, willful misconduct or violation of law, on the part of the member,

(2) A pension purchased by the contributions of the City which, together with his annuity, shall make the retirement allowance equal to (a) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service credited to him, if such retirement allowance exceeds one-fourth of his final compensation; otherwise, (b) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age sixty-two, but such retirement allowance shall not exceed one-fourth of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided that the final compensation upon which the minimum total retirement allowance is calculated in such cases shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

Section 8. Section 20 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 20. No modification of the benefits provided in this ordinance shall be made on account of any amount or amounts payable to a beneficiary, as defined herein, under the provisions of the State Compensation Law or under the provisions of any pension or retirement system now or hereafter established by the State of California.

Section 9. This ordinance shall take effect immediately.

Spur Track Permits.

On motion of Supervisor Harrelson:

Bill No. 7146, Ordinance No. — (New Series), as follows:

Granting permission, revocable at will of the Board of Supervisors, to Southern Pacific Company, a corporation, to construct, maintain and operate a standard gauge railroad track in the vicinity of Fifth and Brannan streets, in the City and County of San Francisco, for industrial purposes only, and connecting with the tracks now operated by said Southern Pacific Company, all as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission, revocable at will of the Board of Supervisors of said City and County of San Francisco, is hereby granted to Southern Pacific Company, a corporation, to construct, maintain, and operate a standard gauge railroad track from its existing railroad tracks operated by it in the vicinity of Fifth and Brannan streets, in said City and County, the route of said track hereby permitted being described as follows:

Beginning at a point on the center line of the existing track on Fifth street, said point being 246

feet southerly from the southerly line of Brannan street produced, and 23 feet easterly, measured at right angles from the westerly line of Fifth street; thence in a northerly direction for a distance of 155 feet, more or less, to a point on the easterly side of Fifth street, said point being 98 feet, more or less, southerly from the southerly line of Brannan street produced, and 23 feet westerly, measured at right angles from the easterly line of Fifth street; thence in a northerly direction, parallel to and 23 feet distant from the easterly line of Fifth street for a distance of 79 feet, more or less, to a point on the center line of the existing track.

Also, beginning at a point in Fifth street, said point being 98 feet, more or less, measured southerly from the southerly line of Brannan street produced, and 23 feet westerly, measured at right angles from the easterly line of Fifth street; thence in a westerly direction on a curve concave to the left, crossing the intersection of Fifth and Brannan streets for a distance of 256 feet, more or less, to a point 120 feet, more or less, measured in a westerly direction from the westerly line of Fifth street, and 8.5 feet southerly, measured at right angles from the northerly line of Brannan street; thence westerly parallel to and 8.5 feet distant from the northerly line of Brannan street for a distance of 52 feet, more or less, to the end of track.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October 12, 1906, and the provisions and conditions of Section 8 thereof are hereby specifically contained in the permit hereby granted and shall be construed as a part hereof as completely as though the same were written in this ordinance.

Provided, that said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office and that any and all expense connected with the installation of the track, restoration of the pavement and any additional requirements for the surface drainage to be paid for by the Southern Pacific Company; provided that Southern Pacific Company shall erect and maintain all night lighted arc lamps to be placed where directed by the Lighting Committee of the Board of Supervisors.

Provided, that girder rail be used in its entire construction; that the

sewers be reinforced where necessary; that provision be made to handle the surface drainage; that the granite curb removed be hauled to the Corporation yard; and that the existing trolley pole be moved to provide proper clearance; all pavement disturbed to be restored; and all work to be done under the direction and supervision of the Board of Public Works.

Section 2. This ordinance shall take effect immediately.

Also, Bill No. 7147, Ordinance No. — (New Series), as follows:

Granting permission, revocable at will of the Board of Supervisors, to Southern Pacific Company, a corporation, to construct, maintain and operate standard-gauge railroad tracks upon, along and across those certain streets and avenues in the City and County of San Francisco, State of California, as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission, revocable at will of the Board of Supervisors, is hereby granted to Southern Pacific Company, a corporation, to construct, maintain and operate standard-gauge railroad tracks upon, along and across Newcomb avenue and crossing Quint, Rankin, Selby and Toland streets, and upon, along and across Newcomb avenue, McKinnon avenue, Jerrold street, Innes avenue and Galvez avenue, the center lines of the proposed tracks being particularly described as follows, to-wit:

Beginning at a point on the southwesterly line of Newcomb avenue, distant thereon 100 feet, more or less, southeasterly from the southeasterly line of Quint street; thence northwesterly on a curve concave to the left, with a radius of 365 feet, crossing the intersection of Quint street and Newcomb avenue, for a distance of 170 feet, more or less, to the intersection of the center line of Newcomb avenue and the northwesterly line of Quint street produced; thence northwesterly along said center line of Newcomb avenue, crossing Rankin street and Selby street, for a distance of 1328 feet, more or less, to a point on the northwesterly line of Selby street, distant thereon 240 feet, more or less, northeasterly from the northeasterly line of Oakdale avenue; thence continuing on private property to a point on the southeasterly line of Toland street, distant thereon 240 feet, more or less, northeasterly from the northeasterly line of Oakdale avenue; thence northwesterly, crossing Toland street, for a distance of 64 feet, more or less, to

a point on the northwesterly line of Toland street, distant thereon 240 feet, more or less, northeasterly from the northeasterly line of Oakdale avenue.

Beginning at a point on the southwesterly line of Newcomb avenue, distant thereon 161 feet, more or less, southeasterly from the southeasterly line of Quint street; thence northerly a distance of 98 feet, more or less, to a point on the northwesterly line of Newcomb avenue, distant thereon 104 feet, more or less, southeasterly from the southeasterly line of Quint street; thence continuing through private property to a point on the southeasterly line of Quint street, distant thereon 55 feet, more or less, southwesterly from the southwesterly line of McKinnon avenue; thence northerly on a curve concave to the right with a radius of 716 feet, crossing the intersection of Quint street and McKinnon avenue, a distance of 157 feet, more or less, to a point on the northeasterly line of McKinnon avenue, distant thereon 15 feet, more or less, northwesterly from the northwesterly line of Quint street; thence continuing through private property to a point on the southwesterly line of Jerrold street, distant thereon 167 feet, more or less, southeasterly from the southeasterly line of Rankin street; thence northerly crossing Jerrold street a distance of 92 feet, more or less, to a point on the northeasterly line of Jerrold street, distant thereon 122 feet, more or less, southeasterly from the southeasterly line of Rankin street; thence continuing through private property to a point on the southwesterly line of Innes avenue, distant thereon 10 feet, more or less, southeasterly from the southeasterly line of Rankin street; thence northerly crossing the intersection of Innes avenue and Rankin street a distance of 151 feet, more or less, to a point on the northwesterly line of Rankin street, distant thereon 52 feet, more or less, northeasterly from the northeasterly line of Innes avenue; thence continuing through private property to a point on the southwesterly line of Galvez avenue, distant thereon 240 feet, more or less, northwesterly from the northwesterly line of Rankin street; thence northerly crossing Galvez avenue a distance of 92 feet, more or less, to a point on the northeasterly line of Galvez avenue, distant thereon 285 feet, more or less, northwesterly from the northwesterly line of Rankin street.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October

12, 1906, and the provisions and conditions of Section 8 thereof are hereby specifically contained in the permit hereby granted and shall be construed as a part hereof as completely as though the same were written in this ordinance.

Provided, that said tracks shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office and that any and all expense connected with the installation of the tracks, restoration of the pavement and any additional requirements for the surface drainage to be paid for by the Southern Pacific Company; provided, that Southern Pacific Company shall erect and maintain all-night lighted arc lamps to be placed where directed by the Lighting Committee of the Board of Supervisors.

That girder rail be used on the crossing of Quint street, Newcomb avenue, east of Quint street, Quint street, and McKinnon avenue, Jerrold avenue, east of Rankin street, and on Galvez avenue, east of Selby street. That provision be made to provide a suitable crossing over the drainage ditch west of Selby street; also that when main sewers are constructed in this district the Southern Pacific is to pay for the additional reinforcing to support the tracks.

All work to be done under the direction and supervision of the Board of Public Works.

Section 2. This ordinance shall take effect immediately.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Municipal Railway Grade Crossing on Junipero Serra Boulevard.

Supervisor Bath presented:

Resolution No. 24139 (New Series), as follows:

Whereas, the press, the California State Automobile Association and other organizations have asserted that extension of the Municipal Railway tracks across the highway at grade between Ingleside Terrace subdivision and the San Francisco Golf Club will create a serious danger point; and

Whereas, grade crossings are being discouraged generally throughout the United States and millions of dollars expended to eliminate such traffic hazards; and

Whereas, it would appear that traffic congestion on the Junipero Serra boulevard would be greatly increased due to the fact that open highway rates of speed will no longer be possible; therefore, be it

Resolved, That the Public Utilities Committee of the Board of Supervisors be requested to make an immediate investigation and hold a public hearing in the interest of public safety and the facilitation of already congested traffic on the roads leading into and out of the City and County of San Francisco.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Bath, Colman, Deasy, Harrelson, Hayden, Katz, McSheehy, Morgan, Robb, Roncovieri, Rossi, Welch, Wetmore—13.

City's Exhibit at California Industries Exposition.

Supervisor Colman presented:

Resolution No. 24140 (New Series), as follows:

Whereas, many commercial and civic organizations and manufacturing industries have indicated their intention to participate in the California Industries Exposition, to be held in the Exposition Auditorium October 15 to November 3, 1925, inclusive, as a method of showing to the center of population the resources and opportunities of their various districts; and

Whereas, the development of the natural resources of California is followed by the development of our industries, which is of vital importance to San Francisco in that it develops the business and commerce of our City; therefore, be it

Resolved, That the Board of Supervisors of San Francisco direct the various departments of this City, particularly the Auditor, the Police and Fire Departments, Department of Electricity, Board of Public Works, Bureau of Engineering, Park Commission, Playground Commission, Board of Health and Board of Education, to get together an exhibit worthy and representative of San Francisco, the same to be placed in the California Industries Exposition in the space purchased by the City and reserved therein for this purpose.

Amendment to Sign Ordinance.

On motion of Supervisor Wet-
more:

Bill No. 7148, Ordinance No. —
(New Series), as follows:

Amending Section 8 of Ordinance
No. 1009 (New Series), entitled,
"Regulating the construction, erec-
tion and maintenance of signs,
transparencies, advertisements,
bulletin boards and clocks on or
about buildings or over public
streets and thoroughfares, providing
for the inspection of the same," ap-
proved December 28, 1909.

Be it ordained by the People of
the City and County of San Fran-
cisco as follows:

Section 1. Section 8 of Ordinance
No. 1009 (New Series), the title of
which is heretofore recited in this
ordinance, is hereby amended to
read as follows:

Section 8. All clocks to be here-
after erected on the sidewalks shall
be ornamental in character and
construction and shall be erected

just inside and abutting on the
curb line. All clocks to be erected
shall be of a height not less than
ten (10) feet, and the face of said
clocks shall be not less than two
(2) feet nor more than three (3)
feet in diameter.

No advertisement, notice, words,
lettering or inscription other than
the name of the person, firm or cor-
poration maintain such clock under
a duly authorized permit shall be
painted, placed or fastened on the
same.

No advertisement, notice, words,
lettering or inscription of any kind
or character shall be painted,
placed or fastened upon or to the
pole or standard upon which such
clock is mounted.

All clocks now being maintained
on the sidewalks shall be made to
conform to the requirements hereof,
and any clock now being main-
tained, or which may hereafter be
maintained, contrary to the pro-
visions of this section shall be
deemed a nuisance and subject to
summary removal by the Board of
Public Works by direction of the
Board of Supervisors. All clocks
erected or maintained hereunder
shall be kept in good condition and
correctly indicate the time. No
clock shall be erected on any side-
walk unless the design of said
clock has been approved by the
Board of Public Works and a writ-
ten permit received from said Board
for its erection.

All clocks now erected or here-
after erected, upon sidewalks, shall
be considered as temporary obstruc-
tions only and removable at the
pleasure of the Board of Supervi-
sors whenever said Board deems the
public good so requires, and all per-
mits issued for the erection of said
clocks shall contain this proviso.

Section 2. This ordinance shall
take effect immediately.

Proposed Monument to Roosevelt.

The following was presented and read by the Clerk:

San Francisco, Calif.,

June 15, 1925.

To the Honorable Board of Supervisors of San Francisco:

Now that the first shovelfull of dirt has been turned and work is well started on the Roosevelt way, it seems an appropriate time to complete a few minor details in connection with a movement which will enable the patriotic citizens of San Francisco to erect a fitting monument to the memory of that great American for whom the boulevard is named—Theodore Roosevelt.

Therefore, I ask your Honorable Board to allocate as a site for such a memorial land now owned by the City of San Francisco on the highest point of Twin Peaks.

Respectfully,

(Signed) MRS. H. C. ROTHWELL,
48 Levant street.

Referred to Education, Parks and Playgrounds Committee.

Templeton Crocker Thanks Board for Resolutions Extolling Presentation of Opera, "Fay-Yen-Fah," Abroad. The following was presented:

San Francisco, June 10, 1925.

Hon. James Rolph, Jr., Mayor of San Francisco, City Hall, City and County of San Francisco, California.

My dear Mayor Rolph:

Upon my recent return to this city I have been handed the very beautiful resolution passed by the Board of Supervisors on the 13th day of April, 1925, in recognition of the efforts of Mr. Redding and myself in presenting the opera, "Fay-Yen-Fah," abroad.

I deeply regret that I was unable to be present on the occasion of the

presentation of these resolutions and the reception tendered to us at the City Hall. This souvenir shall be treasured by myself and my family, containing, as it does, the sincere appreciation of our work from the representative citizens of our community.

Will you please accept my very grateful thanks for yourself personally, and present the same to the Honorable the Board of Supervisors?

I beg to remain, most sincerely and very respectfully yours,

TEMPLETON CHOCKER.

Report of Education, Parks and Playgrounds Committee on Termination of Lease and Purchase of Equipment, Margaret Maryland Playground.

San Francisco, June 15, 1925.

To the Board of Supervisors, City and County of San Francisco:

Your Committee on Education, Parks and Playgrounds recommends the adoption of an ordinance authorizing the Board of Public Works to terminate the outstanding lease to the Yosemite National Park Company for City property at Mather Station, Tuolumne County, California, and authorizing and directing the Playground Commission to take over said property and purchase the fixed improvements situated thereon for the sum of \$12,500. The purchase price to be paid out of the funds of the Playground Commission. The acquisition of this property is recommended by the Playground Commission and City Engineer M. M. O'Shaughnessy.

Respectfully submitted,
MARGARET MARY MORGAN,
Committee on Education, Parks and Playgrounds.

Report of Public Utilities Committee on Exchanges of Spring Valley Lands.

San Francisco, Calif.,

June 15, 1925.

To the Honorable Board of Supervisors, City and County of San Francisco:

Your Public Utilities Committee respectfully reports as follows:

Recommends the adoption of a resolution recommended by the City Engineer authorizing the City to place certain lands desired by the Spring Valley Water Company up for sale, and to pay the Spring Valley Water Company for lands desired by the City the amount equal to that received by the City for the lands sold at said sale.

Recommends the adoption of a resolution recommended by the City Engineer authorizing the Mayor and the Clerk of the Board of Supervisors to execute a supplemental contract consenting to a proposed exchange of lands and the

deduction from the purchase price under the option for the acquisition of the properties of the Spring Valley Water Company by the City. This transaction is made necessary by reason of the readjustment by the Spring Valley Water Company of its property boundaries along the Skyline boulevard in San Mateo County.

The Committee also approved and recommended to the Finance Committee, in accordance with the recommendation of the City Engineer, purchase from Kathlynn Courtney, for the sum of \$200, of land situated in San Francisco, required in connection with the site for the proposed San Miguel reservoir.

Respectfully submitted,

PHIL KATZ,

JAS. B. McSHEEHY,

Public Utilities Committee.

I vote *aye* on last section. I vote *no* on the other two sections.

JAS. B. McSHEEHY.

Re Hetch Hetchy Temporary Power Disposal.

The question having been raised by Supervisor Colman as to the situation regarding the proposed Hetch Hetchy contract, after considerable discussion the following proceedings were had:

Motion.

Supervisor McShuehy, seconded by Supervisor Roncovieri, moved that Board recess until 8 p. m. this evening, in order to receive a progress report from the Special Committee, which it was said would meet at 5 p. m. to consider proposed contract with the Pacific Gas and Electric Company.

Supervisor Hayden, seconded by Supervisor Rossi, moved as an amendment that at the conclusion of the deliberations of the Special Committee that the Mayor call the Board in special session at the earliest possible moment.

Supervisor Roncovieri moved as a substitute for the whole that the Mayor and Special Committee be sent for immediately to give some idea of when they will require us here and give us a progressive report.

The foregoing motion was subsequently withdrawn by Supervisor Roncovieri in favor of a suggestion that Supervisor Hayden, as a committee of one, call on the Mayor and ask him when he expects the Board to be here.

The latter suggestion was concurred in unanimously.

After the transaction of other business the following proceedings were had, Supervisors McLeran and

Hayden having returned to the Board:

Supervisor Hayden, who had been delegated by the Board to confer with his Honor the Mayor as to when the Board could expect a report on the proposed contract with the Pacific Gas and Electric Company, brought from his Honor the Mayor the following statement, which was read by the Clerk and ordered *spread in the Journal*:

San Francisco, Calif.,

June 15, 1925.

The Honorable Board of Supervisors, City and County of San Francisco:

At your request through Supervisor Hayden, I make you the following preliminary report:

The Pacific Gas and Electric Company has submitted some amendments to the form of contract we offered to the company last Friday.

Most of these amendments are lawyer's changes in words and phrases. They don't go to the merits of the contract at all.

In principle the contract appears to be acceptable and I have no doubt we can soon get together on the points in dispute, which seem to be few.

The contract fully protects the City, in that the City can cancel it on one day's notice. It also preserves our rights under the Raker Act. No one can complain of any noncompliance with the Raker Act except the Department of the Interior, and the contract provides that the Department may cancel it any time without notice. All the Department of the Interior will have to do if it does not approve the contract is to write the City a letter and that will end it.

The committee has turned the amendments over to Assistant City Attorney Dailey and asked him to clear up the matters of form and to report tonight on the important points of difference which the committee itself will take up with the Pacific Gas and Electric Company officials immediately, we hear from Mr. Dailey.

For my part I hope we will have all the difficulties ironed out by Wednesday and be able to present a completed contract to the Board of Supervisors that day or the next.

It is important that we move fast, for Chief Engineer O'Shaughnessy reports that the power is now "shooting into the air." This means \$5,500 loss for every day we delay.

Respectfully,

(Signed) JAMES ROLPH, JR.,

Mayor.

Bill No. 7141, Ordinance No. 6665 (New Series), as follows:

Amending Subdivisions (b), (h)

and (k) of Section 2; Section 2 by adding a Subdivision (x); Subdivisions (a) and (b) of Section 4; Section 6; Subdivision (b) of Section 7; Subdivision (a) of Section 14; Subdivision (a) of Section 16; and Section 20 of Ordinance No. 5561 (New Series) entitled "Establishing a retirement system for employees of the City and County of San Francisco providing for the payment of retirement allowances to aged and disabled employees and for the payment of death benefits; prescribing the conditions under which said allowances and benefits shall be paid; fixing rates of contribution and the amounts of retirement allowances and death benefits; and providing for the administration of said retirement system in accordance with Article XVII of the Charter" for the purpose of extending the benefits, privileges and conditions of the San Francisco City Employees' Retirement System established by Ordinance No. 5561 (New Series) to persons employed as teachers by the San Francisco School Department.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (b), (h) and (k) of Section 2 of Ordinance No. 5561 (New Series), the title of which is above recited, are hereby amended to read as follows:

(b) "Employee" shall mean any person in the employ of the City and County of San Francisco whose compensation is paid wholly out of funds contributed by the City and County; except that, for the purpose of this ordinance, any person employed as a teacher by the San Francisco School Department shall be considered an "employee", although a portion of the compensation of such person is paid out of funds contributed by the State of California.

(h) "Prior Service" shall mean the service of a member rendered before the first day of April, nineteen hundred and twenty-two, certified on a prior service certificate and allowable as provided in Section 6 of this ordinance; except that, for members employed as teachers by the San Francisco School Department at the time of their entry into the Retirement System, "Prior Service" shall mean the service, excluding service as a member, rendered before the first day of Oct., nineteen hundred and twenty-five, certified on a prior service certificate and allowable as provided in Section 6 of this ordinance.

(k) "Compensation" shall mean the remuneration payable in cash out of funds contributed by the City plus the monetary value, as determined by the Board of Administration, of board, lodging, fuel, laundry and other advantages allowed as remuneration by the City; and the "compensation" during any fiscal year received by a person as a teacher of the San Francisco School Department shall be taken as such an amount as shall bear the same proportion to the total remuneration allowed such teacher by the San Francisco School Department as the amount contributed during the previous fiscal year by the City to the Common School Fund bears to the total amount contributed to the Common School Fund during such previous fiscal year by the City and by the State of California. In no case shall the "compensation" as defined in this subdivision exceed five hundred (500) dollars per month.

Section 2. Section 2 of Ordinance No. 5561 (New Series) is hereby amended by the addition of a subdivision to be designated (x) and to read as follows:

(x) "Teacher" shall mean any person employed by the City, one requisite of whose employment is that such person shall hold a teaching certificate issued by the State of California.

Section 3. Subdivisions (a) and (b) of Section 4 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(a) With the exception of those employees who are excluded from membership as provided in Subdivision (b) of this section, all employees shall become members of the Retirement System as follows:

(1) Every employee in city-service on April first, nineteen hundred and twenty-two, the date upon which the Retirement System becomes effective, shall have the option of becoming a member of the Retirement System on that date or at any time between that date and July first, nineteen hundred and twenty-two, but every such employee in city-service on July first, nineteen hundred and twenty-two, who has not exercised the option of becoming a member, shall become a member of the Retirement System on July first, nineteen hundred and twenty-two; except that every employee in city-service on Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, shall become a member of the Retirement

System on Oct. first, nineteen hundred and twenty-five.

(2) Every employee who shall re-enter city-service after April first, nineteen hundred and twenty-two, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry; except that every employee who shall re-enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department, and who, prior to such re-entry, shall have completed six months of continuous city-service, shall become a member of the Retirement System upon such re-entry.

(3) Every other employee who shall enter city-service after April first, nineteen hundred and twenty-two, shall become a member of the Retirement System upon the completion of six months of continuous service; except that every other employee who shall enter city-service after Oct. first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department shall become a member of the Retirement System upon the completion of six months of continuous service.

(b) The following employees shall not become members of the Retirement System:

(1) Elective officers and officers appointed by the Mayor.

(2) Employees of the Police Department who are entitled to the benefits provided in Chapter X, Article VIII of the Charter.

(3) Employees of the Fire Department who are entitled to the benefits provided in Chapter VII, Article IX of the Charter.

(4) Employees certified from Civil Service lists for temporary employment.

(5) Inmates of city institutions who are allowed compensation for such service as they are able to perform.

(6) Persons in city institutions principally for the purpose of training, but who receive compensation.

(7) Persons employed under contract for a definite period and for the performance of specific duties requiring professional or high technical skill.

(8) Employees serving on a part-time basis.

(9) Employees engaged outside the City and County of San Francisco on the Hetch Hetchy project, provided that if any employee so excluded shall later become a mem-

ber of the Retirement System through any change in status occasioned by transfer or assignment to other employment or by amendment to this ordinance, he shall receive credit for service with the City rendered prior to the date he enters the Retirement System, including service as an employee of the Hetch Hetchy project, in the same manner as credit for prior service is granted to employees who become members on April first, nineteen hundred and twenty-two.

(10) Persons in city-service on June twenty-eighth, nineteen hundred and twenty-two, who have not at that time affirmatively exercised the option of becoming members of the Retirement System as provided in Paragraph (1), Subdivision (a) of this section and whose compensation equals or exceeds five hundred (500) dollars per month.

Section 4. Section 6 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 6. Subject to the following and to all other provisions of this ordinance, including such rules and regulations as the Board of Administration shall adopt in pursuance thereof, the said Board shall determine and may modify allowances for service and disability and shall issue service certificates.

It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred and fifty or more days of service rendered by employees on a per diem basis and one year for ten months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year.

Time during which a member was absent on leave without pay shall not be allowed in computing prior service, and may be allowed in computing service as a member, only if allowed for retirement purposes both by the head of the office or department in which the member is employed and by the Board of Administration at the time said leave of absence is granted.

Each employee shall file with the Board of Administration such information affecting his status as a member of the Retirement System as the Board may require.

The Board of Administration shall issue a prior service certificate to each member entering the Retirement System on April first, nineteen hundred and twenty-two, and to each member entering the Retirement System after that date if such entry is within one year

after rendering city-service prior to April first, nineteen hundred and twenty-two, and shall certify thereon service rendered prior to the first day of April, nineteen hundred and twenty-two; except that the Board of Administration shall issue a prior service certificate to each member entering the Retirement System, as a teacher employed by the San Francisco School Department, on Oct. first, nineteen hundred and twenty-five, and to each of such members entering the Retirement System after that date if such entry is within one year after rendering city-service prior to Oct. first, nineteen hundred and twenty-five, and shall certify thereon service, not otherwise credited, rendered prior to the first day of Oct., nineteen hundred and twenty-five. Service certified on a prior service certificate shall be the basis for a retirement allowance or benefit as provided in this ordinance only if membership continues until retirement on a retirement allowance or until the granting of such other benefit. Such certificate shall become void and not renewable if membership is discontinued except by retirement on a retirement allowance, and may be modified upon application by a member or upon the initiative of the Board of Administration within one year from date of issuance.

Section 5. Subdivision (b) of Section 7 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(b) In addition to other records and accounts, the Board of Administration shall keep such records and accounts as shall be necessary to show at any time—

(1) The total accumulated contributions of members.

(2) The total accumulated contributions of retired members less the annuity payments made to such members.

(3) The accumulated contributions of the City held for the benefit of members on account of service rendered as members of the Retirement System.

(4) All other accumulated contributions of the City, which shall include the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

A portion of the accumulated contributions of the City previously held for the benefit of members on account of service rendered as members of the Retirement System, equal to the accumulated normal contributions withdrawn by a member, or paid to a beneficiary upon

the death of a member or applied to purchase an annuity upon the retirement of a member shall thereafter be included in the amounts available to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

Section 6. Subdivision (a) of Section 14 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) A member, upon retirement for service, shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and

(2) A pension, purchased by the contributions of the City, equal to that portion of the annuity purchased by the accumulated normal contributions of the member; and

(3) An additional pension, purchased by the contributions of the City, which shall be equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him, except that if a member shall retire after thirty years of continuous service and before attaining the age of sixty-two years the additional pension shall be such as can be purchased at the age of retirement by the actuarial value, at the age of retirement, of a pension, deferred to age sixty-two, equal to one and one-third ($1\frac{1}{3}$) per centum of his final compensation multiplied by the number of years of prior service credited to him; provided that, in the calculation of any additional pension under this paragraph in the case of a member having credit for more than one class of prior service, that is, prior service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate additional pensions shall be calculated, in the manner prescribed, for each class of prior service, the final compensation in each case being that for the respective class of service.

Section 7. Subdivision (a) of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) Upon retirement for disability a member shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and if, in the opinion of the Board of Administration, such disability is not due

to intemperance, willful misconduct or violation of law, on the part of the member,

(2) A pension purchased by the contributions of the City which, together with his annuity, shall make the retirement allowance equal to (a) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service credited to him, if such retirement allowance exceeds one-fourth of his final compensation; otherwise, (b) one and one-fourth ($1\frac{1}{4}$) per centum of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age sixty-two, but such retirement allowance shall not exceed one-fourth of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided that the final compensation upon which the minimum total retirement allowance is calculated in such cases shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

Section 8. Section 20 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 20. No modification of the benefits provided in this ordinance shall be made on account of any amount or amounts payable to a beneficiary, as defined herein, under the provisions of the State Compensation Law or under the provisions of any pension or retirement system now or hereafter established by the State of California.

Section 9. This ordinance shall take effect immediately.

Amendment to Sign Ordinance.

Bill No. 7148, Ordinance No. 6666 (New Series), as follows:

Amending Section 8 of Ordinance No. 1009 (New Series), entitled, "Regulating the construction, erection

and maintenance of signs, transparencies, advertisements, bulletin boards and clocks on or about buildings or over public streets and thoroughfares, providing for the inspection of the same," approved December 28, 1909.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 8 of Ordinance No. 1009 (New Series), the title of which is heretofore recited in this ordinance, is hereby amended to read as follows:

Section 8. All clocks to be hereafter erected on the sidewalks shall be ornamental in character and construction and shall be erected just inside and abutting on the curb line. All clocks to be erected shall be of a height not less than ten (10) feet, and the face of said clocks shall be not less than two (2) feet nor more than three (3) feet in diameter.

No advertisement, notice, words, lettering or inscription other than the name of the person, firm or corporation maintain such clock under a duly authorized permit shall be painted, placed or fastened on the same.

No advertisement, notice, words, lettering or inscription of any kind or character shall be painted, placed or fastened upon or to the pole or standard upon which such clock is mounted.

All clocks now being maintained on the sidewalks shall be made to conform to the requirements hereof, and any clock now being maintained, or which may hereafter be maintained, contrary to the provisions of this section shall be deemed a nuisance and subject to summary removal by the Board of Public Works by direction of the Board of Supervisors. All clocks erected or maintained hereunder shall be kept in good condition and correctly indicate the time. No clock shall be erected on any sidewalk unless the design of said clock has been approved by the Board of Public Works and a written permit received from said Board for its erection.

All clocks now erected or hereafter erected, upon sidewalks, shall be considered as temporary obstructions only and removable at the pleasure of the Board of Supervisors whenever said Board deems the public good so requires, and all permits issued for the erection of said clocks shall contain this proviso.

Section 2. This ordinance shall take effect immediately.

Ordering Street Work.

Bill No. 7145, Ordinance No. 6667 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors May 7, 1925, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works and to be done in accordance with the specifications prepared therefor by said Board of Public Works and on file in its office, which said plans and specifications are hereby approved and adopted.

That said Board of Supervisors, pursuant to the provisions of Part II of the said Street Improvement Ordinance of 1918 of said City and County of San Francisco, does hereby determine and declare that the assessment to be imposed for the said contemplated improvements, respectively, may be paid in twenty installments; that the period of time after the payment of the first installment when each of the succeeding installments must be paid is to be six months from the time of the payment of the preceding installment, and that the rate of interest to be charged on all deferred payments shall be seven per centum per annum.

The improvement of *Ingerson avenue between Ingalls street and Jennings street*, including the crossings of *Ingerson avenue and Ingalls street*, and *Ingerson avenue and Jennings street*, by grading to official line and grade; by the construction of concrete curbs; by the construction of 3 brick catchbasins with appurtenances and 10-inch ironstone pipe culverts on each of the above mentioned crossings; by the construction of artificial stone sidewalks; by the construction of reinforced concrete stairways, and by

the construction of an asphaltic concrete pavement on the roadway thereof.

Section 2. This ordinance shall take effect immediately.

Ayes—Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Welch, Wetmore—15.

Spur Track Permits.

Bill No. 7146, Ordinance No. 6668 (New Series), as follows:

Granting permission, revocable at will of the Board of Supervisors, to Southern Pacific Company, a corporation, to construct, maintain and operate a standard gauge railroad track in the vicinity of Fifth and Brannan streets, in the City and County of San Francisco, for industrial purposes only, and connecting with the tracks now operated by said Southern Pacific Company, all as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission, revocable at will of the Board of Supervisors of said City and County of San Francisco, is hereby granted to Southern Pacific Company, a corporation, to construct, maintain, and operate a standard gauge railroad track from its existing railroad tracks operated by it in the vicinity of Fifth and Brannan streets, in said City and County, the route of said track hereby permitted being described as follows:

Beginning at a point on the center line of the existing track on Fifth street, said point being 246 feet southerly from the southerly line of Brannan street produced, and 23 feet easterly, measured at right angles from the westerly line of Fifth street; thence in a northerly direction for a distance of 155 feet, more or less, to a point on the easterly side of Fifth street, said point being 98 feet, more or less, southerly from the southerly line of Brannan street produced, and 23 feet westerly, measured at right angles from the easterly line of Fifth street; thence in a northerly direction, parallel to and 23 feet distant from the easterly line of Fifth street for a distance of 79 feet, more or less, to a point on the center line of the existing track.

Also, beginning at a point in Fifth street, said point being 98 feet, more or less, measured southerly from the southerly line of Brannan street produced, and 23 feet westerly, measured at right angles from the

easterly line of Fifth street; thence in a westerly direction on a curve concave to the left, crossing the intersection of Fifth and Brannan streets for a distance of 256 feet, more or less, to a point 120 feet, more or less, measured in a westerly direction from the westerly line of Fifth street, and 8.5 feet southerly, measured at right angles from the northerly line of Brannan street; thence westerly parallel to and 8.5 feet distant from the northerly line of Brannan street for a distance of 52 feet, more or less, to the end of track.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October 12, 1906, and the provisions and conditions of Section 8 thereof are hereby specifically contained in the permit hereby granted and shall be construed as a part hereof as completely as though the same were written in this ordinance.

Provided, that said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office and that any and all expense connected with the installation of the track, restoration of the pavement and any additional requirements for the surface drainage to be paid for by the Southern Pacific Company; provided that Southern Pacific Company shall erect and maintain all-night lighted arc lamps to be placed where directed by the Lighting Committee of the Board of Supervisors.

Provided, that girder rail be used in its entire construction; that the sewers be reinforced where necessary; that provision be made to handle the surface drainage; that the granite curb removed be hauled to the Corporation yard; and that the existing trolley pole be moved to provide proper clearance; all pavement disturbed to be restored; and all work to be done under the direction and supervision of the Board of Public Works.

Section 2. This ordinance shall take effect immediately.

Board of Public Works to Terminate Lease of Yosemite National Park Company.

Supervisor Morgan presented:

Bill No. 7153, Ordinance No. — (New Series), as follows:

Authorizing the Board of Public Works to terminate the outstanding lease to the Yosemite National Park Company of City property at Mather Station, in Tuolumne County, California, and authorizing and directing the Playground Commission to take over said property and purchase from the present owners the fixed improvements situated thereon.

Whereas, in accordance with the provisions of Ordinance No. 5279 (New Series) of the Board of Supervisors of the City and County of San Francisco, the Board of Public Works on the 29th day of April, 1921, made and entered into a leasing agreement with the Yosemite National Park Company, a corporation, under the terms of which agreement the said Board of Public Works leased, demised and let

to the said Yosemite National Park Company for a term of 18 years the lands of the City and County of San Francisco situated at Mather Station, upon an annual rental of \$50 per year; and

Whereas, by Resolution No. 21739 (New Series), adopted October 29, 1923, the Playground Commission was authorized and directed to select as a site for the San Francisco Mountain Recreation Camp and Playground lands and holdings of the City in the vicinity of Mather Station; and

Whereas, the Yosemite National Park Company has since been consolidated with other Yosemite Park concessionaires, and has changed its corporate name to Yosemite Park and Curry Company, and has in writing offered to turn over its holdings at Mather Station to the Playground Commission of the City and County of San Francisco and sell to said Playground Commission its buildings and fixtures situated on said property for the sum of twelve thousand five hundred dollars (\$12,500); and

Whereas, the Playground Commission and the City Engineer have jointly recommended to the Board of Supervisors that this arrangement be consummated and have requested authority to enter into the same; now, therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works is hereby authorized and directed, with the consent of the Yosemite Park and Curry Company, as successor to the Yosemite National Park Company, to terminate forthwith the certain lease dated the 29th day of April, 1921, relating to the lands of the City and County of San Francisco situated near Mather in Tuolumne County, California, and more particularly described in said lease.

Section 2. The Playground Commission is hereby authorized and directed to take over possession and control of said property previously covered by said lease, to purchase from the Yosemite Park and Curry Company for the sum of \$12,500 the buildings and fixtures placed on said property by said corporation, and to operate the same as a mountain recreation camp and playground for the residents and taxpayers of the City and County of San Francisco.

The Playground Commission is further authorized and directed to take all other steps necessary and convenient to place said property in

condition for occupancy and use as such recreation camp and playground.

Section 3. Nothing in this ordinance contained shall be construed as depriving the Board of Public Works of jurisdiction over such portions of the land at Mather as are directly used or required in connection with the operation of the Hetch Hetchy Railroad or sawmill in that vicinity.

Section 4. This ordinance shall take effect immediately.

Passed for Printing.

The following bill was passed for printing:

Amending Zoning Ordinance, California Street.

On motion of Supervisor Colman: Bill No. 7163, Ordinance No. — (New Series), as follows:

Amending Ordinance No. 5464 (New Series), entitled "Regulating and establishing the location of trades, industries, and the location of buildings for specific uses and establishing the boundaries for said purposes, and providing penalties for the violation of its provisions."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 5464 (New Series), the title of which is above recited, is hereby amended as follows:

Section 1 of the Use of Property Zone Maps constituting a part of said ordinance is hereby ordered changed so as to place the northerly side of California street, commencing at a point 112½ feet westerly from Grant avenue, and running thence westerly 83 feet, and extending to the depth of the rear lot line, in the commercial district instead of the second residential district.

Golden Gate Post Boxing Permit.

Supervisor Katz presented:

Resolution No. 24172 (New Series), as follows:

Whereas, Golden Gate Post No. 40 of the American Legion of San Francisco has conducted boxing shows in the past in San Francisco; and

Whereas, it is the desire of Golden Gate Post No. 40 to again promote boxing exhibitions in San Francisco; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, State of California, recommend to the State Athletic Commission that they grant a permit to Golden Gate Post No. 40 of the American Legion to conduct boxing exhibitions in San Francisco.

Adopted under suspension of the rules by the following vote:

Ayes — Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden, Katz, McLeran, McSheehy, Morgan, Robb, Roncovieri, Rossi, Welch, Wetmore—15.

Absent — Supervisors McGregor, Schmitz, Shannon—3.

Employment of Theodore J. Savage as Special Counsel in Duboce Tunnel Litigation.

Supervisor Colman moved that we secure the services of Mr. Theodore J. Savage to act as special counsel in the prosecution of the litigation in relation to the Duboce Tunnel. The hearing is set for July 1st and the question is a very vital one and it is very necessary that San Francisco be represented by one who has followed the situation very carefully, as Mr. Savage has. Compensation to be \$1,000 retainer and \$1,500 upon completion of the work.

Privilege of the Floor.

Mr. Maurice Dooling, Assistant City Attorney, stated that due to the fact that Mr. Savage had conducted the proceedings of the Twin Peaks Tunnel and the Stockton Street Tunnel and followed the Duboce Tunnel proceedings up to date, he felt Mr. Savage and Mr. Lull were the two best informed attorneys in the City on that character of proceedings and he recommended his appointment.

Supervisor McLeran stated that the litigation is being prosecuted by one of the most clever attorneys in San Francisco, Mr. Treadwell. That Mr. Savage, by reason of his having conducted the litigation of the Twin Peaks Tunnel and the Stockton Street Tunnel and having advised the Board on all the ordinances leading up to the Duboce Tunnel, is the proper man to defend the City in this action.

Motion Carried.

Supervisor Colman's motion carried. Supervisor McSheehy requesting to be recorded in the negative.

Australian Mayor Visits Board.

Mr. Frederick L. S. Stephens, Mayor of Bexley, New South Wales, visited the Board.

He stated that he has the honor of being the youngest Mayor in all of Australia and has been elected for three successive terms and hopes to be able to equal Mayor Rolph's record in number of years of service as Mayor of his city.

He said that he likes San Francisco and likes San Francisco people.

Municipal Railway Crossings.

The following resolution was presented by Supervisor Bath, who moved the suspension of the rules and the adoption of the resolution:

Whereas, the Public Utilities Committee was requested by this Board to investigate protests made

by the press, the California State Automobile Association and other organizations to the proposed grade crossing of the Junipero Serra boulevard and the Ocean View extension of the Municipal Railway; and

Whereas, a meeting was held Wednesday, June 10th, at which property owners requested an opportunity to be heard in connection with the project and the date for a public hearing was set for June 24th; and

Whereas, it appears from the protests made that such extension of the Municipal Railway will create a serious traffic congestion, possibly endangering lives and property; and

Whereas, it appears that a grade separation could be constructed between Ingleside Terraces and the San Francisco Golf Club by a slight re-location and taking advantage of a ravine a short distance to the south; therefore, be it

Resolved, That the City Engineer be and is hereby requested to suspend further construction work on this proposed grade crossing pending the public hearing called by the Public Utilities Committee for June 24th and the filing of a report by this committee with the Board of Supervisors.

Privilege of the Floor.

Mrs. Edna Calhan, representing the Ingleside Improvement Club, opposed the adoption of the resolution, stating that she did not think it fair to the Ocean View people to stop the work on the car line or to adopt this resolution while the matter is still pending in the Public Utilities Committee.

Referred.

Whereupon, the foregoing resolution was ordered referred to the Public Utilities Committee.

Building Law Amendment, Aisles in Theaters, Rescinded.

Supervisor Wetmore moved that action of this Board be rescinded on Bill No. 7908, relating to amendment to Building Law regarding aisles in theaters, which bill was heretofore passed for printing.

So ordered.

City Attorney to Press Rate Reduction Proceedings Against Pacific Gas and Electric Company.

Supervisor Katz presented:

Resolution No. — (New Series), as follows:

The vigorous activity shown in behalf of turning the City's Hetch Hetchy power crop over to the Pacific Gas and Electric Company for \$2,000,000 a year gross presents a

striking contrast to the lack of activity in securing a reduction in electric rates for the people of San Francisco, which would result in a net saving to the people of considerably more than \$2,000,000 a year from the same source.

That electrical rates are far too high in this city was indicated in Railroad Commission statistics filed by me with this Board in asking for a rate reduction hearing.

President Wiggington Creed of the Pacific Gas and Electric Company apparently coincides with my views in this matter, for in a letter to Mayor Rolph of last Friday he states: "We are now producing power and delivering it to load centers for less than the price offered for Hetch Hetchy power"—that is to say, for less than 4.8 mills per kilowatt hour.

According to evidence laid before the Railroad Commission by the Pacific Gas and Electric Company last January 15, the average cost of production for power delivered at said load centers in 1923 was 7.9 mills, and 1923 is described as a "practically normal year."

Since the cost of power-production on the Pacific Gas and Electric system has apparently, then, been reduced since 1923 from 7.9 mills to less than 4.8 mills per kilowatt hour, or a 40 per cent reduction, it becomes even more apparent that the local power rates should be similarly reduced in order that the people may share in the benefits. The application for a rate reduction hearing rests upon a sound basis, and, if properly pressed, will result in a tremendous financial gain to our people.

I would further call attention to the fact that the majority of this Board is responsible for the highest budget ever imposed upon the taxpayers of the City. Instead of seeking to reduce this tax rate by jeopardizing the people's hold upon their Hetch Hetchy project through an illegal sale of the power crop, the opportunity presents itself to save the people a considerably greater sum by reducing their monthly electric bills paid to the private corporation.

No legal risk or possible property loss to the City is involved in pressing the rate reduction hearing, and the amount saved to the people would be clear gain. Also, our power project would be kept free and clear for municipal distribution when the present condemnation proceedings are concluded.

I therefore present the following resolution:

Whereas, this Board, on the 11th day of May, 1925, adopted a resolution directing the City Attorney to

institute proceedings for the reduction of electrical rates in the City and County of San Francisco; and

Whereas, no report has been rendered thus far concerning the carrying out of these instructions; therefore, be it

Resolved, That the City Attorney be instructed to press the rate reduction proceedings with all possible speed, to the end that the local rate payers may begin to benefit as soon as possible; and be it

Further Resolved, That the City Attorney be requested to keep the Board advised of all progress being made.

Referred to Public Utilities Committee.

Passed for Printing.

The following bill was presented by Supervisor Harrelson and *passed for printing* under suspension of the rules:

Ordering Street Work, Anza Street.

Bill No. 7162, Ordinance No. — (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor, and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors June 9, 1925, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City

and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

That said Board of Supervisors, pursuant to the provisions of Part 11 of the said Street Improvement Ordinance of 1918 of said City and County of San Francisco, does hereby determine and declare that the assessment to be imposed for the said contemplated improvements, respectively, may be paid in four installments; that the period of time after the payment of the first installment when each of the succeeding installments must be paid is to be one year from the time of the payment of the preceding installment, and that the rate of interest to be charged on all deferred payments shall be seven per centum per annum.

The improvement of the *crossing of Anza street and Forty-first avenue*, by the construction of concrete curbs; by the construction of artificial stone sidewalks of the full official width on the angular corners thereof; by the construction of 2 catchbasins with accompanying 10-inch ironstone pipe culverts, and by the construction of an asphaltic concrete pavement on the roadway thereof.

Section 2. This ordinance shall take effect immediately.

ADJOURNMENT.

There being no further business the Board at 6:30 p. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors July 20, 1925.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated, and approved as above recited.

JOURNAL OF PROCEEDINGS

BOARD OF SUPERVISORS

FRIDAY, JUNE 19, 1925, 10 A. M.

A special meeting of the Board of Supervisors of the City and County of San Francisco, called by the Mayor, was held in the chambers of the Board in the City Hall, City and County of San Francisco, State of California, on Friday, June 19, 1925, at the hour of 10 a. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were present: John B. Badaracco, Edwin G. Bath, Jesse C. Colman, Cornelius J. Deasy, Wm. H. Harrelson, J. Emmet Hayden, Philip C. Katz, John A. McGregor, Ralph McLeran, James B. McSheehy, Margaret Mary Morgan, Frank Robb, Alfred Roncovieri, Angelo J. Rossi, E. E. Schmitz, Warren Shannon, Richard J. Welch and John G. Wetmore.

Mayor James Rolph, Jr., presided.

CALL FOR SPECIAL SESSION.

THE MAYOR: Read the call of the meeting, please, Mr. Clerk.

THE CLERK (reading): "Mayor's office, San Francisco, June 18, 1925. Mr. J. J. Dunnigan, Clerk of the Board of Supervisors. Dear Mr. Dunnigan: At my request, please call a special meeting of the Board of Supervisors for 10 o'clock, tomorrow, Friday morning, in the chambers of the Board to hear and discuss and act upon the result of the activities of the Special Committee appointed by the Board to deal with the Hetch Hetchy power question. Yours very respectfully, James Rolph, Jr., Mayor."

MESSAGE OF HIS HONOR MAYOR ROLPH.

"In the Mayor's office, June 19, 1925. Honorable Board of Supervisors of the City and County of San Francisco, City Hall, San Francisco, California. My dear Colleagues:

"I have called you in special session this morning to discuss and act upon one of the most important problems concerning the civic life of our city and its welfare, namely, the temporary disposal of the power generated from our Hetch Hetchy project, which is ready for conversion into cash.

"On April 13, 1925, your honorable Board by unanimous vote of those present, namely, sixteen Supervisors, absent two, passed Resolution No. 23800 (New Series) appointing a Special Committee, consisting of the chairman of the Public Utilities Committee, chairman of the Finance Committee, and the Mayor, to negotiate and report back to this honorable Board for its action a contract with one or more of the power companies of San Francisco for the temporary disposition of said power in conformity with the provisions of the Raker Act. Said Committee of negotiations was also requested to make any other and further recommendations in the premises to enable such a contract to be carried into effect with the least possible delay.

"I beg to report that said Committee appointed by your honorable Board has held many conferences. We have called into consultation the City Attorney, the first assistant City Attorney, John J. Dailey; the valuation engineer of the city, H. Randall Ellis; the City Engi-

neer and his first assistant, Nelson A. Eckert, and have given constant time and attention to this vital problem since the appointment of the Committee by your honorable Board of the 13th day of April, 1925.

"We held conferences in the Mayor's office with representatives of the Great Western Power Company of California, who advised us that the company could not utilize the entire output of our Moccasin plant, nor could it distribute the power to consumers in San Francisco on behalf of the city, as its system did not have the capacity.

"We then held a conference in the Mayor's office with representatives of the Pacific Gas and Electric Company. We learned from them that their company was in a position to transmit and distribute the power output of our plant to consumers in San Francisco.

"At the request of the Committee, the City Attorney and his first assistant, John J. Dailey, prepared a form of agreement, which, in their opinion and in the opinion of your Committee, came within the provisions of the Raker Act and fully protected municipal ownership. After fullest discussion, the City Attorney and his assistant, John J. Dailey, were requested to take the drafted agreement up with the attorneys of the Pacific Gas and Electric Company.

"The City Attorney and his first assistant, John J. Dailey, went into conference with the attorneys of the Pacific Gas and Electric Company, who had submitted a number of proposed amendments to the proposed agreement. They reported to your Committee that after several lengthy sessions a number of these proposed amendments were withdrawn, some modified and other proposed amendments approved. Following these conferences with the attorneys for the company, the City Attorney and Mr. Dailey presented a new draft of the agreement embodying the changes made and agreed to by all the attorneys.

"After receiving the new draft of the agreement, embodying the amendments agreed to, your Committee called Mr. Wigginton Creed, president of the Pacific Gas and Electric Company, into conference in the Mayor's office. The whole of Wednesday afternoon was taken up in negotiating with him to get him to agree, on behalf of his company, to more favorable terms, terms which would net the city a larger return from the disposal of its power.

"Mr. Creed told your Committee plainly that his company would not make a better offer than the offer he had made in September, 1923. He claimed that this amount of power could be disposed of to greater advantage in 1923 than at the present time. He stated time after time that his company could not enter into any arrangement for the disposal of the city's power on terms that would bring to the city a revenue in excess of approximately \$2,000,000 a year. All members of the Committee were convinced at the close of the conference with Mr. Creed that the city could not get a better offer from his company.

"As a result of our many conferences held in the Mayor's office and the conferences by the City Attorney and his first assistant, John J. Dailey, with the attorneys of the Pacific Gas and Electric Company, I submit to you herewith an agreement unanimously concurred in by all parties, including your Committee, which, in our unanimous opinion, fully protects our rights under the Raker Act, preserves the policy of the city under its Charter of municipal ownership of its public utilities and is unanimously agreed to as to form.

"The question, therefore, which confronts your honorable Board is the question of the amount of revenue the city should receive from the temporary disposal of the energy developed at the Moccasin power plant through the system of the Pacific Gas and Electric Company. Your Committee is divided on this question. After the hardest trading the result is that the highest return the city can receive from the Pacific Gas and Electric Company is approximately \$2,000,000 per annum, and on this price your Committee is divided.

"I submit to you herewith a letter from the Pacific Gas and Electric Company signed by Mr. W. E. Creed, president of the Pacific Gas and

Electric Company, dated June 15, 1925, and I submit to you certified copies of contracts filed with the Railroad Commission and now in force and effect, between the Pacific Gas and Electric Company and the Snow Mountain Water Power Company; Turlock Irrigation District and the San Joaquin Light and Power Corporation; the Merced Irrigation District and the San Joaquin Light and Power Corporation; the California-Oregon Power Company and the Pacific Gas and Electric Company, showing contracts now in existence, extending over periods of time, and all of which are at a lower rate per kilowatt hour than the contract to which the Pacific Gas and Electric Company is willing to enter into with the City of San Francisco for the disposal of its Hetch Hetchy energy.

"Your Committee cannot secure from the Pacific Gas and Electric Company any better terms for handling our power that will yield the city a net annual revenue of approximately \$2,000,000.

"As your Committee is divided in its decision to accept this, the maximum offer, from the only company able to transmit the city's power to the consumers of San Francisco, the question of decision of terms is placed before you, the representatives of the city.

"A great President of the United States once said of a matter confronting the Nation that 'it was a condition, not a theory.' The disposition of the Hetch Hetchy power is a condition, not a theory. The taxpayers' burdens are real, not theoretical. They have to be paid in cash. The Hetch Hetchy power situation is: Shall we obtain cash for its temporary disposal that will relieve the burdens of the taxpayers or shall we refuse the cash, waste the power and instead of giving the taxpayer relief give him 'sweet speeches on theories that cannot be turned into facts?'

"The legal adviser of the City of San Francisco, elected by the people, declares that the proposed contract for the disposition of power conforms to the Raker Act and is legal in every particular. This is the advice of the people's official adviser. The only question remaining, therefore, is the revenue to be derived from the power. I always have been, and am now more than ever, a champion of municipal ownership, but I have yet to learn that municipal ownership is synonymous with waste and destruction. On the contrary, it is founded on profit to the people, otherwise it cannot exist. There is no enemy of municipal ownership so deadly as the pretended advocate of municipal ownership who proposes waste and infliction of loss on the taxpayer.

"An astonishing feature of the present situation is that the same men who are attacking this year's budget because it is burdensome to the taxpayer are advocating that the Hetch Hetchy power, for which a revenue of \$2,000,000 can be received, shall be absolutely wasted at the taxpayer's cost and expense. This agreement, on my insistence, has been made from day to day. It can be canceled any day. If any of the gentlemen who are serving municipal ownership in speech alone and who offer no money to the taxpayer whatever are able to get a better offer for the distribution of our power than this offer of \$2,000,000, or if they have any suggestion of relief or profit to the taxpayer of any kind or nature whatever, the matter is left open to introduce it. The fact confronting the taxpayer is that there is but one offer for the disposal of this power. If we reject this offer we impose a direct loss on the taxpayers of San Francisco of \$2,000,000 a year until the city acquires its own distributing system.

"As Mayor, it is my duty and it is my desire to get every dollar obtainable for the people of San Francisco from this great utility, but the rejection of the only offer, without the substitution of another, or without any suggestion whatever for obtaining any return for this power, in fact no alternative before the people excepting the wasting of it all, does not seem to me faithful official stewardship. We have no right to waste the people's money. The problem has to be solved by common sense and not by common scolds. Whoever attempts to

deceive or mislead the people on this question may imagine himself serving his personal political advantage, but he surely is not serving the taxpayer.

"San Francisco has nearly reached its bond limit. I advocated the submission at the last election of an enlargement of this bond limit by amending the Charter. This the citizens refused at the polls. The Constitution of the State makes the amendment impossible for two years. The completion of the Hetch Hetchy system will require most of the available margin. Is there any man or woman in San Francisco who is prepared to abandon the Hetch Hetchy water system? If so, let him or her stand forth.

"We are now engaged, through the Railroad Commission, in the appraisement of the private power distributing systems of San Francisco. When the Railroad Commission shall have completed its work we will know whether we have available bonding resources to purchase one or both of these distributing systems. If we have, it is our plain duty to submit a bond issue to the people for this purpose. But all of these matters require time, and during the interval shall we wantonly waste the taxpayers' money by refusing to accept \$2,000,000 a year? Is this the way to popularize municipal ownership with the people when we must have two-thirds of the voters' support in order to make municipal ownership possible? I cannot refrain from calling attention to a specious argument—if you can call it an argument—lately advanced as an offset to the proposed waste of the Hetch Hetchy power; that a reduction of electric rates might be obtained to a similar amount for the ratepayers.

"The fixing of rates is vested by the Constitution in the Railroad Commission, a power over which San Francisco has no control. Any hearing for a change of rates would necessarily involve much time, during which the Hetch Hetchy power will be daily wasted. But assuming that after these delays a reduction of rates happens, what has that to do with the wasting of Hetch Hetchy power? The two objects are not related. It is an indictment of the intelligence of our citizenship to present such an argument. If the Railroad Commission can be induced to reduce the rates on San Francisco ratepayers \$2,000,000 and we get \$2,000,000 for the Hetch Hetchy power, that is a saving of \$4,000,000—\$2,000,000 to the ratepayers and \$2,000,000 to the taxpayers of San Francisco. But how absurd to advance this as a reason for wasting the Hetch Hetchy \$2,000,000.

"There is no way in which the gentlemen who have picked offices for themselves in the future government of San Francisco, or the common scolds, who have fought every improvement since San Francisco began, can disguise this issue. San Francisco either accepts \$2,000,000 per annum from day to day, until some means of disposition is provided, or else San Francisco wastes \$2,000,000 and allows the taxpayers to foot the bill.

"I am for accepting the \$2,000,000 from day to day for the benefit of the taxpayer and all the while working for complete municipal distribution to take the place of this temporary arrangement. Cheap politics has been the most expensive thing for San Francisco.

"Do not forget that bonds carried by two-thirds of the voters are required to build our power system. Political speeches are no substitute for bonds.

"We are told in Scripture that Samson slew the Philistines with the jawbone of an ass, but this does not warrant the belief that a power distributing system for San Francisco can be built solely with the jawbone of politicians. Yours respectfully, James Rolph, Jr., Mayor. June 19, 1925." (Applause.)

LETTER FROM HON. JAS. D. PHELAN.

The following letter indicating conference with a member of the Citizens' Advisory Committee was presented and read by his Honor the Mayor:

THE MAYOR: Now, in order, my colleagues, that there may be no question about non-conference with the Advisory Water Committee and its membership, so that all that has recently been said may not cast any doubts in the minds of the public as to our conference with the Advisory Water Committee, I submit to you a letter of the 27th of May, 1925, addressed to the Mayor from Senator James D. Phelan, the chairman of the committee, in which he says: "If any temporary arrangement is made, I cannot too strongly urge you, first, to get the consent of the Department of the Interior, because the committee has been warned that the power hydro-electric interests would take advantage of any misstep which we might make in our zeal to obtain immediate returns from our power crop. In getting the shadow, we do not want to jeopardize the substance, no matter how desirable the shadow is." And goes on as to price. Goes on and gives the full advice of the Advisory Water Committee, all the data that they had, all the letters to the engineer, that they brought forward; and another letter on the 28th day of May: "My dear Mr. Mayor, observing a statement in the newspapers which is erroneous, I hasten to correct it by stating that Mr. Creed, of the Pacific Gas and Electric Company, in conference, said, that while his proposed reference was to 420,000,000 kilowatt hours, his understanding would be that in case the city delivered more than 420,000,000 kilowatt hours, it would be paid for the excess proportionately, and if the quantity fell below 400,000,000 kilowatt hours, the city would suffer a reduction proportionately, that is to say, there is a leeway of 20,000,000 kilowatt hours within which, if delivered, there will be neither addition nor deduction in the payment made by the company for the power. In other words, if the city delivers only 400,000,000 kilowatt hours, it shall receive the \$2,000,000 annually, and you only suffer in the event it falls below that quantity delivered. I am, yours truly, James D. Phelan."

(Discussion as to majority report and right of Supervisor Shannon to present a minority report.)

His Honor the Mayor declared that his statement was not a report, but a message. There is no majority report.

Motion.

Supervisor McLeran moved that the subject matter of the disposal of the power be taken out of the hands of the committee and placed in the hands of the Board. Seconded by Supervisor Hayden.

(Discussion: Supervisors McLeran, Hayden, McSheehy and Roncovieri and his Honor the Mayor.)

Amendment.

Supervisor McSheehy, seconded by Supervisor Roncovieri, moved as an amendment that the committee be not discharged until such time as they have reported to this Board.

(Supervisor McLeran here declared that his motion did not provide for the discharge of the committee.)

The foregoing amendment was subsequently withdrawn.

Motion to Recess.

Supervisor McSheehy, seconded by Supervisor Katz, moved that the Board recess until 3 p. m. this afternoon so as to allow Supervisor Shannon the right to place his minority report before this Board.

Motion carried by the following vote:

Ayes—Supervisors Badaracco, Bath, Deasy, Hayden, Katz, McSheehy, Roncovieri, Rossi, Schmitz, Shannon, Welch—11.

Noes—Supervisors Colman, Harrelson, McGregor, McLeran, Morgan, Robb, Wetmore—7.

Reassembled.

The Board of Supervisors reassembled at the hour of 3 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present: Supervisors Badaracco, Bath, Colman, Deasy, Harrelson, Hayden,

Katz, McGregor, McLeran, McSheehy, Morgan, Robb, Roncovieri, Schmitz, Shannon, Welch, Wetmore—17.

Absent—Supervisor Rossi—1.

Motion.

Supervisor Colman moved to proceed with the matter for which the special meeting was called.

THE CLERK (reading): "June 19, 1925. To the members of the Board of Supervisors. At this morning's meeting, the Mayor opened the meeting by reading a written statement of his position, with reference to the proposed contract with the Pacific Gas and Electric Company. Supervisor Shannon has asked the privilege of filing a written statement of his position, and I feel it my duty, as the remaining member of the committee, to make my position clear to you, in writing, also. You may, therefore, take this as my personal report of my views, as a member of your special committee. I shall not take time to review in detail the facts set forth by his Honor the Mayor so ably in his message. I do, however, concur heartily in what he has said as to the necessity of entering into a temporary agreement with the Pacific Gas and Electric Company for the marketing of Hetch Hetchy electric energy through that company and on a basis that will secure for us the maximum revenue that can be obtained at the present time. I also concur heartily in the Mayor's insistence that this contract should be on a day-to-day basis, so that, just as soon as the City and County of San Francisco is able to go into the business for itself, or to obtain any more profitable arrangement for the temporary disposition of the power, we can exercise our option to terminate this agreement and make such an arrangement.

"Two main questions are involved in the contract, the question of legality and the question of price. The contract, as the Mayor pointed out, has been drafted by the City Attorney's office and has been approved as to form by the people's chosen legal adviser. It is the result of the best legal opinion that we could get. In the opinion of the City Attorney the contract as drawn meets every requirement of the Raker Act. But we have not even rested with that. We have inserted a clause which provides that if at any time the Secretary of the Interior becomes of the opinion that the contract does not conform to the law it shall be subject to cancellation upon his command. The City Attorney has advised us, and any man who reads English can see for himself, that there is no clause in the Raker Act that provides for any automatic forfeiture of the grant in the event the Secretary should disapprove the agreement. I therefore conclude that we are perfectly safe in approving it ourselves, as the first step, and submitting it to the Secretary afterwards. There are many reasons for doing it in this way. If we ask the Secretary of the Interior to approve the agreement before the Board of Supervisors approves it we are at once met with several difficulties. The Secretary may say, 'How do I know that this is the agreement that San Francisco wants?' He may say, and the City Attorney advises me that there is no authority in the Raker Act, or elsewhere, requiring the Secretary of the Interior to approve any agreements made thereunder prior to their execution. In the lack of proper authority the Secretary may say that he has no jurisdiction to make an order approving such an agreement. Again, if we ask his approval first, we take on ourselves the burden of commencing a procedure in the Interior Department. Obstructionists opposed to the contract may file an appearance, demand a hearing and the opportunity to introduce testimony. The summer vacation season in Washington is at hand. It may be impossible for several months to get a hearing, and in the meantime \$5,480 per day is being lost by the City. On the other hand, if the contract be first approved and then submitted, the Secretary is given an opportunity to express his approval, if he desires. But if he does not express his disapproval we may take it by his silence that he acquiesces. The burden of proof will fall upon the obstructionists to attack our position instead of being upon us to defend it. The Secretary will have before him docu-

mentary evidence of the fact that the Board of Supervisors of San Francisco, representing all the people, have approved this agreement and desire to carry it out as expressing the true intent of the Raker Act for the beneficial enlargement of the grant contained therein. He will also have before him documentary evidence of the entire good faith which San Francisco shows in entering into the agreement, through the clause which provides for its cancellation, if he disapproves, and, best of all, the City will be placed in a position to immediately conserve to the public treasury a very substantial revenue, which will be obtained under this contract, and which cannot be obtained until the contract is actually executed. I am clearly strengthened in the foregoing conclusion by the expressions which have heretofore been given by members of this Board. On June 8, 1925, the Board was discussing the advisability of having the committee take the contract to Washington before submitting it for the approval of this Board. I quote from the stenographic transcript of the proceedings of that date, the views of several Supervisors, as follows:

"Supervisor Roncovieri: But I do not believe that after your committee has held this conference with the Pacific Gas and Electric Company, and everything looks rosy, and you are going to start for Washington, and you think you have a good thing, I believe you ought to call a special meeting of this Board and submit it to this Board before you proceed to Washington. I think it will strengthen you materially with the Secretary of the Interior and the Attorney-General to go back there and to say we are going as a committee of the Board of Supervisors to represent the people of San Francisco. This is the agreement that the Board of Supervisors as a whole has put the seal of approval upon, together, of course, with the consent of the Pacific Gas and Electric Company, which would strengthen your hands, Mr. Mayor, and the members of the committee.'

"Supervisor McSheehy: I think, your Honor and the members of the committee would be helped a great deal if this Board has acquiesced in the agreement that you are taking to Washington. If you were presenting this agreement to the Secretary of the Interior, and he asked you the direct question, "Has this agreement been acquiesced in by the Board of Supervisors of your city, your Honor," and you would have to say "no," it would instantly place him in an awkward position to acquiesce in something where the local body would not agree to it.'

"Supervisor Welch: We are responsible to the people of the City of San Francisco, equally responsible with each of you that are going to Washington. And, as I said before, no agreement can be entered into until it is submitted to this body as a court of last resort. It is not for the purpose of making you work any harder. We want to be helpful in this matter, and the words of wisdom that came from the two speakers preceding me, Supervisor McSheehy and Supervisor Roncovieri, are words that I hope your committee will take into consideration before you have finally agreed on a contract, as submitted to you; if you can agree on one, I feel that you should bring this Board of Supervisors together and submit the contract to this Board. Then you will go to Washington doubly fortified. If the question is asked of you in Washington, "Do the people of San Francisco approve this agreement?" and you can say to them with impunity, "Yes, the people's representatives have approved it, the Board of Supervisors, eighteen in number, the representative body, have approved it," that would be fortifying your position.'

"In addition to the foregoing from members of the Board who were not on the committee, as stated by the Mayor this morning, the form of contract was unanimously agreed upon by all three members of this committee, and the only point on which the committee was divided was the question of the amount of revenue San Francisco should receive under the terms of the agreement. Your committee spent the entire afternoon of Wednesday of this week in discussing this point with Mr. Creed, representing the Pacific Gas and Electric Company. Every argument that could be advanced by us was urged upon him, to consent

to terms that would return a larger revenue to the City. He positively and unequivocally refused to recede from the position he had heretofore taken on that question. He stated that his company could not and would not enter into any agreement on a basis which would return to the City a revenue larger than \$2,000,000. He stated that his company could not consent to more favorable terms for the City without placing a greater burden upon the consumers outside of San Francisco. All of the members of the committee were convinced, at the close of the discussion with Mr. Creed, that it would be impossible to get the company to make a better offer at this time than the one whereby the City will realize a revenue of approximately \$2,000,000 a year for the sale of Hetch Hetchy power. In view of the fact that we can only dispose of our power through the system of the Pacific Gas and Electric Company, and of the fact that that company will not make us a better offer than the one that will enable us to enjoy a revenue of approximately \$2,000,000, I am in favor of approving this agreement now before the Board, and the insertion in the blank spaces therein provided of the figures that will provide for this revenue. Respectfully submitted, Ralph McLeran, member of the Special Committee appointed by the Board to dispose of the Hetch Hetchy power."

Supervisor Shannon's Statement.

Supervisor Shannon presented and the Clerk read:

THE CLERK (reading): "To the Board of Supervisors of the City and County of San Francisco: As the minority member of the Special Committee on the disposal of Hetch Hetchy power, I render the following report: I oppose the acceptance, passage to print or any other form of endorsement of the proposed contract between the City and the Pacific Gas and Electric Company, for the disposal of Hetch Hetchy power, on the following grounds:

"1. The compensation of \$2,000,000 a year, being below the actual cost of power production, is indefensible as a business matter and is illegal under the Raker Act.

"2. Before any contract for power disposal becomes legal, it must be approved by the Secretary of the Interior, with especial reference to the method by which price is computed. The endeavor to secure some endorsement before legality is established is clearly designed to create a prejudice in favor of the contract when it comes before the Secretary of the Interior.

"3. Since the contract was approved as to form by the Special Committee, of which I am a member, important clauses protecting the City's right have been stricken out without my consent and do not appear in the contract as now laid before this Board.

"The only formal report on cost of power production at Hetch Hetchy ever submitted to the Board by City Engineer M. M. O'Shaughnessy is that of April 4, 1923. In that report the engineer made the following set-up of basic costs: Power house, \$7,000,000; Aqueduct, \$5,000,000; Hetch Hetchy dam, \$3,000,000; Transmission lines, \$3,000,000; Total, \$18,000,000.

"Since 1923, the City Engineer has considerably exceeded his then estimates in completing the eighteen-mile aqueduct and the O'Shaughnessy dam. The total investment of \$18,000,000 chargeable to power has been increased to more than \$20,000,000 by the engineer's excess expenditures. In said report, Mr. O'Shaughnessy made a set-up of operating and fixed charges totalling \$2,165,000. This is the actual income that must accrue from power to cover the bare cost of power production at Hetch Hetchy, as estimated by the City Engineer two years ago. As stated, since that time the fixed charges chargeable to power have been increased. The engineer also neglected to include in his table of costs the important item of bond interest during the period of construction, which every business concern invariably makes chargeable to a plant after it has commenced operation. These official facts render it certain that an income of \$2,000,000 a year would be less than

actual cost. By the estimate of 1923, it would be \$165,000 less; by the financial facts, as they have since developed, it would be a considerably greater sum below cost. I now call your careful attention to a provision in the Raker Act, Section 9, Subsection O, which strikes at the very root of this present issue. It is as follows: 'The said grantee shall develop and use hydro-electric power for the use of its people; shall, at prices approved by the Secretary of the Interior, sell or dispose of the same for irrigation, pumping or other beneficial use, said prices to be not less than will return to said grantee the actual total costs of providing and supplying said power, said costs to be computed in accordance with the currently accepted practice of public cost accounting, as shall be determined by the Secretary of the Interior, including, however, a fair proportion of cost of conduit, lands, dams and water supply system.' You will note three points in this legal requirement: First, that power shall not be disposed of by the City at less than cost; costs to be computed on the same items included by the engineer in his report quoted below. Second, that the Secretary of the Interior shall and must approve of the method of cost computation; must, in fact, 'determine' it, and also he must approve of the price. Third, that Hetch Hetchy power is for the use of the people of San Francisco, and the grantee shall use this power, not a private corporation. These considerations, which are not theories, but facts, warranted me in rejecting an offer of \$2,000,000 as illegal and as no fit income for the commodity sold. The contract here submitted provides that the income from sale of power shall be divided, 73.07 per cent to go to the power company and 26.93 to go to the City. I take the stand that a three to one ratio is entirely too much to allow for distribution services alone, and that such a ratio is unwarranted. By adopting a more suitable and customary ratio, that of 35 per cent to City and 65 per cent to the distributor, I arrived at the figure of \$2,583,000, to which his Honor the Mayor and Supervisor McLeran agreed. This figure covers the actual cost, is, therefore, legal, and on this figure I stand. I am not prepared to state that an agreement that hands over our power to a private corporation and a privately owned street railway concern conforms with the requirement that Hetch Hetchy power shall be developed 'for the use of the people of San Francisco.' Nor can anyone state, without the secretary's advance authorization, that the terms of this contract, the method of money collections and the price to be received, are 'approved by the Secretary of the Interior' as the grant requires. There is but one way in which such approval can be obtained, and that is, to submit the draft to the Secretary in advance of any prejudicial action by this Board. It has been correctly stated that the Special Committee was unanimous as to the terms of the contract, apart from price. The City Attorney is the City's legal advisor, and it is customary for Board members, lacking legal training, to accept his advice. However, since this contract was last passed upon in committee, and during the interim before it reached this Board, one very important provision has been stricken out, namely, a section that gave the City the right to examine the power company's books as the only means of protecting itself on the income received. With that section eliminated in some unknown way, I oppose the acceptance of this contract by the City because it no longer properly protects the City's financial rights. Only because of the neglect and failure of certain City officials, including the Mayor, the chairman of the Finance Committee, and the other members of this Board, and the City Engineer, to provide for the legal distribution system, has this proposal to turn Hetch Hetchy power over to a power corporation been made possible. In concluding, I call attention to two clauses in the City Charter, Article XII. Section 1 of Article XII: 'It is hereby declared to be the purpose and intention of the people of the City and County that public utilities shall be gradually acquired and ultimately owned by the City and County.' Section 13 of the same article, which should be read with emphasis upon the word 'neglect': 'A neglect or refusal on the part of the Supervisors to comply with the provisions of this article shall constitute

cause for the removal from office of any member or members of the Board guilty of such neglect or refusal.' For my part, I am exerting my utmost efforts to bring about genuine municipal distribution of Hetch Hetchy power so that no citizen can ever accuse me of the type of neglect mentioned in the charter. Warren Shannon."

SUPERVISOR SHANNON: Mr. Mayor, I move the adoption of the report.

SUPERVISOR McSHEEHY: I second the motion.

SUPERVISOR McLERAN: I am going to call for the motion. The motion to adopt the report is entirely out of order. There is no such action can be taken by this or any other board. The report will be filed the same as your statement and my own statement. No further discussion is necessary. I am going to ask that the question be put on my motion, taking it out of the hands of the committee and putting it in the hands of the Board.

THE MAYOR: The report will be received and placed on file. The motion before the Board is to take it out of the hands of the committee.

SUPERVISOR WELCH: Was it not conceded this morning, in the absence of a majority report, that Supervisor Shannon be accorded the right to file a minority report?

THE MAYOR: It is received and placed on file already.

SUPERVISOR WELCH: What authority has the Board to receive it and place it on file?

THE MAYOR: The same as you did, Supervisor McLeran.

SUPERVISOR ROSSI: It is a statement, not a report.

SUPERVISOR WELCH: It is not a statement, it is a report, the records will show that.

SUPERVISOR McLERAN: It is a statement, not a report.

SUPERVISOR WELCH: When we adjourned from half past eleven this morning—

THE MAYOR: We received Supervisor McLeran's report and placed it on file, and we received Supervisor Shannon's report, and we place that on file.

SUPERVISOR WELCH: Two different documents entirely. We adjourned this morning at half past eleven for the express purpose of permitting Supervisor Shannon to prepare a minority report, and the parliamentary question was raised here as to whether it was permissible to file a minority report in the absence of a majority report, and it was conceded that he had that right.

THE MAYOR: Now, we have three reports. One from the Mayor, one from Mr. McLeran and one from Mr. Shannon, and they are received and placed on file.

SUPERVISOR WELCH: We have a report from the Mayor, that is very evident, and Supervisor McLeran exercised his right to file a statement, and I repeat again, that this morning at 11:30 this Board adjourned for the express purpose of permitting Supervisor Shannon to prepare a minority report, to file with this Board, at 3 o'clock this afternoon. Now, he has filed that report, as the record will show, and he asked for introduction and immediately it is placed on the table.

THE MAYOR: Received and placed on file.

SUPERVISOR WELCH: He has a right to a vote on his minority report.

SUPERVISOR HAYDEN: Might I remind Supervisor Welch, who is a past master in parliamentary tactics, many years in the state legislature, many years on the Board of Supervisors, you know that a minority report cannot stand by itself; that a minority report is always an amendment to the majority report. There being no majority report before the Board, there is no amendment possible. Mr. Mayor, and I refer to the Supervisor Cushing's parliamentary law, and he does not need to be referred there, because he knows, in his heart, that the effort he is making now is entirely out of order, unparliamentary, and is set in the wrong direction to achieve a purpose.

THE MAYOR: Received and placed on file, so ordered.

SUPERVISOR WELCH: I won't argue the parliamentary point with you, but I refer you to the unanimous consent, when the question was raised here this morning. The facts still remain that we adjourned at half past eleven for the express purpose of permitting Supervisor Shannon to prepare a minority report. And the records will absolutely show that that was the purpose then of recessing.

SUPERVISOR COLMAN: The motion made this morning was moved that we recess, and you rightly ruled that that motion was not debatable, and I voted against it, but we did not adjourn to allow anyone to present either a minority or a majority report.

SUPERVISOR WELCH: I will ask that the records be referred to.

THE MAYOR: Lest the Mayor is overruled, the report is received and placed on file. So ordered.

SUPERVISOR MCSHEEHY: I want to say, as one member of the Board, that I feel that Supervisor Shannon's report is a very constructive one, and at this time I am going to ask for the adoption of that report, as the report of this Board, I mean, I will ask for the right of way, if I am not asking too much. I think we will vote in a very few minutes as to the taking of the entire matter out of the hands of the committee, and then it will be in the hands of the Board, and I want to just simply tell this Board, right now, if Supervisor Shannon wishes to take the lead, I will gladly second it, because it is his instrument, and his document, but if he does not wish to take the lead, I will gladly present it. But it is your work, Supervisor, and therefore, so as to get it before us in parliamentary manner, I would like to see you, naturally, move the adoption of the statement that you made. Do you catch the point?

Motion.

SUPERVISOR SHANNON: I get the point, and I am going to move, as an amendment to the motion that is before us, namely, that the matter be taken out of the hands of the committee, I am going to move as an amendment the adoption of my report.

SUPERVISOR BADARACCO: Second the motion.

SUPERVISOR McLERAN: Call the roll.

THE MAYOR: Call the roll. The motion is on the amendment just made.

THE CLERK (Roll call.): Badaracco aye; Bath no; Colman no; Deasy aye; Harrelson no; Hayden no; Katz aye; McGregor no; McLeran no; McSheehy aye; Morgan no; Robb no; Roncovieri aye; Rossi no; Schmitz no; Shannon aye; Welch aye; Wetmore no. 11 noes. 7 ayes.

THE MAYOR: The amendment is defeated. Now, Mr. Dailey—

SUPERVISOR McLERAN: The original motion, Mr. Mayor, to take it out of the hands of the committee.

THE MAYOR: Just let me get Mr. Dailey under oath now, and we will let Mr. Dailey tell the Board, and the people of San Francisco, what happened in the Mayor's office. Mr. Dailey, will you rise? Do you solemnly swear—and I have the right to ask you for an oath—to tell the truth, the whole truth, and nothing but the truth, as to what happened in the Mayor's office with the Committee of Three appointed by the Board of Supervisors, regarding that agreement that comes in here today?

MR. DAILEY: Yes.

THE MAYOR: Go ahead.

MR. DAILEY: I do not know what you want me to tell, but I want to make this statement: the statement just read, prepared by Supervisor Shannon, stated that after the agreement left the committee, that, in some way, unknown to him, one paragraph was stricken out. That is the paragraph that was originally numbered 6 of the original draft of the agreement. I want to state that I cannot conceive how Mr. Shannon makes that statement. It must be through inadvertence, because the statement was stricken out after Mr. Shannon told me to strike it out. I asked him in the presence of all of the members of the committee, and in the presence of the members of the press, who are sitting over there,

what we should do with that section. There was considerable discussion over it, and, finally, it was the unanimous statement of all three members of the committee to strike that section out, and it was stricken out there in the Mayor's office and in the presence of Mr. Shannon, Mr. McLeran, and the Mayor, and the members of the press who were there, and it was not taken out in some mysterious way afterwards.

SUPERVISOR MCCLERAN: Call the roll on the question.

THE MAYOR: The question is before the Board: shall the matter of the report from the Special Committee, to whom was intrusted, by the Board, an effort to bring about an adjustment of the temporary disposal of the Hetch Hetchy power, pursuant to resolution 23660, new series, be taken from the hands of the committee? Call the roll, Mr. Clerk.

SUPERVISOR BADARACCO: I want to state that I am going to vote "no" on this motion, for the reason that I believe the members of this Board are entitled to some report from this committee.

THE MAYOR: May I say to the members of the Board, and to my fellow citizens, that, as Mayor, I have endeavored to give to you every item of news emanating from the meetings of the committee, everything that transpired in the Mayor's office, the report of the Advisory Water Committee, the suggestion of the Advisory Water Committee, all the data, all the contracts, every bit of information that the committee has in its possession, is here in your possession now, and which I have as Mayor transmitted to you. They are on file with the clerk. They are precious documents and I know two members of the Advisory Water Committee, because I was one of them a short time ago, believe we cannot get more than \$2,000,000 for this power, at the present time. You have a contract, day to day. If you can get \$2,583,000 tomorrow, get it, and if you run 90 days more you will eat up the \$583,000. And the Advisory Water Committee, Senator Phelan and Matt I. Sullivan, know, and tell me so, the report that you have got here, that you cannot get more than \$2,000,000; and my personal opinion is that if you do not take the \$2,000,000 that is offered to you today, you will get much less. They made that offer in September, 1923, when the whole country was barren of water, and today they are willing to stand by it, and willing to give us \$2,000,000 for our power, net, annually, if we produce 400,000,000 kilowatt hours, at the meter, over at Newark. If we run over 420,000,000 kilowatt hours, we get just that much more per kilowatt hour for what we can produce. But I am giving you these facts; since the thirteenth of April, working with the Advisory Water Committee, working with this committee, working with the City Attorney, working with the City Engineer, working with the Evaluation Commissioner, the best that this committee can do, temporarily, day by day, and provide at the same time, that the agreement must be approved by the Secretary of the Interior; I present it to you today, with all the data, the letters from Senator James D. Phelan, everything that we have, and the question now is, as the committee desires you to do, take it from the committee, take it from your hands, and the motion is, shall the Special Committee be discharged and the reports submitted today from the Mayor in special message, from Mr. McLeran, chairman of the Finance Committee; from Mr. Shannon, chairman of the Public Utilities Committee; take it in your hands. Call the roll, Mr. Clerk.

SUPERVISOR MCSHEEHY: I am going to vote no for three reasons: First, I am going to vote no because the committee is not reporting. We have no report. Secondly, we have not even allowed what you might term a minority report. You made no majority report. You really have made no report.

THE MAYOR: Everybody is treated fairly.

SUPERVISOR MCSHEEHY: I am not at all dissenting from your reason. These are my reasons for voting no. I have no desire to delay, but I feel at this time the committee should report and we should have something to analyze, and for those reasons I am voting no.

SUPERVISOR WELCH: I am going to vote no, and it should not be

taken as an indication of pursuing dilatory tactics for the purpose of delaying the submission of this proposed contract to the Department of the Interior. But, on the other hand, it is resentment directed to the committee, the majority of the committee, who have had this matter in hand for all these weeks, and have come to a point at this hour, when they have absolutely failed to file a majority report with this Board, except the letter that I referred to this morning as scurrilous, coming from the Mayor of San Francisco, wherein you do nothing more nor less than uphold the hands of those that are responsible for the hydro-electric power crop at Moccasin Creek, being delivered at Newark, instead of at a step-down station in the City of San Francisco. If it had not been for the policy of those two gentlemen, and they are both here, Mr. McLeran and Mr. O'Shaughnessy, that power would be here; and the statement that you have made that we will get less instead of more, had their policies not been adhered to, by the majority of this Board, and that power kept at Newark instead of San Francisco, it would not be a case of less, but it would be more.

SUPERVISOR BATH: Mr. Chairman, I do not know that it is necessary for a Supervisor to explain his vote. This is once where I expect to explain my vote. I do not know yet whether I am in favor of this contract or opposed to it, but it seems to me a peculiar position that the Board is in at this moment, and has been in all day, inasmuch as last Monday, and a week ago last Monday, there was a great clamor to hear from this committee. Why there was clamor so far that we sent a special messenger over to your Honor's office, asking the Mayor to shake hands with us and to see us. We have a report, although it may not be termed a majority report, for the reason that the three members of the committee have given their expressions in writing, and therefore it is a report of some kind that should be taken very seriously by this Board of Supervisors. This is what we are here for. It is not what has happened, how many unkind words were expressed back and forth, but we want to enter into some kind of an agreement for the disposal, in as near a right and legal way as we can, of the Hetch Hetchy Moccasin Creek energy. Now, let us not waste any more time, why not get down to a vote? We have confidence in your Honor and the committee. The public wants action, and now, for one, I am ready to vote, and I am ready to vote "aye" and proceed to get down to business.

* * * * *

Whereupon, the roll was called and Supervisor McLeran's motion carried by the following vote:

Ayes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Rossi, Schmitz, Wetmore—11.

Noes—Supervisors Badacarro, Deasy, Katz, McSheehy, Roncovieri, Shannon, Welch—7.

Supervisor Hayden Chairman.

At this point in the proceedings his Honor the Mayor retired and Supervisor Hayden was called to the chair.

CHAIRMAN HAYDEN: I am just calling the Clerk's attention to the reason for this meeting. This is a special meeting of the Board of Supervisors following a call by his Honor, the Mayor, called for a particular purpose to discuss the question of the distribution of the power. At the present time there is nothing before the Board.

Motion.

SUPERVISOR McLERAN: Mr. Chairman and members of the Board: The tentative draft of the contract that you have, or the figure inserted, was unanimously agreed to by the three members of the committee last Wednesday. But Supervisor Shannon today, in his report, has stated that certain paragraphs were eliminated, and he did not know how it was eliminated. I am quite sure that, if Supervisor Shannon will reflect back to last Wednesday, he will remember that we discussed that paragraph number six, and it was exactly as Mr. Dailey has stated. You waved your hand and said "take it out". It was the

only insertion that was eliminated from the contract of all those that you proposed. You made that statement yourself. But, however, any member of the Board, or any member of the committee has a right to change his mind. With the exception of that one paragraph eliminating the figure, this contract has been approved by the committee in its entirety, approved by Mr. Dailey, the City Attorney's office, and Mr. McEnerney, representing the Pacific Gas and Electric Company. Now, in order to bring out the discussion on the price, I am going to move that the figures 26,935 be inserted after the word "Newark", on page six, after the word "Newark", in line two, insert the figures 26,935.

SUPERVISOR ROSSI: I second the motion.

So ordered.

Bill Authorizing Board of Public Works to Enter Into Contract for Temporary Distribution of Hetch Hetchy Power.

Whereupon, Supervisor McLeran presented the following bill, which was read by the Clerk:

Bill No. 7164, Ordinance No. — (New Series), as follows:

Authorizing the Board of Public Works of the City and County of San Francisco to enter into a contract with the Pacific Gas and Electric Company, a corporation, for the temporary distribution of electric energy generated at the Moccasin Creek Power Plant, and prescribing the terms and conditions of said agreement.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. In accordance with the provisions of Article VI, Chapter 1, Section 9, Subdivision 8 of the Charter, the Board of Public Works is hereby authorized and directed to enter into an agreement with the Pacific Gas and Electric Company, a corporation, for the temporary distribution through the system of that company of electric energy generated at the Moccasin Power Plant on the Hetch Hetchy Project during the period that will necessarily elapse before the City can construct, purchase or acquire a municipally owned electric distribution system.

The form, terms and conditions of said contract shall be as follows:

This agreement, made and entered into this — day of —, 1925, by and between the Board of Public Works of the City and County of San Francisco, acting for and on behalf of the City and County of San Francisco, a municipal corporation, hereinafter referred to as "City," under authority of the Board of Supervisors granted by Ordinance No. — (New Series), the party of the first part, and Pacific Gas and Electric Company, a corporation, of San Francisco, California, hereinafter referred to as "Company," the party of the second part, witnesseth:

Whereas, the City has now completed the construction of the Moc-

casin power plant as a part of the development of the Hetch Hetchy project, which plant has a rated capacity of 70,000 kilowatts and is capable of producing approximately 460,000,000 kilowatt hours of electric energy annually, and has also completed the building of a transmission line to the vicinity of Newark, in Alameda county, of sufficient capacity to transmit and deliver to that point approximately 420,000,000 kilowatt hours after allowance for transmission losses; and

Whereas, the City has not yet constructed or acquired a transmission line from the point near Newark to the City limits, and has not yet constructed or acquired a distribution system for utilizing the power produced at Moccasin plant and delivering the same for general municipal uses and for sale to consumers of electric energy within the limits of the City and County; and

Whereas, pursuant to resolutions of its Board of Supervisors looking to the acquisition of a municipally owned electric distribution system, the City has commenced and there is now pending before the Railroad Commission of the State of California proceedings for the determination by the Commission of the compensation to be paid by the City for the local distribution systems and certain steam plants now owned and operated by the Pacific Gas and Electric Company and the Great Western Power Company of California, respectively, when the same shall be taken over by the City under eminent domain proceedings, or otherwise; and

Whereas, the City has not funds available at the present time with which to purchase or construct a distribution system of its own and it will be necessary to submit a proposition to the People to vote bonds to provide money for that purpose before a distribution sys-

tem can be purchased or constructed, and the City cannot well determine whether to purchase one or both of the local distribution systems, or to construct a distribution system of its own until the Railroad Commission determines the amount of compensation to be paid by the City for the taking of either or both of said local distribution systems under the proceedings now pending before the Commission; and

Whereas, the City intends to complete its power transmission line from Newark to San Francisco and to acquire or construct a distribution system of its own: and

Whereas, the said Moccasin Power Plant is now in condition to operate at its full capacity of 70,000 kilowatts, and unless some temporary arrangement is made between the City and the Company for the distribution to consumers of the electric energy which can be produced at said plant during the period that must elapse before the City can acquire, own and operate a distribution system of its own, there will be a great waste of said potential energy and a great loss of potential revenue to the City and its taxpayers; and

Whereas, the statistical and financial records kept by the City or the Company show the following, viz.:

1. That the total capacity and possible annual output of energy from the Moccasin plant will not be sufficient to supply all municipal requirements and the demand of consumers in the City and County for electric power and energy, although in hours and days of low energy requirement the capacity and output may be more than sufficient to supply said requirements and demands during said hours and days.

2. That the average transmission and distribution losses of energy from the Newark substation of the Company to the various consumers' meters in San Francisco is 24 per cent of all energy delivered into the system of the Company at Newark for transmission and distribution to consumers in San Francisco.

3. That 2.383 cents is the average revenue per kilowatt hour received from all classes of consumers of the Company in San Francisco under existing rates based on the experience of the Company for the year 1924.

Now, therefore, in consideration of the premises and the mutual covenants and conditions herein contained, the parties hereto mu-

tually covenant and agree as follows:

First: The City hereby employs the Company and the Company accepts employment as temporary distributor for and on behalf of the City, of the electric energy to be generated at Moccasin Power House and transmitted to Newark by the City over its own transmission lines. The City agrees to so maintain its Moccasin plant that it will, whenever necessary to do so, carry load up to its full capacity of 70,000 kilowatts, subject to limitations of its forebay storage and to accidents and unforeseen contingencies; and to deliver and consign the entire energy output of its said plan to the Company, save and except such portion thereof as may be reserved for City requirements as hereinafter provided. The Company agrees to accept such consignment of the entire energy output of Moccasin plant, less transmission losses and except such portion as the City shall retain as above and hereinafter mentioned, delivered at not to exceed a 75 per cent monthly load factor, to make at its own expense the necessary physical connection of the City's transmission lines with its own system at Newark; to install all necessary equipment, facilities and proper meters for accurately measuring the amount of energy delivered; to transmit so much of said energy through its own system to San Francisco as may be required to light public streets and to meet other municipal needs for electric energy; to supply street railroads and other consumers of such energy in the City; to transform, convert, regulate, distribute and meter the energy sold; to furnish all necessary peak load and steam standby service and collect from consumers of such energy the charges therefor, which shall not exceed the lawfully established rates, and make accounting to the City as hereinafter in Paragraph Fifth provided.

Second: The City agrees that the energy consigned to the Company from the Moccasin plant shall be the entire output thereof, diminished only by transmission and other losses and by such amounts as the City shall require for its own use in the construction or operation of any portion of the Hetch Hetchy Project, and also by such amounts, if any, as the City may be legally required to furnish to irrigation districts or municipalities under the terms of the act of Congress, approved December 19, 1913, known as the Raker Act. Failure or inability of the Company to take at Newark a part of the energy which

the City is in a position to deliver to it under the terms of this agreement shall not constitute grounds for deduction in the amount of the revenue to be paid to the City had such energy been received by the Company and sold to consumers, it being understood, however, that the Company is not required to accept the output of the Moccasin plant at a monthly load factor in excess of 75 per cent.

Third: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company, for the purposes of this agreement merely, has acquiesced in the assumption) that of the energy consigned and delivered to the Company at Newark and by the Company delivered to consumers in the City and County of San Francisco there would be transmission, substation and distribution losses amounting to 24 per cent of the energy thus consigned and delivered at Newark and therefore 76 per cent of the energy consigned and delivered at Newark should be taken as the true measure of the amount possible of deliverance to consumers.

Fourth: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company, for the purposes of this agreement merely, has acquiesced in the assumption) that inasmuch as in the year 1924 under existing rates the average revenue received by the Company from consumers in San Francisco amounted to 2.383 cents per kilowatt hour, such average revenue should be applied to 76 per cent of the energy to be consigned and delivered by the City to the Company at Newark for the purposes in this contract declared.

Fifth: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned and delivered by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company, for the purposes of this agreement merely, has acquiesced in the assumption) that the City shall receive for the energy consigned and delivered by it to the Company at Newark 26.935 per cent of 2.383 cents per kilowatt hour for 76 per

cent of the energy so consigned and delivered at Newark, and that the Company shall receive 73.065 per cent thereof.

It is agreed by the City and the Company that the Company shall account for and pay over to the City for the energy so consigned and delivered to it by the City at Newark for transmission and distribution to consumers as provided in this contract 26.935 per cent of 2.383 cents per kilowatt hour for 76 per cent of the energy so consigned and delivered by the City to it at Newark, and the Company shall retain the aforementioned 73.065 per cent as its compensation for services rendered under this contract.

Sixth: The City shall not be obliged to deliver energy into the system of the Company at Newark, nor shall the Company be obligated to receive such energy at such time as either shall be prevented from doing so on account of accidents, acts of God or fire, making it physically impossible to so deliver or receive energy or on account of strikes, riots, war or any other cause beyond reasonable power of control of either party. In the event of inability on the part of the City to deliver the said energy at Newark, or inability on the part of the Company to receive the energy at Newark arising from any of the causes in this paragraph specified, the party so prevented from making such delivery of energy or receiving such energy shall proceed at all possible speed to take the necessary action to enable it to comply with its covenants herein contained.

Seventh: The net proceeds due the City, namely 26.935 per cent of 2.383 cents per kilowatt hour for 76 per cent of the energy so consigned and delivered at Newark by it to the Company, shall be paid into the Treasury of the City and County of San Francisco by the Company in monthly installments and not later than the 15th day of each month after operation under this agreement commences. The amount of such payment shall be based upon the amount of energy actually delivered into the system of the Company at Newark during the preceding month. In the event of the refusal, failure or inability of the Company to take the available output of the Moccasin plant deliverable at Newark in accordance with the terms of this agreement, then the amount of energy which the City could have delivered shall be the basis of computing such monthly payment. The

method for determining this amount shall be covered in the memorandum of technical specifications, details and conditions hereinafter provided for.

Eighth: Should the present established rates for the sale of electric energy in San Francisco be hereafter increased or decreased by lawful authority, then the amount to be retained by the Company and the amount to be paid to the City under the terms of this agreement shall be proportionately increased or decreased.

Ninth: Neither this contract nor anything contained herein, nor the prices, rates or charges fixed herein, shall ever be offered or in any manner used as evidence by either said City and County or said Company or any successor in interest of either of them in any court or before any commission or official of the State of California or of the United States of America in any action or proceeding in which said City or any successor in interest shall be a party adversary to said Company, or any successor in interest, other than an action or proceeding between the parties hereto, or their respective successors in interest, or one of said parties and a successor in interest of the other, commenced and prosecuted for the purpose of obtaining a judicial or official interpretation or determination of the legality of this contract or of any provision thereof or for the purpose of enforcing its performance, or recovering damages for its nonperformance.

Tenth: It is expressly recognized that this contract is a temporary arrangement between the parties for distributing the energy output of the Moccasin plant over and through the Company's lines and system during the period that must elapse before the City can construct or acquire a distribution system of its own.

It is therefore agreed that the contract may be terminated at any time by either the City or the Company upon one day's previous notice in writing to the other.

Eleventh: It is further understood and agreed that this contract is subject to immediate cancellation upon request or demand of the Secretary of the Interior of the United States should he hold that in his opinion the agreement violates any provision of the laws of the United States in general, or the Raker Act in particular.

Twelfth: All of the electric energy to be delivered and received

pursuant to the provisions of this contract shall be three phase, 60 cycle, alternating current. The electromotive force of such energy at the point of delivery shall be approximately 105,000 volts, slight variation in voltage and frequency to be permitted.

Thirteenth: The Company shall inspect, test and keep in proper repair all meters and accessories at Newark which will be used for measuring the amount of electric energy consigned to the Company under this contract. The said meters shall be kept under joint seals of the City and Company which shall not be broken except in the presence of authorized representatives of both parties. Either party shall have the right at any time to request an inspection or test, and if found necessary, proper adjustment of such meters in the presence of a representative of the other party appointed for that purpose. When such inspection or test is desired, sufficient notice shall be given by the party desiring the test, to permit of the other party having its representative present. The registration of the meters shall be used as the basis of determining the amount of energy consigned thereunder, unless, upon being tested, the meters shall be found to register inaccurately and such inaccuracy shall exceed two per cent (2%). Where the inaccuracy is more than two per cent (2%), but the actual inaccuracy can be approximately determined, the readings of such meters shall be corrected and such corrected reading shall be used as a basis for determining the amount of energy delivered. Where the registry of the meters cannot be so properly corrected, the amount of energy delivered during such period of inaccurate registry shall be estimated by the engineers for the parties hereto from the average daily plant output of energy during such period, and from any other available and pertinent data.

Fourteenth: Technical specifications, details and conditions as to the construction of the interconnecting lines and switching apparatus at Newark, and as to the maintenance, repair and operation of the power generating plant and transmission system of the City shall be agreed upon by the City Engineer of San Francisco and the Vice President in charge of electrical construction and operation of the Company, and a memorandum of such agreed specifications and operating details shall be filed with

and become part of this agreement; provided, that if any changes in said technical specifications or operating details may from time to time become necessary or advisable in the opinion of both of said parties, supplemental memoranda of the same shall be filed, and become part hereof without affecting the remaining terms of the agreement.

Fifteenth: The recitals hereinabove contained commencing with the words "Whereas, the City has now completed the construction of the Moccasin Power Plant," and ending with the words "a great loss of potential revenue to the City and its taxpayers; and" are statements made by the City of its purposes and intentions and concerning other matters contained in said recitals. Said recitals are not and no one of them is made by or on behalf of the Company. None of said recitals shall be binding on either of the parties to this agreement in any dispute, controversy or question which may ever hereafter arise in which the same might otherwise be relevant or pertinent.

In witness whereof, the Board of Public Works has caused these presents to be duly executed and signed by its members, and the Company has caused these presents to be executed by its officers first thereunto duly authorized by resolution of its

board of directors, a copy of which is hereunto annexed, the day and year first above written.

Section 2. As soon as said agreement is duly executed by the parties therein named, a duly executed copy or certified copy thereof shall forthwith be presented to the Secretary of the Interior of the United States at Washington, D. C. If said Secretary of the Interior shall, upon such presentation of the agreement to him, or at any time thereafter, announce his disapproval of said agreement, either directly or through the Attorney-General of the United States, and direct that the same be cancelled, then said agreement will be subject to immediate cancellation as therein provided.

Section 3. This ordinance shall take effect immediately.

Motion.

Supervisor McLeran, seconded by Supervisor Colman, moved the passage to print of the ordinance.

Supervisor Badaracco's Statement.

SUPERVISOR BADARACCO: I have a short statement here that I have prepared, and I would like to have the clerk read it and place it on the record.

THE CHAIRMAN: Is this a matter that is germane to the question?

SUPERVISOR BADARACCO: It is germane to all questions.

THE CHAIRMAN: This is a special meeting for a special purpose.

SUPERVISOR BADARACCO: It is germane to the question, I assure you, very germane.

THE CLERK (reading): "I was surprised to hear the Mayor of San Francisco attack minority members of this Board as cheap politicians, and include in that description the Citizens' Advisory Committee appointed by Mayor Rolph, and whose advice I have been following in Hetch Hetchy matters. I say I was surprised, surprised, because I never imagined that the Mayor of San Francisco would ever accuse men who differ honestly with him, of being cheap politicians. However, if being opposed to the municipal budget that increased the taxpayers' bills \$8,000,000 is being a cheap politician, I am glad to say that I am one. If attempting to reduce the electric rates collected by the private power companies in San Francisco constitutes being a cheap politician, I am glad to say that I am one. If helping to carry out the mandate of the people, and the mandate of Congress, and distribute Hetch Hetchy power publicly is being a cheap politician, I am glad to say that I am one. I would much rather be a cheap politician who has earned the

title of protecting the people's interests than be a man who has kept himself in office for many years by lip service to municipal ownership, by high sounding, but nevertheless meaningless, phrases and words."

RECESS.

SUPERVISOR McLERAN: I move that we recess until eight o'clock. Motion carried.

FRIDAY EVENING, JUNE 19, 1925, at 8:30 O'CLOCK.

REASSEMBLED.

In Board of Supervisors, San Francisco, Friday evening, June 19, 1925, at 8:30 o'clock.

The Board reassembled at the hour of 8:30 p. m., all members before noted being present.

Supervisor Hayden in the chair.

SUPERVISOR McLERAN: Mr. Chairman, I have given a brief synopsis of the proposed agreement, but it must be advisable at this time to have the Assistant City Attorney make an explanation of the legal aspects of this proposed contract. It is a legal document, and I would ask that Mr. Dailey briefly explain to the Board the legal bearings of this proposed contract.

Special Counsel Dailey's Explanation of Proposed Contract.

MR. DAILEY: Mr. Chairman and members of the Board, I think it would help probably, when this contract is read to you, if you had a brief statement from me, because I prepared the original draft of this agreement, as to the purposes and the objects and the scheme of the agreement in general. You all know that some time ago the Pacific Gas and Electric Company made an offer for the Hetch Hetchy power of \$2,000,000. As a matter of fact, they submitted to the members of the Advisory Committee an offer to take out from the Moccasin Creek plant its entire output, or 75 per cent of the monthly load factor at Newark, for \$2,000,000. The Advisory Committee in its report to this Board stated that the proposition submitted to the company was a straight purchase of the Hetch Hetchy power, and would therefore be in violation of the terms of the Raker Act.

Now, the resolution of the Board of Supervisors here appointing this Special Committee, as I read it, directed the Special Committee to see what kind of a contract could be negotiated with one or more power companies to cover some kind of temporary agreement, for the disposal of the City's Hetch Hetchy power, that would be and would come within the terms of the Raker Act, and, at the same time preserve certain recommendations of the Advisory Committee. I am in perfect agreement with the report of the Advisory Committee that the proposition, as submitted by the Pacific Gas and Electric Company to that committee, was simply a straight sale and purchase of the Hetch Hetchy power. Realizing that proposition, when I came to consider the terms of this agreement, and the scope of this agreement, I was convinced that we must get away from that proposition in order to come within the terms of the Raker Act, and it was with that purpose in view that this particular plan was arranged that is set forth in this agreement.

Certain things presented themselves to me at the beginning. I am rather familiar with the power situation here in San Francisco, because of many years of work along that line. I know something of the power requirements of San Francisco, or, rather, the energy requirements of San Francisco, and, of course, I knew approximately the output of the Moccasin Creek plant, and what it could do towards supplying the needs of San Francisco. I knew that the power output of Moccasin Creek will not supply the entire load for energy in San Francisco that is being served by the Pacific Gas and Electric Company. I knew, therefore, that the Pacific Gas and Electric Company would have to bring additional energy in here during all of the lifetime of this particular contract, and I knew, too, that the load is growing in San

Francisco from month to month and from year to year. We can anticipate an increased growth of possibly ten or eleven per cent in San Francisco in 1925 over 1924. And, as this load expands, and as more consumers go on the system of the Pacific Gas and Electric Company, more energy will have to be brought in here. But I realized this: That the energy from Moccasin Creek would not increase until we put in other units, so we would be generating, if this plant was running at full capacity all of the time, a certain definite quantity of power all the time, and the energy from month to month would be just the same, while our growth in San Francisco, our demand for power in San Francisco, would be growing constantly month by month and year by year. So there was a variable quantity in there between the quantity San Francisco could supply to the consumers of San Francisco and the demand for energy load in San Francisco. Therefore, it was obviously impossible to say that the receipts from all of the sales of power in San Francisco would come from energy from Moccasin Creek. That could not be. Therefore, some plan had to be devised for measuring the value at consumers' meters in San Francisco by the constant quantity which would come from Moccasin Creek. That was one of the problems I had to digest in my mind first, to provide a scheme for measuring and determining this fixed quantity, when the total quantity was a variable quantity and increasing month by month and year by year.

First, I got the engineers to estimate for me how much of the Moccasin Creek power delivered into the system of the Pacific Gas and Electric Company at Newark would ultimately be sold to consumers in San Francisco, and I saw that it was necessary to bring that power right into the consumers of San Francisco through the system of the Pacific Gas and Electric Company, using the facilities of that company, using the services of that company, and there measure the power at the meters, and then divide the revenue that came from the sale of that definite, fixed quantity of power, in order to make a contract that would be in the nature of an agency contract, whereby we were employing the company for a certain specific purpose, and they were performing that service, and the revenue which would grow out of the furnishing of that service would be divided between the city and the company in certain proportions. Therefore, I had the engineers make estimates for me of how much power could be delivered to the consumers' meters in San Francisco on the assumption of the delivery at Newark of a certain definite quantity of power. The engineers for the city advised me as to what the Moccasin Creek plant could produce, and the estimated safe maximum quantity that they have figured on all the time was 460,000,000 kilowatt hours. The plant might do a little better, depending upon the fact of whether more water might come through the tunnel than 630 second feet. But that is the figure given me, which allows for some reasonable margin of safety.

With 460,000,000 kilowatt hours produced at Moccasin Creek, the next question was to determine how much approximately could be delivered at Newark into the system of the company. The engineers advised me that the loss in transmission—not in transmission, but in step-up into the Moccasin Creek plant, through the transformers and out onto the lines, and then transmission losses on the line from Moccasin Creek to Newark, would be approximately $8\frac{1}{2}$ per cent. So that we could rather safely figure that the delivery into the system at Newark would be somewhere between 414,000,000 and 420,000,000 kilowatt hours.

I will state that the company had already said to the Advisory Committee, at a time when I was present, that they would expect the city to deliver 420,000,000 kilowatt hours, but they had proposed a leeway between 420,000,000 hours and 400,000,000 kilowatt hours, where neither the company would be penalized nor the city would lose any revenue if the delivery fell between those two points. Under the proposition as submitted by the company to the committee, the city has to deliver 420,000,000 kilowatt hours, or at least 400,000,000 hours, but they would

receive no extra compensation unless the delivery exceeded 420,000,000 hours. By using a medium between those two, and fixing the total which the city could with all reasonable safety expect to deliver into the city at Newark, we used the 410,000,000 kilowatt hours.

Now, the engineers advised me that 24 per cent of that power delivered into the system at Newark would be lost in transmission and in step-down transformation from 110,000 volts, first from the transformers, and then through the substation transformers and then out onto the distributing lines, and then on the pole transformers, and then into the meters. That loss would amount to approximately 24 per cent of all of the energy delivered into the system at Newark, leaving 76 per cent of the energy that entered the system of the company at Newark. As measured in the consumers' meters here that would amount to approximately 311,000,000 kilowatt hours of Hetch Hetchy energy that would be delivered at consumers' meters.

The next problem was to determine what would be the constant revenue to be derived from the sale of 311,000,000 kilowatt hours measured at the consumers' meters in San Francisco. I then had the engineers find and determine for me what is the average revenue—what, during the year 1924, the average revenue per kilowatt hour received by the Pacific Gas and Electric Company from all of its meters in San Francisco was, to determine the average rate of the revenue. That is no secret figure. There is no legerdemain in arriving at that figure. It is 2.383 cents per kilowatt hour. That is the average revenue paid to the Pacific Gas and Electric Company during the entire year 1924, taking in all classes of consumers. During 1923 it was almost identical with that, a very slight difference. A few one-hundredths of a mill was the difference in the rate of 1923 as against 1924. That arose because of the fact that during one month of 1923 there was an adjustment and changing from the old schedule of rates as fixed by the Railroad Commission, in which the revenue was collected under the old rate. So that is a fair average. That average was published by the Advisory Committee, and published here for several months. There was no secret about it.

That average rate means this: That the Commission fixed the compensation to be paid to the company, or the rate to be collected by the company, upon a basis that the company is entitled to earn 8 per cent upon its investment. Now, if you figure all of the costs of giving that service in every way, and add to it an 8 per cent return, if the rate fixed by the Commission is ideal, the average rate you get will amount to merely the sum of the costs for giving that service plus the 8 per cent return on those rates.

There is one other thing I would like to make clear to you at this time, because probably there will be some discussion upon it. If the rates fixed by the Railroad Commission are ideal, the profit the company makes from serving power to the Municipal Railway of 1.01—or 1 per cent and 1 mill—is just the same and just as great as on the rate that was fixed for the householder, who pays an average of between six and seven cents per kilowatt hour. That is misunderstood sometimes. The Railroad Commission fixes the rate for the Market Street Railway Company at 8.4 or 8.5 mills, while the city is paying 1 cent and 1 mill. That does not mean that the power is being served to the Market Street Railway Company any cheaper than it is being served to the Municipal Railway, because the Market Street Railway Company takes what is called an alternating current, just as it comes in over the line. The Market Street Railway Company itself owns and operates and controls the machinery that is necessary to convert the power from alternating current into direct current, because cars are operated by direct current sent out from the substations. But, in so far as the Municipal Railway power is concerned, that power is converted by the company, changed into direct current, and there is a very heavy loss of from 12 to 25 per cent right there in that conversion alone. After it

gets into the substations the power goes out over the lines. Therefore, the rate to the Municipal Railway of 1.1 is designed and planned to be exactly equal to the rate of 8.5 mills that is being charged to the Market Street Railway Company.

What I mean to point out is this: That under the schedule of rates as laid down by the Commission the profits to the company from serving the railroad is just as great to the company as the profits derived from serving the householder, who is paying 6 cents and 6½ cents, average, on his bills. So, when you come to consider profits you must take into consideration costs, too. And the cost of serving the householder is in excess, considerably, of 5 cents per kilowatt hour, while the cost, the actual cost of serving the Municipal Railway is possibly less than 1 cent. So, when you are dealing with the revenue to be derived from the sale of Hetch Hetchy power, you have to bear this in mind, that the average return per kilowatt hour that is paid bears the same relation to the average cost per kilowatt hour that that cost per kilowatt hour and the return bears to any one of the rates, whether it is 1 cent or 6 cents.

While I am talking about that, I will mention this. There will undoubtedly be discussion before the Board tonight on this proposition, that the average rate of 2.383 per kilowatt hour includes the rate paid by the railways, and that, if the railways were excluded, the rate then would be about 3.05. That is true. The average return would be 3.05. But the average cost to the company to deliver that service would not be the average cost from which the return of 2.383 would be realized, but it would be the cost of giving the service that brought in a return of 3.05. The relation between those two would be exactly the same, unless the Railroad Commission is all off in its schedule of rates.

But even that would cut absolutely no figure in this. If you are determining the return to the city, and assuming that the company could not take that power, upon that assumption, for the time being as long as a certain figure is in this agreement that is before you—if the company could not take and dispose of 311,000,000 kilowatt hours to the people of San Francisco, and do it in any way by which they could pay to the city more than \$2,000,000, that does not make any difference whether you take the average rate or whether you take just the lighting consumers—of course, you could not take the lighting consumers, because there would not be near enough. But if you did that, your cost would go up. Consequently, the company would have to have a larger percentage.

So the key to this whole arrangement as set forth in this agreement is the compensation the company is to get for the service it performs in distributing Hetch Hetchy power, and the amount of revenue the city is to get because of the fact that it delivers into the company's system the power. It lies in the figure 73 something and 26 something that should go in there. As you vary those figures you vary the return that is coming to the city and the amount that shall be retained by the company itself.

The original draft of the agreement as prepared by me left those percentages absolutely blank. I explained to the committee that it was not my province to fix the amount of compensation at all. I drafted the agreement in a form that would provide a plan under which the committee could readily and easily fill in certain blanks, after they determined what those figures would be, what they should be to enable a fair proportion of the revenue to be retained by the city and a fair proportion to be kept by the company. After consideration before the Special Committee Mr. Shannon, following a process of figuring and estimating, came to the conclusion that \$2,587,000 was the proper figure, and the members of the committee said they would be glad and pleased indeed to have a revenue of that amount, and they said, "We will put the proposition up to the company." Of course, I coincided with them and told them I hoped they would get \$3,000,000 or \$2,500,000,

or any other sum higher than \$2,000,000. So that was left blank in the last agreement as presented by me, and the figures filled in at Mr. Shannon's suggestion. It changed those percentages from what they are now, as proposed by Mr. McLeran, in his motion just before the recess. The figures were 65 per cent to the company and 35 per cent to the city, where they now are 73 something and 26 something. If you had put them 68 and 32, you would have had a different return.

So those are the controlling figures in estimating the whole thing. That was the plan of the agreement.

I suppose you will want this agreement read, and I do not know but what it would be a good idea to read it now, and possibly I can explain the different paragraphs as you go through, and that the Board can take it up in any way and take what action it deems fit. But I am afraid that if you had started discussing this agreement section by section, or paragraph by paragraph, before you had the general scheme of it in mind, you would have found that you were wasting considerable time, because you would have been asking for an explanation of something that the placing of the full agreement before you would itself explain—that is, the plan of it, the scheme as a whole.

When this power shall be turned into the system at Newark, the company then will take that power over, because they have the facilities and the system for bringing it to San Francisco. They will bring it into San Francisco, because we have not any way of doing it. They will transform that power at the station. They will send it over their distribution system. They will meter it. They will have meter readers reading the meters. They will have the readings taken to the office and the bills made out. They will collect the bills, and they will attend to all of that, because we obviously could not do it. You should appreciate this, that if we said, "You serve it to the consumers, and they will be our consumers and we will collect for it", that that is an utter impossibility, unless we had all the power San Francisco would require and supplied every kilowatt hour of energy that was being distributed in San Francisco. Because, with that power coming in, it is like putting a lot of water in one big reservoir, the city furnishing three-quarters of the water and Spring Valley furnishing the other fourth. But it all goes into the same reservoir. From that reservoir the water would be drawn out and served to the consumers around San Francisco. You could not possibly tell which consumers of water in San Francisco were using the water San Francisco supplied and which consumers were using the water that the Spring Valley Company supplied. It is exactly the same with the kilowatt hours of energy. It is like putting it all into a big reservoir, and the company itself, of course, has all of the facilities for reading the meters—of course, that would be easy for us to figure, too—and for making out the bills. It is no simple equipment. They have a lot of mechanical devices for doing those things. They have a system worked out, a system of accounting, a system of sending out the bills and collecting, and they do all that service for us.

The agreement provides that they are just to account for the proceeds for 311,000,000 kilowatt hours upon a certain basis. You do not have to go through the books of the company, although that would be a very simple thing to do, to determine what will be an average rate for the sale of power, the average monthly rate or average yearly rate for next month, or a year from now, because regularly those reports are filed with the Railroad Commission. We in our office in the evaluation department of the City Engineer's office, and, of course, in the company's office, know just how much power came into San Francisco last year. We know how much was measured at consumers' meters. There is no secret about that. We know just what revenue was paid by those consumers to the Pacific Gas and Electric Company. If you divide the revenue by the number of kilowatt hours you get that average rate. So there is no difficulty and no secrecy about the matter of what is the average rate per kilowatt hour that is paid by the consumers.

How would you measure under this contract the amount that the Pacific Gas and Electric Company should pay to the City and County of San Francisco as its share of the proceeds of the distribution and sale of this power under this contract? It is a very simple thing. We might in one year deliver 410,000,000 kilowatt hours, and in one month we might deliver one-twelfth of that. Another year we might, because of some unforeseen accident, deliver only 300,000,000 kilowatt hours, and in one month deliver only one-twelfth of 300,000,000 kilowatt hours. If we delivered 360,000,000 hours in one year, one-twelfth would be 30,000,000 kilowatt hours a month. You want to know how much revenue is due San Francisco. First, you read the meter over at Newark. You do not have to go over any books at the office in San Francisco. The meter reading shows that 30,000,000 kilowatt hours were delivered into the system at Newark. What do you take next? You take 76 per cent of that, which represents the amount sold and measured at consumers' meters, and that, multiplied by this average of 2.383, will give the revenue that comes from the sale of 30,000,000 kilowatt hours, from the proceeds of 30,000,000 kilowatt hours. You take that percentage, whatever is finally agreed upon, if it is the 26 plus, that 26 per cent plus of that revenue measures the city's share of the proceeds of the sale. It is a simple calculation that can be done in a few minutes' time. They pay that into the city around the 15th of each month, and the company retains the other. So the framework of the thing is simple, and it is planned and designed to get away from an absolute sale of the power, which would be prohibited by the Raker Act. I might say that I agree with the members of the Advisory Committee when they say that the sale of power wholesale for retail purposes does not comply with the terms of the Raker Act. I have taken that position from the very beginning, and I believe it is absolutely sound. But I do believe this: That this plan that is designed here is not a sale of the power. In view of the fact that we have not a distribution system of our own, we cannot sell the Hetch Hetchy power. There is a tremendous amount of energy there ready for distribution and that may be put to useful purposes, because a kilowatt hour can work just as a man can work, and there are millions of them there, and they ought to be put to work and made useful in the industrial life of the city.

In view of the fact that we have no distributing system of our own, the only way we, as a municipality, can utilize that power for our own purposes is to bring it to San Francisco through the agency and the instrumentality of a company that has the facilities for giving that service. The Pacific Gas and Electric Company was the only company that could furnish that service in San Francisco. Therefore, we had to go to that company or not bring it into San Francisco at all. The compensation they are getting, the profits, from the sale of that energy, is a compensation to them for the service that they perform in permitting us the use of their system down to the time that they read the meters and make out the bills. They are entitled to a return, of course, for that service. They have millions of dollars invested in San Francisco. They have not only a distributing system, but they have a steam stand-by system, and that is another element that you must take into consideration. It is not just what it costs the company to bring the kilowatt hours from Newark, send it through their system, and distribute it to the consumers in San Francisco. There is more than that. Because the peak load, the high load, in San Francisco, amounted to approximately 125,000 kilowatts. That means it would take a plant that was capable of generating 125,000 kilowatts to supply that peak load. Now, the most that Moccasin Creek could supply would be 70,000 kilowatts. So that is very little more than 50 per cent of the high peak load that Moccasin Creek could supply. During the early hours of the evening, around four or five o'clock, when the street cars are running full, when the factories have not yet closed down, when the street lighting and store lighting is on, that is the time when there is the greatest

consumption of power, and there must be additional power. The companies maintain their steam plants and their steam stations for two purposes. One purpose is to meet that peak load, and they run the steam plants for only a few hours, because the steam plants, while cheaper to build, are more expensive to operate than the hydro plant. So at that peak hour they generate the power that is needed and required in those peaks at their steam plants.

There is another reason: If a city like San Francisco were dependent only upon long transmission lines coming in from the hydro plant, and an accident happened on the line somewhere, the city would be without power, would be without light. Therefore, the company must maintain steam plants for two purposes—first, as a stand-by in case of breakdown, in case of accident, and the other as a stand-by to meet the peak and the emergencies upon the system of the company. Therefore, in bringing our power into San Francisco there will be times when the output of Moccasin Creek will more than supply the load in San Francisco, because at the lowest hour it will run down to possibly 56,000 kilowatts. But there are times when we cannot supply the load. Then the company comes in with the steam plant, and it adds enough load to carry it over the peaks. Furthermore, it furnishes a stand-by in case of emergency or in case of breakdown. They are entitled to a return upon their investment in the steam plant that generates this electricity and energy to carry them over the peak periods and over emergency periods.

Therefore, I say that when you are considering: What does it cost the company to render this service? You have not only to take into consideration the cost to the company to bring the kilowatt hour from Newark in here, but what is a proper return to the company for the steam stand-by that it maintains here, and the service it gives to maintain that load during the peak hours and in emergency periods.

I had an analysis made of it. I had a check made by Mr. Ellis, the Evaluation Engineer for the City, and I had a check made by Mr. Eckert of the City Engineer's office, and others, to find out whether this compensation proposed by the company would be anyway fair or reasonable, and to establish that we were not depending absolutely upon an assumption of an arbitrary sum. It fell remarkably close to the figure that you have written in this contract right now, as to what would be a reasonable cost to the company to furnish this service and furnish the steam stand-bys. Now, I don't know whether—

SUPERVISOR McLERAN: Mr. Chairman, I am going to suggest that Mr. Dailey not go into any detailed figures. You have explained it. Mr. Dailey, in a general way. You have discussed the legal aspect of it. In all probability some of the Supervisors will want to ask questions.

MR. DAILEY: I have finished my explanation. I think now that the contract in its entirety ought to be read to the Board at this time, and then you may discuss it any way you want to.

Motion.

SUPERVISOR McLERAN: I am going to move at this time that we take a roll call on this passage to print not later than one o'clock tomorrow morning—not later than one o'clock, and maybe before. I am going to ask the Board to sit until it is finished. If we do not get finished by one o'clock I move that we then take a vote.

SUPERVISOR McSHEEHY: I hope you will not press that motion in that form. I don't think it is fair. It might be necessary that we sit here until four o'clock. Do not press the motion that we take the vote at one o'clock. I don't want to sit until one o'clock if I don't have to, but if necessity demands it I would be willing to sit until tomorrow afternoon at one o'clock.

SUPERVISOR McLERAN: Mr. Chairman, I am perfectly willing to withdraw my motion and make a motion that we stay here until we finish it.

SUPERVISOR KATZ: I second that motion.

THE CHAIRMAN: Is there any objection to the motion that we continue in session until a vote is taken on the matter under discussion? Hearing no objection, it is so ordered.

Supervisor Welch's Amendment.

Supervisor Welch, seconded by Supervisor Shannon, moved as an amendment to Supervisor McLeran's motion to pass this ordinance to print, that further consideration of the ordinance submitted by him be continued until the Secretary of the Interior passes on the validity of the contract that this Board has before it at this time.

Privilege of the Floor.

On motion of Supervisor Colman, Special Hetch Hetchy Counsel Robt. Searles was granted the privilege of the floor and made the following statement:

Statement of Assistant Counsel Robt. Searles.

MR. SEARLES: I would say, by way of fortifying myself, that I have lived with the Raker Act a long time, since 1913. I have read all the clauses of the debates that Mr. Shannon referred to, and I have also been quite familiar with the drafting of this contract, in connection with Mr. Dailey. I sat with him all day long, and fought with the attorneys for the Pacific Gas and Electric Company, to make sure that the contract contained clauses that would make it an agency agreement, and not a sale. And we did that for the express purpose of meeting the views of some of the legislators whom Mr. Shannon quotes. There are other views set forth in the Congressional Record, by Senator Poindexter from Washington, and a number of others, who did not think section 6 was of any force whatever in preventing the city from selling it for resale. And I may say, in passing here, that in the interpretation of a statute, it is the uniform rule of law, that the courts will not take legislative debates in aid of construction, for the reason that only a very few of the legislators may have expressed their opinion upon the statute, and the opinion of all the legislature must be gathered from the act itself. I want to call attention also to the very obvious misconstruction that Mr. Welch has placed on the agreement. The forfeiture clause in section 6 applies only to a sale of the rights granted under the act, which are rights of way over the public domain, rights of way for reservoirs, and not in any sense a right to sell power. The City has that right under its charter. We own the water under the state laws. We have the right to generate power by virtue of the law of gravity and our charter, and there is no possible interpretation of that language by any man, that can read, which admits of an automatic forfeiture if San Francisco should sell the right to resell. But we do not propose to do that, and we have not proposed to do it in the contract. The contract is replete with the very provisions that make it an agency agreement. The company is employed as a delivery agent. It accepts consignment of the power; it agrees to account to the City for the revenues. The revenues are based on the actual returns for power in San Francisco today. If the rates are raised by the Railroad Commission, our revenues go up, ours go up proportionately. If they are reduced they go down, proportionately. There are none of the elements of an outright sale in that contract. If you had an outright sale, then we would be selling for a fixed price, and the company would make a profit, if there was any resale, or if there was any change in the conditions on resale. We do not sell them the right to resell because we do not sell them the power. They sell the power and deliver it as our agent. That was the point that Mr. Dailey and I particularly insisted on in making that contract, over the original protest of the Pacific Gas and Electric Company's attorneys who wanted to take title to the power, and we said, "No, we cannot let you have title." It is the same thing as a wheat farmer sending his wheat to a grain elevator on consignment and receiving the proceeds thereof, collected by the

owner of the elevator from consumers whom the wheat farmer never saw. We will never see our consumers, but that makes it none the less an agency business. Just the same as Mr. Wetmore when he takes a consignment of apples or fruit and accounts to the owner for the proceeds. Electricity is a product here and the average of the price has to be taken to determine the amount. Our particular electricity is not earmarked. But that principle of law is a very clearly recognized one in the decisions everywhere, and I think is amply protected under this contract.

Supervisor Welch's Amendment Defeated.

The roll being called on Supervisor Welch's amendment, the same was *defeated* by the following vote:

Ayes—Supervisors Badaracco, Bath, Deasy, Katz, McSheehy, Roncovieri, Shannon, Welch—8.

Noes—Supervisors Colman, Harrelson, Hayden, McGregor, McLeran, Morgan, Robb, Rossi, Schmitz, Wetmore—10.

Explanation of Vote of Minority Members.

Supervisor Shannon presented the following explanation of vote of those voting in the minority, which was read by the Clerk and ordered spread in the minutes:

THE CLERK (reading): "San Francisco, June 19, 1925. We, the undersigned Supervisors, take our stand in opposition to the approval of the contract disposing of Hetch Hetchy power for \$2,000,000 to the Pacific Gas and Electric Co. as advocated by the Mayor and Supervisor McLeran of the Special Negotiating Committee, and approve of the stand taken in the minority report of Supervisor Shannon on two grounds. First, we believe the price of \$2,000,000 a year is too low, that is less than the actual cost to the city to produce the power proposed to be sold, that the least that should be accepted by the city for the power is \$2,583,000 and that it is not good business to sell the city's power at this figure. Second, we believe that before any contract for disposal of the city's power output from Hetch Hetchy can be legally executed by the city it must first be declared legal by the Secretary of the Interior, who, under the Raker Act, the Congressional grant of Hetch Hetchy to San Francisco, must approve any contract of this nature which the city seeks to execute. If the approval of the Secretary of the Interior is not secured before San Francisco starts turning over its power to a corporation under a contract such as is proposed, San Francisco's right and the entire investment of \$55,000,000 will be jeopardized and laid open to the attack of hostile interests who would gladly see the city's rights forfeited. We point to the minority report of Supervisor Shannon of the Special Committee for a more complete analysis of the situation and a more complete statement of our stand. (Signed) Warren Shannon, James B. McSheehy, Phil Katz, Richard Welch, Cornelius Deasy, Alfred Roncovieri and John Badaracco."

Thereupon, the roll was call and the bill in words and figures following was *passed for printing* by the following vote:

Bill No. 7164, Ordinance No. — (New Series), as follows:

Authorizing the Board of Public Works of the City and County of San Francisco to enter into a contract with the Pacific Gas and Electric Company, a corporation, for the temporary distribution of electric energy generated at the Moccasin Creek Power Plant, and prescribing the terms and conditions of said agreement.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. In accordance with the provisions of Article VI, Chapter I, Section 9, Subdivision 8 of the Charter, the Board of Public Works is hereby authorized and directed to enter into an agreement with the Pacific Gas and Electric Company, a corporation, for the temporary distribution through the system of that company of electric energy to be

generated at the Moccasin Power Plant on the Hetch Hetchy Project during the period that will necessarily elapse before the City can construct, purchase or acquire a municipally owned electric distribution system.

The form, terms and conditions of said contract shall be as follows:

This agreement, made and entered into this — day of —, 1925, by and between the Board of Public Works of the City and County of San Francisco, acting for and on behalf of the City and County of San Francisco, a municipal corporation, hereinafter referred to as "City," under authority of the Board of Supervisors granted by Ordinance No. — (New Series), the party of the first part, and Pacific Gas and Electric Company, a corporation of San Francisco, California, hereinafter referred to as "Company," the party of the second part;

Witnesseth:

Whereas, the City has now completed the construction of the Moccasin power plant as a part of the development of the Hetch Hetchy project, which plant has a rated capacity of 70,000 kilowatts and is capable of producing approximately 460,000,000 kilowatt hours of electric energy annually, and has also completed the building of a transmission line to the vicinity of Newark in Alameda County of sufficient capacity to transmit and deliver to that point approximately 420,000,000 kilowatt hours after allowance for transmission losses; and

Whereas, the City has not yet constructed or acquired a transmission line from the point near Newark to the city limits, and has not yet constructed or acquired a distribution system for utilizing the power produced at Moccasin plant and delivering the same for general municipal uses and for sale to consumers of electric energy within the limits of the City and County; and

Whereas, pursuant to resolution of its Board of Supervisors looking to the acquisition of a municipally-owned electric distribution system, the City has commenced and there is now pending before the Railroad Commission of the State of California proceedings for the determination by the commission of the compensation to be paid by the City for the local distribution systems and certain steam plants now owned and operated by the Pacific Gas and Electric Company and the Great Western Power Company of California, respectively, when the same shall be taken over by the City under eminent domain proceedings, or otherwise; and

Whereas, the City has no funds available at the present time with which to purchase or construct a distribution system of its own and it will be necessary to submit a proposition to the people to vote bonds to provide money for that purpose before a distribution system can be purchased or constructed, and the City cannot well determine whether to purchase one or both of the local distribution systems, or to construct a distribution system of its own until the Railroad Commission determines the amount of compensation to be paid by the City for the taking of either or both of said local distribution systems under the proceedings now pending before the commission; and

Whereas, the City intends to complete its power transmission line from Newark to San Francisco and to acquire or construct a distribution system of its own; and

Whereas, the said Moccasin Power Plant is now in condition to operate at its full capacity of 70,000 kilowatts and unless some temporary arrangements is made between the City and the Company for the distribution to consumers of the electric energy which can be produced at said plant during the period that must elapse before the City can acquire, own and operate a distribution system of its own, there will be a great waste of said potential energy and a great loss of potential revenue to the City and its taxpayers; and

Whereas, the statistical and financial records kept by the City or the Company show the following, viz.:

1. That the total capacity and possible annual output of energy from the Moccasin plant will not be sufficient to supply all municipal

requirements and the demand of consumers in the City and County for electric power and energy, although in hours and days of low energy requirement the capacity and output may be more than sufficient to supply said requirements and demands during said hours and days.

2. That the average transmission and distribution losses of energy from the Newark substation of the Company to the various consumers' meters in San Francisco is 24 per cent of all energy delivered into the system of the Company at Newark for transmission and distribution to consumers in San Francisco.

3. That 2.383 cents is the average revenue per kilowatt hour received from all classes of consumers of the Company in San Francisco under existing rates based on the experience of the Company for the year 1924.

Now, therefore, in consideration of the premises and the mutual covenants and conditions herein contained, the parties hereto mutually covenant and agree as follows:

First: The City hereby employs the Company and the Company accept employment as temporary distributor for and on behalf of the City, of the electric energy to be generated at Moccasin Power House and transmitted to Newark by the City over its own transmission lines. The City agrees to so maintain its Moccasin plant that it will, whenever necessary to do so, carry load up to its full capacity of 70,000 kilowatts, subject to limitations of its forebay storage and to accidents and unforeseen contingencies; and to deliver and consign the entire energy output of its said plant to the Company, save and except such portion thereof as may be reserved for City requirements as hereinafter provided. The Company agrees to accept such consignment of the entire energy output of Moccasin plant, less transmission losses and except such portion as the City shall retain as above and hereinafter mentioned, deliver at not to exceed a 75 per cent monthly load factor, to make at its own expense the necessary physical connection of the City's transmission lines with its own system at Newark; to install all necessary equipment, facilities and proper meters for accurately measuring the amount of energy delivered; to transmit so much of said energy through its own system to San Francisco as may be required to light public streets and to meet other municipal needs for electric energy; to supply street railroads and other consumers of such energy in the City; to transform, convert, regulate, distribute and meter the energy sold; to furnish all necessary peak load and steam standby service and collect from consumers of such energy the charges therefor which shall not exceed the lawfully established rates, and make accounting to the City as hereinafter in Paragraph Fifth provided.

Second: The City agrees that the energy consigned to the Company from the Moccasin Plant shall be the entire output thereof, diminished only by transmission and other losses and by such amounts as the City shall require for its own use in the construction or operation of any portion of the Hetch Hetchy Project, and also by such amounts, if any, as the City may be legally required to furnish to irrigation districts or municipalities under the term of the act of Congress, approved December 19, 1913, known as the Raker Act. Failure or inability of the Company to take at Newark a part of the energy which the City is in a position to deliver to it under the terms of this agreement shall not constitute grounds for deduction in the amount of the revenue to be paid to the City had such energy been received by the Company and sold to consumers, it being understood, however, that the Company is not required to accept the output of the Moccasin plant at a monthly load factor in excess of 75 per cent.

Third: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company for the purposes of this agreement merely, has acquiesced in the assumption)

that of the energy consigned and delivered to the Company at Newark and by the Company delivered to consumers in the City and County of San Francisco there would be transmission, substation and distribution losses amounting to 24 per cent of the energy thus consigned and delivered at Newark and therefore 76 per cent of the energy consigned and delivered at Newark should be taken as the true measure of the amount possible of deliverance to consumers.

Fourth: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company for the purposes of this agreement merely, has acquiesced in the assumption) that inasmuch as in the year 1924 under existing rates the average revenue received by the Company from consumers in San Francisco amounted to 2.383 cents per kilowatt hour, such average revenue should be applied to 76 per cent of the energy to be consigned and delivered by the City to the Company at Newark for the purposes in this contract declared.

Fifth: In order to arrive at the amount which should be realized by it for its Moccasin energy consigned and delivered by the City to the Company at Newark under the terms of this agreement for transmission and delivery to consumers, the City has assumed (and the Company for the purposes of this agreement merely, has acquiesced in the assumption) that the City shall receive for the energy consigned and delivered by it to the Company at Newark 26.935 per cent of 2.383 cents per kilowatt hour for 76 per cent of the energy so consigned and delivered at Newark, and that the Company shall receive 73.065 per cent thereof.

It is agreed by the City and the Company that the Company shall account for and pay over to the City for the energy so consigned and delivered to it by the City at Newark for transmission and distribution to consumers as provided by this contract 26.935 per cent of 2.383 cents per kilowatt hour for 76 per cent of the energy so consigned and delivered by the City to it at Newark, and the Company shall retain the aforementioned 73.065 per cent as its compensation for services rendered under this contract.

Sixth: The City shall not be obliged to deliver energy into the system of the Company at Newark, nor shall the Company be obligated to receive such energy at such time as either shall be prevented from doing so on account of accidents, acts of God or fire, making it physically impossible to so deliver or receive energy or on account of strikes, riots, war, or any other cause beyond reasonable power or control of either party. In the event of inability on the part of the City to deliver the said energy at Newark, or inability on the part of the Company to receive the energy at Newark arising from any of the causes in this paragraph specified, the party so prevented from making such delivery of energy or receiving such energy shall proceed at all possible speed to take the necessary action to enable it to comply with its covenants herein contained.

Seventh: The net proceeds due the City, namely 26.935 per cent of 2.383 cents per kilowatt hour for 76 per cent of the energy so consigned and delivered at Newark by it to the Company, shall be paid into the Treasury of the City and County of San Francisco by the Company in monthly installments and not later than the 15th day of each month after operations under this agreement commences. The amount of such payment shall be based upon the amount of energy actually delivered into the system of the Company at Newark during the preceding month. In the event of the refusal, failure or inability of the Company to take the available output of the Moccasin plant deliverable at Newark in accordance with the terms of this agreement, and the amount of energy which the City could have delivered shall be the basis of computing such monthly payment. The method for determining this

amount shall be covered in the memorandum of technical specifications, details and conditions hereinafter provided for.

Eighth: Should the present established rates for the sale of electric energy in San Francisco be hereafter increased or decreased by lawful authority; then the amount to be retained by the Company and the amount to be paid to the City under the terms of this agreement shall be proportionately increased or decreased.

Ninth: Neither this contract nor anything contained herein, nor the prices, rates or charges fixed herein, shall ever be offered or in any manner used as evidence by either said City and County or said Company or any successor in interest of either of them in any court or before any commission or official of the State of California or of the United States of America in any action or proceeding in which said City or any successor in interest shall be a party adversary to said Company, or any successor in interest, other than an action or proceeding between the parties hereto, or their respective successors in interest, or one of said parties and a successor in interest of the other, commenced and prosecuted for the purpose of obtaining a judicial or official interpretation or determination of the legality of this contract or of any provision thereof or for the purpose of enforcing its performance, or recovering damages for its non-performance.

Tenth: It is expressly recognized that this contract is a temporary arrangement between the parties for distributing the energy output of the Moccasin plant over and through the Company's lines and system during the period that must elapse before the City can construct or acquire a distribution system of its own.

It is therefore agreed that the contract may be terminated at any time by either the City or the Company upon one day's previous notice in writing to the other.

Eleventh: It is further understood and agreed that this contract is subject to immediate cancellation upon request or demand of the Secretary of the Interior of the United States should he hold that in his opinion the agreement violates any provision of the laws of the United States in general, or the Raker Act in particular.

Twelfth: All of the electric energy to be delivered and received pursuant to the provisions of this contract shall be three phase, 60 cycle, alternating current. The electromotive force of such energy at the point of delivery shall be approximately 105,000 volts, slight variation in voltage and frequency to be permitted.

Thirteenth: The Company shall inspect, test and keep in proper repair all meters and accessories at Newark which will be used for measuring the amount of electric energy consigned to the Company under this contract. The said meters shall be kept under joint seals of the City and Company which shall not be broken except in the presence of authorized representatives of both parties. Either party shall have the right at any time to request an inspection or test, and if found necessary, proper adjustment of such meters in the presence of a representative of the other party appointed for that purpose. When such inspection or test is desired, sufficient notice shall be given by the party desiring the test, to permit of the other party having its representative present. The registration of the meters shall be used as the basis of determining the amount of energy consigned thereunder, unless, upon being tested, the meters shall be found to register inaccurately and such inaccuracy shall exceed two per cent (2%). Where the inaccuracy is more than two per cent (2%), but the actual inaccuracy can be approximately determined, the readings of such meters shall be corrected and such corrected reading shall be used as a basis for determining the amount of energy delivered. Where the registry of meters cannot be so properly corrected, the amount of energy delivered during such period of inaccurate registry shall be estimated by the engineers for the parties hereto from the average daily plant output of energy during such period, and from any other available and pertinent data.

Fourteenth: Technical specifications, details and conditions as to the construction of the interconnecting lines and switching apparatus at Newark, and as to the maintenance, repair and operation of the power generating plant and transmission system of the City shall be agreed upon by the City Engineer of San Francisco and the Vice-President in charge of electrical construction and operation of the Company, and a memorandum of such agreed specifications and operating details shall be filed with and become part of this agreement; provided, that if any changes in said technical specifications or operating details may from time to time become necessary or advisable in the opinion of both of said parties, supplemental memoranda of the same shall be filed, and become part hereof without affecting the remaining terms of the agreement.

Fifteenth: The recitals hereinabove contained commencing with the words "Whereas, the City has now completed the construction of the Moccasin Power Plant," and ending with the words "a great loss of potential revenue to the City and its taxpayers; and" are statements made by the City of its purposes and intentions and concerning other matters contained in said recitals. Said recitals are not and no one of them is made by or on behalf of the Company. None of said recitals shall be binding on either of the parties to this agreement in any dispute, controversy or question which may ever hereafter arise in which the same might otherwise be relevant or pertinent.

In witness whereof, the Board of Public Works has caused these presents to be duly executed and signed by its Members, and the Company has caused these presents to be executed by its officers first thereunto duly authorized by resolution of its Board of Directors, a copy of which is hereunto annexed, the day and year first above written.

JOHN C. THOMSON.

Cessation of Gray Bros. Quarrying Operations at Diamond and Thirtieth Streets.

The following was presented, read and *ordered spread in Journal*:

June 19, 1925.

Honorable Street Committee, Board of Supervisors, San Francisco, Calif.

Gentlemen:

In compliance with your request of June 18, relative to the Gray Bros. quarry, located in the blocks bounded by Castro, Thirtieth, Diamond and Thirty-first streets, please be advised that this office has had this problem before it for several years, and has made many surveys to check the operations of the quarry with reference to existing streets.

The last survey, made January 20, 1925, showed that Diamond street was being encroached upon, and that Thirty-first street between Diamond and Castro streets was sloughing into the quarry. Since that time, in company with your committee, numerous visits have been made to the quarry, and in the opinion of this office any further quarrying operations would still further damage the surrounding streets.

However, realizing that the owners have a large investment and equipment in operation, I recommend that the quarry be allowed to operate for the remainder of the summer months, under regulations by this department as to what portion of the quarry should be operated, and as to the blasting operations, with the understanding from the owners that all quarrying op-

erations should cease on October 1, 1925.

Very truly yours,

(Signed)

M. M. O'SHAUGHNESSY,
City Engineer.

By C. E. Healy.

Hetch Hetchy Power Contract.

Mayor Rolph reported to the Board that he had been endeavoring by the assistance of Secretary of Commerce Herbert C. Hoover to arrange for a conference with Secretary of the Interior Herbert Work.

Secretary Hoover has informed Mayor Rolph that Secretary Work is making a tour of the West and it is possible he will be in San Francisco within the next two weeks.

Action Deferred.

On motion of Supervisor Harrelson, the following hearing was *continued until 2 p. m. June 29, 1925*:

HEARING—2 P. M.

Consideration of application of Bay Cities Bridge Corporation.

Notice of application for franchise to construct, operate and maintain a toll bridge across San Francisco Bay between the City and County of San Francisco and the County of Alameda, in the State of California.

Notice is hereby given by Bay Cities Bridge Corporation, a corporation, that it will apply to the Honorable Board of Supervisors of the City and County of San Francisco, State of California, on Monday, the 6th day of April, 1925, at the hour of 2 o'clock p. m. of said day, at the meeting place of said Board, in the City Hall, located in said City and County of San Francisco, for a franchise and/or authority to erect, construct, maintain and operate a toll bridge and the right, permission and authority to take tolls thereon for a period of fifty years after the date of the granting of said franchise and/or said authority; that the said bridge is to be located along the following described line, to-wit:

Beginning at the intersection of the center line of Sixteenth street with the center line of Third (Kentucky) street, in the City and County of San Francisco, and extending thence easterly along the center line of Sixteenth street to the water front line; thence easterly along a straight line to a point on the center line of Pacific avenue, in the City of Alameda, Alameda County, which point is (100) one hundred feet westerly from the in-

tersection of said center line of Pacific avenue with the center line of Bryant street.

That the length of said bridge is 27,750 feet; that the width of the roadway on said bridge is 38 feet.

BAY CITIES BRIDGE CORPORATION,

By A. O. STEWART,
President.

Also, consideration of application of Charles Brennan for a franchise to conduct, operate and maintain a toll-bridge across San Francisco Bay between San Francisco and Alameda.

SET-BACK LINE HEARING—2 P. M.

Hearing of objections to the establishment of set-back lines along portions of Staples avenue, Edna street and Sadowa street.

No objection or protest being offered, the following bill was passed for printing:

Bill No. 7165, Ordinance No. — (New Series), as follows:

Establishing set-back lines along portions of Staples avenue, Edna street and Sadowa street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 18th day of May, 1925, the Board of Supervisors adopted Resolution of Intention No. 91, to establish set-back lines along Staples avenue, Edna street and Sadowa street, and fixed the 15th day of June, 1925, at 2 o'clock p m., at the chambers of the Board of Supervisors, as the time and place for hearing objections thereto; that thereafter, and more than ten days prior to said hearing, the said resolution was published and notices of the passage of said resolution were posted along the line of said streets in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals, and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along both sides of Staples avenue, commencing at points 100 feet easterly from Foerster street and running thence easterly to points 100 feet westerly from Edna street, said set-back lines to be 8½ feet.

Along the northerly side of Staples avenue, commencing at a point 100 feet easterly from Edna street

and running thence easterly to a point 100 feet westerly from Detroit street, said set-back line to be 5 feet; along the southerly side of Staples avenue, commencing at a point 100 feet easterly from Edna street and running thence easterly 275 feet, said set-back line to be 15 feet; thence easterly to a point 100 feet westerly from Detroit street, said set-back line to be 4½ feet.

Along the easterly side of Edna street between Judson avenue and Staples avenue, said set-back line to be 5 feet.

Along the westerly side of Edna street, commencing at Marston avenue and running thence northerly 50 feet, said set-back line to be 10 feet; thence northerly to Judson avenue, said set-back line to be 12 feet; along the easterly side of Edna street between Marston avenue and Judson avenue, said set-back line to be 9 feet.

Along the southerly side of Sadowa street, commencing at Capitol avenue and running thence easterly 650 feet, said set-back line to be 12 feet; thence easterly 25 feet, said set-back line to be 5 feet; thence easterly 25 feet, said set-back line to be 2 feet.

As shown on the maps filed in the office of the Board of Supervisors, and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines, except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Establishing Set-back Lines.

Bill No. 7149, Ordinance No. 6670 (New Series), as follows:

Establishing set-back lines along portions of Miramar avenue, Grafton avenue, Jules avenue and Forty-fourth avenue.

Be it ordained by the People of

the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 18th day of May, 1925, the Board of Supervisors adopted Resolution of Intention No. 90, to establish set-back lines along Miramar avenue, Grafton avenue, Jules avenue and Forty-fourth avenue, and fixed the 15th day of June, 1925, at 2 o'clock p. m., at the chambers of the Board of Supervisors, as the time and place for hearing objections thereto; that thereafter, and more than ten days prior to said hearing, the said resolution was published and notices of the passage of said resolution were posted along the line of said streets, in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along the westerly side of Miramar avenue, commencing at Holloway avenue and running thence northerly 100 feet, said set-back line to be 8 feet; thence northerly 200 feet, said set-back line to be 9 feet; thence northerly 200 feet, said set-back line to be 10 feet.

Along the northerly side of Grafton avenue between Plymouth avenue and Brighton avenue, said set-back line to be 6 feet; along the southerly side of Grafton avenue between Plymouth avenue and Brighton avenue, said set-back line to be 15 feet.

Along the westerly side of Jules avenue, commencing at a point 100 feet northerly from Grafton avenue and running thence northerly to a point 100 feet southerly from Holloway avenue, said set-back line to be 9 feet; along the easterly side of Jules avenue, commencing at Grafton avenue and running thence northerly to a point 100 feet southerly from Grafton avenue, said set-back line to be 5 feet.

Along the westerly side of Forty-fourth avenue, commencing at a point 100 feet northerly from Balboa street and running thence northerly 270 feet, said set-back line to be 10 feet; thence northerly to Anza street, said set-back line to be 15 feet; along the easterly side of Forty-fourth avenue, commencing at a point 80 feet northerly from Balboa street and running thence

northerly 206 feet, said set-back line to be 5 feet; thence northerly to Anza street, said set-back line to be 8 feet.

As shown on the maps filed in the office of the Board of Supervisors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines, except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Board of Public Works to Terminate Lease of Yosemite National Park Company.

Bill No. 7153, Ordinance No. 6674 (New Series), as follows:

Authorizing the Board of Public Works to terminate the outstanding lease to the Yosemite National Park Company of City property at Mather Station, in Tuolumne County, California, and authorizing and directing the Playground Commission to take over said property and purchase from the present owners the fixed improvements situated thereon.

Whereas, in accordance with the provisions of Ordinance No. 5279 (New Series) of the Board of Supervisors of the City and County of San Francisco, the Board of Public Works on the 29th day of April, 1921, made and entered into a leasing agreement with the Yosemite National Park Company, a corporation, under the terms of which agreement the said Board of Public Works leased, demised and let to the said Yosemite National Park Company for a term of 18 years the lands of the City and County of San Francisco situated at Mather Station, upon an annual rental of \$50 per year; and

Whereas, by Resolution No. 21739 (New Series), adopted October 29, 1923, the Playground Commission was authorized and directed to select as a site for the San Francisco Mountain Recreation Camp and Playground lands and holdings of the City in the vicinity of Mather Station; and

Whereas, the Yosemite National Park Company has since been consolidated with other Yosemite Park concessionaires, and has changed its corporate name to Yosemite Park and Curry Company, and has in writing offered to turn over its holdings at Mather Station to the Playground Commission of the City and County of San Francisco and sell to said Playground Commission its buildings and fixtures situated on said property for the sum of twelve thousand five hundred dollars (\$12,500); and

Whereas, the Playground Commission and the City Engineer have

jointly recommended to the Board of Supervisors that this arrangement be consummated and have requested authority to enter into the same; now, therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works is hereby authorized and directed, with the consent of the Yosemite Park and Curry Company, as successor to the Yosemite National Park Company, to terminate forthwith the certain lease dated the 29th day of April, 1921, relating to the lands of the City and County of San Francisco situated near Mather in Tuolumne County, California, and more particularly described in said lease.

Section 2. The Playground Commission is hereby authorized and directed to take over possession and control of said property previously covered by said lease, to purchase from the Yosemite Park and Curry Company for the sum of \$12,500 the buildings and fixtures placed on said property by said corporation, and to operate the same as a mountain recreation camp and playground for the residents and taxpayers of the City and County of San Francisco.

The Playground Commission is further authorized and directed to take all other steps necessary and convenient to place said property in condition for occupancy and use as such recreation camp and playground.

Section 3. Nothing in this ordinance contained shall be construed as depriving the Board of Public Works of jurisdiction over such portions of the land at Mather as are directly used or required in connection with the operation of the Hetch Hetchy Railroad or sawmill in that vicinity.

Section 4. This ordinance shall take effect immediately.

Board of Public Works to Suspend Work on Municipal Railway Crossing at Worcester Avenue and Junipero Serra Boulevard.

Supervisor Bath presented:

Resolution No. 24185 (New Series), as follows:

Whereas, the Public Utilities Committee was requested by this Board to investigate protests made by the press, the California State Automobile Association and other organizations to the proposed grade crossing of the Junipero Serra boulevard and the Ocean View extension of the Municipal Railway; and

Whereas, a meeting was held Wednesday, June 10th, at which property owners requested an opportunity to be heard in connection with the project, and the date for a public hearing was set for June 24th; and

Whereas, it appears from the protests made that such extension of the Municipal Railway will create a serious traffic congestion, endangering lives and property; and

Whereas, it appears that the second grade crossing between Ingleside Terrace and the San Francisco Golf Club will be completed within a few days; therefore, be it

Resolved, That the Mayor be requested to instruct the Board of Public Works to suspend further construction work on this proposed grade crossing pending the public hearing called by the Public Utilities Committee for June 24th and the filing of a report by this com-

mittee with the Board of Supervisors, provided that the surfacing of the crossing be finished.

Privilege of the Floor.

Transcript of Hetch Hetchy Proceedings.

On motion made and carried, the Clerk was authorized and instructed to have transcripts of the stenographic notes of Hetch Hetchy proceedings made for each member of the Board.

Bridges Across the Bay.

Supervisor Harrelson announced that the group of people represented by Mr. Oliver would be ready to present their application for a franchise to the Board on next Monday, as the preparatory advertising is now being done. Therefore, all applications for franchises for bridges across the bay were continued until Monday, June 29, and will be made a special order of business on that day.

Transcontinental Highway Exposition.

Mr. F. F. Small, manager of the Transcontinental Highway Exposition and a County Commissioner of Washoe County, Nevada, appeared before the Board to urge that San

Francisco select a site for its building at the exposition.

This exposition, to be held at Reno, Nevada, is to celebrate the completion of the transcontinental highway.

Mr. Small stated that the landscape work is well along and some of the buildings have been constructed.

Some time ago San Francisco appropriated \$50,000 for the purpose of participating in the celebration,

and Supervisor Colman, chairman of the Public Welfare Committee, was authorized to superintend the expenditure of the money.

Supervisor Colman and the City Engineer are making plans which will be submitted in a short time.

ADJOURNMENT.

There being no further business, the Board at 6:30 p. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors August 3, 1925.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing are true and correct copies of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

The Journal of Proceedings of May 18, 1925, was considered read and approved.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Relative to Hetch Hetchy Power Disposal.

The following was presented, read by the Clerk and ordered filed:

San Francisco, Cal.,
June 28, 1925.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

My dear Colleagues:

I enclose herewith, for your information and for your files, copies of two telegrams received by me from Washington from City Attorney Dailey and City Engineer Eckart.

Yours very respectfully,
JAMES ROLPH, JR.,
Mayor.

Telegrams.

Washington, D. C., June 27, 1925.
Hon. James Rolph, Jr., Mayor, San Francisco, California:

Conferred Assistant Secretary Edwards this morning at his request filed copy of ordinance and

contract. Detail discussion of same deferred till Tuesday morning to enable himself and acting solicitor to review contract and data.

JOHN J. DAILEY.
N. A. ECKART.

Washington, D. C., June 28, 1925.
Hon. James Rolph, Jr., Mayor, San Francisco, California:

Assistant Secretary Edwards advises definitely no conclusion will be reached until after hearing following return of Secretary Work, now scheduled July seventeenth, protestants having been promised opportunity to appear. Advised him ordinance will come up for final passage Monday and might be passed then, in which event contract would no doubt be executed at once and triplicate forwarded to him as provided in ordinance; this so that he would understand action was not intended to be in any way discourteous, but to put City in position to complete necessary arrangements for earliest operation under agreement. Pointed out contract is day to day agreement, subject to immediate cancellation if disapproved by Secretary. He signified his thorough understanding of this situation.

Modesto, Cal., June 24th.
Board of Supervisors of the City and County of San Francisco, San Francisco, Cal.

Resolved by the Council of the City of Modesto that it approves the action taken by the Modesto Irrigation District in protesting against the sale of any electricity by the City and County of San Francisco to the Pacific Gas and Electric Company or any private corporation or person.

Resolved that the City Clerk telegraph a copy of this resolution to the Secretary of Interior and the Attorney-General of the United States and the Board of Supervisors of the City and County of San Francisco.

H. E. GRAGG, City Clerk.

Honorable Board of Supervisors,
City and County of San Francisco,
San Francisco, California.

Gentlemen:

Enclosed please find certified copy of a resolution adopted by the Board of Directors of the Modesto Irrigation District in regular adjourned session, June 23, 1925.

Yours truly,

MODESTO IRRIGATION DISTRICT,
By C. S. Abbott, Secretary.

Resolution.

Protest San Francisco power sale to Pacific Gas and Electric Company.

Resolved, that the Modesto Irrigation District, of Stanislaus County, State of California, objects to and protests against the sale of any electricity by the City and County of San Francisco to the Pacific Gas and Electric Company or any private person or corporation in violation of the provisions of the Raker Act. It is the opinion of the Modesto Irrigation District that if the City and County of San Francisco makes such sale that it will violate the provisions of Section 6 of the Raker Act and that the City and County of San Francisco will not be able to carry out the terms of subdivision "L" of Section 8 of the Raker Act, to sell or supply the Modesto Irrigation District with electricity when necessary.

Be it further Resolved, that the secretary telegraph a copy of this resolution to the Secretary of the Interior, the Attorney-General and the Board of Supervisors of the City and County of San Francisco.

The foregoing resolution was introduced by Director Sturgill, who moved its adoption, seconded by Director West, and adopted unanimously.

I, C. S. Abbott, secretary of the Board of Directors of the Modesto Irrigation District, do hereby certify the foregoing to be a full, true and correct copy of a resolution adopted by the Board of Directors of said district June 23, 1925.

(Seal) C. S. ABBOTT,
Secretary.

Read and filed.

San Francisco, June 26, 1925.
The Honorable Board of Supervisors,
City and County of San Francisco.

Gentlemen:

I have the honor to submit to you copy of resolution adopted by this

Council and forwarded to Secretary Work of the Department of the Interior, at Washington, asking for public hearing on your proposed contract for the sale of Hetch Hetchy electric power.

Trusting that the said request will meet with your approval, I beg to be, respectfully,

JNO. A. O'CONNELL,
Secretary.

Resolution.

Whereas, palpable endeavors are being made to rush through to actual execution the deal whereby the Pacific Gas and Electric Company gains possession of the entire power output of the public Hetch Hetchy project on terms which gravely jeopardize the City's rights, while paying excessive profits to the power corporation; and

Whereas, to this end the assistance of Secretary of Commerce Herbert Hoover, an avowed opponent of public ownership, has been secured in the endeavor to secure an immediate ruling by Secretary Work of the Interior Department before the opponents of this outrageous deal have had an opportunity to present their case; and

Whereas, an assistant engineer and assistant city attorney have gone to Washington to urge favorable action and present arguments in behalf of said contract, while no representative of the opposing view is being granted the opportunity to advance arguments against the adoption of the contract; and

Whereas, the San Francisco Labor Council has been consistently on record for many years past in favor of municipal distribution of this power, and now recognizes that if the power be turned over to the Pacific Gas and Electric Company, as this contract provides, it will become well nigh impossible for municipal distribution to be attained, since the corporation will fight at every turn to make the arrangement permanent; therefore, be it

Resolved, That the San Francisco Labor Council does hereby respectfully urge and request the Secretary of the Interior that open hearings be held, at which all interested parties will be permitted fully to state their views concerning this contract providing for the sale of Hetch Hetchy power; and be it

Further Resolved, That the San Francisco Labor Council does hereby express its firm disapproval of said contract; and be it

Further Resolved, That copies of this resolution be sent to the Secre-

tary of the Interior, the Board of Supervisors of San Francisco, and the press.

Adopted by San Francisco Labor Council June 26, 1925.

Attest:

Death of Edgar D. Peixotto.

Supervisor Rossi presented:

Resolution No. 24198 (New Series), as follows:

Whereas, Edgar D. Peixotto has been called by death and his absence from the places where we have been accustomed to see and to hear him will be keenly felt. Representing, in a legal and advisory capacity, the Down Town Association of this city, on numerous occasions he has appeared before this body expressing with kindly words that which was wise and just.

A resident of San Francisco since childhood, a passionate love of this city, its history, its traditions, and its people filled his life and inspired his action—he was of those who by their lives and their example upheld our city's reputation of kindness and hospitality. In his early manhood his brilliant record as Assistant District Attorney of this city gave promise of his future which the years amply fulfilled—he became one of San Francisco's leading lawyers and one of its most eloquent orators—and at the same time one of its most devoted and effective workers for our city's progress and civic righteousness. While such was part of his life, above all were his faith in and his love for his fellow man. Therefore, be it

Resolved, That with sadness in our hearts over the loss of a beloved friend we direct these words to be recorded in the proceedings of this Board as a commendation of his life's work which was nobly and faithfully done; that copies of this memorial be sent to the members of his family.

Adopted unanimously by rising vote.

Junipero Serra Grade Crossing.

Resolution No. 24199 (New Series), as follows:

Whereas, the Public Utilities Committee was requested by this Board to investigate protests made by the press, the California State Automobile Association and other organizations to the proposed cross-

ing at grade of the Junipero Serra boulevard by the Municipal Railway at Worcester avenue; and

Whereas, a meeting of the Public Utilities Committee was held June 10th, at which property owners requested an opportunity to be heard in connection with this project and a public hearing was set for June 24th; and

Whereas, the Public Utilities Committee on June 16th inspected this grade crossing and its members were unanimous in the opinion that same was a menace to public safety and would create a dangerous traffic congestion; and

Whereas, on Wednesday, June 17th, the Public Utilities Committee requested the Board of Public Works to suspend further construction work on this crossing and to proceed with construction of the Ocean View extension beyond the said grade crossing pending a public hearing to be held June 24th; and

Whereas, this request was entirely ignored by the Board of Public Works and the grade crossing was rushed to completion by the City Engineer across Junipero Serra boulevard; and

Whereas, the Board of Supervisors on June 22d passed Resolution No. 24185 (New Series), requesting the Mayor to instruct the Board of Works to suspend further construction across the right of way pending a public hearing and filing of a report by the Public Utilities Committee; and

Whereas, on June 24th a public hearing was held and all interested parties were heard and the Public Utilities Committee agreed to make a second inspection of said crossing in company with a committee of property owners; and

Whereas, it is the unanimous opinion of the Public Utilities Committee, as a result of both inspections of said crossing and evidence submitted at the public hearing, that said crossing constituted a menace to public safety and will create a dangerous traffic congestion; therefore, be it

Resolved, That the Board of Public Works be and is hereby instructed to immediately prepare plans and specifications for the construction of a subway or overhead separation of grade for the Ocean View extension of the Municipal Railway across Junipero Serra boulevard at or near Worcester avenue; and, be it

Further Resolved, That the Board of Public Works be and is hereby instructed to submit said plans and

specifications, together with an estimate of cost, within 60 days. Be it

Further Resolved, That the City Engineer be authorized to continue construction work on this extension of the Municipal Railway pending receipt of plans, in order that the residents of this section may be given service at the earliest possible date.

Adopted by the following vote:

Ayes—Supervisors Badaracco, Bath, Deasy, Harrelson, Hayden, Katz, McGregor, McLeran, McSheehy, Robb, Roncovieri, Rossi, Shannon, Wetmore—14.

Noes—Supervisors Colman, Morgan, Schmitz—3.

Absent—Supervisor Welch—1.

Minutes Corrected.

Resolution No. 24197 (New Series), as follows:

Whereas, in the minutes of the proceedings of this Board in the matter of the proposed Duboce Tunnel project, pursuant to Resolution of Intention No. 20003 (New Series), approved June 3, 1922, a certain clerical error appears; now, therefore, in order to correct said clerical error so as to make the minutes speak the truth and correctly set forth said proceedings,

Resolved, That the minutes of the proceedings of this Board on November 27, 1922, as the same appear in Volume 17 (New Series), No. 48, page 984, be amended by striking out the words "Supervisor Scott moved that request be granted and hearing be continued until December 18, 1922, at 3 p. m.," by inserting in lieu thereof "Supervisor Scott moved that request be granted and hearing be continued until December 11, 1922, at 3 p. m."

The reference made to volume, number and page refers to the printed "Journal of Proceedings, Board of Supervisors of the City and County of San Francisco," printed and published by authority of this Board.

Action Deferred.

The following hearings were, on motion of Supervisor Welch, continued to July 27, 1925, at 3 p. m.:

HEARING—2 P. M.

Consideration of application of Bay Cities Bridge Corporation.

Notice of application for franchise to construct, operate and

maintain a toll bridge across San Francisco Bay between the City and County of San Francisco and the County of Alameda, in the State of California.

Notice is hereby given by Bay Cities Bridge Corporation, a corporation, that it will apply to the Honorable Board of Supervisors of the City and County of San Francisco, State of California, on Monday, the 6th day of April, 1925, at the hour of 2 o'clock p. m. of said day, at the meeting place of said Board, in the City Hall, located in said City and County of San Francisco, for a franchise and/or authority to erect, construct, maintain and operate a toll bridge and the right, permission and authority to take tolls thereon for a period of fifty years after the date of the granting of said franchise and/or said authority; that the said bridge is to be located along the following described line, to-wit:

Beginning at the intersection of the center line of Sixteenth street with the center line of Third (Kentucky) street, in the City and County of San Francisco, and extending thence easterly along the center line of Sixteenth street to the water front line; thence easterly along a straight line to a point on the center line of Pacific avenue, in the City of Alameda, Alameda County, which point is (100) one hundred feet westerly from the intersection of said center line of Pacific avenue with the center line of Bryant street.

That the length of said bridge is 27,750 feet; that the width of the roadway on said bridge is 38 feet.

BAY CITIES BRIDGE CORPORATION,

By A. O. STEWART,

President.

Also, consideration of application of Charles Brennan for a franchise to conduct, operate and maintain a toll-bridge across San Francisco Bay between San Francisco and Alameda.

REPORTS OF COMMITTEES.

The following committees, by their respective chairmen, presented reports on various matters referred, which reports were read and ordered filed:

Fire Committee, by Supervisor Deasy, chairman.

Public Buildings Committee, by Supervisor Wetmore, chairman.

Streets Committee, by Supervisor Harrelson, chairman.

Joint Committee on Streets and Commercial Development, by Supervisor Harrelson, chairman.

Report of Lighting Committee.

The following was presented by Supervisor Schmitz, read by the Clerk and ordered *filed*:

San Francisco, Cal.,

June 29, 1925.

To the Honorable Board of Supervisors, City and County of San Francisco.

With the close of the present fiscal year the following resume of the work of your Committee on Public Lighting is presented with a feeling of pride and gratification that considerable improvement has been accomplished in the street lighting system of San Francisco. Notwithstanding these improvements the committee is able to report a surplus over the amount allotted in the budget for lighting during the present fiscal year of \$24,159.19.

When the present chairman assumed direction of your Lighting Committee it was laid down as the policy of the committee that a serious effort would be made at once to replace San Francisco's antiquated gas lamps with a modern system of up-to-date electric illumination commensurate with the importance of a city of the size of San Francisco and of one of its pre-eminent position as the leading seaport of the Pacific Coast.

Your Lighting Committee immediately entered upon an extensive program of replacing the old-style gas lamps with electric arcs and electric ornamental bracket lamps of increased wattage in all sections of the city. As a result of these activities the committee is in receipt of words of high commendation and congratulation from improvement clubs and others for its efforts in this direction, urging further extensions of these very desirable improvements.

Your committee has also been in touch with Mr. D'Arcy Ryan, whose services have been given gratis, and who will shortly present a general lighting scheme for the entire city.

An itemization of the street lamps installed, removed and changed from January 1, 1924, when this committee took charge, up to the present date, follows:

Gas lamps installed, 34; changed, 113; removed, 1,449; electric lamps removed, 63; changed, 32; installed—100 c. p., 12; 250 Mazda refractor, 163; 400 Mazda refractor, 588; 600 Mazda refractor, 368; ornamental bracket lamps, 277; luminous arcs, 104.

During the administration of the present Lighting Committee the

Path of Gold lighting has been extended from Ninth street to Valencia street and will be finished in the month of August.

The Triangle District lighting, covering the downtown retail shopping district north of Market street, has also been improved and extended along the following streets: O'Farrell, Post, Geary and Eddy streets, Powell to Mason; Ellis street, Stockton to Mason, and Mason street, Turk to Post.

Ornamental bracket lamps of highly illuminating power have replaced the antiquated gas lamps on Polk street, McAllister to Post; McAllister street, Jones to Larkin; Taylor street, Market to Sutter; Sixth street, Market to Folsom; Mission street, Fifth to Fourteenth; Sixteenth street, Howard to Guerrero, and Mission street, Embarcadero to Fifth (this latter to be finished about the month of August).

The district bounded by Guerrero, Valencia, Market and Twenty-ninth streets is being changed from gas to electric. All these installations which have been ordered will be finished before the middle of August, 1925.

Your committee also reports that it has changed the lighting in the Western Addition, from the south side of Post street to the north side of California street and from Presidio avenue to Fillmore street, from gas to electric, and on California street from Kearny street to Presidio avenue.

A scheme for flood-lighting the dome of the City Hall has been recommended to the Board of Supervisors in accordance with the suggestion of his Honor the Mayor and the contract has been let for doing the work. When this is accomplished it will vividly set forth at night the beautiful lines of the architectural design of the City Hall and Civic Center.

An idea for the flood-lighting of the lower portion of the City Hall building has been referred to the City Engineer and City Architect's Department, who, with Mr. D'Arcy Ryan, the illumination expert, will investigate and report a design of standard for this purpose. This report is expected in a few days and will be presented to the Board for its approval.

In closing this summary of its activities for the present fiscal year your committee again calls attention to the fact that notwithstanding the improvement indicated above and the extensive program of replacement—removing old-style gas lamps and installing modern

up-to-date electric illumination—there will be a surplus of at least \$24,159.19.

Respectfully submitted,

E. E. SCHMITZ.

JNO. G. WETMORE.
